PC February 3 - profits at maximum and wages at a minimum ... The battle for wage increases is right, necessary and urgent ... how urgent it is to study capital

These boxes taken from 'The dashboard of metalworking' presented publicly by the CISL on January 24th they say in a manner explicit as much as the masters made profits and the workers lost their salary in all these years.

Cisl contributed to this lowering of wages in a thousand ways helping The masters with agreements, contracts etc. etc. and the "dashboard"(su cui torneremo)which they presented is precisely full of this position; A phrase above all For now: "productivity, **historical disease of the Italian economy** , is grown by 15 percentage points in a decade ".

This is precisely the voice of the master who complains of this "disease historical ", while the CISL brings the figure to say that despite the crisis, the productivity has increased, that is, the workers have worked more and more intensely!

This is not a novelty since " **The capitalist constantly tries to Reduce wages to their minimum physical limit** and to extend the day of I work on its physical limit Massimo ... "As Marx says in *salario, price and profit* where it adds, to strengthen, that " **the general trend of the capitalist production is not to raise the average normal wages, but of reduce it .**"

This is why a daily battle is needed on salary, and beyond, Still Marx: "If the working class yielded by cowardice in his conflict daily with capital, it would be deprived of the ability to undertake any greater movement. "

To this battle we must support that of theoretical formation!

Weekly Editorial - The Mathematics of Capitulation before the Milites reagents

Shock battalion in front of the Planalto Palace. Photo: Amanda Perobelli/Reuters

There was a lot of noise when Luiz Inacio dismissed, on the 21st, about 80 military that served in the Planalto and the then army commander, Júlio César of Arruda, replacing it with Tomás Miguel Ribeiro Paiva. Some stunned before the blind belief in the "stability" of bourgeois democracy and its eating institutions in the country and that Yankee imperialism "will not allow A coup d'etat "came to proclaim that the cash" Government of Lula " It had been inaugurated there, without protection of the Armed Forces. Luiz Inacio proclaimed that he distrusted the armed forces, that he wanted an office of Institutional Security(GSI)No

military equipment and played with the public to that he would not accept military orders assistants(y poco después, tenerlos), In a staging that he would not undergo "military power", to treat to restrict the maneuvering margin of the generals through isolation of public opinion.

On the 31st, "surprising" a total of zero people with conscience Politics, Luiz Inacio appointed 122 soldiers for the GSI. Mathematics is Clara: instead of restricting the presence of militias and, therefore, their Influence in the Government, the President of the Republic increased them! Immediately, the press reported that the PT gave the army endorsement to prevent the Federal District PM will act, the night of January 8, Against the camp, in the Army Headquarters. The episode, which involved maneuvers with armed force tanks to deter PM, it was Approved by Luiz Inacio, given the pressure of the generals. As is known, this maneuver was carried out so that active and reserve officers and their families They could leave the camp and not be arrested.

Now what does that reveal? That the staging of a strengthened Luiz Inacio, What happens and passes with the military, lasted less than a soap pomp, since The supposed force attributed to the government is a chimera, an illusion. The opportunistic and liberals do not exaggerate that the defense of this democracy corrupt and permissive bourgeois with all kinds of violence against the people do not It moves them, on the contrary, it causes disgust and, above all, distrust and anger. They pretend not to know, but they know very well that in politics the Effective force are the masses, and not the notes of entities and charges, harmless When they have no material support. But they want to believe this and try to deceive The masses also create this fantasy.

While the government tries to restrict the coup movement with agreements of Cabinet and grandiloquent pronouncements on "democracy" -which, unknown to the wide masses in their daily lives-, it only becomes inept, while true force is increasingly in General(hoy, las tropas y, ahora, están jugando a ganar a las masas, principalmente a la pequeña y mediana burguesía y apoyándose en los evangélicos bolsonaristas entre los pobres). The government tends to capitulation; After all, how could it not be otherwise, if from The 2018 elections are silent in front of the constants Military coup pronouncements? Not a single criticism, only appeasement!After all, what can the coalition government do reactionary, where the great bourgeoisie and landowners exercise power servants of imperialism? If I had a minimum of decency, immediately I would

have called the masses to the streets in defense of freedoms democratic threatened!

Meanwhile, indigenous people are killed, as in the horrendous and criminal case against the Yanomami, and the peasants are systematically killed in their fair struggle for earth. On the morning of January 28, Bope Police, from The Rondônia Military Police shot at peasants who climbed into a boat to cross a river; The military arrested two young people, they were tortured, they even started the Language to one of them, and then executed them in cold blood. The monopolies of the press, the illustrious political and the institutions of justice, heroes of The defense of this democracy, silent completely. This has nothing to do With his democracy, right?

