On February 11th, a broad climate bundle had called for a separate and revolutionaristic powers of the "revolutionary climateemonstration". to advance the climate movement.

In his call, the federalism wrote: "The climate crisis is the result of social misprints, it has the person responsible and they also sit in Basel. For example, the Syngenta group, which sells agricultural poisons and genetically different seeds all over the world. [...] Middle Greenwashing then try to use many corporations, such as Tesla, the awareness of the climate crisis in order to promote their goods, as it were, to promote their profits and to deny their own responsibility. The world becomes destroyed and Profitors are also sitting here in Switzerland and are trimmed by the Swiss state. We do not accept this for a long time, but support Wirden's resistance to the international climate movement to the center of this exploitation system. "

The demonstration started at 3:00 p.m. at the DE-Wette-Park and pulled the downtown Basel from there. From the beginning, the unannounced

demonstration dye was cut by the police, blocked streets and so on. When the demonstration finally tried to penetrate Barfusserplatz, a central square in downtown Basel, the police were shot by the police and irritant gas. Here the overall demonstration was covered with floors and the bulls gave the shot soab that many of the rubber red floors hit the demonstration at head height. Despite the massive efforts to blow up the demonstration, the deomnstration participants managed to penetrate Zruckzen and to adapt the route so that the demo could still be enforced successfully.

In addition to different advanced power within the vernicism and ofdaruber, a common contingent of proletarian revolutionary from the FRG and partizan also participated in the demonstration with a transparent with the inscription "No to deals and compromises - for dierevolution!" And red flags with hammer and sickle. At this point we also want to emphasize our joy over banners, which was given by forces from the bundle and calls up the solidarity with the agricultural revolution in the Philippines.

At the end of the demonstration, a joint background was coordinated to end the evening in a restaurant. Here there was medical care for the injured from the demo, infotic and plenty of opportunity to meet and some music together and to exchange ideas and continue to join each other after the success of the demonstration.

**Gaza City, February 12, 2023:** The leadership of the Marxist-Leninist Popular Front for the Liberation of Palestine(Pflp)staged a rally in besieged Gaza on Sunday under the banner “Down with the Criminal Caesar Law”.The Caesar Law refers to the Caesar Syria Civilian Protection Act(HR/31),which imposes a hermetic siege on Syria under the pretense of protecting the Syrian people and shielding human rights in the war-torn country.

Following the deadly earthquake that hit Turkey and Syria on February 6, many voices around the world, including in Palestine, have been demanding the lifting of US-led Western sanctions.

Scores of PFLP activists carried a large banner that read “All the Solidarity with Arab Syria ... No to the Siege ... Down with the Criminal American Caesar Law”.

## Roma 18 febbraio Assemblea proletaria anticapitalista

ore 10.30 - 18.30  
Spazio Occupato

**Metropoliz**  
via Prenestina 913

Contro guerra e carovita, contro la partecipazione dell'Italia alla guerra imperialista nell'Ucraina alleata ed al servizio della NATO

Sviluppiamo la mobilitazione di lotta proletaria e popolare internazionalista nelle giornate del 23/24/25 Febbraio (a un anno dall'inizio della guerra).

Unire le lotte contro padroni, il governo per aumenti salariali indicizzati al carovita - contro l'abolizione del reddito di cittadinanza - salario minimo dignitoso - riduzione dell'orario di lavoro a parità di salario - contro l'alternanza scuola/lavoro - contro la scuola classista. Contro le morti da sfruttamento del lavoro/inquinamento - Casa reddito documenti per gli immigrati.

Per un fronte unico di classe anticapitalista.

**Soccorso rosso proletario**

Il governo persegue la linea dell'attacco alla vita e all'identità politica di Alfredo Cospito in sciopero della fame dal 20 ottobre: il ministro della Giustizia, Nordio, ha rigettato l'istanza di revoca del 41bis.

