Britain is currently paralyzed by hundreds of thousands of workers' strikes with the public sector. At the same time, protests are taking place over the whole country against the government.

More than 23,000 schools in the country will close when more than 100,000 teachers go on strike in England and Wales.

Teachers' strikes hit broadly because another purpose, in addition to civil education for the bourgeoisie, is that schools act as day care institutions Breeding from proletarian families. Without a place to send children to the work hours, people must seek alternatives to get their children cared for. It is reported that some family members will take time off, which is also evidenced by other areas of production in the country.

At the same time as the teachers' strike, university lecturers, drivers, bus drivers and security guards work on requirements for higher wages, better pension and job security.

In addition, several mass strikes are expected later this month, as tens of thousands of ambulance rescuers across the country go on strike on February 10 as a result of a long -term dispute for higher wages and more staff.

The strikes and protests also take place against Prime Minister Rishi Sunak OGHan's government's new strike breaking law, which should make it possible to fire workers who, under strike, do not perform a 'minimum service', ie. Not

least partly works underlining. Rishi Oghan's government tries in vain to follow in the footsteps of Margaret Thatcher's footsteps, as strikers as they themselves admit the problems that the proletariat organization brings them.

The British trade unions' national organization TUC points out that the British get the same as the equivalent of 1700 kroner less a month today, even ten years ago.

At the end of last year, more than 100,000 British nurses launched nationwide strikes, divided into 76 public hospitals, Sunhedscenters, which initiated the first national nurse strike the country ever has seen. The demands of the strike are similar to those of the nurses in Danmarkkbage in 2021, with requirements for, among other things, higher pay.

We see how the crisis of imperialism, which is carried by the proletariat, pushes the proletariat into battle and opposition to the attacks of our rights. The proletariat looks through the imperialist bourgeoisie lies and fears as they try to spread about the imperialist war while deeper and attack the proletariat's rights in The name of "Defense Relief-Europe".

By a commentator for the Earn Folket Media.

The debate continues in and around the party Red, which has so far held a steady no to Norwegian weapons to the Zelenskiy government. For Norwegian weapons shipments, this is of little significance, for the rest of the Storting supports the government in this matter, but for Red the question is still important.

Central Board Synne Høyforslett Bjørbakk from the Red Party Party candidate for the county council elections in Nordland and a member of the Government Defense Commission. The newspaper Klassekampen writes that she disagrees with large parts of the party leadership in the view of Norwegian weapons to Ukraine. The controversy issue will be decided at the Red National Meeting held in Stavanger in late April.

The Government has just chosen to send lephard tanks, like several other European countries. Bjørbakk is concerned that the escalation may be scaling down the war and that a dangerous situation will be even more dangerous. She

says the tension can increase in the northern areas and that Norway is not served with it.

She says to the Class Fight: "Maybe Ukraine closes. But the war can also end very badly in the sense that the war escalates beyond Ukraine, and core weapons are used. I think the political debate, and at least last week, take too lightly on the seriousness of the situation. I lack a critical officity that questions whether other other action options are to send more weapons. " Bjørbakk is also clear that the war can be bly, regardless of whether Norway sends weapons or not.

Bjørbakk states that Ukraine leads a legitimate defense war and that party supports this, but that the war also has a "geopolitical side". She refers to Russian scientist Cecilie Hellestveit and her analysis of the war as "Enland War on Sea", where Russia sees it as crucial to have control of Haveti north and in the south(Svarthavet)To resist the US and China pressure, and that USA and have their interests. The Red Central Board says the war in Ukraine is special because it has the potential to escalate beyond Ukraine and become a single war war.

Finally, she states that she does not want a new party, and does not agree with Desom says this is necessary if Red says yes to weapons. She and several other hares signaled this attitude, and so it looks like it is unlikely to happen, or that if it happens, it will be a relatively small peel.

In short, the people of the media are: Russian imperialism Har attack Ukraine, the Ukrainian nation leads a legitimate liberation struggle, Somvi supports without reservation. Zelelskiy's regime is the result of the "orange revolution" and Euromaidan, where, among other things, fascist paramilitary and Yankee imperialism was eventually heavily involved. Zelelskiy is a lackeys to mainly the United States, and does not represent the interests of the Ukrainian nation. US-Nato's support for its Lakei is not in the Ukrainian nation interest. The main thing for anti-imperialists in Norway is to combat Russian imperialism's war of attack and support the Ukrainian people, without becoming a sub-US-NATO and Norwegian imperialism's war efforts.