It must also be said that the change of generals under the army, Made by Luiz Inacio, nothing changes in the nature of force and neither He even changes his coup intentions, which are unanimity among the high Situation culminates the military coup. Just see that the now praised like "Legalist commander", Tomás Miguel Ribeiro Paiva, was the same considered protagonist in the writing of the intimidating tweet of Villas-Bôas, against the HC of Luiz Inacio, in 2018 - a tweet that, by the way, was written by the ACFA to intervene in national political life. This is the "legalistic general", maximum guarantee of democracy in Brazil for the monopoly of the press and the opportunism. What a bad sheets cover them!

The ACFA is calculating and reformulating its intervention plans every day military, looking for the right time to intervene, promoting small destabilizations using "green chickens" as cannon meat and, Soon, signing new agreements with the government in which it comes out reinforced on paper. of moderating power; Meanwhile, seek to win the support from his master in the north and the support of public opinion to try Crush the lifting of the town at the time they lift themselves with their fair anger.

To stop the coup running it is impossible to have the aristocracy opportunistic, drunk for decades of cocktails in palaces of the old state and expectations of reigning for many more. The minimum is to rely on the masses, mobilizing them for their minimum trampled rights day by day, to through strikes, land shots, occupation of universities and schools, in a torrent of revolutionary protests and struggles; Without a drop of illusion with The democracy of the rich.

By a commentator for the Earn Folket Media.

Our comrades in communist international(ci-ic.org)has published one Article on the historical victory the Red Army won over Hitler fascism in 1943. Stalingrad was a turning point not only in the war but in humanity's history.

The comrades write that the International Communist Association has taken chairman Mao's position: comrade Stalin was a great Marxist-Leninist, who defined Leninism and played a crucial role in World War II, especially on the basis of the 7th congress in the Communist International. The comrades look The article in connection with this position.

They write that chairman Mao has defined the battle of Stalingrad as not only the turning point of the war between the Soviet Union and Germany, or in it Anti-fascist world war, but a turning point in human history.

The Soviet Union, under the great leadership of comrade Stalin, led a fair war, a large -scale and heroic defense, which used the burnt Earth's tactics and won over the Hitler fascism at a price of 25 million Soviet life. This great war was also important to inspire and generate fair liberation wars in the colonies throughout the Third World.

German Wehrmacht attacked Stalingrad to take over the city on August 23, 1942. An aspect By the importance of the city, it was the name of Stalin. In an order from mate Stalin he demanded greater efforts and sacrifice from the Red Army. In this The order says comrade Stalin among other things:

«Each commander, soldier in the Red Army and Political Commissioner must understand that Our means are not unlimited. The territory of the Soviet State is not a desert, But people - workers, farmers, intelligence, our fathers, mothers, wives, Brothers, children. The territory of the Soviet Union that the enemy has conquered or Want to conquer are bread and other products for the army, metal and fuel for industry, factories, works that supply the army with weapons and ammunition, Railways.(...)Further retreat means to waste ourselves away and at the same time Sacrifice our motherland.(...)If we do not stop the retreat we will be without bread, without fuel, without metal, without raw materials, without factories and works, without Railways. This leads to a conclusion, it is time to stop the retreat. Not one step back!"(Vår egen oversettelse.)Comrade Stalin declared that retreat was to be considered a betrayal. The population in Stalingrad was incorporated into the armed resistance to Wehrmacht. The fascist 6. Army took the city but through Operation Uranus under the leadership of Georgij Zjukov and Aleksandr Vasilevsky, were organized troops north and west of city. The Red Army surrounded Stalingrad, which caught nearly 300,000 enemy forces there and cut their supply lines, and then tighten the grip more and more.

The comrades write that the battle of Stalingrad shows that in war is that People, not weapons, which are the most important. The battle not only evolved from street to street and house to house but from room to room and it was written heroic Chapters in human history that shook the world.

The comrades write that the fascist offensive against the Soviet Union led by the Nazis and with the support of fascists from Italy, Spain, Romania, Hungary and the Bandera rats from Ukraine, threw millions of forces, Wehrmacht's best, 75 percent of their Air Force, into the invasion, but that Stalin and the Soviet Union Was prepared and succeeded in resisting. One of the reasons was the wonderful The intelligence service, the comrades write. Another Joseph Stalin's handling of diplomacy. Furthermore, the Soviet Union used strategic defense along with it Burnt earth's tactics and partisans behind enemy lines. They blasted Soviet dams and dismantled factories so that the enemy should not get anything like preferably. The German Nazis could not imagine that the socialist The mother country would take such measures to combat them.