### Nordio condanna a morte Alfredo Cospito

Il Ministro del 41 Bis ai prigionieri politici, dentro il governo moderno fascista della Meloni, dimostra che continuare e alzare il tiro della lotta è giusto e necessario, ancora di più sviluppare dovunque iniziative.

### NE PARLIAMO ALL'ASSEMBLEA NAZIONALE DI ROMA

Per i detenuti politici rivoluzionari il 41bis ha una duplice funzione, quella della vendetta verso coloro che non si pentono e rivendicano la propria militanza rivoluzionaria, e quella deterrente delle lotte verso l'esterno.

Lo Stato borghese, i governi, vogliono imporre dentro e fuori la loro "pace sociale". E questo oggi è ancora più evidente nella fase di crisi e di partecipazione alla guerra inter-imperialista, con un governo Meloni moderno fascista che punta a stravolgere anche i diritti costituzionali, che contiene personaggi dichiaratamente fascisti, e con le prossime norme del Min. della giustizia (inserite nel decreto anti rave) vuole continuare a coprire i politici corrotti, i fascisti, la criminalità "legale".

Questa mobilitazione va continuata, sviluppata ed estesa, utilizzando vari mezzi e forme, investendo ogni realtà, da quelle già in lotta ai democratici sinceri, portandola sempre di più tra le masse popolari, i lavoratori. La repressione riguarda tutti coloro che si ribellano, che lottano contro lo stato esistente. La repressione dello Stato borghese sui rivoluzionari è parte centrale della guerra di classe tra proletari, masse popolari e padroni, Stato, governi al servizio di questo sistema di sfruttamento, di mancanza di lavoro, di guerra, di miseria, di attacco ai diritti civili e alla stessa democrazia.