PC February 4 - Airaudo is looking for new outlets for the union (Fiom) by strengthening the class collaboration line

We publish excerpts of an interview with Airaudo Secretary of the CGIL Piedmont

Airaudo: "Now our struggle is also teaming with the top managers" The reconfirmed secretary of the CGIL of Piedmont: "The union must be the economic agenda"

«I have not invited the top managers of Michelin and Lavazza and vice president of the Turin industrialists to our congress because I became becoming. But because I believe that the union cannot limit itself to managing the crises but must become the protagonist of the exocial economic agenda of a territory ». **Giorgio Airaudo today will be reconfirmed secretariate of the CGIL of Piedmont .**

An unusual choice to open a CGIL congress by hosting the topmanager. "Far from it. First we talked about peace with Luciana Castellina and the delegates of Lavorocon. The top managers were there with us because there are no more luoghidove to be able to establish **a common work agenda** ».

In what sense are the places of debate lack? "Once there was Fiat who regulated and managed everything. Then certain routes came to the lounges. Today there is nothing more in Piedmont. The problems are we have to find a way to face them and solve them together ».

Companies then focus on flexibility. "This has been an emergency for many years. In Italy we have 45 methods of entry into the world of work, in Spain they have reduced Adue and in fact create jobs. Among other things, Madrid has just adapted salaries to the cost of living, raising the wages of 8 percent. We do not even do not manage to manage the health crisis ».

Do you need more public investments? "Certainly. The Piedmontese health is strict. We managed with extreme effort to stabilize a thousand nurses but it is too little especially for a region that aged. "

In fact, today CGIL speaks more about health than Mirafiori. Is it a sign deitempi? «We also talked about Mirafiori. I asked the Albertocirio governor on the agreement between the Region and Stellantis on the RECYCLING HUB of the Fabbitarinese. It is a reserved agreement that we know nothing about. And among others from which the union was unexpectedly excluded ».

Marco Valbuena | Chief Information Officer | Communist Party Of The Philippines

February 4, 2023

As expected, the Marcos government declared its refusal to cooperate with the International Criminal Court (ICC) in its plan to commence pretrial investigation into the charges of crimes against humanity against Rodrigo Duterte over his sham “war on drugs” during his time in Malacañang.

Marcos and his minions are Duterte’s veritable defense lawyers. They are using the people’s money and the entire Philippine government to stop any and all effort to make Duterte account for the killing of more than 30,000 people during the violent spree of police and vigilante operations which he ordered and incited.

Marcos falsely declares “confidence in the fully functional domestic judicial system” which clearly has failed to address the aspirations for justice of the tens of thousands of families clearly who fell victim to Duterte’s carnage.

In Duterte’s defense, the Marcos government hypocritically invokes sovereignty to stop the ICC from performing its sworn duty as an international

body that closely works with the United Nations and other widely recognized multilateral agencies.

Marcos and his minions have the least credibility to talk of defending sovereignty in the face of its continuing failure to assert the country's maritime rights in the West Philippine Sea as recognized by the 2016 decision of the International Arbitral Tribunal.

What defending sovereignty is Marcos talking about when he has not lifted a finger to end the Mutual Defense Treaty and unequal military treaties with the United States, and in fact, has acceded to the US plan to construct more military bases and facilities in AFP camps under the Enhanced Defense Cooperation Agreement (EDCA).

The Filipino people must oppose the Marcos government's refusal to cooperate with the ICC, and push the demand for exposing the entire truth about the bogus "war on drugs," and for Duterte to be punished for all his crimes.

Maule, Chile: Detachment acts in rural campesin areas. Various agitation and propaganda actions have carried out revolutionaries/Asen different parts of the Curican province, especially in rural corner zones.

