On the 80th anniversary of the victory in the battle of Stalingrad

The International Communist League correctly stated in its 'Political Declaration and the Principles of the International Communist League': "*We assume the position of Chairman Mao on the role of comrade Stalin that he was a great Marxist. Furthermore, we must bear in mind that he was the one who brilliantly defined Leninism. We, the communists, today have the task to assume the defense of his role in World War II within the Communist International, particularly its 7th ___World_ Congress.*" The latter will be central for this article celebrating the tremendous victory in the battle of Stalingrad.

The weight and significance of this great and heroic battle was correctly established by Chairman Mao Tse-Tung: "**This battle is not only the turning point of the Soviet-German war, or even of the present anti-fascist world war, it is the turning point in the history of all mankind.**"

The war fought by the USSR, as it was absolutely correctly defined, was a Great Patriotic War, a just war of defence. Additionally to the glorious and heroic defence, in which the USSR under the leadership of Comrade Stalin had to apply scorched land to defend its territory, to defend the socialist motherland, what costed more than 25 million lives, the anti-imperialist struggle unfolded vastly in the oppressed nations during this period.

Chairman Mao Tse-Tung just and correct thought us: "**The Soviet Union's sacred war of resistance against fascist aggression is being waged not only in its own defence but in defence of all the nations struggling to liberate themselves from fascist enslavement. For Communists throughout the world the task now is to mobilize the people of all countries and organize an international united front to fight fascism and defend the Soviet Union, defend China, and defend the freedom and independence of all nations.**"

The peoples of the world rose for the just cause and spilled their precious blood not only in the war against the axis, but also against their respective imperialist masters, what initiated the great anti-colonial struggle in the second half of the 20th century.

In the winter 1941/42 the Soviet Union under the leadership and command of Comrade Stalin had already successfully rebuffed a vicious Nazi-German attack on the western part of the country, aiming to take the capital Moscow. The Nazi-Wehrmacht, not able to understand that every attempt to crush the Bolshevik steel tempered by the great Lenin and Stalin was doomed to fail, mounted an offensive on southern Russia in the summer of 1942. They set their sights on Stalingrad, because the city served as an industrial center in Russia, producing, among other important goods, artillery for the country's troops. The Volga River, which runs through the city, was also an important shipping route connecting the western part of the country with its distant eastern regions. The Nazis wanted the Wehrmacht to occupy Stalingrad, seeing its value for propaganda purposes, given that it bore Stalin's name. For similar moral reasons there was a special need to defend it. The 6th Army of the Wehrmacht began their assault on 23 August 1942.

Comrade Stalin, as the highest command, issued personally the Order 227, at the end of July 1942, in order to elevate the level of sacrifices and fighting spirit of the armed forces to the level of the people:

" The enemy throws new forces to the front without regard to heavy losses and penetrates deep into the Soviet Union, seizing new regions, destroying our cities and villages, and violating, plundering and killing the Soviet population. Combat goes on in region Voronej, near Don, in the south, and at the gates of the Northern Caucasus. The German invaders penetrate toward Stalingrad, to Volga and want at any cost to trap Kuban and the Northern Caucasus, with their oil and grain. [...] Part of the troops of the Southern front, following the panic-mongers, have left Rostov and Novochoercassk without severe resistance and without orders from Moscow, covering their banners with shame.

The population of our country, who love and respect the Red Army, start to be discouraged in her, and lose faith in the Red Army, and many curse the Red Army for leaving our people under the yoke of the German oppressors, and itself running east. Some stupid people at the front calm themselves with talk that we can retreat further to the east, as we have a lot of territory, a lot of ground, a lot of population and that there will always be much bread for falsehood, helpful only to our enemies.

Each commander, Red Army soldier and political commissar should understand that our means are not limitless. The territory of the Soviet state is not a desert, but people - workers, peasants, intelligentsia, our fathers, mothers, wives, brothers, children. The territory of the USSR which the enemy has captured and aims to capture is bread and other products for the army, metal and fuel for industry, factories, plants supplying the army with arms and ammunition, railroads. After the loss of Ukraine, Belorussia, Baltic republics, Donetzk, and other areas we have much less territory, much less people, bread, metal, plants and factories. We have lost more than 70 million people, more than 800 million pounds of bread annually and more than 10 million tons of metal annually. [...] To retreat further - means to waste ourselves and to waste at the same time our Motherland. Therefore it is necessary to eliminate talk that we have the capability endlessly to retreat, that we have a lot of territory, that our country is great and rich, that there is a large population, and that bread always will be abundant. Such talk is false and parasitic, it weakens us and benefits the enemy, if we do not stop retreating we will be without bread, without fuel, without metal, without raw material, without factories and plants, without railroads. This leads to the conclusion, it is time to finish retreating. *Not one step back!* [...] It is impossible to tolerate commanders and commissars permitting units to leave their positions. It is impossible to tolerate commanders and commissars who admit that some panic-mongers determined the situation on the field of combat and carried away in departure other soldiers and opened the front to the enemy. The panic-mongers and cowards should be exterminated in place.

Henceforth the solid law of discipline for each commander, Red Army soldier, and commissar should be the requirement - not a single step back without order from higher command. Company, battalion, regiment and division - commanders and appropriate commissars, who retreat without orders from higher commanders, are betrayers of the Motherland. These are the orders of our Motherland. To execute this order - means to defend our lands, to save the Motherland, to exterminate and to conquer the hated enemy."

Our heroic red soldiers were initially able to slow the Wehrmacht's advances during a series of skirmishes north of Stalingrad, offering more than 200,000 lives, and successfully held off the Nazi hordes. It was decided not to flee but

withstand and therefore not to evacuate the more than 400,000 inhabitants of the city. The men and women, even the youngest, of Stalingrad were incorporated into war related activities - combat, construction, espionage, supply, etc. Even when the walls of Stalingrad burst by the Luftwaffe's constant bombardments or the heavy artillery strikes, the people stood steadfast.

The Operation Uranus led by Georgy Zhukov and Aleksandr Vasilevsky organized Russian troops in the mountains to the north and west of the city. From there, they launched a counterattack. Paying the necessary price the Red Army was able to encircle the city by late November 1942, trapping the nearly 300,000 German and Axis troops (mainly Italian and Romanian), choking off the enemy forces from vital supplies and essentially surrounding them in an ever-tightening noose.

Close to Stalingrad the Red Army won important battles, including in Rostov-on-Don, about 250 miles away from Stalingrad. Thus the enemy forces were thinned and stretched at that part of the front and the Operation Little Saturn in the west of Stalingrad was successful. With men, not arms, proving the Marxist principle about what is most important correct once again, they strangled the invaders to death and fought the greatest battle of war in cities ever seen. It was a war not only from street to street, nor from house to house or cellar to cellar, not even floor by floor, but room by room, generating the most heroism, chapters that have shaken the world.

On the significance of the battle of Stalingrad for the whole course of the war Chairman Mao stated: "**...in this present war the attack on Stalingrad is the expression of the last desperate struggle of fascism itself. At this turning point in history, too, many people in the world anti-fascist front have been deluded by the ferocious appearance of fascism and have failed to discern its essence. For forty-eight days there raged an unprecedentedly bitter battle, unparalleled in the history of mankind-from August 23, when the entire German force crossed the bend of the River Don and began the all-out attack on Stalingrad, through September 15, when some German units broke into the industrial district in the northwestern section of the city, and right up to October 9, when the Soviet Information Bureau announced that the Red Army battle was won by the Soviet forces. During those forty-eight days, the news of each setback or triumph from that city gripped the**

hearts of countless millions of people, now bringing them anxiety, now stirring them to elation. This battle is not only the turning point of the Soviet-German war, or even of the present antifascist world war, it is the turning point in the history of all mankind. Throughout these forty-eight days, the people of the world watched Stalingrad with even greater concern than they watched Moscow last October. [...] following the battle for the defence of Stalingrad, the situation will be totally different from that of last year. On the one hand, the Soviet Union will launch a second winter counteroffensive on a vast scale, Britain and the United States will no longer be able to delay the opening of the second front(though the exact date cannot yet be foretold), and the people of Europe will be ready to rise up in response. On the other hand, Germany and her European accomplices no longer have the strength to mount large-scale offensives, and Hitler will have no alternative but to change his whole line of policy to the strategic defensive. "

We all know, and we must remember, that the fascist offensive led by the Nazis, to which the Italian and Spanish fascists as well as others like the Romanians, Hungarians and also Bandera's bunch of rats from Ukraine contributed, and which used all the economic might of subjugated Europe, threw millions over millions, the cream of the German army, 75% of its air force, into the invasion. But comrade Stalin had wisely handled diplomacy with great subtlety.

It is worth noting the sagacity and penetration of the Soviet intelligence service. What an intelligence service. They knew the exact day of the Nazi- invasion.

The Soviet Union applied a strategic defence together with scorched earth, leaving them nothing but bare earth, mud, ashes and the most brave, determined and resolute partisans behind the enemies lines. They had the audacity, the courage to blow up monumental works such as the famous dam that links the Volga with the Don that took so many years of effort. The Germans never dreamed, they thought that this work would not be blown up, because it was too important and had cost a lot.

The dictatorship of the proletariat was at stake, the revolution was at stake, we cannot stop to think, nor can we simply allow ourselves to be hindered, as Chairman Mao said, by the defence of inches of land. They crashed at the gates of Leningrad, at the gates of Moscow and Stalingrad; but not only

scorched earth was carried out, but guerrillas and even simple individual men and women with their rifles, their ammo and their vodka awaited the enemy. To annihilate one of those brave heroes and heroines, the Germans lost 10 men, averagely.

The fascist offensive was a military plan of very high quality, thus, the highest and most enlightened German military leaders elaborated this plan and the German school has a many times proven war tradition: in three months they planned to conquer the USSR.

Comrade Stalin's foresight, he had already taken measures since the 1930s when there was the great transformation of the countryside and industry, they had already transferred factories beyond the Urals, even foreseeing the possibility of leaving as far as Moscow, for it is true, everything was

already in place in case they could not ultimately defend Moscow, even if that was the decision taken, it was already planned to move the leadership and the centre to the Urals; So the first thing that was done was to make arrangements for Lenin's transfer, because he could not fall into the dirty hands of the wretched sons of hell, he could not fall.

But the order, after they had penetrated to the above mentioned gates, the order was not to retreat any further! It is very memorable, and we must always remember how on November 7, the anniversary of the revolution, they had nowhere to celebrate it and it was considered impossible to carry it out; comrade Stalin said: "to the station", "but there is no platform there, there are no seats there", comrade Stalin stepped on a box and spoke in celebration of the revolution, saying: "how many of us were there when we seized power, what forces did we have when we repulsed the imperialist aggression immediately after the October Revolution? We will crush them, and we will annihilate the beast in its own den, in Berlin."

These are things one must remember, to appreciate comrade Stalin one must look at the Second World War. We all know how then came the great resistance, the breaking of the German lines, the siege of Stalingrad where the German commanders, Hitler himself, commanded them not to retreat to those inferior subhumans. Those inferiors, the barbarians, the Mongols, hunted them down like rats and they had to surrender.

It is always good to reiterate this: Stalin, the skillful and wise manager of surrendered Nazis and threw their flags, their eagles, their swastikas at the foot of Lenin's mausoleum; not only a great military defeat, but a

great moral defeat!The Nazi arrogance had been sunk in the mud and trampled upon, it was the greatest moral blow it had ever received, and that was the beginning of the breakdown of the Nazi Wehrmacht.

In February 1943 Comrade Stalin analysed: "**Three months ago the troops of the Red Army began their offensive at the approaches to Stalingrad. Since then the initiative in military operations has remained in our hands and the pace and striking power of the offensive operations of the Red Army have not weakened. Today, in hard winter conditions, the Red Army is advancing over a front of 1,500 kilometres(950 miles)and is achieving successes practically everywhere. In the north, near Leningrad, on the central front, at the approaches to Kharkov, in the Donets Basin, at Rostov, on the shores of the Sea of Azov and the Black Sea, the Red Army is striking blow after blow at the Hitlerite troops. In three months the Red Army has liberated from the enemy the territory of the Voronezh and Stalingrad regions, the Checheno-Ingush, North Ossetian, Kabardino-Balkarian and Kalmyk Autonomous Republics, the Stavropol and Krasnodar Territories, the Cherkess(Circassian), Karachaisu and Adygeisu Autonomous Regions and almost the whole of the Rostov, Kharkov and Kursk Regions.**

[...] in the winter of 1942-43 alone, the Germans lost over 7,000 tanks, 4,000 planes, 17,000 guns [...] since the beginning of the war, has put out of action about 9,000,000 German-fascist officers and men, of whom no less than 4,000,000 were killed on the battlefield.

[...] first, the weakness of the German army is the shortage of man-power reserves, and consequently it is not known from what sources these losses will be replaced. [...] the Red Army has become a seasoned army. [...] millions of Red Army men have become masters of their weapons [...]

It cannot be considered an accident that the Red Army Command not only liberates Soviet soil from the enemy but does not let the enemy leave our soil alive, carrying out such important operations as the encirclement and

annihilation of enemy armies which can well serve as examples of military art. This is undoubtedly a sign of the maturity of our commanders.

There can be no doubt that only the correct strategy of the Red Army Command, and the flexible tactics of our commanders who execute it, could have resulted in such an outstanding fact as the encirclement and annihilation at Stalingrad of an enormous picked army of Germans, numbering 330,000 men. "

Our Brazilian comrades pointed out: The victory against fascism in the Second World War is one of the great historical events of the process of the Proletarian World Revolution, the imperialist camp found itself deeply beaten, three important imperialist powers were defeated - Germany, Japan and Italy - which has to be seriously studied for its just and correct comprehension, it has to be highlighted and celebrated.

The Communist Party of China affirmed, regarding the evaluation of this historic experience:

" In the first place, the history of anti-fascist war shows that the socialist system has an enormous vitality that can resist the most severe test and that a state of the dictatorship of the proletariat is invincible.

In second place, the history of the anti-fascist war shows that imperialism is the source of all wars in modern times, that the aggressive nature of imperialism will not change and because of that, to defend world peace it is necessary to persist in the struggle against imperialism.

In third place, the history of the anti-fascist war shows that the peoples war sure to attain victory, that it is completely possible to defeat the imperialist aggressors, that imperialism is a paper tiger, who is apparently strong, but in reality is weak, and that the atomic bomb is also a paper tigress and it is the people and not the arms, of any class, who decide the outcome of the war.

In fourth place, the history of the anti-fascist war shows that, in order to defeat the imperialist aggressor, it is imperative to trust in the unity of the revolutionary forces of the people in all countries, to attract to our side all the forces that can be won, to form the broadest possible international united front and concentrate our blows on the main enemy of the peoples of the world. "

Under the guns of the glorious Red Army Nazi-Germany was shattered, Socialism and the dictatorship of the proletariat arose in up to Eastern Germany. The Red Banner of the Communist Party and the USSR waving over the shadowed and destroyed German Reichstag is an undeniable great moment of the international proletariat that symbolize the whole heroic and glorious epic of the struggle against fascism in defense of the USSR and for the development of the embarked in the direction of

USSR after the great victory in the Nazi Tribunal in Leipzig was thus accomplished: " *We will make Germany Soviet!*".

On January 26, the Israeli army in a military surgery in the City of Dschenin in West Bank 10 Palastinians murdered and 20 others to Part seriously injured. The aim of the operation was several residential builders, one Escape warehouse and a hospital. This was justified as one Action against so -called "terrorists", such as the national liberation movement and other resistant are called. Members of the national Liberation organizations Hamas and Islamic jihad were partly resistant Firearms against the massacre. In addition to several boys, among the dead Men also a 61-year-old, which in their own house by one Genick shot was literally executed. In addition, one Tranenaschranates fired in a children's ward of a local hospital, which was injured by several children.