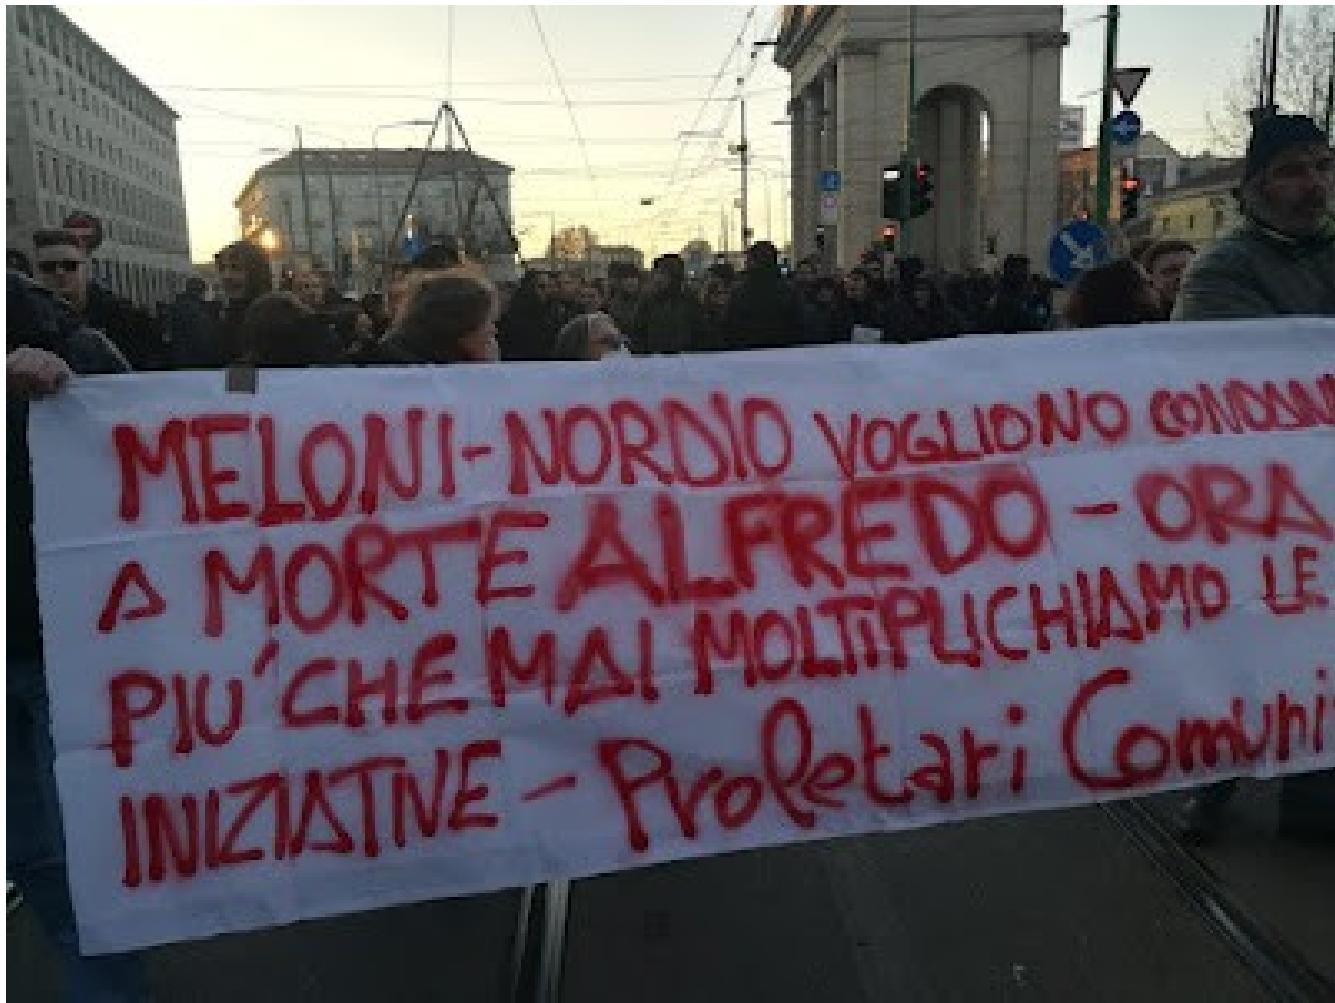

Il governo Meloni/Nordio invita ad abbassare i toni e ad archiviare il caso. La grande stampa e tv si allinea. Ora più che mai moltiplicare le iniziative in ogni forma.

The deputy attorney general of the Cassation Piero Gaeta asked for Larevoca of 41bis for the anarchist on hunger strike by over 110 days.

A request that changes the cards to the table and that could lead to an evolution of the situation on February 24, when the anarchist and legal issues will find themselves before the Court of Cassation, which will have to express request for revocation of the hard prison.

According to the PG, such a restrictive measure is no longer necessary. And the Stradapotre would be the one indicated by the head of DNA Giovanni Melillo in the Suoparere: the high surveillance with censorship, measuring enough to contain a "possible danger".

Socialist Revolution has received documentation of several actions conducted in Copenhagen over the weekend.

Anti -imperialist collective organized a protest in front of the Brazilian ambassade, where leaflets condemning the Rondônia massacre committed the

military police and armed gangs by local landlords were handed out in angels. At the same time, the flyers also condemned the terror, committed against the Mexican people in the state of Oaxaca, against the poor farmers who resist imperialist mega projects being developed in the area.

The activists held a banner that says "down with the criminalization camp by country!" In both Danish and Portuguese.