Being full seasonal harvest season, the call to the temporary/asa to fight has been a constant in the face of systematic abuse that patterns and contractors have perpetuated agricultural workers in a season 2022-2023 marked by low salaries, strenuous Work days and denial of rights and basic elements of personal protection. An elaboratedinfography had a good reception between the peasant and temps masses where labor exploitation is evidenced with scientific data:

TEMPORERO/A: DEFIENDE TUS DERECHOS

Cosas importantes que debes saber:

NOSOTR@S CREAMOS RIQUEZA

La cosecha de frutas (cerezas, arándanos, uva, etc) es de las actividades que más dinero deja al país: \$16.000 millones de dólares en 2020.

1.

2.

¡EXTREMA DIFERENCIA!

En promedio por kilo de frutas (cereza) los patrones ganan \$3.320 pesos (92,7%) mientras que quién cosecha gana alrededor de \$260 (7,3%)

92.7 %

CONDICIONES DE TRABAJO

Los sueldos deben subir y las condiciones mejorar. **Tenemos derecho a tener:** Agua Potable, Baños limpios, Elementos de Protección Personal, Contratos y Pago de Imposiciones

3.

4.

BASTA DE ABUSOS

No sólo los patrones de los fundos abusan. Los/as contratistas se adueñan del trabajo ajeno y casi sin trabajar.

5.

¿CÓMO CONQUISTAR LOS DERECHOS?

Organizándose: 1. Hablar sobre los problemas 2. Comparar trabajos anteriores y el actual 3. Intercambiar opiniones 4. Luchar: Puede ser parando, movilizando o más.

6.

¡HAY EJEMPLOS DE VICTORIAS!

En Noviembre, cientos de temporeros se organizaron en Melipilla parando decenas de furgones, exigiendo mejores pagos y realizando acciones de sabotaje en los fundos: ¡Los Patrones fueron obligados a aceptar!

Together with this material, detachments have opened in the Maullamando region to fight:

--- Rayado mural in Villa el Sol, Hualañé

--- Rayado mural in Limávida, Curecept [--- Rayado Mural in Constantué, Curecept

In addition, in the face of the crisis of imperialism, in our country the Opportunistic Government sells Patria of Gabriel Boric(Frente Amplio) In collusion with the recessionism of the false Communist Party of Teillier-Vallejos-Carmona, applying the imperialist plans, especially those dictated by Losyankis who through the International Monetary Fund(FMI) They discharge Iacrisis on the shoulders of the people who live in Chile, especially in the poor and temporary corner, where inflation in mid -2022 alleged 14.1%.

The price increase such as food, construction and fuel materials that, despite the latter having a slight low these weeks, does not mean a real and lasting improvement for the life of the masses.

For that reason, scratches were also made against the increases and repudiating alacual government of the old state of Chile: The proposed path is that of the organization and the struggle for a new democracy, where the people conquered their rights, especially the struggle for land that will be specified by developing the agrarian revolution as part of the Camino to end the old semi -

feudal, semicolonial society, where sedosenvuelve a bureaucratic capitalism; Precisely the 3 mountains that we must see.

In Hamburg gathered on Saturday, 04 . February 2023 Revolutionaries, anti - imperialists and masses from different countries to demonstrate against the short massacre and bombing of the bombing of Israel against the Palastinianish people. In speech, the brief attacks on the Gaza Strip and the military surgery in Dschenin, in which 10 Palastinians were murdered, were sharply condemned. In addition, there have been several departments in different prisons in the past few days, many prisoners relocated, prevented any art of visits and blocked a large number of prisoners in solitary confinement. AM31. January 2023, the prison behavior stormed the Al-Damoon prison and the main female prisoner.

This crime was also made aware of this crime at the rally. In addition, the criminalization of the Palastinian movement was also discussed here in the FRG, since the Berlin state government again wants to ban all meetings of Amnakba. Different internationalist and anti -imperialist organizations, as well as Arab masses, spoke to express their class hatred against the insignificance of the Palastinian people.

There was a climate of connection and solidarity among the passers -by who passed the rally. Many joined the rally, shouted slogans or began to dance to the revolutionary music that was played. Also called from the other side of the streets such as "Free, Free Palastine!" And greeted the rally with a raised fist. This shows that the struggle of Despalatinensian people can also be run here in the FRG, has to be carried out. shows that.