Since last year there has been an enormous increase in the terror of Israel against that to recognize the Palastinian people. 225 Palastiners were last year Tated by Israeli occupation troops - the highest number in 15 years. In January 2023 alone, 30 Palastinians were killed.

With this rush of aggression, however, the resistance of the Palastinian people. After the military surgery in Dschenin, she fired Hamas two rockets from the Gaza Strip on Israel. To do this, masses went to the Straße to against the crew

and the ongoing reactionary operations protest. In Jerusalem, Israeli security powers shot on one Demonstration, which murdered a 22-year-old Palastinian. At the Friday, January 27, Israel bombed the densely populated Gaza strip. According to official information, only military Positions have been attacked what Israel after every bombardment officially wasted.

The new reactionary government of Israel has also been setting its new so - called "anti -terrorist laws". Through these, the home is allowed From all those who see Israel as terrorists, and have come up with art and be destroyed. Furthermore, families from so -called terrorists in Picked up by being withdrawn from them, just, just, just, Because they are related. These measures increase the insufficiency of the Palastinian people and the repression against the national Liberation movement further. However, you are just a Jewish attempt that to break the Palastinian resistance, which the people only in their struggle is fueled.

Italy nuclear risk: the new bombs in Ghedi and Aviano

They are about to arrive from the United States also in Ghedi(Brescia)and Aviano(Pordenone)The nuclear bombs of "new generation" B61-12. They will replace the Old B61-11 located for years in the military bases in Belgium, Germany, Netherlands, Turkey and Italy as part of the so -called doctrine of nuclear sharing,

NATO's "nuclear sharing".

They are called "tactical nuclear devices", but are no less dangerous than "strategic nuclear bombs" present in the Arsenals of the United States, Russia, China, France, the United Kingdom, India, Pakistan, Israel and North Korea.

The "adjustable power" of the new B61-12 varies from 0.3 to 50 kilotons, five times higher than the Hiroshima bomb. But - they report peace and disarmament network e ICAN campaign - they can explode under the earth's surface by increasing Thus their destructive ability until they reach the

equivalent of a weapon bursting on the surface with a yield of 1,250 kilotons, that is about 83 bombs Like the one used in Hiroshima.

Today Italy is a possible nuclear target

All this makes **ghedi e aviano** , but also reflected **Brescia e Pordenone** , **Possible target in the nuclear war** . An eventuality Today no longer so remote: in recent months the Russian authorities have shown The possibility of using tactical nuclear bombs in Ukraine.

In response, the administration of Joe Biden has decided to keep in the possibility of using nuclear devices first, thus renouncing to introduce the no First Use rule. Not only that: the rapid change of the world scenario is also leading to the use quote of nuclear weapons to defend what the American leaders and Europeans define the "order -based order".

Nuclear bombs, even the "tactical" ones, can therefore no longer be consider a tool of mere deterrence, but expose the populations of territories in which they are stored to be targets of the "first shot" or of Further retaliation.

1. Long live the rebellion of the Peruvian people Enough of repression!

The rebellion of the Peruvian people follow in the streets and the Repression with more than 63 killed, thousands of prisoners and injuries.

From the PCR and its JCR and all the mass movements of which we participate We promote a great mass campaign in solidarity with the Peruvian people, repudiating the fierce repression.

The coup d'etat overthrew President Pedro Castillo and imposed the Dina Boluarte de facto presidency. The Congress, controlled by the right Fascist, rejected the possibility of a new election this year.

All imperialisms recognized the coup government. They dispute associated to different sectors of the Peruvian ruling classes, but they converge to the time to suppress popular mobilization and quell the rebellion.

In Peru the imperialist dispute stains the situation of the country. The traditional Right Proyanqui has given ground to the advance of imperialism Chino, who has become the main commercial partner of Peru and controls Copper(Perú es el segundo productor mundial)And it has important strategic investments, including the construction of the port of Chancay About the Pacific, key to the advance of Chinese penetration on America from the south and for its imperialist dispute over the Pacific.

Also Japanese imperialism has important investments that advanced mainly during the presidency of Fujimori.

The rebellion of the labor movement and the originals and peasants of the interior of the country, it has been mobilizing large caravans from the provinces Andean and the popular neighborhoods of Lima.

To that popular mobilization was added a caravan of reservists and graduates of the armed forces, of more than 10,000 members and say that they would reach Lima 30,000. A fact of enormous importance, that fractures the structure military and adds to the popular claim to sweep the government and congress coup plotters

The president of Mexico, López Obrador, requested the release of the president Overthrown, Pedro Castillo. Democratic claim that could not be approved in the Recent CELAC meeting.

The depth of the rebellion of the peasant masses, originally, workers, Student and popular Peru claims deep changes. Until where This fight will arrive will

depend on a avant -garde capable of opening a Revolutionary path. But surely nothing will be the same in this Brother country.

Our duty as revolutionary communists is to raise this situation between The masses in each workplace, study and militancy, so that there are hundreds of pronouncements in solidarity with the heroic struggle of the people Peruvian and **to demand the Argentine government to claim Pedro's freedom Castle and repudiate the coup d'etat. The Peruvian people are the sole owner of your destiny.**

2. The Russian invasion to Ukraine and World War

“War is a failure of politics, a failure of humanity, a shameful claudication, a defeat against the forces of evil. If we think that in this last century there were three world wars, 1914 to 1918, 1939 to 1945 and **This current one that is a World War.**” The statement belongs to the Pope Francisco for Russian invasion to Ukraine.

Putin underestimated the Ukrainian people that endorsed that patriotic war. Russian imperialism has used much of its missile reserves to destroy buildings and kill the civilian population, looking for a genocide that Sow fear and get a quick triumph. And it was quite the opposite.

Russian invasion to Ukraine places the world on the edge of a new war world.

The United States will now send 31 Abrams tanks. The Biden government He decided after Germany agreed to send 14 leopard tanks of his own arsenal. The German government had said that the Leopard was not going to send to less than the United States made the Abrams available.

In total, France, England, the United States, Poland, Germany, Holland and Sweden will send around 160 tanks and armored vehicles.

Russian imperialism responded to these ads with a new wave of Missile and bombing attacks on kyiv and other cities, and prepares a Great offensive that moves forward to the arrival and commissioning of the tanks.

Out of Ukraine Russian genocidal imperialism! Out of imperialism Yankee and NATO! Long live the heroic patriotic struggle of the Ukrainian people!

3. The CELAC and the new scenario of Latin America

Last week, the meeting of the CABA was held at the Hotel Sheraton de la Caba Community of Latin American and Caribbean States(CELAC).

Alberto Fernández presided over CELAC for a year. Was designated as successor Ralph Gonsalves, imposed by Mexico. It is the Prime Minister of San Vicente and the Granada, a small island of the Caribbean, of English speaking, that still Gonsalves maintains good relations with Cuba and Venezuela, and reiterated support from his country to the Argentine demand for the resumption of negotiations with the United Kingdom regarding the sovereignty of the Falkland Islands.

The presence of Lula, the new president of Brazil, opened changes in the Region: proposed to resume and strengthen Mercosur, negotiate first with the European Union and then with China. Mercosur integrates it: Argentina, Brazil, Paraguay, Uruguay and Venezuela(suspendida desde el 2017). And how Associated states: Chile, Colombia, Ecuador, Guyana, Peru and Surinam.

With Lula, negotiations for commercial exchange and the possibility of financial aid to Argentina. It was important Presence of Evo Morales, the former president of Bolivia.

Chinese President Xi Jinping sent a video to CELAC in which he said "The world has entered a new period of turbulence and transformations" and He called to "boost South-South cooperation."

Social and union organizations discussed and presented a document with his claims and his anti -imperialist positions, as the partner said Ramiro Berdesegar, leader of the CCC and the PCR. And on 24/1 they mobilized massively to the Sheo, the CCC, the Evita Movement, the CTA and other forces popular

4. Disputes in together for change

The pro and together for change are a "cat bag" and live a fierce Dispute for charges for this year's elections.

After the triumphalist climate for victory in 19 provinces in the elections Of 2021, the internal dispute with the rebellion of provincial leaders grew: Tucumán, Chubut, Salta, Córdoba, Río Negro and others.

Patricia Bullrich(PRO), Gerardo Morales(UCR), Maximiliano Ferraro(Coalición Cívica)and Miguel Ángel Pichetto(Encuentro Republicano Federal)They met This Wednesday, as presidents of the forces that make up together for the

Change. They agreed to "sanction" those who do not comply with the internal rules of The alliance for early elections. They try to put a limit to disputes over the lists of the provinces.

Macri was planted: "I'm in the ring and I'm going to fight." Elisa Carrió, marked the court to together for change: she wants to be a candidate for president to search unit".

Manes asked to expand JXC, and asked Schiaretti to not move on the Elections in Córdoba.

The former Buenos Aires Governor María Eugenia Vidal, who is also noted in the Presidential career, speaks of a pension reform "because the system is broken ", and wants to " discuss "the compensation system.

This 12/2 are made internal in La Pampa, in which together for change it goes to decide its candidates between radicalism and the Pro. The Front Pampas justicialist unified his lists with little democratic discussion and not It goes to internal.

Beyond its internal disputes, macrismo and the sectors that support it They want to return to the government to deepen adjustment, hunger and delivery. **It is those who direct the main blow of the popular struggle.**

5. The trial of the Supreme Court

Congress began to deal with the possibility of a political trial to the Court Supreme Justice. On February 2, the complainants will present and on 9 will vote.

The government needs two thirds of the Senate and deputies to approve the political judgment, but it does not have or follow half of each of those Chambers with what the political trial is hard to prosper.

Beyond this, this discussion puts on the table the corrupt actions of the Argentine Justice and its Supreme Court, which show the rot of the institutions of this state of the ruling classes, which It is used by the different sectors in your dispute, and also to repress and discipline social and political organizations such as CCC and PCR to through judicial causes tailored to its adjustment policy.

6. Unit in the streets against adjustment, for bread, work and sovereignty

Quilmes neighbors looted trucks with cattle and the meat is distributed in the Street: They don't have to eat.

They continue to increase food, rentals, fuels, rates, prepaid and telephony. The price of the cow increased 17%, which The meat would rise to 40%.

In the agrarian areas the drought left the worker without work and the chacarero indebted. They lost the initial crops and now they are losing the late Many poor peasants and small producers leave their fields and The concentration of the Earth grows in the hands of the pulses and large landowners.

It is urgent financing, subsidies and soft credits, hitting the sector of the Earth owners, which are carried out as income 7 billion dollars, with a special tax. Also a rural lease law that allow the producer to rediscuse the rent in emergency cases such as the Current drought.

The **social emergency** is not the center of government policy. He and other outsureres from outside and inside, cutting social plans, salaries and retirement.

★★

With that great lie that the exit to this situation comes from the Diversification of the agency, the agreements that take over our natural wealth and our sovereignty.

A court approved the exploitation of oil in Mar del Plata: to the Shell! The company of those who colonize our Malvinas and our sovereignty in the South Atlantic and in the Antarctica sector. They celebrate the delivery of lithium in Gross, when Bolivia exploits him with a national company.

Imperialist oil companies impose fuel prices with Super Profits. Vaca Muerta and Cerro Dragon continues to dismembered at the hands of the Imperialist companies.

The dispute for our resources grows. The government gives in to the export monopolies and about the control of the so -called hydrovy. He Government of Tierra del Fuego negotiates with China the construction of a port strategic. And Lewis continues to take over Patagonia, giving it to the English imperialism.

With this policy the government has lost popular support, because it does not touch the interests of the powerful and hunger, poverty and delivery of Our national sovereignty. This emboldenea to the reactionary right in their plans to deepen the adjustment, as Milei did announcing his "plan chainsaw "to reduce

the State and eliminate health ministries, Education, work and women and diversities.

The workers, peasant, native, young people, of the young people, of the women, the struggles in defense of our sovereignty. There are thousands in Argentina Those who come starring their claims and join in the streets

We continue in the fight to advance these struggles and join with all the popular and national sectors so that these converge and impose from the streets that the crisis is paid by those who are taking it in shovel and breaks The infamous agreement with the IMF and all anti -informed agreements with different Imperialism. Only in this way can we advance in solving emergencies and in the Defense of our national sovereignty.

7. Follow the head of the struggles and not underestimate the enemy

Companion Sebastián Saldaña, coordinator of the CCC of the city of Santa Faith, he received at home a threat of death to him, his son, his baby and all his around. The note carried a bullet stuck with tape. Dozens of organizations Santa Fe union and policies, the national table of the CCC and the PCR They repudiated this fact, demanding from the different levels of the State the prompt research and protection of the partner and his family, the clarification of the fact and the punishment of those responsible.

This happens a few days after the murder attempt by fellow Lautaro Nahuel Ardura, in La Pampa. They are facts that show that there is a fascist right that Try to hit us, and an enemy state of popular forces.

They also advance in different parts of the country judicial causes against Companions and companions of the CCC and the PCR driven by macrista and others of justice.

The ruling classes use the entire state apparatus -the "legal" and the MAFIOUS- To isolate and attack those who lead the popular struggle. This demands that we continue in the fight fighting the widest unit as expressed with the great solidarity received from these attacks, and lift the guard to guarantee the continuity of popular struggles for bread, land, work and sovereignty.

8. Our goal is the National and Social Liberation Revolution

At the close of this edition, hundreds of companions of Río Negro and of different parts of the country made the seventh multisectoral march to Hidden lake, repudiating the presence of the English magnate Lewis and reiterating The sovereign claim in that area of our homeland.

On February 1, dozens of organizations, including the CCC and The PTP-PCR, march to the Supreme Court in CABA and the Federal Courts of The whole country demanding the cessation of persecution to social organizations and union, and its leaders.

With the resolutions of the 13 PCR Congress we go to meet the great political debate in the masses around what is the exit in favor from town.

Putting the center to lead the struggles and accumulate revolutionary forces, We propose affiliation to our party and its youth to all the colleagues and Companions with whom we share the daily struggle.

We address that mass discussion with a proposal expressed in our DIEZ PROGRAM MEASURES_. This debate includes the electoral proposals of each district, which are carried out in many provinces, and the national election. But that goes further, because what is at stake is to advance in the unit to the struggle of the popular sectors, on the path of a revolution that State, in the hands of the working class and the people.

> Stalingrad marked the twilight of the German fascist army. As is known,

The failures and defeats of the lightning war led to a point desperate to the Hitlerians, because these began to lose the advantages temporary won by the surprising and perfidious attack against the country of the Soviets Already for the first half of the year 1942 the Hitler High Command He could launch a general offensive along the entire front, having to opt for choosing a single objective for a great summer offensive, such a goal I understood the oil fields of the Caucasus mountains that were In the southwest, for this purpose Hitler ordered first to conquer the city of Stalingrad to cement the northern flank. The fascists dispatched 1,500,000 soldiers, trying to cut and conquer the supply of Oil of Soviet armies and supply their own strength. TO Stalingrad the Nazi Military High Command sent his best generals, transferring even airplanes and tanks of the North Africa Front, to its more qualified hyenas. However, the Hitler Military High Command continued dreaming of conquering Moscow. With that stratagema fascism played the all for the whole and sought to ensure his future and avoid defeat in the front Oriental. Mao Tse-Tung described the attack against Stalingrad as a offensive "on which the very existence of fascism depended."

For its part, the Bolshevik Communist Party and the High Commands of the Army Red prepared ideological, organizationally and politically, with a plan of the They expected Stalingrad to become the tomb of German fascism. On the new situation on the Stalin War Front, he said: «What It consisted, then, the main

objective of the German offensive? It consisted of Wrap Moscow by the East, isolate the capital of the Volga rear to the capital of the rear and of the urales and then attack it. The advance of the Germans in the south, Towards the oil zones, he pursued not only and not so much the objective auxiliary to occupy these, as if to distract south the bulk of our reservations and weaken the Moscow front, to get the success by attacking the capital. This, precisely, explains what the group main of the German troops is now not in the south, but in the Orel and Stalingrad sectors ». With those guidelines the Red Army He had been folding his forces along the Don river organized with The objective of stopping the Nazi advance in Stalingrad.