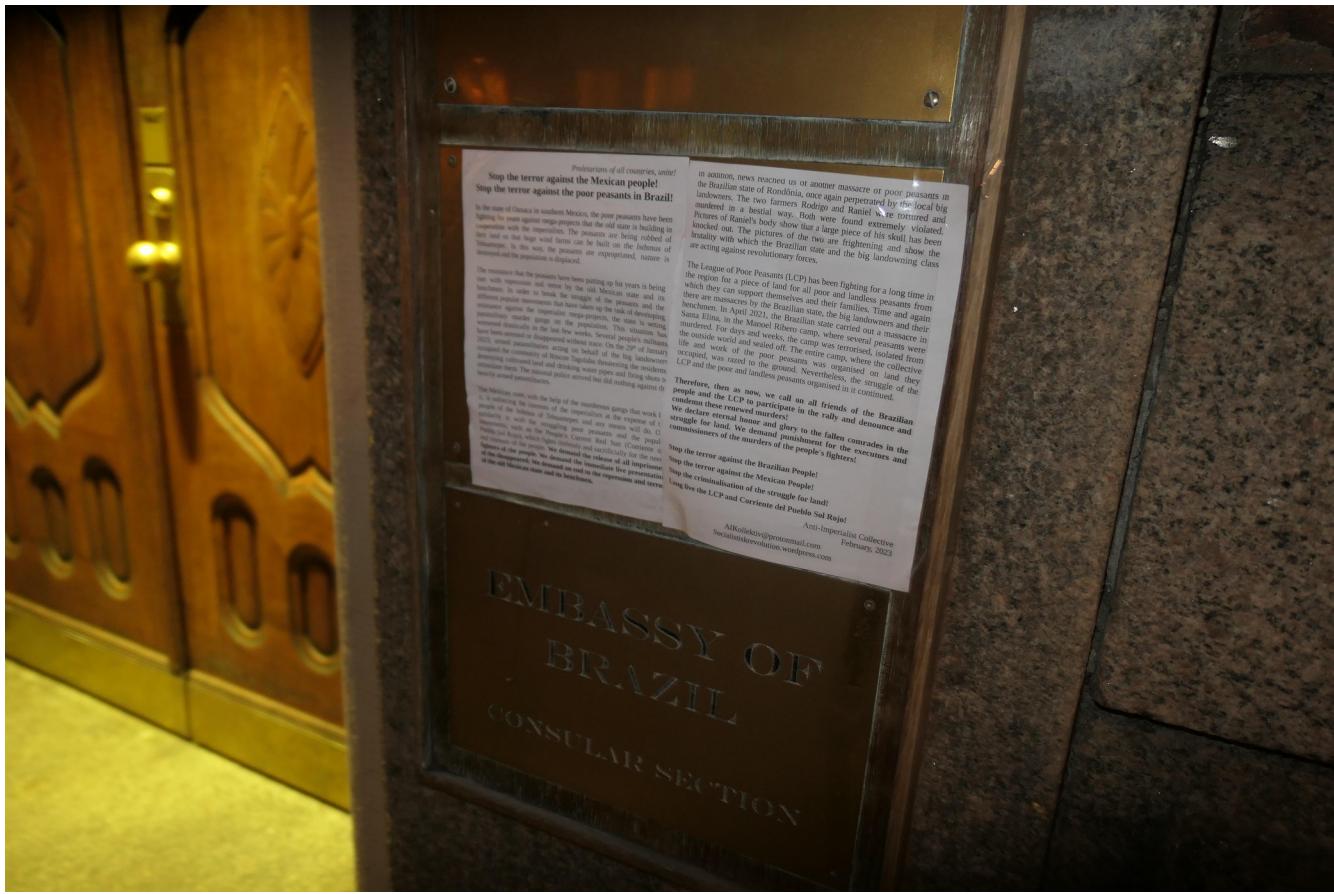

ABAIXO A CRIMINALIZAÇÃO DA LUTA  
PELA TERRA!

NED MED KRIMINALISERINGEN  
AF KAMPEN FOR LAND!

Requirement that the terror against the people of Brazil and Mexico should be stopped was hung the entrance to the embassy, while battle cry to support LCP.

Anti-imperialist collective also organized a protest in front of the Mexican ambassed, where the same leaflets were handed out. The activists held Etbanner with the slogan "Freedom of all political prisoners!", While demanding Atalle the people's fighters from Mexico and Brazil were to be presented ilive, while at the same time condemning the murders of the murdered people's fighters.

The activists report that during the protest, a company consisting of ingredient businessmen resigned, one of which was the owner of a major Brazilian agricultural company. The owner of the agricultural company recognized the parole to LCP and was shocked that LCP also enjoys support from Etimperialist Land as Denmark.