On March 8, we want to be an important avant-garde, opposition, strong, visible, visible women against the masters, the reactionary we have, clerical-fascist, with the characters within it declaredlysexists. We have already done this on November 26th, but **March 8 èsciopero!And with the strike, starting from the jobs, we say clearly that it deals with a class struggle, a clash between the barbarism of this social quest and our bi/dream that our whole life must change.** and in this We women, who are doubly exploited, doubly oppressed, when we fight we have an extra gear, because we want not to the miserable and more increasingly impossible improvements but we want the revolution!

Meloni's government raised the black flag of "god, homeland, family" ... and children, because women are "weighed" and can only receive elastic on the basis of the number of children they have and who do for IICapitale and today For the imperialist war, and prepares to attack the abortion, which always accompanies the double oppression and the Middle Ages for women. Today this black flag is the useful ideology for imposing misery, war, attack on work, with the inevitable increase in deifeminicides.

This is why this March 8, in these women's strike we must say Chiaroper what we fight. We do not want a "radical transformation of the capitalist system", we want its reversal!Not to be able to equity, ecological transition that respects the environment and of the existences, equitable distribution, etc. etc. To those who every day at the maximon conferences, in the Assizes do "bla, blah, blah"(come dice Greta)And then in the facts it takes our lives.

We must bring and fight for a platform that arises from the struggles of the workers, precarious workers, unemployed, women of the squares. This is the platform that we also propose in this assembly(*nota*)Today the workers say that they no longer do it for the workload, lepening conditions at work and out of work, in homes. And some stannogy 'transforming this cry on a strike, fight. An important example, also for the other workers, are **the workers of the Beretta** , which by organizing them directly a assembly at the end of October, an assembly, managed directly by the workers, launch a message of the diproagonism, unity, does not delegate, towards The other women, workers.

And on February 23 there will be a new assembly, this time electronic, to organize the strike of 8 March on the workplace, to which we call to be there.

MFPR

_ We get that the Slai Cobas for the class union has already independently the women's strike, open to all workers, of the 8marzo. This notice unions covers all workers, also to other unions or not registered ._

We denounce the low -rare slaughter that the Brazilian reaction of the Área Tiago Campin Dos Santos, in which they shot on three army farmers, tortured and murdered them at the cruelest, and the terror that she is at the poor farmers who have divided life there. This ambitious, dirty and brutal anti-folk crimes of the Brazilian state fulfills us with the deepest class hatred and

can only strongly evaporate and destroy our struggle against imperialism and declaration. The dead continue to live, not only in the fight of the Brazilian people, but in the struggle of the international proletariat and the people of the world. —

Massaker in Nova Mutum/Ro: New reports denounce torture and injuries to the right to rectify the attack of the military police

Raniel Barbosa Laurindo(bekannt als "Mandruv a"), 24 years old, and Rodrigohawerroth(bekannt als "Estado"), 34 years old, were murdered after Sievon had been tortured by the Rondonia military police. Photo: and database

On the morning of January 28th, in the middle of Saturday, the special effort battalion murdered(BOPE)the military police(PM)from Rondonia twin farmers and terrorized more than 100 families(300 Bauern)in a new attack that affected part of the Tiago Campin Dos Santos Inrondonia farmers. On January 31. the Bralisian Association of the People - Gabriel Pimenta(Abrapo)a report and the

league of such farmers(LCP)from Westamazonia a message about the massacre. In thebeiden documents, the figs and terrorist actions in the third attack have been extended since the occupation in 2020.

The brutal attack on the peasant families occurred during a fitting campaign at the location of the farm in Norbrasil. Three Battalion Leader fell on January 28th. with dozens of vehicles and drones. Dierectionaries Militars shot on three farmers, attacked hundreds of farmers and robbed them of their belongings. Two of the workers died after they were tortured. Marcos Rocha, the governor of the state, is denounced by the LCP because he stands on the side of the Landruberian Large landowners. The peasant movement also confirms that the operation served to defend the "privileges and illegal interests of Galovelho".

The gruesome massacre, which was displaced by the military police, the order murder DesgouerVerneur, Colonel Marcos Rocha, took place in the Área Tiago Campindos Santos, which belongs to the farms Arco-Iris and Norbrasil.