The comrades write that the dictatorship of the proletariat stood at stake, the revolution stood at stake, and that one could not stop to think or allow himself to stay hindered in some way. They write about heroic partisans, who were left behind behind enemy lines alone with rifle, ammunition and vodka, to wait for the enemy, and that the German Nazis lost an average of ten men to each such Partisan when they were liquidating them.

The comrades write that one cannot forget Stalin's leadership, when considering him, and how he always held on to the importance of the morale of the war, how the conquered tabs and chin crosses from the Nazis were thrown on the ground in front of Lenin's Mausoleum. The major military victories were also made to moral wins. They write that the Brazilian comrades have stated that the victory against Fascism in World War II is one of the major events in the process of it Proletarian world revolution. Three important imperialist powers, Germany, Japan and Italy, were defeated. This must be considered, highlighted and celebrated. Antifascist war shows the enormous life force of the socialist system, that imperialism is the source of all wars in modern times, that the people will prevail and that imperialism is a paper tiger and that to defeat imperialist Aggressors must be united people's revolutionary forces in all countries and form it widest possible international front to gather the strokes against the main enemy of the world's people.

The comrades end like this: "With the honorable red army rifles, Nazi became Germany crushed, socialism and the dictatorship of the proletariat rose in East-Germany. That the red tab of the Communist Party and the Soviet Union waved over The dark and broken German rich stag is undeniably a great moment for

the international proletariat that symbolizes the entire heroic and honorable epic struggle against fascism in defense of the Soviet Union and for the development of the proletarian world revolution. The statement from comrade dimitrov when he set course for the Soviet Union after the big victory at the Nazi tribunal in Leipzig was thus fulfilled: "We will create Soviet Germany!" "

Beretta's workers in the assembly organized by the MFPR of 28 October In Trezzo they launched an appeal to all workers: let's organize ourselves, Let's join, we must be stronger and impose the extra gear as Women/Workers

Dal Blog FemminismoMorivolzione

to uncovered cards. Beretta workers struggle against hard conditions Of work and the plans of the company that using the contract(UMBROGLIO) Try Eliminate them silently

for the unit of all of the workers of Beretta divided by contracts Precarious.

The struggle of the workers in contract for Beretta looks at all workers and to their condition. From the defense of health and workplace in factory, to unity with the other realities that fight, in participation in '**National Assembly of February 18th in Rome**'.

Starting with the defense of health. The workers on strike have denounced 'bast stands we can't take it anymore to run all day, to cold, so we only break our back' just as the New Inail data on the strong increase in accidents and diseases Professional.

and against factory repression, made of discriminatory behavior, arrogant, anti -union, like the 50 euros given in December as gratify Only to the workers who have not striked, or leverage the double load that the workers and mothers of the factory have in the assistance to the children by example, with a real retaliation made of changes on duty and times, sudden and personalized, to put uncomfortable workers in difficulty, force them to make fatal jumps with babysitters. And of course of the failed

attempts to hinder the strike, which resolved, in front of the firmness of the workers, in a frustrated

Post(cancellato all'arrivo delle risposte): 'They were 10 escaped home'. NO I just don't think they ran away from the house, they have full brown to work in those conditions.

The strike showed the new contract with MPM of 31.5.22(denunciato anche con un esposto)made in a hurry for the open investigation -aprile 22- from the Guardia di Finanza 'against illegal use by Beretta delle Cooperatives to always have manpower available available and underpaid, explicitly defined as a transhumance of workers', as a facade and commercial operation; How to download on all responsibilities cooperatives; as if to cancel the fact that, i results of the exploitation of precarious work and underpaid of the contract, of the disgusting CCNL Multiservizi, increase the profit of Beretta.

With the signing of UIL, the changing contract was concluded without transparency and the guarantees claimed by the Slai Cobas Sc about the lines of processing actually passed to MPM.

The contract thus becomes the Trojan horse to remove one by one lines to the workers who are struggling in the factory with Slai Cobas Sc. They manage more to keep the rhythms of the factory. In recent weeks they are lines 4 and 5 are removed, the control islands, which must return to MPM workers who have been in those positions for years and years. **The contract used To hit 'SottoBanco' the workers.**

With the strike there was a participatory and self -managed by the workers press conference, significantly in front of the ATS headquarters in Trezzo, with Journalists of Milan Today, of the day, those of the Gazzetta della Martesana and of Radio Popolare and some independent ones who carry out investigations on the world of work, all involved by the protagonism of the workers, who have Started with several voices, to tell each other, to say enough, to change.

Unlike what happened so far, with the workers consumed on Beretta processing lines, put out or who have left silence, perhaps recommended by a trade unionist to accept the offer of Conciliation of the company, as inevitable.