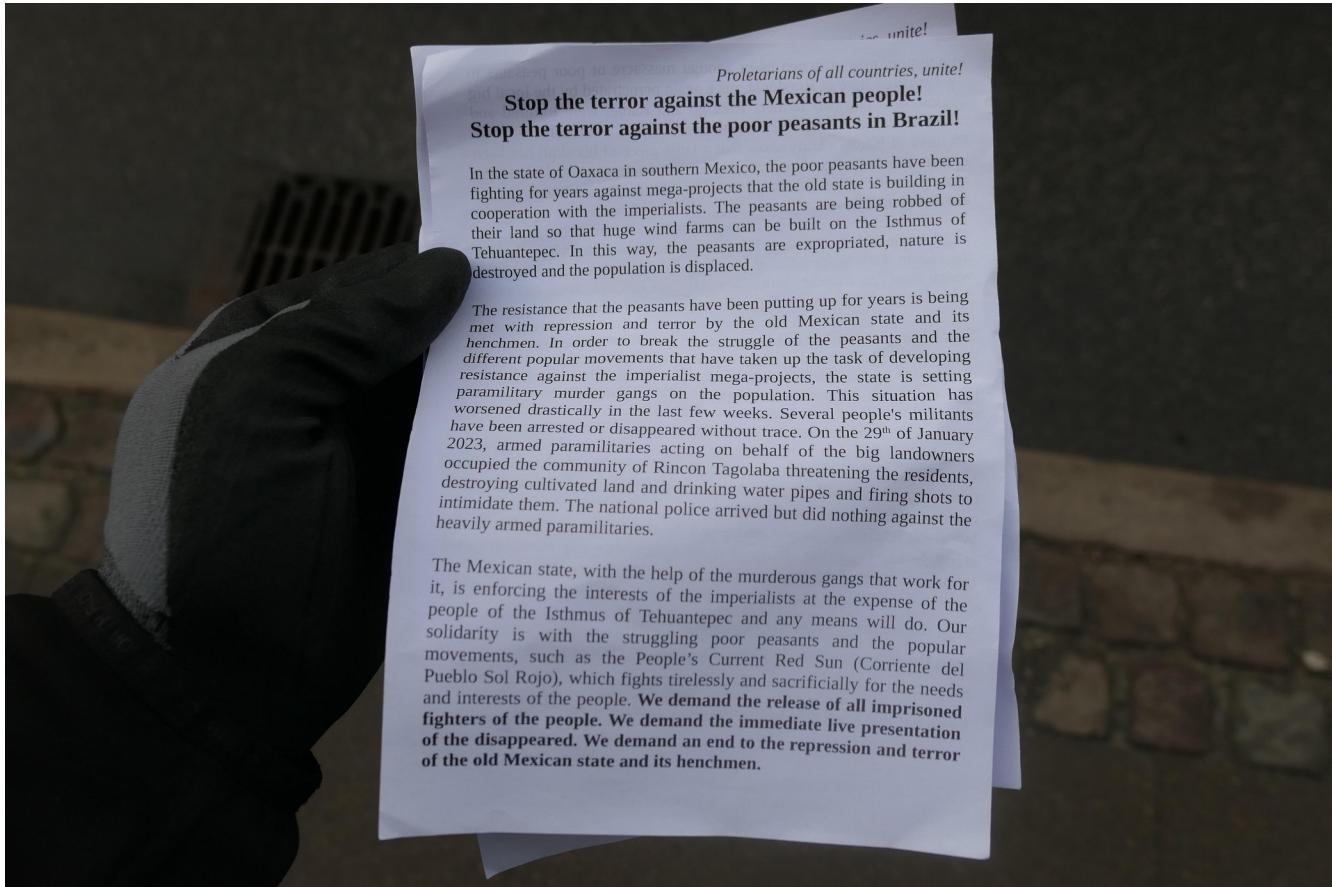

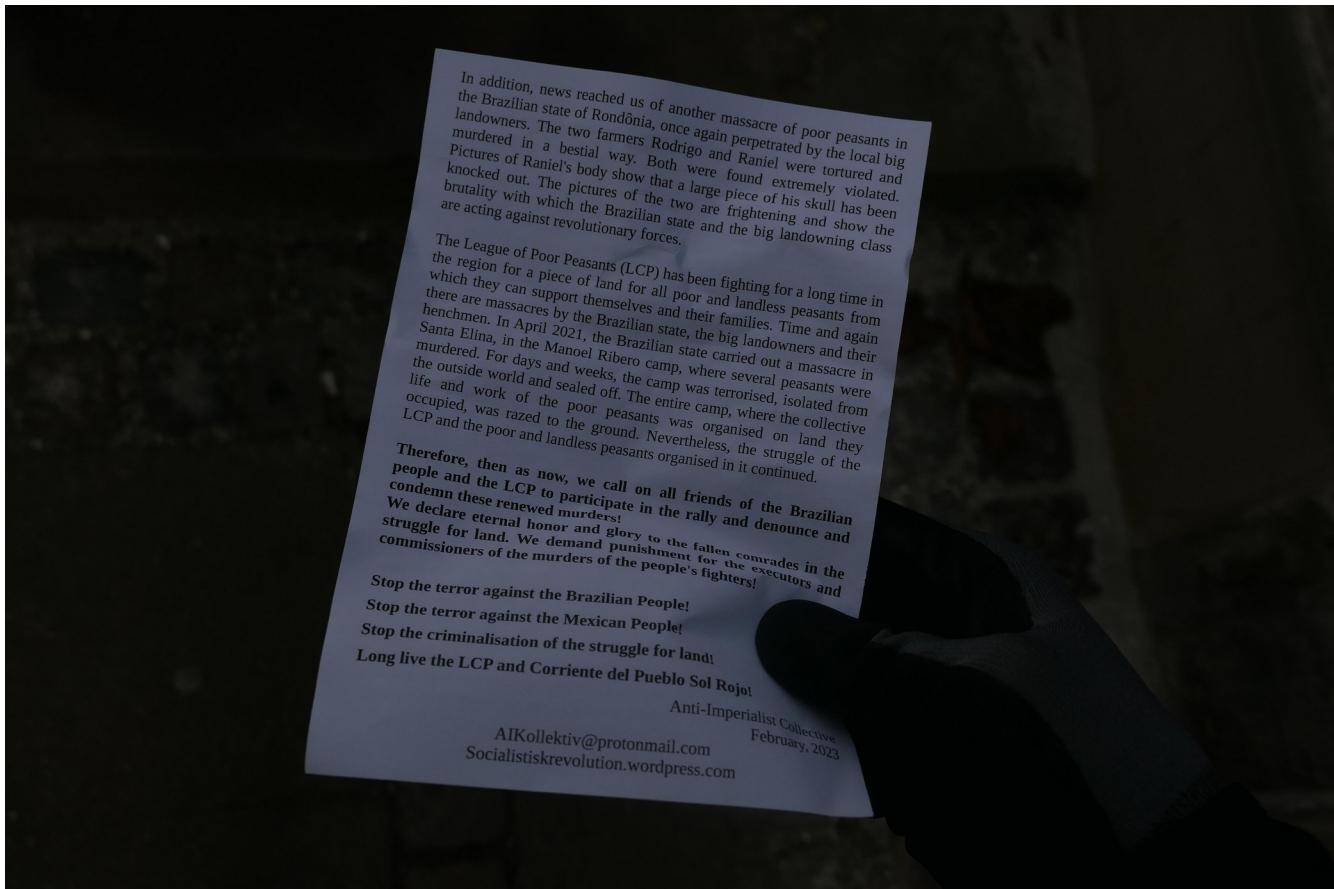

In the proletarian neighborhood Blågården, a banner was hung up that the condemn massacre committed against the poor farmers in Brazil up.