The plan to stop Nazi advance in Stalingrad was to transform the city in an enormous sponge that absorbed and bass possible of German troops for the time necessary to organize and concentrate secretly a great army and then with a strong Counteroffensive surround, catch and annihilate all the VI German army. The key to the success of that plan was an urban struggle with Guerrillas war characteristics supported by the masses. Chuikov, who The defense of the glorious battle of Stalingrad commanded, considers two Moments in the battle: «It is divided into two periods: the defensive, of the 17 of July to November 19, 1942, and the offensive, of November 19, 1942 as of February 2, 1943. The battle lasted six and a half months. In her More than 2 million men and immense participated in both parts amount of war material ».

In the defensive period there is a fierce struggle in the vicinity of Stalingrad, in the novel *elos fought for his homeland* of Mikhail Shologov written in 1942 and in full advance of the Nazi Army made the region of El Don, It is portrayed as with the courage of the Red Army a resistance is exercised Tenaz to German advance in Stalingrad. In those moments the Communist Party, in difficult conditions it organizes in detail the defense from the city creating special units with the thousands of its best militants and in a short time they manage to transform into a military fort Stalingrad. The famous barricada and October factories, together with the power plant, they became military preparations centers. Thousands of Obrero militiamen formed combat units, armed with bracelets and Rifles Veterans of the Bolshevik Revolution and the Civil War, Aceries, railroads and shipyard workers, tractor engineers, Volga barquers, women and men prepared To fight next to the Red Army. Around factories, others workers dug trenches to defend them. During the advance of crops and digs trenches against tanks. Of the city was achieved Evacuate most of the

500,000 inhabitants across the river. A Burgo historian thus described the first battle in the trenches Around Stalingrad: «overnight, the Russian militia led to carried out a miracle: it dug interconnected fortified positions and assimilated the Basic points of modern war. Now, dressed in your work clothes or elegant Sunday clothes, they snuggled behind the mortars and machine guns to challenge the best army of tanks in the world. When he Combat group [German] Krupen staggered before their artillery barrier, the Russians even started a counterattack, directed by t-34 tanks without painting, that left directly from the assembly lines ».

The German fascists began an air attack on Stalingrad with the intention to reduce it to ashes and bend it, the German bombers Stuka They attacked many boats that transported civilians and released bombs of dispersion in the middle of the crowds that expected transfer. The force Nazi Aérea released thousands and thousands of bombs on the city and left it on fire. Dozens of thousands of civilians died in the initial attacks. The members of The communist youth groups mobilized the population to search collectively survivors among the rubble. Meanwhile, the tanks and Nazi soldiers advanced to the city with the dream of catching the Soviet armies against the river and defeat them there, all in a period of 24 hours.

Stalingrad resistance was tenacious, in the heroic anti -aircraft Soviet Chuikov tells us:

«In his eagerness to get as soon as possible to the Volga in an extensive strip, the Fascists did not cease the air bombings of Stalingrad or for a minute: Only August 23 Fascist aviation made two thousand incursions. The Antialean defense soldiers and Soviet pilots rejected with everything courage the successive attacks of Nazi aviation. In a single day, on the 23rd of August, 90 enemy planes knocked down. There were few cases when Air defense soldiers had to fight fighting not only against planes, but also against the tanks and infantry of the enemy, such as It happened in the immediate vicinity of Moscow. (...)Most crew of anti -aircraft and light cannons reflectors were women ... they were firm and continued shooting even when The bombs exploded around them, when it seemed impossible even stay in your position. In the middle of fires and smoke, in the middle of Bombs bursts, apparently regardless of earth columns They jumped into the air everywhere, they were firm until the end. For That, and despite large casualties, German planes always stumbled upon A concentrated

fire and suffered many losses. The artillery lowered dozens of German airplanes above the city ».

The first fascist tanks reached the suburbs on September 1. There the plan is activated and the street struggle that had been planned begins. The city destroyed with its rubble and ruins becomes an ideal land that hinders the advance of German tanks and favors the red army, The German tanks became easy and the first to arrive were destroyed from the ceilings of the buildings in ruins. Chuikov wrote: «We destroy the infantry separately and the tanks that penetrated our Lines: the tanks could not do much without the infantry, and that is why They withdrew after suffering great losses ... in the counterattacks the enemy He always suffered many casualties and had to abandon an attack. Then I had to Tour the front in search of a weak point in our defenses, losing time and initiative ... Many times our purpose was not only to cause them Losses but, through an infantry surprise attack and tanks, and with The help of our artillery and airplanes, penetrate their positions, upset His formations, break his attack and win time ».

In the street fight, Chuikov instructs the red army to apply the tactics of *abrazar the enemy* , apprehending from the same practice of the fight concludes: «So we realized that we should reduce it to Minimum anyone's land, if possible at the distance of a grenade ». The Soviet soldiers tried to approach the enemy so much with the intention of prevent the fascist air force could bombard the Soviet units of the front and its trenches without risking the lives of German soldiers. In the fierce melee fight that was unleashed, where even the Palas and hand tools sometimes became weapons, morale rose and the intrepidity of the Red Army and declined the moral of the Hitlerians. "Your Moral could not tolerate it. They didn't have enough value to look at Advanced position from afar, especially during the night, because constantly, every five or ten minutes, he shot his submachine gun. to reinforce his morals. That way our soldiers found those 'Guerreros', they approached them quietly and annihilated them with a bullet or bayonet". In that new scenario, the fascist army began to I wear out and all its logic of lightning war lost sustenance, Chuikov Testimony: «Urban war is a special combat class. Things don't They are resolved through force, but for skill, ingenuity and The speed ... The key is the small infantry units and weapons and individual tanks ».

The masses that survived between the rubble became a vital Support for Red Army with the information they provided about the positions of the enemy. Many orphaned children surviving between ruins in occasions became "children of regiments." These children are He wore, they were feed and they were given a military uniform. These with their tiny bodies and their agility were good to cross debris, hide and collect information from the enemy. Anatoli Kúrishev was a "son of the regiment »that participated in the heroic defense of the Pavlov house, where A small group of soldiers for 58 days managed to reject all attacks enemies until the last breath. Anatoli Kúrishev recalls: «The house had great strategic importance for its position in an open site than the It was difficult to access, the soldiers put mines around the house to hinder the arrival to it. Pavlov told me when I was by his side: see Help Voronov, machine gun and do what he tells you ». Anatoli brought bullets and grenades to the soldiers who defended the house and also He attended the civilians who took refuge in the basement of the house.

Many soldiers of these small units had different nationalities, But they fought until the last breath to defend the great socialist country. «In its ranks an honor belongs to the Komsomol M. Panikaja, Marino of the Pacific Ocean. At the end of September he crossed the Volga along with his 883 ° Regiment of the 193a Division and defended with his companions of Regiment El Poblado de Krasni Oktiab. When Nazis tanks(¡cuántas veces ya!)They attacked the positions of the regiment, M. Panikaja launched against They bottles of flammable fluid. It happened that one of his bottles was crossed by a bullet and the inflamed liquid enveloped him instantly in calls. Burning like a torch, Panikaja without losing serenity, jumped from The trench, approached the enemy tank and with the second bottle fire. The young hero gave his life for the sake of the city's defense to shores of the Volga, for the sake of our just cause and of our great homeland ». Chuikov.

Turning the nut and worsening the situation to the Nazi army, The Communist Party began a "sniper movement" between the Fighters of the 62 army. From there the hero of the Soviet Union would arise Vasili Záitsev, previously worker in the city of Kolomna and young shepherd In Los Urales, who deeply expressed his unwavering decision of defend the city: "After the Volga there is no land for us." Quickly Záitsev became the fear of all fascist soldiers in Stalingrad, during the period from November 10 to December 17, 1942, fascinated 225 fascist soldiers and officers, including 11 snipers Hitlerian military

command transfer from the same Berlin to His best shooter - Commander König, head of the Berlin School of snipers—; Záitsev manages to unsubscribe to the best German fascist shooter in a duel that was registered in its military bookseller.

For September 24, the Germans controlled most of the city at the cost of suffering many casualties. The resistance continued in the districts Industrials of the North. Many of the Soviet reinforcements that arrived in Those days on the other side of the Volga were teenagers from the regions Border of the Soviet Asia, who were instructed on the fight urban and they were endowed with a manual to fight. On October 14, the Germans launched a great offensive, dreaming of being the last. They started with 3000 aircraft bombings, followed by a three attack Infantry divisions and two tanks. On October 30, the 62nd Army Soviet only controlled three small territories along the river, but Anyway the Germans could not defeat him. A tank officer German wrote: «We have fought 15 days to conquer a single house, with mortars, grenades, machine guns and bayonets. The third day was 54 German bodies in basements, landing and stairs. The front is a corridor between burned rooms; It is the roof between two floors. The fires. There are endless noon fights at dusk. From a floor to another, with a face covered with sweat, we attack each other with grenades In the middle of the explosions, the clouds of dust and the smoke ... ask him to any soldier what meant to fight at such a battle.

On November 11, the Germans launched what would be their last offensive; They had to fight for each meter and every brick. On the second day, on the 12th of November, they sold out.

The effort and sacrifice of Stalingrad combatants gave time necessary to secretly group a large army of about 1,700,000 men. The Hitler High Command had bit the lure. Stalin, the general Vassilevsky and Marshal Zhúkov analyzed the weak points of the enemy fascists and realized that they had neglected the flanks, they They prepared the Oración Uranus Plan, which consisted of a clamp maneuver To fence, cover and embolize the sixth Nazi army entirely, simulating the Lightning war maneuvers, also breaking into the German rear for the two north and south flanks, attacking where the Hitler forces They were weaker.

On November 19, 1942, a powerful attack by Soviet Artillery Announced the beginning of the strong offensive. From the north and south a movement Pinge envelope surrounded 330 thousand Nazi soldiers and officers in just 5 days.

That offensive was made in the middle of winter, so skill And preparation of red soldiers helped to ensure the fence.

Hitler's response to the VI Army von Paulus army, was that of resist the fence while sending troops and supply to help break it. Hitler sent a large group of tanks under the command of the Marshal Manstein field from the gift to break the fence, while ordering the Nazis air forces supply Paulus. However, the Red Army held Manstein armored divisions in a fierce battle. The novel Yuri Bondariev's burning snow stage that battle where they were defeated the armored divisions with limited resources and after leaving forcedly for whole days in winter. The Air Force response Nazi was ineffective due to the blows proposed by the Soviet anti -aircraft force. About the German army fenced the pressure of the red army, added to Diseases, hunger and inclement weather. The VI Nazi Army German disintegrated little by little and ended up surrendering on February 2, 1943. Paulus surrendered to the 90 thousand soldiers that remained from the VI Army. Stalin when doing an analysis about the result of Stalingrad for Fascists said: «The battle of Stalingrad ended with the fence of a German army of 300,000 men, with its defeat and imprisonment of almost a third of the fenced troops. To occur an idea of the proportions of the unprecedented debacle in history that It took place in the Stalingrad fields, it is necessary to know that after the termination of this battle, the amount of 147,200 corpses of German soldiers and officers and 46,700 soldiers and Soviet officers. Stalingrad dizzy the decline of the fascist army German".

The 90 thousand soldiers made prisoners were forced to work to rebuild the city and then sent to forced labor fields. Of That number only survived 6 thousand who were released by the revisionist Krushev in 1953 after dethroning the dictatorship of the proletariat in the USSR. Years later Krushev changed the name to the city of Stalingrad by the name Current Volgograd, in accordance with their opportunistic and relief interests Of all imperialists, since Stalingrad meant the tomb of fascism German.

Images: [[_download.jpg](#)]

This new cycle of online worker training will be dedicated to forming the

proletarian avant -garde on the theme of the imperialist war and how to fight against it.

On the practical level, communist proletarians developed a worker motion, which summarizes the necessary position now, which has been subjected to the signature and to the approval of the workers in some factories and reported in assemblies and demonstrations against war.

We consider that this today is the main task in the ranks of the working class and of the proletarians in struggle, on whose base to move on to more forms advanced action, organization against the ongoing imperialist war, with Ukraine epicenter, which can have further developments and lead to a third world War.

Precisely for this reason it is essential to understand what is the location that must guide the action of the working class in this situation.

In this first cycle we will use Lenin's writings, we will resume steps of They and we will commemorate them.

Each avant -garde proletarian, individually or collectively, can and must participate in this cycle in the most committed forms possible, with interventions, questions, action proposals, because clearly this training theoretical is at the service of the practice or inextricably linked to it.

This working training will take place every Thursday on this blog with both oral and written exhibitions, as well as the interventions can be oral that written.

Centrati e superati i target: il 2022 ha registrato ricavi per 310 milioni

Matteo Meneghello

Fabbrica d'Armi, la principale spa del Gruppo Beretta, centra e supera gli obiettivi e chiude l'anno con ricavi per 310 milioni. E le previsioni per l'anno in corso sono per una tenuta dei conti, considerando anche il positivo impatto legato all'ingresso nel perimetro di gruppo delle munizioni di Ammotec, che incrementerà il portafoglio d'offerta della spa in Italia, con un contributo previsto a regime di circa il 20-30% di ricavi aggiuntivi. Il risultato del 2022, intanto, è trainato dal mercato sportivo, con un incremento del 50% rispetto all'anno scorso, con in evidenza i ricavi italiani per 21 milioni. Significative anche le performance delle altre linee, come l'abbigliamento (+18%), l'accessoristica (+30%), la ri-

cambistica (+20%). Nel dettaglio, la spa ha incrementato le vendite del 50% sia in Francia che in Germania, ed è cresciuta in Uk, Paesi nordici, Brasile, Sudafrica, Polonia. L'incremento dei volumi, complessivamente, è stato del 18%. «Sono risultati - spiega il presidente di Fabbrica d'Armi, Franco Gussalli Beretta - raggiunti grazie a un grande sforzo gestionale. La domanda è stata importante, ma non sarebbe stata sufficiente a centrare questo traguardo. Abbiamo inoltre proseguito nella ricerca di nuove nicchie di mercato e di prodotto». Da questo punto di vista, è stato convincente il debutto della nuova piattaforma nell'arma lunga rigata da caccia. «Il primo anno è stato positivo, con 25 mila pezzi venduti a fronte di una richiesta superiore - aggiunge Beretta -. Per questa ragione confidiamo in un'ulteriore espansione delle vendite in questo ambito, soprattutto alla luce dello sbarco dell'offerta sul mercato Usa». Ulteriore spinta sarà assicurata, per il futuro, dall'integrazione delle munizioni della neoacquisita (dalla holding Beretta) Ammotec. «È una grande opportunità - prosegue Beretta - ora possiamo proporre co-

Sui conti pesa l'incremento dei costi energetici, passati da 2,8 milioni a 9,5, di cui 7,5 in elettricità. Un onere che non ha intaccato la capacità di generare valore («il dollaro forte e l'aumento dei prezzi ci hanno permesso di mantenere una marginalità soddisfacente» spiega Beretta) e di proseguire nelle politiche di investimento: 16 milioni nel 2022, 13 milioni quest'anno, di cui 9,5 in macchinari e 2,5 in progetti digitali. L'anno in corso coincide con il lancio del nuovo piano strategico, con l'obiettivo di arrivare di slancio al traguardo dei 500 anni. «Vogliamo continuare a crescere e ci sono tutti i presupposti per farlo» conclude Beretta. Il dg Carlo Ferlito conferma che i budget per l'anno in corso, «inizialmente in flessione, stanno migliorando. Ci aspettiamo un consolidamento, tenendo conto anche del contributo positivo di Ammotec».