The day of January 31, part of a 360 ° mobilization, as mentioned of the workers.

TREZZO

Otto ore di lavoro faticoso e ripetitivo al freddo, ritmi incalzanti, contratti «avviliti» e salari bassi. Incertezza sul futuro e «un clima in azienda che diventa sempre più pesante». Appalto nuovo, problemi vecchi se possibile peggiori: sciopero e manifestazione sotto egida Srl Cobas, ieri mattina, davanti alla sede Alfa di via Gorizia, per una rappresentanza delle 38 operarie «in appalto» del salumificio Fratelli Beretta. Dalle scorse maggio sono passate dalla vecchia cooperativa (uno degli appalti per cui l'azienda finì sotto la lente della Guardia di Finanza di Lecco nel 2022) e subì un sequestro da 4 milioni di euro, indagine ancora in corso) a un nuovo soggetto, Mpm spa. Ma i loro problemi non si sono

mai risolti. Non è un caso che sia stato scelto, come sede del presidio, il piacere: «essere dell'Azienda sanitaria. L'aspetto salute è assolutamente centrale nelle rivendicazioni dei sindacati, che ha presentato un nuovo esposto: «Qui ci sono operarie che lavorano da molti anni, che hanno problemi sui problemi: in alcuni casi patologie lavori correlate certificate e plausibili importanti, prendono stipendi inadeguati e si vedono perniciare "usurpare" nelle assunzioni senza apparente criterio».

Una situazione che non deve rimanere nel silenzio. Ritrovò a mezzogiorno, dunque, per Sergio Caprini, referente Srl Cobas, e per una quindicina delle 38 addette alla fine di confrontamento, dove si corre per ora al giorno (oggi su due turni) per controllo automatizzato, effettuatore, confezionamento e carico bancali dei salumi. La si-

tuzione contratti il tema con la maluscola. In azienda lavorano 200 addetti circa, le operate in appalto, assunti Beretta, interni forniti da una società ad hoc, «una heterogeneità di situazioni che produce ingiustizie», così Caprini. «Tutte le donne qui presenti oggi, e anche le assenti, meriterebbero una stabilizzazione con i criteri dovuti. E non di lavorare in queste condizioni e stipendi, oggi poco più di mille euro al mese, portati a casa su vertenza. L'appalto non ha più alcun senso, lo denunciamo a gran voce».

66
Ci sono operaie che sono lì da anni e che prendono come stipendio poco più di 1.000 euro

phe la resa Selvana Luci. «Il nostro è un lavoro usurante, implacabile, intollerabile e movimenti ripetitivi, molti di noi hanno problemi di schiena, di gambe, di braccia, tunnel carpale e altre patologie correlate. Ci sono pesi importanti da spostare. E il freddo. Si lavora a 4 gradi per otto ore al giorno, i timori per il futuro. «Nell'ultimo periodo ci parlano di un calo di commesse. Non abbiamo certezza di cosa accadrà. I riposi e le relazioni: «Spasso un riposo "forzato" viene comunicato all'ultimo. In passato quotidianamente si comunicava di più». E di coop, in operai, ne hanno «passate» parecchie. Uno «vantaggio» di partenze: «Prendono anche 300, 400 euro in meno». Le istanze: «Basta aspetti in azienda. Ritmi produttivi più umani. E le soluzioni. Lo denuncio degli anni scorsi devono diventare strumento per cambiare, davvero, la condizione di questi lavoratrici».

Il costo dell'uscita del tecnico è di 33 euro, la stessa cifra si applica anche alla tariffa oraria per la manodopera. Da questo importo è escluso il costo di eventuali pezzi di ricambio da acquistare. Inoltre la società comunale mette a disposizione i suoi tecnici specializzati».

Non sempre si ha il tempo o si è in grado di risolvere da soli i problemi che si verificano nella manutenzione della casa - spiega il sindaco Gianni Ferretti - con questo nuovo servizio offriamo a tutti l'opportunità di affidarsi a figure professionali com-

Insomma, Ama fa causa offrendo servizi a prezzi calmierati dando lavoro a professionisti del territorio ma di fatto facendo una concorrenza forte agli artigiani locali. Sono in molti a temere prezzi onerosi che l'azienda municipale può offrire. «Temiamo che questa scesa in campo di Ama nel settore edile a prezzi inferiori quello di mercato possa danneggiare le aziende del territorio» - spiega Antonio Addeo (MsG).

Britain is currently paralyzed by hundreds of thousands of workers' strike within the public sector. At the same time there are protests all over the country against the government.

More in 23,000 schools in the country will close when more than 100,000 teachers goes on strike in England and Whales.