LautaBrapo is the alleged owner of this basic stucco the Lemeemprendimentos company, which is located to landowner Antonio Martins. "Galo Velho", as he is called in the region, is listed in the "Weißbuch des Landrubs" as a major large farm maker in the country, against which the civil and federal police together with the Ministry for publicly matters, because it finances the armed in the region, the land robbery and the displacement of farmers.

The three peasants were brought up alive by the police, but two of them were executed without further ado after severe torture. In the Abrapo report, "The farmers who surrendered were tortured to see the trace of their characters, with Rodrigo bruises on the body and the face of rifle pistons, a cut in the mouth, a cut-out eye and a cut tongue". Abrapo explains that this information is not certain in the corpse report(einDokument, fur das die Abteilung fur offentliche Sicherheit der Landesregierung von Rondonia zustandig ist).

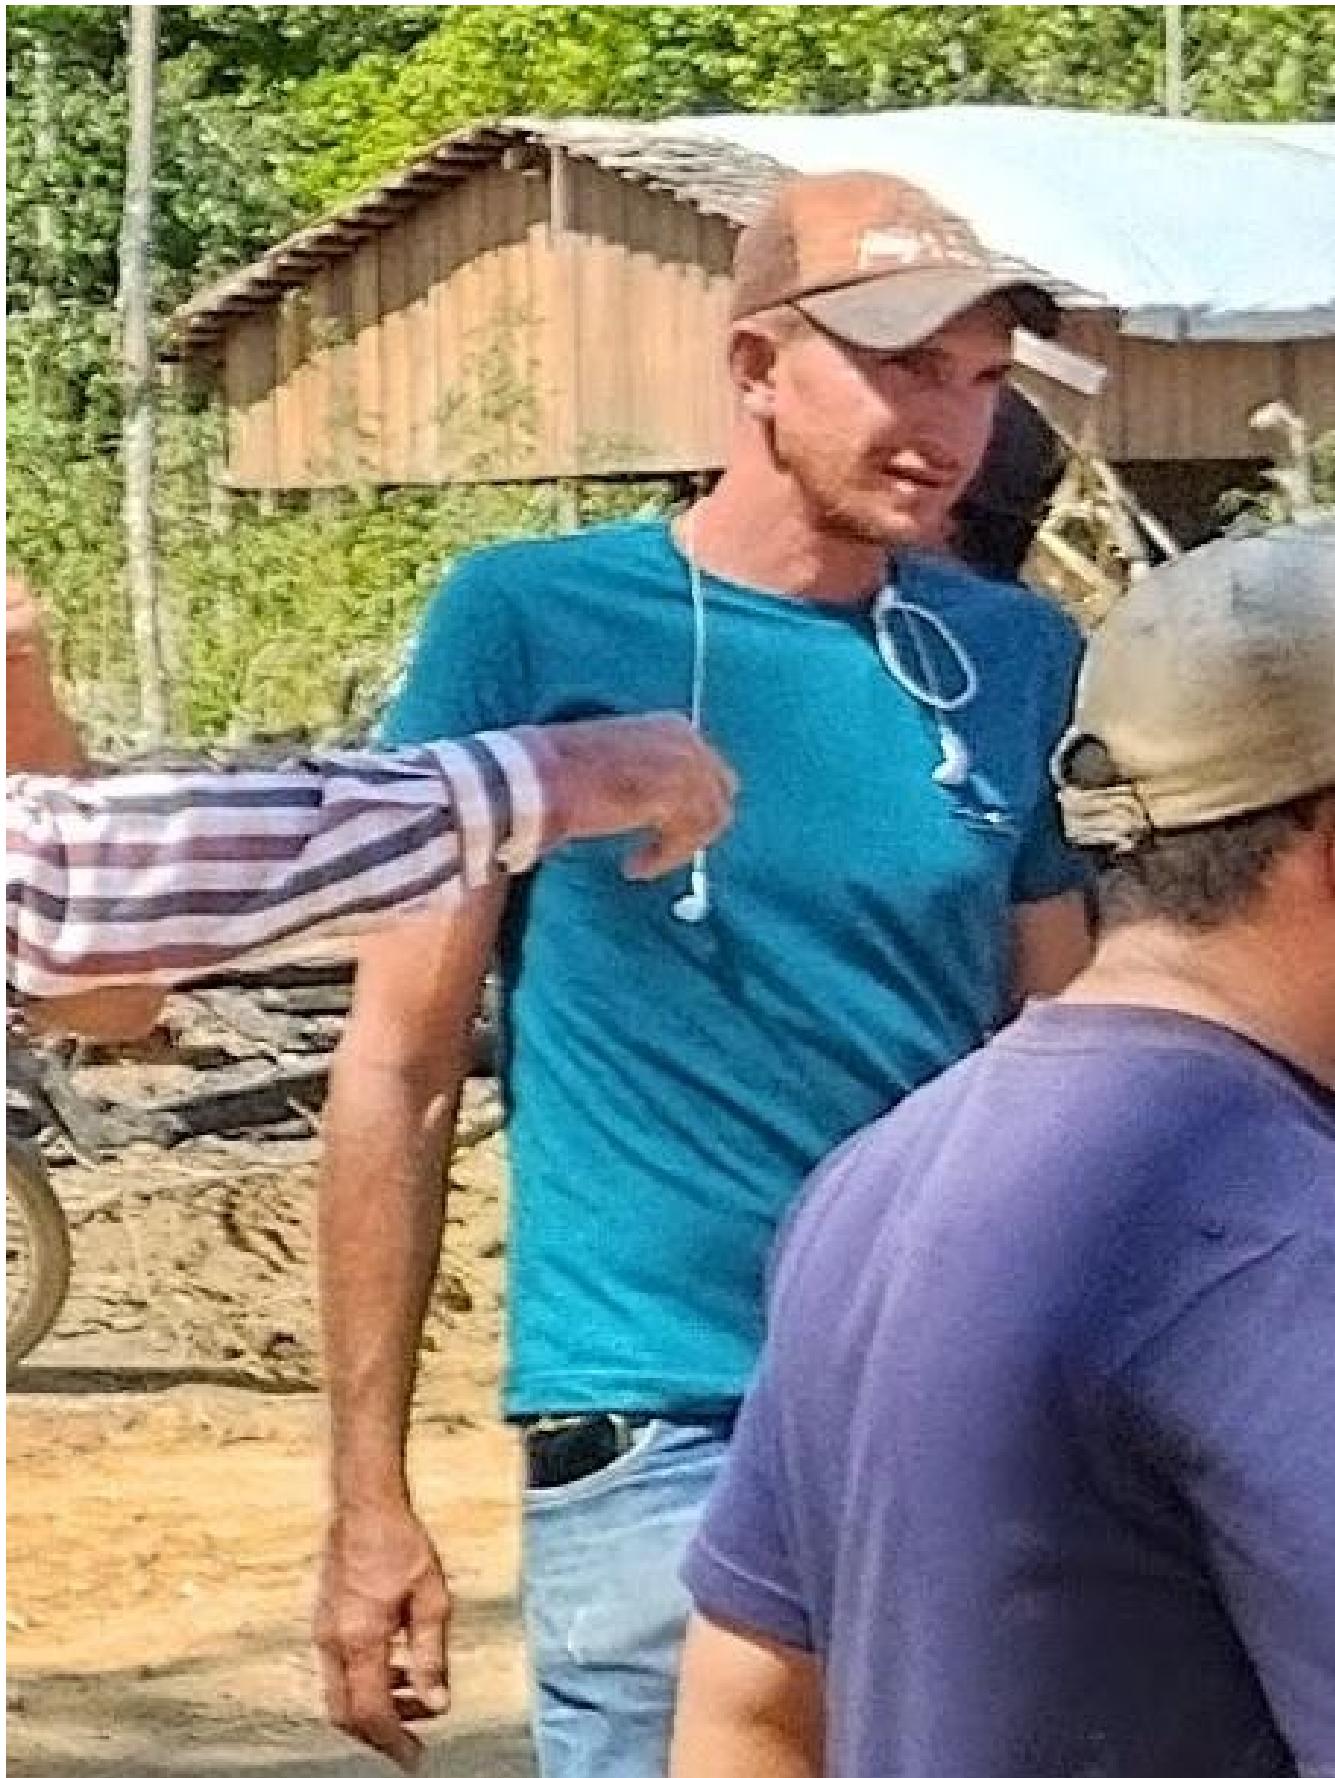

After this attack, the police began the siege of families, the Maquinas in Barraoo, at the location of the farm. The families of present tried to return to the river, but were prevented from doing so by the reactionary militar. The farmers defended themselves and called that women, including pregnant women, and children in the place of the place, which was ignored by the military police, who