To resume the 4.5 processing lines and islands control. For the unit of All of the workers of Beretta divided by precarious contracts.

The struggle of the workers in contract for Beretta looks at all workers and to their condition. From the defense of health and workplace in factory, to unity with the other realities that fight, in participation to the National Assembly of February 18 in Rome.

Starting with the defense of health. The workers on strike have denounced ' **ba** **stands we can't take it anymore to run all day, to cold, so we only break** **the back** 'just as they came out The new INAIL data on the strong increase in accidents and diseases Professional.

And against factory repression, made of discriminatory behavior, arrogant, anti - union, like the 50 euros given in December as gratifies only to the workers who have not striked, or to leverate on the double load that The workers and mothers of the factory have in the assistance to the children by example, with a real retaliation made of changes on duty and times, sudden and personalized, to put uncomfortable workers in difficulty, force them to make fatal jumps with babysitters. And of course of the failed attempts to hinder the strike, which resolved, in front of the firmness of the workers, in a frustrated

post(cancellato all'arrivo delle risposte): 'They were 10 escaped home'. NO I just don't think they ran away from the house, they have full brown to work in those conditions.

Come mai parlate del Nord,non fate altro di dire che in Lombardia tutti sono ricchi regolari nessuno che prende il RDC,gli imprenditori pagano benissimo,io sono nata a Milano ho 58 anni e vi assicuro che al nord ti fai il mazzo per pochi spiccioli,contratti da schifo e paghe da fame,ma voi preferite umiliare i meridionali perché al nord è tutto diverso

With the signing of UIL, the changing contract was concluded without transparency and the guarantees claimed by the Slai Cobas Sc about the lines of processing actually passed to MPM.

The contract thus becomes the troja horse to remove the lines one by one to the workers who are struggling in the factory with Slai Cobas Sc. They manage more to keep the rhythms of the factory. In recent weeks they are MPM workers who have been in those positions for years and years. The contract used for Hit 'under the subject' the workers.

With the strike there was a participatory and self -managed by the workers press conference, significantly in front of the ATS headquarters in Trezzo, with Journalists of Milan Today, of the day, those of the Gazzetta della Martesana and of Radio Popolare and some independent ones who carry out investigations on the world of work, all involved by the protagonism of the workers, who have Started with several voices, to tell each other, to say enough, to change.

Unlike what happened so far, with the workers consumed on Beretta processing lines, put out or who have left silence, perhaps recommended by a trade unionist to accept the offer of Conciliation of the company, as inevitable.

The day of January 31, part of a 360 ° mobilization, as mentioned In the last assembly, to use with the strike, all the means available of the workers.

Turni massacranti e precariato senza fine: la denuncia delle operaie Beretta

Da 15 anni diverse lavoratrici passano da una cooperativa all'altra, senza essere mai assunte. Con il nuovo appalto, partito lo scorso maggio, sembra non sia cambiato nulla. Oggi è stato presentato un esposto alla Guardia di finanza di Lecco

TREZZO

Otto ore di lavoro faticoso e ripetitivo al freddo, ritmi inaccettabili, contratti «avvilenti» e salari bassi, incertezze sul futuro e «un clima in azienda che diventa sempre più pesante». Appalti nuovi, problemi vecchi e se possibile peggiori: sciopero e manifestazione sotto egida Ssl Cobas, ieri mattina, davanti alla sede Ast di via Gorizia, per una rappresentanza delle 38 operaie «in appalto» del salumificio Fratelli Beretta. Dallo scorso maggio sono passate in carico dalla vecchia cooperativa (uno degli appalti per cui l'azienda finì sotto la lente della Guardia di Finanza di Lecco nel 2022 e subì un sequestro da 4 milioni di euro, indagando ancora in corso) a un nuovo soggetto, Mpm spa. Ma i loro problemi non si sono

mai risolti. Non è un caso che sia stato scelto, come sede del presidio, «il piazzale esterno dell'Azienda sanitaria. L'aspetto saluto è assolutamente centrale nelle rivendicazioni del sindacato, che ha presentato un nuovo esposto: «Qui ci sono operaie che lavorano da molti anni, che hanno problemi su problemi, in alcuni casi patologie lavoro correlate certificate e piuttosto importanti, prendono stipendi inadeguati e si vedono peraltro "superare" nelle assunzioni senza apparente criterio».

Una situazione che non deve rimanere nel silenzio. Ritorno a mezzogiorno, dunque, per Sergio Caprini, referente Ssl Cobas, e per una quindicina delle 38 addette alle linee di confezionamento, dove si corre per otto ore al giorno (oggi su due turni) per controllo automatizzato, etichettatura, confezionamento e carico bancali dei salumi. La si-

tuatione contratta il tema con la T maluscola. In azienda lavorano 200 addetti circa, le operaie in appalto, assunti Beretta, interni forniti da una società ad hoc, «una eterogeneità di situazioni che produce ingiustizie», così Caprini. «Tutte le donne qui presenti oggi, e anche le assenti, meriterebbero una stabilizzazione con i criteri dovuti. E non di lavorare in queste condizioni e stipendi, oggi poco più di mille euro al mese portati a casa su vertenza. L'appalto non ha più alcun senso, lo denunciemo a gran voce». Con le colle-

ghe la rsu Selvina Luci, «il nostro è un lavoro usurante. Implica attenzione e movimenti ripetitivi, molte di noi hanno problemi di schiena, di gambe, di braccia, tunnel carpale e altre patologie correlate. Ci sono pesi importanti da spostare. E il freddo. Si lavora a 4 gradi per otto ore al giorno». I timori per il futuro. «Nell'ultimo periodo ci parlano di un calo di commesse. Non abbiamo certezze di cosa accadrà. I ritardi e le relazioni: «Spesso un riposo "forzato" viene comunicato all'ultimo, in ritardo, quantomeno si comunica di più». E di coop. In operaie, ne hanno «passate» parecchie. Uno svantaggio di pertinenza: «Prendono anche 300, 400 euro in meno». Le istanze: «Basta appalti in azienda. Ritmi produttivi più umani. E la salute. Le denunce degli anni scorsi devono diventare strumento per cambiare, davvero, la condizione di queste lavoratrici».

«Ci sono operaie che sono lì da anni e che prendono come stipendio poco più di 1.000 euro»

Rozzano: prezzi calmierati, la municipalizzata diventa anche un'impresa

Elettricisti, idraulici, fabbri? Ci pensa l'Ama

ROZZANO

Ama, la municipalizzata rozzanese diventa anche «impresa edile» per manutenzioni domestiche al servizio dei cittadini. Elettricisti, idraulici, fabbri e imbianchini qualificati a prezzi calmierati. Fra i servizi offerti vi sono interventi come la creazione e lo spostamento di punti luce, il montaggio di lampadine, l'installazione e la manutenzione di caldaie, termocamini e sanitari, lo sbloccaggio di serrature, la sostituzione di porte blindate e saracinesche, oltre ad altri lavori come la tinteggiatura. caso di emergenza che nella routine quotidiana, il servizio è disponibile su prenotazione al numero 02.89265305 ed è attivo 24 ore su 24 e 7 giorni su 7. Il costo dell'uscita del tecnico è di 33 euro, la stessa cifra si applica anche alla tariffa oraria per la manodopera (da questo importo è escluso il costo di eventuali pezzi di ricambio da acquistare). Inoltre la società comunale mette a disposizione i suoi tecnici specializzati.

«Non sempre si ha il tempo o si è in grado di risolvere da soli i problemi che si verificano nella manutenzione della casa», spiega il sindaco Gianni Ferretti, «con questo nuovo servizio offriamo a tutti l'opportunità di affidarsi a figure professionali com-

L'iniziativa già operativa è stata annunciata alla presenza del presidente di Ama, Giuseppe Coriglio. Insomma, Ama fa cassa offrendo servizi a prezzi calmierati dando lavoro a professionisti del territorio di fatto facendo una concorrenza «forte» agli artigiani locali. Sono in molti a temere prezzi onerosi che l'azienda municipale può offrire. «Teniamo che questa cosa in capo di Ama nel settore edile a prezzi inferiori quello di mercato possa danneggiare le aziende del territorio», spiega Antonio Adamo (M5s).

Proletarians of all countries, unite!

Unmask the Yankee imperialist plan against Peru and other countries of LATIN AMERICA

In a context of general crisis of imperialism, mainly for a acute and deep economic crisis. This crisis athes once again fundamental contradictions and the main(imperialismo-naciones oprimidas)Unbeatable, objective conditions to enhance the movements of national liberation and the development of the new great wave commanded by the Maoism and popular wars has given as great and strategic triumph the Conformation and next reunification of the International Communist League Paso decisive and transcendental in the future communist international commanded by Maoism.

We express our fervent communist greeting to the international proletariat, to the communist parties, movements and organizations that make it up and We reaffirm in our almighty scientific and universal ideology Marxism-Leninism-Maoism mainly Maoism, and the decisive contribution and Universal of President Gonzalo our Headquarters for having defined it as third, new and upper stage of Marxism and masterfully apply it to the Peruvian revolution contributing decisively to the new development of the Marxism.

At the international level, inter imperialist contradictions by one side of Yankee imperialism as a unique hegemonic superpower, in decline, his financial oligarchy commanded by the buying bourgeoisie called "neoliberal globalization" is in deep crisis and growing Inflation with a black perspective with tremendous recession, apply each time more protectionism that sharpens their struggles, resort to fascism, risk of "Civil War" and "Separatism" or "Autonomy of States", its plans strategic to maintain your unique hegemonist condition, they are tumbo in tumbo, crisis in crisis and are increasingly based on war blackmail and atomic to intimidate or generate fear in oppressed nations; Wars of aggression and prey(OTAN en medio oriente y ahora en Europa del Este)sponsor and promote "terrorism" depending on their interests.

On the other hand, Russian atomic superpower has been recovering positions and Coligated with social Chinese imperialism they have been developing plans strategic to undermine, prevent and contrast the Yankee hegemonic plans consolidating in their domain areas and expanding their areas of influence Asia case, Africa, and Latin America(considerar que Rusia y China mantienen influencia y se coluden en regímenes comandados por la burguesía burocrática pero pugnan para abarcar con mayor amplitud en base a sus propios intereses).

In Latin America, the base of Yankee imperialism, its hegemonic plans in the region are being undermined, the penetration of Russian superpower influencing and politically supporting regimes where the faction bureaucratic commands the bureaucratic landowners cases; Cuba, Venezuela, Nicaragua, Bolivia, etc. Simultaneously social -imperialism Chinese(quien sueña ser superpotencia mundial en el presente siglo)and its Global hegemonic plans has been executing a series of plans and projects In that sense, for example "the so - called new silk route" and from there the voracity with which it is launched on energy resources in the region(hidrocarburos, minería, litio, gran pesca, reservas de agua, etc)under the Mantle of economic and commercial relations. Let's look at the case of our country: 64% of Peruvian exports become mining contributing 10% From GDP, Peru is the second world producer in copper and zinc and the third silver and tin producer in Latin America, in addition, we are the first Zinc producer, tin, lead and selenium despite the fact that only 1.07% of Peruvian territory is in mining exploitation and 0.28% is in exploration, that is more than 98%, it will consider as a virgin zone in exploitation, we add to this that the production of copper and silver that the country are necessary for the energy transition process(la sociedad nacional de minería, petróleo y energía

asume que el 16% de la inversión privada está en la minería). How about cake that the Yankees and their allies They want them alone, but there they step on the heels of Russian superpower And Chinese socialimperialism! We are part of the loot and we cannot consent to it Let's defend the homeland with Popular War!

Acute and intense interimperialist contradictions in the region affects the bosom of the exploitative classes mainly of the great bourgeoisie between His two factions(burguesía compradora y burguesía burocrática)We see too The cases of Argentina, Bolivia, Chile, Brazil, etc. September 1992 established the political period to which the democratic revolution, given the growing and greater intervention of the mainly Yankee imperialism with the aim of specifying their antihistoric three counterrevolutionary tasks: reimpulsory capitalism bureaucratic, restructure the old Peruvian state but mainly its dream of annihilating the popular war.

President Gonzalo with great political vision, clear maoist vision that Clean cobwebs sued us to think with a lot of historical sense seeing the History of Peru, let's see the last three centuries and set a clear definition. 18th century: domain of Spain, it led us to deep crisis, consequence Peru was divided.

19th century: Domain of England, in your contest with France? War with Chile. It led us to a deep crisis. We lost territory and our Homeland suffers a schism.

20th century: we have a dominator the Yankee imperialism mainly where has brought us? To the worst crisis in the entire history of the Peruvian people.

Since 1980 with the beginning and development of the Popular War, Peruvian Society contemporary has entered his third moment of general crisis and Mainly he has entered his destruction and border of the three great Mountains that exploit and oppress the people; Imperialism, capitalism bureaucratic and semi - feudality.

Before the development of the popular war and have reached balance strategic as a second political and military stage of the Popular War, in 1991 mainly Yankee imperialism and reaction "to maintain its system and recover positions "in defense and safeguard of the State Bureaucratic landowner gave the autogolpe of April 5, 1992(desarrollo de la estrategia contrasubversiva yanqui: desarrollo de la guerra de baja intensidad)To impose a fascist, genocidal and vendatria regime Proyanqui for decades ahead with long -term plans.

In 1993 as part of its fourth restructuring they prepared(en medio de genocidio)and approved a political constitution made to measure and in Function of the interests of imperialism mainly Yankee.

This projequi constitution and spine of this regime being Fascist, genocidal and vendatria raised this hidden and bloody constitution of prey to structure the reimpulso of capitalism bureaucratic although it literally declared as a "social economy of Mercado "when in the background they applied a" free market "economy sweeping national production and giving the entry of the imperialist industry, this so -called "neoliberalism" in favor of a greater Mainly imperialist penetration and domain(art 62 o contratos ley como ejemplo), this reimpulso did not come just with restructuring his device state characterized by presidential absolutism(camarilla fascista)digitated by the Yankee embassy. Reimpulsory and restructuring was not possible but entered to annihilate the popular war for what is Constitution of 93 promoted and legalized the greatest delivery and greater power with faculties to FF.AA and fascist and genocidal PNPs apply the strategy Low intensity war contrasubversive.

President Gonzalo in the document "Comments about the coup d'etat" He taught us to differentiate what a state system is and told us with clarity that this is a class dictatorship of great bourgeois and landowners at the service of imperialism mainly Yankee and as government system(bajo su forma de democracia representativa)these They differentiated in open and undercover dictatorships.

To the fall of the fascist and genocidal clique of Fujimori and Montesinos in the Year 2000 Mainly Yankee Imperialism I amount to its transition government(Paniagua)Under the auspices of the CIA - OAS, and although it was raised formally change its ragged constitution and that sectors of the great bourgeoisie and opportunism applauded to rage, the economic chapter never They placed in question.

The fascist, genocidal and vendria regime under the hegemony and direction of the buying bourgeoisie in these decades of the present 21st century and accentuated the semi -feudal character(megalatinfundios a costa del despojo de la tierra del campesinado principalmente pobre y semicolonial)(mayor injerencia, intervención y dominio imperialista principalmente yanqui)where it develops a rotrefacto bureaucratic capitalism as was the signature of the FTA with USA by Toledo and its implementation with blood and fire with more than

120 decrees Legislative with the genocidal of Alan García and then Captain Carlos or Ollanta Humala.

This Yankee imperialist domain over the old and expired Peruvian state is being undermined by the growing penetration of Russian imperialism and particularly for Chinese socialimperialism, which has a strong impact

tendencias demoliberal y fascista)but mainly impact and forces Forge with popular war the only path that the people have, the way democratic of the people as a popular liberation path, that is the circumstance that we are going through today and is clear that the avant -garde Organized by the proletariat, our Communist Party of Peru directs and will direct until the conquest of power for the proletariat and the Peruvian people, is there another way? That is why we say popular war until Communism!