Teachers' strikes hit broadly because another purpose, besides bourgeois Education for the bourgeoisie is that schools act as day care institutions for Children from proletarian families. Without a place to send children to in Working hours have to seek alternatives to get their children cared for. That Reported that any family members will take off on shifts, which also affects other areas of production in the country.

At the same time as the teachers' strike, also university lecturers, shut down, drivers, bus drivers and security guards worked on requirements for higher wages, Better pension and job security.

Furthermore, several mass strikes are expected later this month as tens of thousands of ambulance rescuers across the country go on strike on February 10 as a result of a prolonged struggle for higher wages and more staff.

The strikes and protests also take place against Prime Minister Rishi Sunak and his government's new strike -breaking law that will enable Businesses to fire workers who, under strike, do not perform an 'Minimum Service', ie Not least

partly works underlining. Rishi and His government tries in vain to follow in the footsteps of margered thatcher strike breakers as they themselves admit the problems that the proletariat's Organization brings them.

The British trade union's national organization TUC points out that the British in Average gets the equivalent of 1700 kroner less a month today than They did ten years ago.

At the end of last year, more than 100,000 British nurses launched one Nationwide strike, divided into 76 public hospitals, health centers, Which initiated the first national nursing strike land ever Viewed. The demands of the strike are similar to About the requirements of the nurses in Denmark Back in 2021, with requirements for higher pay.

We see how the crisis of imperialism, which is carried by the proletariat, pushes The proletariat in combat and resistance to the attacks on our rights. The proletariat looks through the imperialist bourgeoisie lies and fearmaker as they try to spread about the imperialist war while they uplifting and attacking the proletariat's rights in the name of »the defense of Fort-Europe «.

By a commentator for the Earn Folket Media.

The debate continues in and around the party Red, which has so far held on to Sit no to Norwegian weapons for the Zelskiy government. For Norwegian Weapon shipments are of little importance, for all the rest of the Storting supports the government in this case, but for Red the question is still important.

Central Board Synne Høyforslett Bjørbakk from the party Red is first candidate for the county council elections in Nordland and a member of the government's Defense Commission. The newspaper Klassekampen writes that she disagrees with large parts Of the party leadership in the view of Norwegian weapons to Ukraine. The question of battle should be will be decided at the Red National Meeting held in Stavanger at the end of April.

Government has just chosen to send lephard battle wagons, like several Other European countries. Bjørbakk is concerned that the escalation may lead to Escalation of the war and a dangerous situation becomes even more

dangerous. She says That the voltage can increase in the northern areas and that Norway is not served with it.

She says to the Class Fight: "Maybe Ukraine closes. But the war can also end very bad in the sense that the war escalates beyond Ukraine, and Nuclear weapons are used. I think the political debate, and at least The last week, take too lightly on the seriousness of the situation. I miss a critical Publicity that questions whether the finest other action option than sending more weapons ». Bjørbakk is also clear that the war can be Long -lasting, regardless of whether Norway sends weapons or not.

Bjørbakk states that Ukraine leads a legitimate defense war and that the party Supports this, but the war also has a "geopolitical side". She refers to Russia scientist Cecilie Hellestveit and her analysis of the war as "a Land War on Sea, "where Russia sees it as crucial to have control of the sea in the north and in the south(Svartehavet)To resist pressure from the United States and China, and that the United States Also has its interests. The Red Central Board Member says the war in Ukraine is special, because it has the potential to escalate beyond Ukraine and become a Great war.

Finally, she states that she does not want any new party and does not agree with them Which says this is necessary if Red says yes to weapons. She and several others have signaled this attitude, and thus it looks like it is unlikely that this happens, or that if it happens, it will be a relatively small Shelling.

Earn the people of the media is briefly: Russian imperialism has attacked Ukraine, the Ukrainian nation leads a legitimate liberation struggle, which We support without reservation. Zelenskiy's regime is a result of "Orange Revolution" and Euromaidan, in which, among other things, fascist paramilitary And the Yankee imperialism eventually was heavily involved. Zelelskiy is a lackey for mainly the United States, and does not represent the interests of the Ukrainian the nation. US-Nato's support for its lackey is not in the Ukrainian nation's interest. The main thing for anti -imperialists in Norway is to fight the Russian the imperialism of imperialism and support the Ukrainian people, without becoming a part of US-NATO and Norwegian imperialism's war efforts.