We have received the leaflets, which were distributed in front of both embassies and re -represent them below:

Proletarians of all countries, unite! In the state of Oaxaca in southern Mexico, the poor peasants have been fighting for years against mega-projects that the old state is building in cooperation with the imperialists. The peasants are being robbed of their lands so that huge wind farms can be built on the Isthmus of Tehuantepec. In this way, the peasants are expropriated, nature is destroyed and the population is displaced.

The resistance that the peasants have been putting up for years is being met with repression and terror by the old Mexican state and its henchmen. In order to break the struggle of the peasants and the different popular movements that have taken up the task of developing resistance against the imperialist mega-projects, the state is setting paramilitary murder gangs on the population. This situation has worsened drastically in the last few weeks. Several people's militants have been arrested or disappeared without trace. On the 29th of January 2023, armed paramilitaries acting on behalf of the big landowners occupied the community of Rincon Tagolaba threatening the residents, destroying cultivated land and drinking water pipes and firing shots

to intimidate them. The national police arrived but did nothing against the heavily armed paramilitaries.

The Mexican state, with the help of the murderous gangs that work for it, is enforcing the interests of the imperialists at the expense of the people of the Isthmus of Tehuantepec and any means will do. Our solidarity is with the struggling poor peasants and the popular movements, such as the People's Current Red Sun (Red Sun People's Current), which fights tirelessly and sacrificially for the needs and interests of the people. **We demand the release of all imprisoned fighters of the people. We demand the immediate live presentation of the disappeared. We demand an end to the repression and terror of the old Mexican state and its henchmen.**

In addition, news reached us of another massacre of poor peasants in the Brazilian state of Rondônia, once again perpetrated by the local big landowners. The two farmers Rodrigo and Raniel were tortured and murdered in a bestial way. Both were found extremely violated. Pictures of Raniel's body show that a large piece of his skull has been knocked out. The pictures of the two are frightening and show the brutality with which the Brazilian state and the big landowning class are acting against revolutionary forces. **Therefore, then as now, we call on all friends of the Brazilian people and the LCP to participate in the rally and denounce and condemn these renewed murders!**

**We declare eternal honor and glory to the fallen comrades in the struggle for land! We demand punishment for the executors and commissioners of the murders of the people's fighters!**

**Stop the terror against the Brazilian People!**

**Stop the terror against the Mexican People!**

**Stop the criminalisation of the struggle for land!**

**Long live the LCP and Corriente del Pueblo Sol Rojo!**

**There is a critical shortage of personnel, especially nurses and doctors, in the Norwegian health care system. Government officials warn that the future means even more patients per employee.**

As of February 2022, about half of Norwegian municipalities reported "challenging or critical access to personnel and critical competence". In particular, doctors and nurses municipalities notified a lack of. This was expressed in the lack of capacity for GPs, emergency rooms, home services, institutions, vaccination, testing and infection tracking. This situation was an exception that was only due to the pandemic handling that was then in full swing. The nurses' trade union now states that this is the current situation: «Nursing shortages and other personnel shortages are everywhere, in the municipalities and nursing hospitals. It's a crisis. »

The Health Personnel Commission was reduced by the government to assess the situation with a lack of personnel in the health care system. According to the

Trade Union, which organizes hundreds of thousands of public employees, the Commission recommends \_Ine\_ at overall health and care personnel should not increase significantly beyond the current level. Instead, they suggest that more employees work full time. The Commission also states that "more efforts need to be done and that **people take care of their own health** to reduce the pressure on health services"(our highlight).

Kommisjonslederen har slått fast overfor NRK at det blir færre ansatte per pasient. Den demografiske utviklingen ligger til grunn: Det blir flere eldre, samtidig som det fødes færre barn. Utvalgsleder Gunnar Bovim sier: «Dethjelper ikke med en milliard her og en milliard der. Det blir færre ansatte per pasient. Den erkjennelsen må vi ta med oss på alle nivå.»