Since 2016 the struggle within the buying faction between the trend fascist(keiko Fujimori)and the demoliberal trend(PPK)for the control of Executive of the fascist, genocidal regime and salepatria proyanqui became worse, Fujimorismo with the control of the bourgeois Parliament was undermining the Executive, questioning the essence in the conduction of the regime: the Presidentialist absolutism, simultaneously I was taking the other powers and institutions of the old state as shown before the control that have with: Judicial Branch, Public Ministry, Constitutional Court, etc. Following this reactionary path because that is the real reactionary and counterrevolutionary path that corresponds to them to follow, Do they have another way? Well, they don't have it, it is their only way out, continue with a fascist, genocidal regime and venpatria proyanqui and we are seeing it in this present and clear century confirming once again what the President Gonzalo.

At present they conduct the fascist, genocidal and vendate regime to a Permanent political crisis(05 presidente en 05 años)Atized by the crisis international economic and financial(2018 y 2019)And for the deep crisis of bureaucratic capitalism that does not give for more and that have tried to cover up and postpone through its "emergency states and health militarization" Dizque to combat pandemia(Covid - 19)And in the middle of an insulting shameless corruption of great negotiated at the expense of death and life of the town. The Executive next to the cliques of the FF.AA and Police genocides, monopoly pharmaceuticals and private clinics kneaded great fortunes demonstrating that the collapsed public health system It served the population, an abandonment of

centuries at the expense of health and life, hunger, misery and malnutrition among others, caused the death of more than 200 thousand people. The highest index in the world. Destruction of forces productive(eliminar el excedente poblacional)genocidal and sinister plan This fascist regime and the hegemonic plans of imperialism mainly Yankee.

It is in this context of crisis and decline of the fascist, genocidal regime and traitors(dentro del tercer momento de crisis general y destrucción de la sociedad peruana contemporánea)that are convened to the general elections of the year 2021, crucial elections for imperialism and reaction in function to continue compliance with its three counterrevolutionary tasks but and very particularly for the fascist tendency(fujimorismo)of the faction buyer who at all costs needed total state control mainly from the Executive.

The 2021 is elected the Rondero and Anticomunista of Pedro Castillo, a OPPORTUNIST TO CAN TO RABE AND FAIENDER AND DEFENDER OF THE INTEREST OF The bureaucratic bourgeoisie(Perú libre procastrista, feudillo de la familia cerrón)With the support of a review of revisionists and opportunists particularly from Movadef and those of the VRAEM, that opportunistic line of left of reniego and alstation, whom their shameless dreams of amnesty, capitulation and enlistment have not prevented them from leaving in defense of those who, by mandate of Yankee imperialism, became the executioners executors(Castillo Terrones - Anibal Torres y otros con la venia de la CIA)of the vesanic and furry plan to kill President Gonzalo Honor y Gloria to President Gonzalo the greatest Marxist-Leninist-Maoist who has given the land!.

Since the presidency assumed, Castillo's opportunist rondero, opened a period of intense struggle between both factions; The imperialism Mainly Yankee gave his formal endorsement to this Rondero de Castillo While plotting his overthrow by the buyer bourgeoisie(tendencia fascista representado por el fujimorismo)Under the control of the Cloaca called Parliament and with the Venia de las Ffaa and PNP fascists, genocidal and more projanqui and blessed by the thirsty church of blood.

The tendency to question presidential absolutism in favor of a parliamentary absolutism is aggravated at the end of 2022. Restructuring From the old Peruvian state on the mat again and the bourgeoisie Bureaucratic is the one who promotes the constitutional illusions of an assembly constituent for a new constitution, there are even those who add "to mainly to recover positions and

go to command the direction of the old and rotten Peruvian state, sell to the highest bidder and change the master (promueven siniestras posiciones imperialistas o "plurinacional" "multiétnico" "etnicidad" "etnocacerismo", "nacionalismo" etc).

On the other hand, the buying bourgeoisie has implemented a defense closed (a sangre y fuego) of the pro -andean constitution of 93, formally they could change it but in the essence no, the readjustments that have been executing in this sewer of bourgeois parliament aims to have greater power and control: bicamerality, re -election of congressmen and all kinds of difficulties in excess of the Executive thus sharpening its contradiction and struggles.

Peruvian people, intense struggle of these bourgeois and reactionary pro imperialists who are framed within a growing wave of protest at level national mainly of the poor peasantry. Long live the heroic struggles Peruvian people!

Being the need for Yankee imperialism and reaction, defense and continuity of their regime on December 7, 2022 they led and executed the coup in favor of a greater intervention of Yankee imperialism, the CIA and the development of its low intensity war and that they have been executing the fascist, genocidal and venopatria armed and police force such as Camarilla and Proyanquis Agents: Dina Boluarte, Otarola, Williams Zapata, Gómez of the tower among other responsible who apply the fascist plan and Yankee genocidal against Peru and the Peruvian people, dream of dismembering, leaving Peru and containing and diverting the revolutionary rise of the mainly poor peasantry, the proletariat and the masses, dream of crush the proletariat and vanguard, the PCP and dream that complicity of revisionism of all kinds and the opportunists will always save their I exposed hunger and misery system. We say; Keep dreaming.

Open dictatorship: a fascist, genocidal regime and vespatria proyanqui that in his eagerness to stay, perpetuate and fulfill the mandates on foot from his master Yankee they have enhancing the genocidal political line of the state Peruvian against the fair and growing popular movement, come developing its yanqui warring of low war intensity: militarization of the country through emergency states, curfew, criminalize popular struggles and demands massive mobilization of their forces, violent admission to universities, Diestra and sinister infiltration in social and popular organizations, in their marches to identify and detain its leaders or representatives, psychological actions against the people through the great media reactionaries and monopolized propaganda and mass

communication. The FFAA and FFPP that tried to legitimize before the public opinion showing themselves as "respectful of human rights" and who with the complicity of that "commission of the truth and reconciliation "the main rapist of Human Rights was a path "etc. today is clearly evident that the essence of the armed and police force is a backbone and defender of the old man and Expiue Peruano State Bureaucratic land that falls into pieces; fascists, genocidal, vespatrias proyanqui that sooner rather than later They will receive the fair sanction of the party and town and today the same as yesterday Arbitrary, illegal arrests, torture, disapproves, disabling, disabling, Murders at the police station in the barracks, sabotages to institutions state and private made by themselves through their agents and Lumpenes hired as black heads and shock forces and false Flags and paintings on walls and even murders of your own staff(caso del policía quemado en su patrullero en puno)to impute them to the population, These FFAA and police, brave to kill but cowards to die, They execute murders of children and mothers for their snipers with the total endorsement and complicity of that caste of hierarchical leaders of the Church as the of Puno, including the death of several newborns before the shrapnel merciler of these genocides against a unarmed civilian population, no happy with that, it has been carrying out villages and cities so that, in The protection of darkness breaks doors and kidnap popular leaders and social as the case of Ayacucho, they continue with gaps to Mansalva and from Artillery helicopters and continue to use their old tactics to face masses against masses and use lumpenes as baits to attract fighters or Identify leaders and then kill them or stop them(lumpenes venezolanos que muy pronto saldrán huyendo del pais); His "marches for peace" of police, military and intelligence agents(sumados a grupos fascistas, la resistencia y otros)Police itself promotes it with impudence torture and violations while with the other hand they pave and sow Tests against premises such as the Peasant Confederation of Peru or again Peru(téngase en cuenta que cuando salió la denuncia de los leeks se supo del reglaje y seguimiento militar y policial a toda oposición al régimen fascista y a su constitución proyanqui del 93 imputándoseles de "terrorista"). There is no a single place in the country where they do not show their essence of repression and genocide, what began in the south of the country today travels the national territory. spilled blood will never be forgotten!More more repression, more Genocide plus revolution !!Only the people judge and sanction the genocides! Against repression and genocide, for the rights of people and war popular!

They aim to destroy all opposition from social, popular organizations, union and party, etc. But mainly they dream of preventing the progress of the party, which today advances(en sentar sólidas bases)In its general reorganization and the rearrangement of his army today popular liberation.

His counterrevolutionary campaign to impute the people of "terrorists" He is falling loudly, seeks with a vain attempt to separate guerrillas Of the masses, he dreams that the people do not have a fair proletarian direction and Correct, it promotes revisionists and opportunists of any fur to ride in This fair struggles of the heroic town and then "negotiate" at "tables of Dialog system are aiming to stop, kidnap, kill and disappear to true leaders of the people who assume that worthy political and social responsibility.

It is possible that the Peruvian people have a delicious experience in new power and Popular war because it is popular war guided by Marxism-Leninism-Maoism thought Gonzalo and is rooted in class, in the town and that APANICA, frightens reaction and revisionism.

The provisions of President Gonzalo is peremptory: "The class, the people, The masses demand, need, cry out to develop the popular war "and The communists and revolutionaries have a great responsibility for fulfill it.

We live historical moments each must be clear that it is so, Our country has made it part of the imperialist loot sinking into Peruvian people in the worst crisis in all their history !!And, I don't we will allow !!

President Gonzalo warned us: "Again the nation is at risk, Again the Republic is at risk, the territory is at risk again It can be easily lost and interest. That is the situation to which we they have brought(...)

Let's think about the danger: that the nation, the country, can be divided, That the nation is at risk want to tear it apart, they want to divide it, who Do you want to do that? The Imperialists, those who exploit, those who send "

Popular war has shown that the Peruvian State is a paper tiger That is rotten to the tuetano.

The prolonged popular war led by the party since 1980 has shown and proven allevantly in the eyes of the world and mainly before the Peruvian people that the old Peruvian state is a paper tiger that is rotten to the marrow and only its total, full and complete demolition and Not stone on stone is left.

We live a revolutionary situation in increasing development. Lenin defined as a revolutionary situation (condiciones objetivas de la revolución) and the synthesized in two: 1 (régimen fascista, genocida, vendepatria proyanqui y mayor crisis de su llamada "democracia representativa") this fragility of the old state and when these contradictions between classes that exercise dictatorship and among their various imperialist hegemony or undermine each other "

The fragility of the Peruvian State in terms of its state system and system of Government is essential and unsurpassed for this old state for its conditions of the semi-feudal and semicolonial country where an outdated and rotten evolves bureaucratic capitalism, this fragility aggravates compliance with three counterrevolutionary tasks particularly its restructuring (reforma o nueva constitución), his reimpulso that means aggravating the living conditions of the masses and the main thing, face a movement popular in development and in increasing protest that has been generating in this Quinquenio a greater social overflow that seeks to satisfy its most elementary Rights and claims based on the struggle for taking power.

The old Peruvian state sinks and sinks into repression and genocide, in their reactionary violence to maintain your expired system and preserve the interests of exploiters and imperialism but in counterpart this revolutionary violence that as part of history will express very soon yearning for the Peruvian people of a new popular republic of Peru.

For the proletariat and the Peruvian people the problem will be to sweep this or any "new constitution" of the exploiters or other as an expression of the old prevailing order, because none of these represents the most interests Supreme of class and people, it will be by the action of the popular war prolonged that runs the Communist Party of Peru under Marxism- Leninismo-Maoism, Gonzalo Thought to grant a true Constitution and can be achieved in a state of new democracy, at war popular and under the omnimoda direction of the Communist Party of Peru.

Finally, on September 24, 1992, President Gonzalo established which They were the urgent tasks that the party must comply with: **"corresponds that we empower the popular release movement and that we will develop managed at popular war because the people always have been the one who He has defended the country, who has defended the nation in development. It is necessary to form a popular liberation front, it is necessary to form and**

develop from the popular guerrilla army a popular army of release; That is what corresponds! And we do that! And that We are doing and we are going to do that! You will be witnesses "

We tell the proletariat and Peruvian people:

Eternal glory to President Gonzalo Chief of the Party and the revolution!

Wow, defend and apply Marxism-Leninism-Maoism thought Gonzalo mainly Gonzalo's thought

Long live the Communist Party of Peru!

The popular war will inevitably overcome!

Unite the people against the genocidal fascist dictatorship Proyanqui!

Against repression and genocide! For the rights of the people and the Popular War!

Down the Yankee imperialist plan, fascist and genocidal to destroy the Peru!

Defend the homeland with Popular War!

Develop the popular liberation path with Popular War

We greet the first Maoist International Conference and the Foundation of The International Communist League Decisive step in the formation of the future Communist International Guided by Maoism!

Long live maoism below revisionism!

Long live the heroic Peruvian people!

[!New love song to Stalingrad 1](#)](<http://www.revolucionobrera.com/wp-content/uploads/2023/02/Stalingrado-2.png>) **Pablo Neruda**

I wrote about time and water, I described the mourning and its purple metal, I wrote about heaven and apple, Now I write about Stalingrad.

The bride already kept with her handkerchief The ray of my love in love, Now my heart is on the floor, in the smoke and the light of Stalingrad.

I played my hands with my hands of the blue twilight and defeated: Now I play the dawn of life Born with the Sun of Stalingrad.

I know that the old transitory young man of pen, like a bound swan, Uncommons your notorious pain For my shout of love to Stalingrad.

I put my soul where I want. And I don't get tired of paper, Ink and inkwell. I was born to sing Stalingrad.

[!New love song to Stalingrad 2](#)

](<http://www.revolucionobrera.com/wp-content/uploads/2023/02/pablo-neruda-art.jpeg>) My voice was with your great dead Against your own crushed walls, My voice sounded like bell and wind Looking at you, Stalingrad.

Now American combatants White and dark like grenades, They kill the snake in the desert. You are no longer alone, Stalingrad.

France returns to the old barricades With raised fury pavilion About freshly dried tears. You are no longer alone, Stalingrad.

And the great lions of England Flying on the hurricane sea They nail the claws into the land brown. You are no longer alone, Stalingrad.

Today under your mountains of lesson Not only are yours buried: trembling is the meat of the dead They touched your forehead, Stalingrad.

Undoing the invading hands, crushed the soldier's eyes, Shoes are full of blood They stepped on your door, Stalingrad.

Your blue steel of pride built, Your hair from crowned planets, Your scratch of divided bread, Your bleak border, Stalingrad.

Your homeland and laurels, Blood on your snowy splendor, Stalin's eyes to snow
Woven with your blood, Stalingrad.

The decorations that your dead They have put on the breast pierced of the
earth, and the shudder of death and life, Stalingrad.

The deep salt you bring again to the heart of the disgusting man With the branch
of Red Captains Get out of your blood, Stalingrad.

The hope that breaks in the gardens like the flower of the expected tree, The
recorded rifle page, The Light Letters, Stalingrad.

The tower you conceive in height, the bloody stone altars, The defenders of your
mature age, The children of your skin, stalingrad.

The burning eagles of your stones, Metals by your soul breastfeeding, The
goodbye of immense tears and the waves of love, Stalingrad.

The bones of bad murderers, The closed eyelid invaders, and fugitive
conquerors Behind your spark, Stalingrad.

Those who humiliated the arc curve And the waters of Sena have drilled With
the slave's consent, They stopped in Stalingrad.

Those who prattles beautiful about tears, About the amended and betrayed,
They spent trampling their wounds, They died in Stalingrad.

Those who have spit in the Greek cave, The truncated glass stalactite and his
classic rare blue, Where are they, Stalingrad?

Those that Spain burned and broke leaving the heart chained of that mother of
oaks and warriors, They rot at your feet, Stalingrad.

Those in Holland, tulips and water They splashed from bloody mud And they
spread the whip and sword, Now they sleep in Stalingrad.

Those who on the white night of Norway With a blacker of laundering They
burned that frost spring, They fell into Stalingrad.

Honor to you for what the air brings, what is to sing and the sung, Honor for your
mothers and children And your grandchildren, Stalingrad.