We publish excerpts of an interview with Airaudo Secretary of the CGIL Piedmont

Airaudo: "Now our struggle is to team up also with the top managers" The reconfirmed secretary of the CGIL of Piedmont: «The union must Manage the economic agenda »

«I have not invited the top managers of Michelin and Lavazza to our congress e the vice -president of the Turin industrialists because I became capitalist. But because I believe that the union cannot limit itself to managing the effects of crises but must become the protagonist of the economic agenda e social of a territory ». **Giorgio Airaudo today will be reconfirmed secretary Regional of the CGIL of Piedmont .**

An unusual choice open a CGIL congress by hosting the top manager. "Far from it. First we talked about peace with Luciana Castellina and work with the delegates. The top managers were there with us because there are no more places Where to establish **a common work agenda ».**

In what sense are the places of debate lack? "Once upon a time there was Fiat who regulated and managed everything. Then certain routes came drawn in the lounges. Today there is nothing more in Piedmont. The problems are Many must find a way to face them and solve them together ».

Companies then focus on flexibility. "This has been an emergency for many years. In Italy we have 45 modes contractual entry into the world of work, in Spain have reduced it to two and in fact create jobs. Madrid, among other things, has just adapted salaries at the cost of living, raising the salary of 8 percent. We do not We can not even manage the health crisis ».

Do you need more public investments? "Certainly. Piedmontese health is to the street. We managed with extreme effort to stabilize a thousand of nurses but it is too little especially for a region that ages quickly".

In fact, today CGIL speaks more about health than Mirafiori. It is a sign of Times? «We also talked about Mirafiori. I asked the Governor Alberto Lumi Cirio on the agreement between the Region and Stellantis on the Factory Recycling Hub Turin. It is a reserved agreement that we know nothing about. Is between The other from which the union was unexpectedly excluded ».

Marco Valbuena | Chief Information Officer | Communist Party Of The Philippines

February 4, 2023

As expected, the Marcos government declared its refusal to cooperate with the International Criminal Court(ICC)in its plan to commence pretrial investigation into the charges of crimes against humanity against Rodrigo Duterte over his sham “war on drugs” during his time in Malacañang.

Marcos and his minions are Duterte’s veritable defense lawyers. They are using the people’s money and the entire Philippine government to stop any and all effort to make Duterte account for the killing of more than 30,000 people during the violent spree of police and vigilante operations which he ordered and incited.

Marcos falsely declares “confidence in the fully functional domestic judicial system” which clearly has failed to address the aspirations for justice of the tens of thousands of families clearly who fell victim to Duterte’s carnage.

In Duterte’s defense, the Marcos government hypocritically invokes sovereignty to stop the ICC from performing its sworn duty as an international body that

closely works with the United Nations and other widely recognized multilateral agencies.

Marcos and his minions have the least credibility to talk of defending sovereignty in the face of its continuing failure to assert the country's maritime rights in the West Philippine Sea as recognized by the 2016 decision of the International Arbitral Tribunal.

What defending sovereignty is Marcos talking about when he has not lifted a finger to end the Mutual Defense Treaty and unequal military treaties with the United States, and in fact, has acceded to the US plan to construct more military bases and facilities in AFP camps under the Enhanced Defense Cooperation Agreement(EDCA).

The Filipino people must oppose the Marcos government's refusal to cooperate with the ICC, and push the demand for exposing the entire truth about the bogus "war on drugs," and for Duterte to be punished for all his crimes.

On March 8 we want to be an important avant -garde, opposition trench unitary, strong, visible women against the masters, the reactionary government that we have, cleric-fascist, with characters within it declaredly sexists. We have already done this on November 26th, but **March 8 is strike!And with the strike, starting from the jobs, let's say clearly that It is a class struggle, a clash**

between the barbarism of this social system and our bi/dream that all our life must change. And in this we women, who are doubly exploited, doubly oppressed, When we fight we have an extra gear, because we do not want to miserable and Today increasingly impossible improvements but we want the revolution!

Meloni's government raised the black flag of "God, homeland, family "... and children, because women are" weighed "and can receive some alms only on the basis of the number of children they have and who do for the capital and today for the imperialist war, and prepares to attack heavily abortion, which always accompanies the double oppression and the Modern Middle Ages for women. Today this black flag is the useful ideology to impose misery, war, attack on work, with the inevitable increase in femicides.

This is why this March 8, in these women's strike we must say clearly What we fight for. We do not want a "radical transformation of the system capitalist productive ", we want its reversal! Ask equity, ecological transition that respects the environment and our existences, fair distribution, etc. etc. to whom every day at most In the conferences, in the assizes he does "blah, blah, blah"(come dice Greta)And then in Fact takes our lives.