immediately started to "shoot rubber bullets and throw fire bombs, with children getting stripping and shortness of breath", it says in the report.

The farmers claim that the police officers all had no ID on their uniforms and were accompanied by "Pistoleiros" of the farm. The troops' commanders(Oberstleutnant Pontes)insulted the farmers as criminals and the reactionary militar explained that it was about "all dead". The families defended themselves against the attempt to put them into a bus without informing them about their goal and were beaten again. Dazing grenades were thrown and the families went back, this time the BR-364 street side(vor dem Bauernhof). And they stayed there in the scorching sun, without access to water or food. A farmer was admitted to the same hospital because of a heart attack. Many were injured and had shortness of breath due to the Tranengas. Women falls faint and children were licked out without food.

Only a few farmers managed to get permission to get a sack with clothes out of the hat. The rest of the clothing, food, freezer with food, gas bottles, mobile phones, mattresses, medication and other personal objects were not approved. The owners of the farmers remained in the croissants who were from the police ceremony. The farmers complained to the lawyers that they saw how the reactionary militars their belongings(Handys und Geld)Stahlen. In addition, the police also poisoned dogs and contaminated water fountain and photographed the farmers who were on site. In the late afternoon of January 29th. The families left the place and went to Freitas, which is located in the Área Tiago Campin dos Santos, according to the report, the farmers showed themselves "very nicely decusty and the way the military police were to protect the Latish".

Communist international([ci-ic.org])(<https://ci-ic.org/>)(SNTL)The red army of workers and peasants from Nazi Germany and its allies in Stalingrad in 1943. The victory of the battle of Stalingrad was a historical turning point in the World War, but it was also a significant turning point in the entire history of humanity, a major milestone in the proverbal worldview process. Original writing can be read in English [here](#) and in Spanish [here](#) .

In writing, comrades emphasize how the International Communist Association(KKL)has taken the chairman Mao's position in relation to the role of Comrade Stalin. He was a great Marxist-Leninist who once systematically and played a decisive role in World War II to victory in socialism. In addition, when it comes to comrade Stalin, he does not forget his leadership at the Communist International Settle Congress, which laid the basis for successfully developing a joint front during World War II. Due to the work of that front, after World War II, the proletariat dictatorships won in several European countries, while Albania, Bulgaria, Yugoslavia, German Democratic Republic, Poland, Romania, Czechoslovakia and Hungary, later, were also in the leadership of the People's President.

The article also states that Chairman Mao is a struggle for the battle of all humanity in the history of all humanity. According to him, this battle should not only be seen between the Soviet Union and the Nazi Germany, as the Soviet Union won a war against Nazi Germany and its allies, under the great leadership of the great leadership of Toveristalin. In total, World War II by paying 25 million Soviet citizens. This great anti -fascist warfare for a very important source of inspiration for justified freedom in the multi -borne countries in the third world.

**ВПЕРЕД, ЗА РАЗГРОМ НЕМЕЦКИХ
ЗЛУЧАТЕЛЬНО И МОГИЛЫС ИУ ЧУ**

The picture shows a poster shared in the Soviet Union at the beginning of World War II. Text: "Let's move forward, destroy German attackers and throw them away from our country!"