Honor to the fighter of the mist, Honor to the commissioner and the soldier,
honor to heaven behind your moon, Honor to the Sun of Stalingrad.

Guard me a piece of violent foam, Get me a rifle, keep me a plow, and that they put it in my burial With a red spike of your state, To know, if there is any questions, that I have died loving you and that you have loved me, And if I have not fought at your waist I leave this dark grenade in your honor, This love song to Stalingrad.

' Some questions that should be posed to the fascists attempting to take advantage of concerns in working class communities . '

What solutions have you ever offered the working class in relation to the artificially created housing crisis, soaring energy prices, the capitalist rise in cost of living, the lack of jobs, training and education opportunities, the deliberate destruction of our health and public services, the decades of deliberate neglect and marginalisation by the state, the partition and occupation of our country by foreign imperialist powers(the real foreign threat), the changing of the balance of power from the golden circle to the people?

You call yourselves patriots. What role have you played in the ongoing struggle for National Liberation in our country? You know, the one where real patriots have sacrificed their lives and their liberty for the freedom of Ireland and the working class?

We know what your leaders have done. Justin Barrett and James Reynolds were in Fine Gael, the Blueshirts, the anti-Republican party that has been in the pocket of British Imperialism since 1922. Some patriots. And Hermann Kelly was being educated in a university well known for links with MI5, before becoming the lap-dog of Nigel Farage and the most aggressive form of British imperialism and chauvinism. Maybe we misunderstood. When you call yourselves 'patriots' is it British patriots you mean? Again, no friends of the working class.

As British patriots, is that why Free State fascist organisations are consistently developing closer and closer links with loyalist death squads and the British far

right? The same death squads that kill innocent Irish citizens on behalf of British imperialism and the same British far-right that ran campaigns of hate against Irish immigrants under the banner 'No blacks, no dogs, no Irish!' Are you being directed by MI5 to develop these links and act in alliance against Irish National Liberation? Justin and Hermann certainly have form.

Understanding that Irish people, due to 850 years of ongoing oppression, have a long history of emigration, where our people have suffered racism, violence and exploitation; Why protest against centres housing vulnerable asylum seekers fleeing war-torn and destitute countries, seeking international protection, instead of against those who are really creating the problems, namely the Free State administration, British, European and US Imperialism, NATO, the capitalist class and in particular landlords? Is it because you are in fact in alliance with these same powers and view yourselves very much as part of their club?

No answers? We thought so.

Fascists have nothing to offer the working class. They are pro-establishment, pro-imperialist, pro-landlord and have no base in our communities. We won't let them get one now.

The Irish people have always been proudly anti-imperialist and anti-fascist. Let us be proud of that tradition and not allow our fighting spirit to be hijacked by far-right lies online or the fascist boot boys serving the agenda of those in power.

Full consultation with the community when asylum seekers and refugees are to be housed in an area is a must! No more lies. Information takes away fear and consultation, information and communication will lead to genuine integration. Resourcing is needed in all communities where asylum seekers and refugees are to be housed. Housing for all, training and education opportunities, funding for schools, sports clubs, healthcare and other community services are a must and are a legitimate set of demands from working class communities.

Working class communities have genuine concerns. Anger at the cost of living, the housing crisis, the collapse of our healthcare system and being ignored by those in power for generations have led to anger coming to boiling point. But that anger must be channeled in the right way. Our communities won't be fixed by targeting vulnerable asylum seekers, refugees or migrants and that only serves the agenda of those in power as a distraction from the real issues.

The working class need a united front to fight against our exploitation by those in power. The anger and protests need to be directed at those in Leinster House, and Stormont, against the multinationals and international imperialism. Against the landlords, the energy companies, the fascists and the far right agitators. Building such a movement is the task for all of us who believe in an Ireland owned and controlled by the people, in the Republic proclaimed in 1916.

And remember, if anyone is calling for protests against asylum seekers or scapegoating refugees or migrants, they are serving the interests of those in power and should be isolated and unwelcome in our communities. Let's focus on our real enemies and not allow ourselves to be divided and conquered by those in power!

Yesterday's press release from Osa and change course: _

Just witch hunt.

The episode that has hit the middle and university students of Osa is serious and change course: while building popularity in solidarity ad Alfredo Cosato, against the torture of 41bis, an exaggerated - and to the limit of Ridiculous - deployment of police and carabinieri tried to enter the seat of the USB union that housed us, without a mandate, with the claim of identify students(per lo più minorenni)present.

Human and political solidarity in Alfredo Cosenza is more than legitimate and not it must be repressed, as well as the fight against 41bis, tool of torture and, Too often, revenge against those who fight against system.

The government is not only letting Alfredo die but is also raising a dangerous "witch hunt" climate against anyone who dares disagree with The injustices of our society. A witch hunt against ideas e which will hit all the conflicting and democratic struggles in ours country.

It is an easy escape route, for a government that has difficulty maintaining its electoral promises and with a serious social situation in the country, create a internal enemy, the "anarchist danger" that cyclically returns to history of our country.

Democratic supervision will be maintained to avoid a further one slipping towards a police state, the struggle continues.

_We public a call for a rally in Hamburg that us was sent. _

In the state of Oaxaca in the Suden Mexico, the poor farmers have defended themselves since Years against mega projects that the old state in cooperation

with the Imperialists built. The farmers are stolen their land so that on the isthmus Huge wind farms can be raised by Tehuantepec. So the Farmers expropriated, nature is destroyed and the population is sold.

The resistance that the farmers have been doing for years is by the old Mexican state and its henchmen with repression and terror answered. To the struggle of farmers and the different popular movements to break the task of resisting the task against the Developing imperialist mega projects, the state rushes paramilitar Gangs on the population. This situation has in the last Weeks drastically blamed. Several camphor of the people were arrested Or disappeared without a trace. Armed armed on January 29, 2023 Paramilitars on behalf of the large property, the municipality of Rincon Tagolaba The residents threatened, destroyed places of meal and drinking water and gave the shot for recessing. The national police jerked but did nothing against the heavily armed paramilitars.

The Mexican state uses the murder gangs to work for him The interests of the imperialists at the expense of the people at the ISTHMUS von Tehuantepec through and for them is right to them. Our solidarity applies to the fighting poor farmers and the popular movements, such as the Folk electricity red sun(Corriente del Pueblo Sol Rojo)the unmounding and ready for victims for the needs and interests of the people. We demand The release of all detained campers of the people. We demand them Immediate lively prase station of the disappeared. We demand an end of the Repression and terrorist of the old Mexican state and its Handlanger.

In the occasion of the 80th anniversary of the victory of the Soviet Union a Stalingrad on the Nazi -fascist invaders

At the beginning of the winter 1942-1943 it opened on the banks of the Volga and Don one New stage of the mortal struggle against Nazifascism, entry into history like the period of the radical turning point throughout the second war world. The main merit of the realization of this turning point in favor of the anti - fascist coalition belongs to the Soviet Union. In the avid battles of 1942-1943 on the Soviet-German front yes the historical destinies not only of the Soviet people decided, but of the whole humanity.

1 . The defeat of the fascist troops on the Volga. The beginning of the turning point radical in the war

The situation at the beginning of the counter -offensive of Soviet troops on Southern

In autumn 1942 the Soviet-German front, with the exception of some sectors, He stabilized throughout the line from the sea of Barents on the slopes of the Caucasus. However, the situation continued to be extremely serious for the union Soviet. Leningrad was besieged, great enemy forces continued to operate on the distant access routes to Moscow, the incessant rough Stalingrad fights always absorbed new forces, the main streets of communication with the Caucasus were interrupted.

The situation on the seas was also unfavorable for the Soviet armed forces. The Baltic fleet was blocked in the eastern part of the Gulf of Finland. The Black Sea

fleet, after the loss of the Crimea peninsula and of Nikolosivsk, he was forced to lead to inadequate ports such as those of Poti, Gelendžik and Tuapse, and this hindered his actions. In more conditions The North fleet was favorable. Reinforced with ships made from the Pacific Ocean, it defended northern communications and He lent a valid help to terrestrial troops in the defense of the coast.

In autumn 1942 it became clear that the plans of the summer-autumn campaign of the Nazi command had failed. Although the German troops and their allies had arrived on the Volga and were on the slopes of the Caucasus, They had not achieved their main objective. The advance of the summer, about a million men had cost the Nazi Germany between killed, injured and prisoners as well as the loss of a huge amount of means and armaments.

The German Armies group "A", having met an avid resistance by the Soviet troops on the slopes of the Caucasus, he was busy in long and exhausting fights. The "B" Army Group had to get used to On a headquarters of the length of 1,300 km. In the center of the arch, of In front of Stalingrado, there were the VI armed by Von Paulus and the IV Army Group's battleship, which fought for the conquest of the city. To their wings were lined up by the III and the IV Romanian armies and the VIII Italian Army, Go to the defensive. The satellite troops were weaker from the point of Military and moral view of the German ones.

The situation of the troops of the fascist attackers who were under Stalingrado and in the North Caucasus was aggravated by the fact that their reserves strategic were almost completely exhausted. On the boundless forehead Eastern, which extended for over 6,000 km, there were in the reserve of central command of German terrestrial troops only three divisions battleships, a spare division and two infantry brigades; in the reserve There were eight divisions of the armed groups and a brigade.

In October 1942 the German command, considering the situation compromised, He made the decision to move on to the defensive. In order n. 1 of 14 October 1942 was arranged: "We have to face the winter campaign. The task of Eastern front - in addition to the current offensive operations or designed - is to keep the positions achieved at any cost, reject each attempt by the enemy to break them through and thus create the conditions for continue our offensive in 1943 in order to defeat definitively our most dangerous enemy ".

On the basis of these provisions, the German armed forces began i preparations for the winter. On the entire length of the front they were built or strengthen the fortifications. Particular attention was paid to the central front of the front, where The Wehrmacht command was expected offensive actions of the red army. Here the main reinforcements to detrose the groupings were concentrated of the other areas. At the beginning of the winter campaign, in the group of armies to which the Germans placed on the eastern front. The Hitler General Staff he believed that the offensive of the red army against the group of armies central would have been launched at the beginning of November.

For its part, the Soviet supreme command, in perfecting the plans of the winter offensive, had decided to launch the main blow in the Southern sector with the forces of the south-west front(comandate dal tenente- generale Vatutin), of the Don front(comandate dal tenente-generale Rokossovski)and the Stalingrad front(comandate dal colonnello-generale Eremenko)starting from the Stalingrado area with a single direction to the Basin of the Don. To prepare the counter -offensive and coordinate the actions of Fronti were sent to the Stalingrad area the general of the army Zukov e The Colonellogeneral Vassilevski.

The opportunity to start the attack in this sector was dictated by A set of political, economic and military factors. The decisive defeat of the enemy in the South had to lead to the definitive collapse of his plans that they focused on the arrival of the German troops in the Caucasus and the entrance of the Turkey in the war against the Soviet Union. Obtaining decisive results soldiers in the South, the very rich cereal areas of the Don and Kuban, the conditions for the liberation of the Basin of the Don, and the enemy threat to the sources of oil of the Caucasus and the communication routes with the allies that Through Iran they reached the Persian Gulf. The Don Basin sector The most vulnerable point in German strategic defense appeared.

With the arrival of the Soviet troops in Rostov the conditions for The defeat of the German armored group "A", which operated in the Caucasus northern. The defeat of the enemy in the territory between the Volga and the Don It was only to be the first stage of the winter campaign. After success of this operation the Soviet Supreme Command calculated to perform one series of offensive operations on other fronts. Particular importance was given to the elimination of the siege of Leningrado and the defeat of the grouping of the enemy in the

areas of Demjansk, Ržev-Vjazma, in the course Superior of the Don and in the northern Caucasus.

The first phase of the winter campaign was designed in the most complete way It is accurate. With the joint efforts of the General Staff of the Command supreme, of the general staff and the command of the fronts of Stalingrado, Del Don and South-West, a plan was developed that received the Name of "Uranus". This plan was based on a very bold idea: with the forces of the three fronts surround and destroy the great grouping of Fascist troops in the territory between the Volga and Don and create the conditions For the passage of the Soviet Armed Forces to the strategic offensive general on the southern wing and on the other sectors of the Soviet front- German. The assault groups of the south-west front and the front of Stalingrad they had to attack by converging on Kalač and Sovjetskij and then tighten In this area the ring of the bag where the troops of the attackers. The defense of the enemy had to be broken in the most vulnerable sectors, which They were held by the Romanian troops.

The beginning of the offensive was set for the south-west fronts of the Don at 19 November, for the Stalingrad front to the next day. To implement the "Uranus operation" was needed a huge organizational activity to put the Troops in full efficiency in view of the fighting. It was necessary First of all strengthen the fronts with men, weapons, military vehicles and provisions; Create operational and strategic reserves; perfect the political-military preparation of troops; to secret i assault groupings in the starting areas of the operation; organize their coordination and their direction. The preparations were complicated from the fact that the transport of men and means took place under the continuous bombing from the air on three unique railways, a fact that He limited the speed of influx. A particular difficulty in guaranteeing the secrecy of the concentration of forces was represented by the character mainly stepping of the areas where the next one would have launched offensive.

The success of the operations depended primarily on the actions of the battleship and mechanized units. Therefore, on the eve of the offensive the fronts they were strengthened with units and warts of tanks. Overall in Three fronts about 900 tanks were aligned. Over 13,500 cannons e Mortai were made available to artillery, twice as many as those They had been employed in the counter -offensive of Moscow. The aviation counted more of 1,000 airplanes.

On the eve of the offensive Soviet troops lined up on the three fronts do not the skilled dislocation of the forces and vehicles in the directors of the attacks main, the Soviet command managed to create powerful blocks of troops. All these forces and means were previously lined up on the positions attack thanks to the work organized in the rear.

On the Volga, from Saratov to Astrachan, 50 worked 50 Steam ferries. Numerous boats bridges were built. The concentration of the forces passed unnoticed by the enemy: the divisions in march maintained the most absolute radio silence, all orders they were given to voice. Measures were also widely used for disorient the enemy. Great help offered the military commands the population and organizations of the Communist Party of the Region of Stalingrado. The workers of the Region contributed to the refueling of Troops with food and ammunition. Tens of thousands of citizens worked on the construction of airports, bridges on rivers and roads, helped transport the ammunition and to repair military vehicles. In mid -November i Preparations for the "Uranus operation" had been completed. The red army She was ready to inflict the decisive blow to the enemy.

The encirclement and defeat of German forces in Stalingrado

On November 19, at 8.50 in the morning, after a massive bombing of the artillery, the troops of the south-west fronts and don triggered to the offensive.

An intense snowfall and the morning fog prevented the intervention aviation. After breaking the resistance of the Romanian troops of the III Army, the assault group of the south-west front managed to advance at the end of the first day of fights of 30-35 km. At the same time they penetrated deeply in the enemy defensive device also the troops of the Don front. From the morning of November 20, in conditions unfavorable meteorological, the Stalingrad front passed to the attack. After having broken the defense of the Romanian army south of the city, the troops Soviets went north-west and south-west.

The German command made desperate efforts to arrest the offensive of the Soviet troops, but all attempts to block it or even just slowing it down completely. The mobile units of the south-west fronts and of Stalingrado advanced quickly they reached the wings of the German VI army, Making the threat of lighter weigh on the enemy grouping.

On November 23, the 4th Soviet armored body of the south-west front al command of the major-general A. Kravčenko joined as foreseen in the area of the village of Sovjetskij with the 4th mechanized body of the front of Stalingrado commanded by the major-general V.T. Volski, making it so the encirclement of a large group of enemy strong of 22 Divisions. Of the moving units of the two fronts.