Dermed står norsk helsevesen i den situasjonen at man på den ene siden har en\_personellmangelkrise : Det er for få ansatte, for få arbeidstimer, oghalvparten av kommunene klarer ikke å gi den helsetjenesten folk har krav på.På den andre sida vil det bli *færre* , ikke flere, ansatte i forhold til pasienter i årene som kommer!For å gjøre situasjonen enda verre varsler helseministeren innstramninger på grunn av dyrtida.

**Our comrades in Sol Rojista write about the popular resistance and organization against the State War against the People and the Imperialist mega project Corredor Interoceánico del Istmo de Tehuantepec(CIIT).**

Krigen mot folket intensiveres og operasjonene til den gamle godseier-byråkratiske staten konsentreres mot arbeiderne og folket som gjør motstand. Regimet fokuserer på å omringe, isolere, kriminalisere og ødelegge denfolkelige bevegelsen, spesielt den antikapitalistiske venstresida. De siste hendelsene i landet gir et klarere bilde av situasjonen. I Michoacáner kameratene Ricardo Lagunes Gasca og Antonio Díaz Valencia forsvunnet, førstnevnte en demokratisk advokat og sistnevnte en lokal samfunnsleder som har stått synlig i spissen for motstanden mot gruveprosjektet «Las Encinas». I Istmo de Tehuantepec har det vært flere angrep i løpet av en periode på touker. Det første skjedde 17. januar, da David Hernández Salazar, fra Binniza-samfunnet Puente Madera i San Blas Atempa, blei arrestert for protester mot CIIT. En annen hendelse var trakasseringa av jordbrukskere og

andre medlemmer av lokalsamfunn nord i Isthmus. Disse hadde blokkert jernbanen etter å ha jaget CIIT-bygningsarbeidere som en gjengjeldelse mot at marinene 26. januar bleisatt inn for å prøve å skremme befolkninga.

Deployeringen av marinene førtebare til nye protester og at flere bønder kom til og forsterka kampen. Deretter, den 29. januar, kom 10 lastebiler med væpna menn inn i lokalsamfunnet Rincón Tagolaba i Tehuantepec. De reiv ned samfunnetsadgangsmerker og stolpene og gjerdene til husene, skøyt i lufta og satt fyr på eiendelene til befolkninga. Leiesoldaten «Tacho» Canasta og broren hans, Sergio Gutiérrez, som urettmessig kaller seg «kommissær» for Santa Cruz Tagolaba, sto i spissen for angrepet. Målet var å skremme folket og å overtasamfunnets jord, for å kunne forhandle med CIIT. Mange timer senere ankom enbetjent fra nasjonalgarden, etter at klager blei sendt inn til menneskerettighetsorganisasjoner, men da hadde angriperne alt trukket seg tilbake, og tatt med seg bevisene for det væpna angrepet.

## **¡ALERTA!**

Tacho Canasta y su grupo armado están atacando en estos momentos la comunidad de Rincón Tagolaba, perteneciente a los bienes comunales de Santa Cruz Tagolaba en Tehuantepec.

Los compañeros están defendiendo sus recursos naturales contra los talamontes que bajo las órdenes de Tacho han explotado ilegalmente el bosque.

In the statement, the Gutiérrez García brothers are held directly responsible for any armed or aggression against the Rincón Tagolaba community, as well as for the physical and emotional integrity of the peasant families living

there. It requires the authorities to safeguard the integrity of society and the inhabitants, and the setter definitely stops to this wave of attacks, and recalls that the Gutiérrezgarcía brothers are linked to at least four criminal cases, and emphasize that these attacks from mercenaries and paramilitarian groups, with State, with State, with State, with the State, Is the people's reaction organization and militant mobilization.

All this time on the ground there is an incompetent, infrastructure is being destroyed, but above all it is the territory where imperialist competitions have managed a higher level. US - NATO on the one hand, Russia, on the other, are confronted, sowing terror in humanity to even nuclear weapons. This anniversary, however, is also marked by the US Foreign Minister Blinken, in countries in the region and in the country. A visit that comes to demand the further alignment of our

bourgeois "our" class and the political staff of our country and the neighboring ones in the interests of the US.