We must bring and fight for a platform that arises from the struggles themselves of the workers, of the precarious workers, of the unemployed, women of neighborhoods. This is the platform that we also propose in this assembly(nota)Today the workers say they no longer do it for the workload, the heavy conditions at work and out of work, in homes. And some are Already transforming this cry on a strike, fight. An important example, Also for the other workers, they are **the workers of Beretta** , who By directly organizing a meeting at the end of October, an assembly different, managed directly by the workers, launch a message of Protagonism, unity, does not delegate, towards other women, workers.

And on February 23 there will be a new assembly, this time electronic, for organize the strike of 8 March on the workplace, to which we call All to be there.

MFPR

_ We get that the Slai Cobas for the class union has already called Formally the strike of women, open to all workers, of 8 March. This notice unionitously covers all workers, too enrolled in other unions or not registered ._

Communist international([ci-ic.org])(<https://ci-ic.org/>)(SNTL)the red army of workers and peasants reached Nazi Germany and its allies in Stalingrad in 1943. The victory of Stalingrad Battle was a historical turning point in another World War I, but it was also a significant turning point in all humanity In history, a great milestone of the proletarian world revolution in the process. Original writing can be read in English [here](#) and in Spanish [here](#) .

In writing, comrades emphasize how the International Communist Association(KKL)has taken the chairman Mao's position in relation to the role of Comrade Stalin in history. He was a great Marxist-Leninist who once systematized Leninism and he had a decisive role in the fact that World War II ended with the victory of socialism. In addition, when talking about Comrade Stalin, there is no cannot be Never forget his leadership of the Communist International in the seventh congress that laid the foundation for the joint front work successfully developed in World War II. That As a result of the co -parallel work after World War II proletariat The dictatorship won in several European countries when Albania, Bulgaria, Yugoslavia, German Democratic Republic, Poland, Romania, Czechoslovakia and Hungary departed on the path of folk democracy, later also the People's Republic of China followed by chairman Mao, some of their own paths.

The article also states that Chairman Mao has defined The battle of Stalingrad to all of mankind's history significant to fight. According to him Between the Soviet Union and Nazi Germany, as the Soviet Union went to comrade War of Nazi Germany and its against allies, the entire international proletariat and for the world revolution. In its entirety the World War II paid about 25 million Soviet citizens. This great anti -fascist war was a very important source of inspiration for justified liberty in many in oppressed third world countries.

ВПЕРЕД, ЗА РАЗГРОМ НЕМЕЦКИХ
ЗЛУЧАТЕЛЬНО И МОГИЛЫС ИУ ЧУ

The picture shows a poster shared in the Soviet Union at the beginning of World War II. Text: "Let's go ahead, destroy German attackers and throw them away From our homeland!"

Comrades borrow in the article 1942, July 28 the command of Comrade Stalin: "[No step backwards](#)". In order to be demanded from the Soviet people still Harder efforts to defend the socialist motherland. In order Let's say, among other things: ____ " _jokainen commander, soldier and political The officer must understand that our resources are not unlimited. Soviet Union The area is not a desert, but people - workers, farmers, intellectuals, our fathers and mothers, wives, brothers and children. An area whose enemy is Who has taken over from the Soviet Union, and what the enemy wants to capture is bread and other resources for the army and civilians, iron and fuel industry, factories and hardware that deliver the army weapons and ammunition; This also means railways. After lost in Ukraine, white- Russia, the Baltic States, Donetsk Pool and other large areas, we are lost a lot of people, bread, metals, factories and production facilities. We no longer have the overwhelming personnel and food. Continuing to retreat means destroying us and our country. Every piece of land we leave the enemy to strengthen them, weaken us again, our defense and our homeland... Because of this stop the discussion of an endless withdrawal that we have extensive land areas that our country is large and rich that we have a huge population and That we always have enough bread. These conversations are false And harmful because they weaken us and strengthen the enemy. If we do not stop retreating, we will be left without bread, fuel, metal, raw substances, factories and railways... This means it's time to stop retreat. No more step back! This is our slogan here ahead retreating as a deception, and it is noteworthy that virtually the whole The population left in Stalingrad was mobilized, to support or to do Armed resistance against the military forces of Nazi Germany and its allies.

The city of Stalingrad in flames at the beginning of the fascist attack.

ukrainalaiset Bandera-rotat ja espanjalaiset francoiset "vapaaehtoiset") attacked the city of Stalingrad on August 23, 1942. The city With the conquest of the fascis, they seek to build a drive, to attack from there Caucasus oil fields and cut off Volga traffic routes. Town's Conquesting was also important for fascists because of its stubborn made a lot of Soviet warfare and through the city There were about 70 percent of the oil used on the boards. Town's The importance is also illustrated by the fact that the city was named after Comrade Stalin.

Pictured is the Red Army fighters in Stalingrad's last battle In February 1943.