In order not to allow the ring to break by the grouping surrounded or its release from the outside, the Soviet troops continued the advance to expand the corridor established between the German troops in the First phase of the operation. Successfully rejecting the counterattacks of the enemy, they arrived on the evening of November 30 on the line of the FUUs Čir and Don. In the meantime, active shares were also conducted on the internal front lighter. On the evening of 30 November the surface occupied by surrounded grouping had already reduced more than half and did not exceed By now 1,500 sq km. This sector was massively hammered by the fire of Soviet artillery.

On November 22, even before the encirclement was completed, the commander of the GENCE VI General Army von Paulus summoned Gumrak la meeting of the commanders of the bodies, who unanimously came to the conclusion that a long defensive struggle within the gigantic bag would lead to the catastrophe and that to avoid it it was necessary to go immediately with the bulk of the forces south-west. General von Paulus asked Hitler for authorization to break the encirclement south west, but obtained an inflexible refusal accompanied by the promise that All measures would have been taken to ensure normal refueling of the Army and at the same time free it from lighter.

At the end of November and in the first days of December the Germans made a First attempt to free the surrounded divisions, launching a counterattack in the area of the southwest front. But the advance of the German wagons was blocked And rejected.

In an attempt to restore the situation in the South, the German command decided to quickly create a new group of "Don" armies, in which they were including troops operating in the great Ansa of Don, together with the group of armies surrounded in the Stalingrado area. assigned the task of arresting the offensive of Soviet troops and, attacking from the areas of Kotelnikovo and Torre to Stalingrado, of reach the surrounded troops, join them and restore the

previous one defense front. The refueling of the surrounded grouping would have been insured by air.

The Soviet command promptly sensed the enemy's plans and prepared effectively to reject its counterattacks: he strengthened his own groupings that operated on the external front of the "corridor", organized the Hunt against enemy transport aviation. In December they were destroyed in the air or at airports over 750 German transport planes. The annihilation of Von Paulus' army was entrusted to the Don front, commanded by the Rokossovski Lieutenant-General. The General Staff of the Command Supreme was represented by the Colonel-General Voronov. However the realization of this goal had to be provisionally postponed.

On 12 December from the district of Kotelnikovo, along the Tichoreck railway Stalingrado, began to advance the 57th armored body of the armed group Hoth. Under the strong pressure of the predominant enemy forces, the army of the Stalingrad front, which operated on this line, was forced to retire north-east. However, on December 15 he managed to arrest the German advance and in the following days heroically resisted the pressure of the enemy. On 19 December the Hoth Army Group resumed the offensive and on 23 December reached the Flume Myškova, at a distance of About 40 km from the troops of the VI Army surrounded.

To reject the enemy offensive, it was sent to the Kotelnikovo area The Army of the Guard commanded by the Lieutenant-General Rodion Malinovski, previously intended for the liquidation of the enemy grouping surrounded. In the harsh conditions of Russian winter the troops of Malinovski they went with a forced march of 40-50 km per day to the river Myškova, where the enemy tried to expand his bridge head. As soon as Arriving in contact with the enemy the Soviet army attacked him with a momentum without stopping.

On December 24, the Malinovski army passed to the offensive with an action coordinated with a part of the forces of the V -armed assault and the LI Army. After breaking the German resistance, Soviet troops occupied the December 29 Kotelnikovo. The goal of preventing the New attempt by the enemy to unlock the army of Von Paulus, closed irremediably in the stigrado bag, which now appeared condemned without escape to total destruction.

The troops of the fronts of Voronež and of southwest. On the morning of December 16, after an hour and a half of fire of artillery, the troops of the fronts of Voronež and south-west broke the defense of the enemy in some points and on the evening of December 24 they had made an advance of 100-200 kilometers. In eight days of hard fights they influence a severe defeat to the Italian eighth army e to the left wing of the group of "Don" armies, thus creating a threat of deep encirclement from the north of the bulk of his strength.

On 30 December Soviet troops advanced deeply in the rear of the enemy on the Nikolskaja-Ilinka line. In an attempt to arrest The advance of the fronts of Voronež and south-west, the German command was forced to hurry 8 divisions previously intended At the release of the troops of Von Paulus. At the beginning of January 1943 the Situation of the troops closed in the bag greatly worse. The ring of the lighter narrowed more and more. The Germans were missing reserves of any kind. The ammunition and fuel were about to end. THE moral of the surrounded troops was very low even if the soldiers continued to fight.

In an attempt to avoid a useless bloodshed on January 8, 1943 The Soviet command offered the surrender to Von Paulus with the honor of arms, proposing to cease the senseless resistance. Always hoping for the arrival of the "rescue" army and in obedience under the orders of Hitler, von Paulus He rejected the generous offer. On January 10, 1943 the troops of the Don front They then moved on to the annihilation of the surrounded grouping.

Exceeding the strong resistance of the enemy, the troops of the front came on the 17th January in Voroponovo; The Soviet command proposed again to Von Paulus di give up. But this proposal was also rejected.

The troops of the Don front continued the attacks and on January 25 the Soviet avant -garde arrived in Stalingrad from the West. In the evening of 26 January the troops of the XXI Army joined the hill area of Mamai to the troops of the LXII Army, thus breaking the Many soldiers began to surrender.

On January 31, the resistance of the group was definitively broken southern and on February 2 that of the northern part of the Army of von Paulus.

The troops of the Don front had annihilated 22 divisions, doing Prisoners 91 thousand between soldiers and officers with the same marshal von Paulus(Hitler lo aveva promosso sul campo sperando così di indurlo a non arrendersi e a sacrificare fino all'ultimo i suoi soldati)and conquering A large amount of

weapons and military means. During the offensive, Duration two and a half months, 5 armed armed were disfigured fascists. The losses in men of the German troops and allies exceeded, from November 19, 1942 to February 2, 1943, 800 thousand men. During the same period The red army destroyed or captured 2,000 tanks and self -propelled cannons, over 10 thousand cannons and mortars, 2,000 combat and transport planes, Over 70 thousand vehicles.

The general offensive of the Red Army in winter 1942-1943

The victory over the Volga decidedly borrowed the strategic situation on the whole Soviet-German and first of all in its southern sector. The Soviet supreme command decided, making new forces enter into action expand the front of the strategic offensive. The development of the counter -offensive in general offensive began even before the complete annihilation of the German grouping surrounded on the Volga. Overall, for the general offensive of the winter campaign 1942-1943, Over 70% of all forces and means of the army was used Soviet fighter. The strategic offensive developed on a front of 3,000 km and for a depth of 600-700 km.

Thus began the expulsion of the occupants from the Soviet territory. The General Staff of the Soviet Supreme Command approved the offensive plan of the troops of the south fronts and the Caucasus, with the aim of surrounding e Destroy the German grouping that operated on the Caucasian front. In based on this plan, the troops of the south front, in command of the colonel- General Eremenko had to take to the Rostov area and cut the street of the retreat to the North-Caucasian grouping of the Wehrmacht.

The left wing of this front had to attack towards Tichoreck through the steppes of Salsk, so as not to allow the retreat of the enemy towards the Taman peninsula. The troops of the Caucasus front, in command of the general armed I. Tjulenev, they had to attack with the forces of the Mar Group Black to Krasnodar and further on Tichoreck, and, together with the troops of the south front, surround the group of the grouping in this area North-Caucasian German.

At the same time, he was ordered to the northern group of the troops of the front of the Caucasus to push, advanced with his right wing Through Mozdok in the direction of Armavir, the bulk of the I Armored Army German towards the slopes of the Caucasian central chain and then destroy it.

On January 1, 1943, the troops of the south front passed to the execution of the plan. When, after passing the strong resistance of the enemy, they arrived at the Manyč river, the group of German armies "a" found himself closed in a deep bag, and, in order not to be isolated, began to retire quickly towards Rostov.

On January 3, the northern group of troops of the Caucasian front The chasing of the retreating units of the I Armored Army began German. However, the rhythm of its advance was insufficient. After northern group, the advance group of the Black Sea also began which operated in the difficult conditions of winter in the mountains, without being able to count, due to bad weather, on the approval of aviation. In January, overcoming the resistance of the enemy and the mountains, the troops of this Group freed Nalčik, Stavropol, Armavir and numerous other locations.

A great help to the troops gave the partisans of Stavropolle direct, from Party Committee of the Region. The patriots attacked the Hitlerians, they destroyed or seized their means, bridges, deposits, locomotives, wagons, also freeing several locations. The group northern of the troops of the Caucasus front, under the command of the lieutenant General I. I. Maslennikov, entered action on January 24, 1943 on the front of Caucasus of the North.

Overcoming the resistance of the enemy, the impracticability of the places and the Bad weather, the troops reached the sea of Azov in early February. In the head of the Kuban bridge, the XVII German army was isolated, which he could now maintain connections with the bulk of the Nazi forces only through Crimea.

Meanwhile, the armies of the South front fought in the surroundings of Rostov. A remarkable part of the northern Caucasus was freed, but it was not possible to With the arrival, at the end of January 1943, of Soviet troops nearby of Rostov, the enemy's resistance increased. The German command appeared desperate efforts to earn the time necessary for the withdrawal of own forces from the Caucasus of the North. Avid fights took place in the area of the Bataisk railway station, 10 km from Rostov, through the Which Germans transported men and means.

The offensive of the troops of the Black Sea Group also developed. The 4 February they arrived at the Kuban river and near Krasnodar. For take possession of national and the Taman peninsula, on the night of 4 February

the command of the front of the Caucasus of the North and the fleet of the Mar Nero went on to implement a great landing operation in the Jušnaja area Osereika. However, welcomed by the strong fire of the enemy and having immediately strong leaks, a part of the landing ships was forced to retire, while the Troops already landed were unable to keep the head of the bridge because of the inequality of forces.

The result of the landing of the reinforcement troops was more favorable, in command of Major Z. L. Kunikov, in the area of the village of Stanička and the mountain Myšako, near Novorossijsk. This shipment consisting of 800 men of the Marina infantry, quickly reinforced with other departments, occupied and He firmly kept a small bridge head.

The Hitler's Friendly Staff, including the danger that looked out on the Grouping of Nincoossijsk, he gave order to drive at any cost in Soviet soldiers. Against modest Soviet troops they were concentrated the effective of 5 German divisions.

However, their efforts coated against the value of the infantry from Marina Soviet. A struggle began that had to last seven months in the head of Myšako bridge, which was called "small land". For all of this period never ceased fighting with the enemy who used wagons armed, artillery and aviation.

The defenders of the "little land" covered themselves with glory, writing a pages of authentic heroism in the history of the great patriotic war. Troops Krasnot and, on February 12, on February 12, facing bitter fighting, they continued the advance along the banks of the Kuban and the Western Caucasus towards the Taman peninsula. Meanwhile the Troops of the south front attacked the enemy lines in front of Rostov. In the Axis of the city a fierce battle developed.

On February 14, after a few days of harsh fights, Rostov came freed. Following the offensive, the regions of the Ceceno- were freed Inguscezia, of northern obvious, of the Cabardino-Balcaria, the territory of Stavropol, and a large part of the region of Rostov and the territory of Krasnodar. In these regions they lived before the war 10 million of people. The German invaders brought enormous damage The economy of the area killed many thousands of Soviet citizens. In the Only territory of Stavropol, they made themselves responsible for the massacre, of over 30 thousand civilians

Simultaneously with the offensive of the Soviet troops of the North Caucasus Offensive operations were launched in the Ostrogožsk-Rossošk areas, e Voronež-Kastornoje.

In the second half of January 1943 the troops of the Voronež front, al command of the Lieutenant-General F. I. Golikov, surrounded and destroyed a Strong enemy grouping attested on the Don between Voronež and Kantamirovka.

The main blow was inflicted on the II Hungarian army and the VIII Army Italian, located in this area. During the operations they were Over 15 divisions completely destroyed, while 6 divisions came severely affected. Over 86 thousand between soldiers and enemy officers were made prisoners. Soviet troops advanced 140 km towards Flume Oskol.

Then the troops of the right wing of the Voronež front and the left wing of the front of Brjansk attacked and defeated the grouping in Kastornoje Enemy of the Voronež-Kastornoje line. Only a few groups of soldiers they managed to escape the lighter. During this operation they came 11 enemy divisions destroyed. The troops of the fronts of Brjansk and Voronež they freed a large part of the regions of Voronež of Kursk, the cities of Voronež, Kastornoje, Staryi Oskol and Tim.

In these two operations in the upper course of the Don the Group of Armies German "B" suffered a tough defeat. Very serious losses suffered the armies of the satellites of Germany(Ungheria e Italia)The II Hungarian army was of Destroyed fact, having lost 135 thousand men. The same fate touched the eighth Italian Army. Having completely lost the combative ability, it It was withdrawn from the Soviet-German front. The defeat of the armies Hungarian and Italian produced a strong impression in Hungary and Italy e Satellite countries of Germany.

Developing their offensive, Soviet troops occupied on February 8th Kursk and February 16 Charkov. In the meantime, the troops of the south-west front, At the command of the Colonellogeneral Vatutin, they launched an attack towards Mariupol, to cut the retreat west to the enemy grouping of Basin of the Don.

The partial withdrawal of enemy troops from the lower course of the Don Verso Mius and the movements made by the Germans in the Donec basin were erroneously evaluated by the command of the south-west fronts and by Voronež as The beginning of a general retreat of fascist troops beyond the Dnepr. The General Staff of the Supreme Command agreed with this evaluation. In such

way, despite the troops of these fronts had been weakened and had urgent need for reinforcements, their offensive was forced in all Maniere. For its part, the Nazi command designed a great counter-offensive in this sector.

On February 13, the German armored group "Don" was transformed into a group of "south" armies, which was hastily strengthened with units made from Western Europe, from the Balkans, and other sectors of the front Soviet-German. A meeting was held in Zaporžje in the presence of Hitler of the supreme command of the Wehrmacht. The plan was approved in the meeting of the counter-offensive, which provided for the attack on the troops of the southern front West, marching towards the Dnepr, to reject them beyond the northern Don. The plan also involved the encirclement of Soviet troops in the area by Charkov, and, after their defeat, the penetration into the rear of the Front of Voronež and an advance towards Kursk.

At the same time from the area south of ORël he had to start an offensive Against the rear of the Soviet central front, to surround the troops of the red army concentrated in the Kursk area. On the eve of Operations The "South" German Armies Group had 31 divisions, 13 of which were battleship or motorized, that is, half of all units Furniture operating on the Soviet-German front. To truth, the divisions Nazi, especially the battleships, were incomplete in men and in means.

The counter-offensive against the right wing of the south-west front began on the 19th February. Under the pressure of the predominant enemy forces the troops Soviet were forced to retire to northern Donec. Subsequently the German units attack the advanced troops of the wing left of the Voronež front. Soviet troops bravely drew up every palm of soil. On these days he received the baptism of fire On Voronež front the Czechoslovak battalion in command of the Colonel Ludvik Svoboda.

On March 13, the Germans occupied Charkov again and rejected the troops of the left wing of the Voronež front towards Belgorod creating a situation difficult not only for this front, but also for the rear of the front central. The major staff of the Soviet supreme command then moved towards The areas threatened the reserves with which, towards the end of March, it came The German counter-offensive arrested. On the whole southern wing of the front Soviet-German from Belgorod to the sea of Azov both armies passed on the defensive.

The German command was unable to achieve its goals, even if with the his offensive had managed to re-occupy a part of the north-eastern areas and Oriental of Ukraine. But these successes cost a very high price. One of the main objectives achieved by Soviet troops in Winter campaign 1942-1943 was the elimination of the siege of Leningrado. The breakdown of the fortified defense of the enemy was made by the troops of the Leningrado front, under the command of the Lieutenant-General L. A. Govorov and from Those of the Volchov front, under the command of the Army General K. A. Merezkov.

For the offensive, the sector south of Lake Ladoga was chosen along the line German Schlüsselburg-Sinjavino. The attacks of the troops of the two fronts they were concerted in order to take the Germans between two fires and from allow the combination of the soldiers of the red army for the most way brief.

By understanding the strategic importance of this sector, the Hitlerians VI concentrated large forces well trained in actions in forest areas- marshy. In the space of a long period the Germans had built a series of Powerful fortifications defended in Scaglioni. The assault on these positions was extremely difficult. After completing long and accurate preparations, The troops of the fronts of Leningrado and Volchov passed to the offensive on 12 January 1943.

At the breakdown of the siege, the sailors of the fleet of the Baltic (comandati dal viceammiraglio V. Tribuz) and of the war flotilla fighting Soviet troops were reason for the defense of the enemy e On January 18 they joined the area of the suburbs workers n. 1 and n. 5. The siege of Leningrado was broken. Along the southern coast of the lake Ladoga was formed an 8-11 km wide corridor, along which the city was able to restore the connection to the ground with the rest of the country. In this Corridor was built in a short time a railway that in February 1943 He entered into operation. The Leningradesi called her "Victory Railway".

The breakdown of the siege made the Leningrad situation less precarious. For 18 months the lengledesì, enduring unspeakable privations, had been subjected to a complete siege by the enemy. Overall, Especially in the first winter of the siege, they had died of hunger and for the Enemy attacks over 600 thousand inhabitants.

But the Leningradesi resisted. For the whole world the defense of Leningrado He became the symbol of the will of the Soviet people to win the enemy. The President of the United States of America Roosevelt, in the diploma sent to

Leningrado, wrote: "On behalf of the people of the United States of America I deliver This diploma to the city of Leningrado in memory of its valiant fighters and his faithful inhabitants, men, women and children, who isolated by the remaining part of their people and despite the continuous bombings e The unspeakable suffering caused by hunger, cold and diseases defended successfully their dear city in the critical period from 8 September 1941 to January 18, 1943, thus rising to a symbol of the invincible spirit of the peoples of the Union of Soviet socialist republics and all peoples of the world that oppose the forces of aggression ". The deeds of the heroic defenders of the city of Lenin have remained impressed forever in the memory of the peoples of the world.

In February and March 1943 in the central and northwestern sectors of the in front of offensive operations were carried out for the liquidation of two Outposts of the enemy, deeply under the troop device Soviet. On February 15, 1943 the troops of the North-West front in command of the Marshal Timošenko and the III armed assault on the Kalinin front The offensive began against the units of the XVI German Army, attested in the "Demjansk bag", without however being able to surround and destroy the enemy troops. The Germans, suffering strong losses, escaped to lighter.

In the fights north of Velikije-Luki, on February 23, on the day anniversary of the foundation of the Red Army, he made a heroic enterprise the Nineteen -year -old young communist Aleksandr matrossov. He obstructed with his body a mitraglia's slit of an enemy fort and immolated its own life guaranteed the success of his platoon. The name of Aleksandr matrossov, Hero of the Soviet Union, is forever registered in the honor of the 254th guard infantry regiment, which bears its name.

The troops of the West fronts and Kalinin developed an offensive in March towards Ržev-Vjazma. Under the attacks of Soviet troops and fear Threat of encirclement, the enemy was forced to retreat. The line of the front was thus not only removed from another 130-160 km from Moscow to West, but also Rercherciata.

The political-military importance of the winner of the Army Red in the winter campaign 1942-1943

For 4 and a half months, from mid -November 1942 to the end of March 1943, yes the winter campaign continued, which register great victories of the red

army. A central place had in this campaign the encirclement and annihilation of enemy troops on the Volga.

After supporting the pressure of fascist troops in the summer of 1942, The Red Army inflicted on them a decisive blow. As had happened at Moscow, in the difficult conditions of defensive fighting, was prepared A counter -offensive of Soviet troops on a strategic scale. However the situation in which the winter campaign 1942-1943 began and took place, yes It substantially distinguished from the situation of winter 1941-1942. Under Moscow The defeat of the German troops was obtained in a situation in which the Economic and military resources of the country were far from being completely used, while the rear were in a situation extremely difficult.

The Red Army, having suffered enormous losses in men and means in the summer 1941, could not yet ensure a decisive superiority on the enemy and launched the counter -offensive by having very limited forces and means. This was one of the main causes for which the battle in front of Moscow was unable to realize the encirclement and destruction of great enemy forces.

In autumn 1942 the situation was different. In the country there was already a of summer 1942, to supply the army of the necessary quantity of means and armaments. The solidity of the rear, the rapid and energetic mobilization of the entire economy for the needs of the war, the work of the people, directed by the Communist Party, they were the premise that he assured the army Red the opportunity to move on to the counter -offensive.

The Soviet armed forces, tempered in previous battles, equipped with experience and of great combative skills, they could now face and Solve offensive tasks on a strategic scale. No occasional causes, but the solidity of the socialist regime, awareness of duty by all the people and their high patriotism, allowed the Soviet Union not only to resist in the hard struggle, but also to turn the course of the course all world war in favor of the anti -fascist coalition.

The victory of Soviet weapons on the Volga was the result of heroic efforts of the entire Soviet people, of their realizations on the military front and economic. This victory raised the moral of Soviet citizens, who They saw that their blood and their work had not been in vain. It gave it new forces to those who continued to languish under the yoke of Fascist invaders. The defeat of the enemy armies on

the Volga broke the precious war car forged by the German generals for the attacks of Hitler.

The myth of the invincibility of the German army fell miserably, while The strategic initiative was taken away forever. The historical victory over the Volga allowed the red army to develop a general offensive on large scale and to start the liberation of the Soviet territory from invaders. During the winter campaign German troops not only they lost everything they had reached in the summer of 1942, but were forced to abandon a series of cities and regions, where they had been in the 1941.

At some points the front moved west of 600-700 km. A big territory of 480 thousand square kilometers was freed from the invaders. The populations of the regions of Voronež and Stalingrado, of the republics autonomous of Ceceno-English, northern obsessia, Cabardino-Bo-Balcaria e of the Calmucchi, of the territory of Stavropol, of the autonomous regions of the about, of the Caraciai and the Adigheti, of almost the whole territory of Krasnodar, of the regions of Rostov and Kursk, of considerable part of the regions by Vorošilovgrad, Smolensk and Orël regained freedom.

The connections interrupted by the enemy on many railways were restored e along the Volga. During the winter campaign 1942-1943 the attackers Fascists suffered colossal losses. From October 1942 to March 1913 beyond 1,300,000 between soldiers and officers were taken by the enemy as strength fighter. Particularly serious losses suffered satellite armies of Germany. The III and the IV Romanian armies, the II Hungarian army, the VIII Italian army had practically ceased to exist. The red army destroyed or he captured enormous quantities of weapons and means of the enemy. But it wasn't Only of human losses and materials suffered by Hitler's Germany and by its allies. The defeats dropped the morality of the army and the population of the countries of the fascist axis.

Fascist rulers were forced to announce a 3 -day mourning for The fallen in Stalingrado. For the first time from the beginning of the war, in days of February 1943, the inhabitants of German cities and villages instead, they felt the marches of victory, the funeral strengthening of the bells of the churches. He also changed the tone of German propaganda, who began to talk about the Difficulty and the crisis of the German army in the East. Among the Germans yes widespread the "disease" that the Germanic command called "influence of the soul ", expressing in skepticism A in the growing distrust in the Final victory.

Propaganda and terrorism could no longer heal this "illness". The defeats in the East shook the entire fascist block. Between the Germany and his allies was created an atmosphere of mutual distrust, yes the dissensions that testified to the crisis that began in the lair intensified of the powers of the axis. Germany's influence was also weakened in neutral countries. Japan, which had to enjoy the fruits of the military successes of the axis troops and that awaited only the moment propitious to attack the Soviet Union, he was forced to give up his own intentions.

The victory of the Red Army on the Volga and the subsequent Soviet offensive they marked the beginning of the radical turning point not only during the great Patriotic war of the Soviet people, but also of the whole second war world. This fact was recognized all over the world. In the diploma sent to the defenders of Stalingrado, President Roosevelt wrote that "there Turn the war of allied nations against aggression ".

Under the influence of events on the Soviet-German front, it developed With greater force the liberation struggle of the peoples of Europe and Asia against Hitler's tyranny.

Thanks to the victory of the Soviet troops, the conditions were created favorable for a greater commitment of all the forces of the anti- Hitleriana. In autumn 1942 the fascist block lined up on the Soviet-German front the Most of their armed forces: 266 divisions of which 193 Germans. This fact allowed the allies of the Soviet Union to start A victorious offensive in North Africa.

" A Stalingrado, \ - wrote Mao even before the final victory - The red army fighters have made a heroic enterprise, which It will affect the fate of all humanity. In front of courts carried out a large act of denunciation of the persecution judicial and criminalization of those who fight and repudiate to attacks media, judicial and political to popular movements and in solidarity with colleagues who have suffered and suffer threats and Attacks

We converged with sectors that put the center in the political trial of the Supreme Court, and in the attempt of proscription to Vice President Cristina Fernández de Kirchner.

After the national anthem, representatives of the organizations spoke present, including Taty Almeida de Mothers Founding Line, Hugo Yaski de CTA of the workers, Ramiro "Vasco" Berdesegar of the CCC, Hugo Cachorro Godoy de Cta Autónoma, Omar Plaini de Canillitas, Héctor Amichetti of the Buenos Aires Graphic Federation, Deputy Juan Marino, Judge Juan María Ramos Padilla,

closing the act Nora Cortiñas de Mothers founding line who He claimed for “a dignified homeland, without judicial mafia, without the scoundrels that They ignored human rights when they signed the 2 × 1 ”. They were present a large number of leaders and officials, including three Ministers and ministers of the Government of the Province of Buenos Aires.

Words of Ramiro "Vasco" Berdesegar of the CCC

Ramiro Berdesegar highlighted the unity of social organizations, union, policies, human and religious rights present and sent “a fraternal greeting, hot and class, to the original companions, peasants, students, workers who marched to Lima, and that from the December 7 face the coup d'etat and repression. We have no doubts that in those companions the flag of Murillo, of Tupac Amaru, of Micaela Bastidas, Panchito Solano and each of the companions who have left life by the emancipation of this Latin America. A huge applause For each of them and we shout, live the rebellion of the people of Peru!”

“Yesterday the data of the last census were known: 46,044,703 inhabitants that populate our Argentina from north to south. That points a Growth of 14.77% of our population since the last census in 2010. Graph the dynamism, the life of our people, growth. The other face of the static of those who want to stay forever are the four "Supreme" that for years have only install a parallel government to defend the interests of the economic groups that hide behind They, ”said Berdesegar.

The CCC leader gave more census data and referring to the percentage of Women pointed out that “there are the thousands of companions who every day They stir the pot in popular dining rooms, the thousands that guarantee the production, the thousands of peasants, many of them without land, which guarantee food in each of the green belts, the women who They took the step forward as health promoters in the pandemic, which did not These are the women represented in this nefarious Supreme Court, these four that not only from their class perspective also from their Gender perspective only print failures against our people. ”

Berdesegar pointed out that due to the data of the census the province of Buenos Aires is The one that has more inhabitants, more than 17 million, follows Córdoba, Santa Fe and Fourth CABA, with 3,120,000, wondering “what galaxy

do these live "Supreme" when they impose a ruling that threatens federalism and co -participation, like what they did a few months ago? "

"It is clear that when one reads each of the failures of this addicted justice to macrismo only find the defense of class interests of the true owners of this country, of the 1,823 great landowners who They have 50% of the productive land in our homeland at the expense of thousands of peasants, from natives, displaced from land and territory. In these failures the interests that price formers have And food producers, those 20 large companies, which every day They take away food, meat, milk from our kids.

"But also in each of the failures of that justice a deep is hidden class hate to popular sectors. Class hate that they left expressed when they ratified the condemnation of the companion Milagro Sala. Class hate that The judge has expired that from November 2021 to July last year, to Although there was no evidence against false complaints, he ordered us to click the phones to dozens of leaders and companions of Our organization ordered physical persecution from our homes and Listen in real time, and did not reach them with that but ordered 23 raids to the houses of our companions, to the dining rooms, to the productive units. We know what they want, they want to criminalize us, They will never be able to put ourselves on his knees because here in unity we are for face them and we will continue on the streets.

"Finally, I want to ratify the unity path, confluence multisectoral that is the hope to give birth to the homeland that our sons and daughters. Not a step back, colleagues. "

After the massive multisectoral march with more than a thousand people on Tuesday 31, and five days of sovereignty mobilizations and the opening of the path of Tacuifi, on Wednesday a new march was carried out at the entrance of the Neighborhood road where we were on Tuesday in the 7th call. But this time, when trying to surpass the tranquera the defenders of Lewis on horseback and With sticks, stones and gases they assaulted the protesters.

We repudiate the violence exercised and demand that it act quickly and guarantee the health and integrity of the victims.

The Arabela Carreras government not only breached constitutional laws, but judicial failures and now also releases the area and allows this type of aberrations

We support what we affirm years ago: Lewis governs a parallel state in Río Negro with the complicity of together for change and together we are Río Negro.

The meeting of organizations and organizations took place on Tuesday 31/1 in Athens Collectives, on the basis of the KKE proposal(μ - λ)for 'wide anti -war

Common Action in February. " This proposal is deposited in view of Completion of one year from the start of the war in Ukraine, as well as the Planned visit to the US Foreign Minister, Blinken, to Greece and in countries in the region.

The meeting was attended by representatives of NAP, the CMA, ARA, LAD, her Clash and the popular front. In his placement the KKE(μ-λ) testified his view of developments and presented the content of the proposal of, dictated by the need to break the long silence and inactivity of the movement with regard to the US-NATO imperialist conflict with Russia in Ukraine and the nightmares it feeds. As out of this, proposed mobilizing on 21 February, day that is close to the one -year anniversary of the beginning of the war and It is also rumored that Blinken will visit the country. The proposed Mobilization concerns us so much the complaint of the unjust war that raging, of the imperialists starring in the slaughter, of the local ruler class that turns the country into a base for its American bosses and involves the people on this basis in its reactionary confrontation with Turkish bourgeoisie as well as the racing condemnation of his arrival Representative of American imperialism. From this content derives and the path of demonstration we believe should be followed, Opposite to both embassies, American and Russian.

On the side of NAP, the CMA and the match, with the special views Of course of each organization, there was a general agreement on its content Proposal. However, disagreements were expressed - from different starting points - in relation to with the proposed route of the demonstration. NAP and CMA, participating together in anti -war initiative, they proposed the realization separate concentration at two embassies on a different date than Blinken visit.

In the placements of the rest of the forces, indifference to the Need to terminate war and an attempt to separate it from Blinken Visit, with exclusive focus on the answer to Give the movement to it. Fact which did not cause us special impression, as the views of a series of organizations on the Issue, moving from the - deprived - acquittal of Russian imperialism up to the overt acceptance of the subjugation of peoples' interests to His choices, in the name of anti - Americanism and anti -fascism. To The following confrontation emerged were the obstacles set by such placements in the organization of anti -war mobilization, with the reluctance of This is openly confessed by both Ara and Lad. From the side of the ARA the only reference proposed in relation to the war

was the One -sided complaint of the expansion of NATO, western sanctions and the Model for "peaceful settlement" of the conflict.

Given the inability to end in an agreement, the appointment was renewed by setting a new meeting for Friday 3/2. In spite of the intense Disagreements between political forces, on our part, insist on attempt to find commonplace for the realization of anti-imperialist- anti -war mobilization, utilizing the moods expressed for the Conducting a course against the challenge of visiting the representative of America in the country. As part of this effort, we declare the our mood to seek compromises and modify items of of our proposal, but without having the intent at the content level of We do behind the essence of the slogan "Peoples do not need from patrons' and leave one of his arsonists untouched War and the murderers of the peoples.