At the beginning of the battle of Stalingrad from town, but Georgi Žukov and Marshal of Marshal and Marshal Aleksandr Vasilevski launched by Operation Uranus in Soviet troops re -arranged. Operation Uranus began on the 19th of November 1942. On that day to the north of Stalingrad attacked the Red Army 24. Army and 66. Army as a task to tie the fascists to their positions so that they cannot retreat over the don. The northwest of the city attacked red- Army 5th Pannator Army and 21. Army Romanian fascists against, crushing them perfectly already in the first day of the operation by. Also the next day(20.11)The Red Army rolled show in the south side of the Romanian Stalingrad front forces. Hundreds of thousands of Nazi due to a successful operation of Uranus German soldiers stayed in the motto in the city of Stalingrad, almost incomparable No maintenance connections. From now on the city back from the anestrators apartment from the apartment, house from the house and street From the street, releasing the city's fascists on 2nd February 1943. It is also historically significant for Finns that the defeat of fascists After the end of Stalingrad, the Finnish recession bourgeois began to realize that its ally in World War II Nazi Germany will disappear from the war and thus some of Finland's leading politicians began to seek conference connections to the Allies, in order to bring about Peace with SNTL.

The red flag is fluttering in Stalingrad as a sign of victory on February 2, 1943

The writing also emphasizes that Nazi Germany and its Stalingrad The attack of the allies involved in the battle to the city was gigantic Mobilization from fascists. Millions of soldiers and For example, 75 % of Wehrmacht's flights went to Stalingrad From autumn 1942 to the winter of 1943. Nevertheless the Red Army The winner of the battle was the winner of Comrade Stalin's great leadership. According to an article by comrades The Soviet Union's infinitely well -done intelligence work, and the other was a comrade Stalin's successful diplomatic work. In addition, the Soviet people used the tactics of the country burned in a strigly defense phase and organized Everywhere, the partisan troops from the back of the fascists. Retreating with the Red Army burned all the fields and blasted factories and buildings, then for fascists There was nothing more than the ruins of the buildings and empty fields. It was completely surprised for the fascists that the troops filled by the spirit of socialism were able to do such efforts. Comrades take into account in their writing On the website, too, it is right that the stalingrad battle proves In fact, in the war, people decide not weapons.

In the picture, those who have fought to the Red Army in the fascists soldiers. Nazi Germany and its allies lost in Stalingrad Battle about 850,000 soldiers fallen, wounded or imprisoned, of these 400,000 Germans, 200,000 Romanians, 130,000 Italians and 120,000 Hungarian.

Comrades wrote that the Soviet people were aware of the dictatorship of the proletariat to be at stake, the revolution is at stake. This Collective awareness guaranteed that the fascist's back was large partisan troops as rifles, hand grenades and explosives to destroy Multiple enemy and to disturb its warfare, for example by destroying the railways. This was not a simple choice because Partisans were always waiting for death if they were left in the fascist's nails.

In the picture, young Soviet citizens acting in weapons and ammunition Carriers in their hometown Stalingrad. Weapons and ammunitions have been obtained War of fascists.

Comrade Stalin's great leadership in all this cannot be forgotten when Let's remember the Second World War as he was an international proletariat as a leader at the historic moment when Nazi German swastika tickets The writing also mentions how Brazilian comrades have said, that the victory of fascism in World War II is one proletar the major events of the World Revolutionary Process. Three important Imperialist power Germany, Japan and Italy were struck on their knees. This The profit would be a party of all class conscious proletars.

In the picture, painting from the moment when the Nazi German swastika tickets were thrown As a sign of the victory of socialism in the ground in front of Lenin's mausoleum in 1945

At the end of the writing, comrades borrow a Chinese Communist Party(KKP)and their estimates that the great anti -fascist war shows the vitality of the socialist system, imperialism today is wars Source, people decide and weapons and imperialism are a paper tiger. To overcome imperialist attackers is the revolutionary of the people troops become uniform in all countries and thus form In the battle of the most extensive international co -front of the world The main enemy of the peoples Vatata. The comrades of the writing decide on these words: "With the rifles of a glorious red army, Nazi Germany crushed, socialism And the dictatorship of the proletariat was erected in East Germany. The fact that The red flag of the communist party and SNTL fluttered Germany's dark and the ruined parliamentary house(Reichstag)on the roof, there is undoubtedly a great moment for international proletariat. That moment symbolizes the whole memoir heroic and glorious battle against fascism, the Soviet Union defending and developing a proletarian world revolution. The words of Comrade Dimitrov: 'We create a Soviet Germany!' Who he said In the Leipzig trial in front of the Nazi jurisdiction, full in a large in the profit. "

The red flag flies at the German Parliament in May 1945.