The comrades borrow in the article on the commandment of the Mover Stalin, published on July 28, "[Not for step -by -step](#)". In order to defend the Soviet People's increasing efforts to defend the Socialist Fatherland. The Soviet Union is not a desert, but people - workers, farmers, intellectuals, fathers and mothers, wives, brothers and children. An area whose enemy has taken over from the Federation of Family and what the enemy wants to hijacks is bread for jams for the army and civilians, iron and fuel industry, factories and equipment that delivers weapons to the army; This also means railways. After lost in Ukraine, the Belarus, the Baltic States, the Donetsk Pool and the other large areas, we have been a lot of people, bread, metals, factories and production facilities. We leave the enemy to strengthen them, weaken us again, our defense and our homeland ... Therefore, a discussion of an endless withdrawal that we have large areas that our country is large and rich, that we have a huge population to distribute. These discussions are harmful times as they weaken us and strengthen the enemy. If you are not retreating, we will be left without bread, fuel, metal, raw materials, factories and railways ... This means it's time to stop. No more step back!This is our slogan on this ethnic.

Nazi Germany's military forces with allies (Italia, Romania, Unkari sekä ukrainalaiset Bandera-rotat ja espanjalaiset francoiset "vapaaehtoiset") attacked Stalingrad's city on August 23, 1942. With the conquest of the city, the fasis seek to build a station, to attack the oil fields of the peripheral casual and to cut the Volga traffic routes. City conquest was also important for fascists because it was made up of a lot of Soviet military equipment and about 70 % of the oil used by the city. The city's dwarf is also illustrated by the fact that the city was named after Comrade Stalin.

The picture shows the Red Army fighters in the last battle of Stalingrad in 1943.

At the beginning of the Battle of Stalingrad, the 6th Army of the Fascists conquered the great area of the city, but Operation of Comrade Stalin and Marshal Georgi Žukov was re-arranged in Soviet troops. Operation Uranus began on 19 November 1942. On that day, north of Stalingrad attacked the Red Army 24th Army and the 66th Army as a task to tie the fascists to their position so that the Nazis can retreat over the Don. To the northwest of the city, the 5th Army Army and the 21st Army of the Romanian fascist team attacked, crushing them perfectly in the evening of the operation. Also the next day (20.11) Red Army Roll Show in the south side of the Romanian Stalingrad front. Due to the successful operation of Uranus, hundreds of thousands of Nazi German soldiers remained in the motto in the city of Stalingrad, almost nasty maintenance connections. From now on, the Soviet conquest town of the Soviet wanderers back from the anesthetics from the apartment, house from the house and street street, liberating the city fascists on February 2, 1943. It will disappear the war and thus some of Finland's politicians lead to seek negotiating connections to the Allies to get peace of mind with SNTL.

The red flag is fluttering in Stalingrad as a sign of victory on February 2, 1943

The article also emphasizes that the attack of Nazi Germany and its allies involved in the staling radiation struggle was a gigantic motists from fascists. 75 percent of Wehrmacht's flights were attended by millions of soldiers as an example of Stalingrad's fall until 1942 until 1943. Nonetheless, the Red Army clarified the battle as a winner under the great leadership of Comrade Stalin. In addition, the tactics of the country burned in the Soviet people during the use of the use of the Soviet people and the organizational partisan troops for organizational fascists. As he retreated, the Red Army burned all the fields and blasted the factories and buildings, so that there was nothing more than the ruins and empty fields of the buildings. It was a surprise to the fascists that the spirit of socialism was such as such efforts. The comrades also noted in their writing website that Stalingrad's Battle as a proof of evidence that people in war do not decide on weapons.

The picture shows the surrender of the Red Army who fought in the fascists. Nazi Germany and its allies lost 850,000 soldiers from Stalingrad's battle estimate fallen, wounded or imprisoned, with 400,000 German, 200,000 Romanians, 130,000 Italian and 120,000-bun.

Comrades wrote that the Soviet people were aware of the proletariat at the horizontal of dictatorship, the revolution was at stake. This collective awareness guaranteed that the fascists' backs received large partisan troops with rifles, hand grenades and explosives to destroy the enemy and to disturb it, for example, by destruction of the railways. This was not a simple choice, as partisans always waited for death if they were left in the fascist's nails.

In the picture, young Soviet citizens who serve as weapons and ammunition carriers in their hometown Stalingrad. The weapons and ammunition are emergence from fascists.

In the picture, the painting from the moment when the Nazi German swastika tickets were thrown to the ground in front of Lenin's mausoleum in 1945 as a sign of victory

At the end of the writing, comrades borrow a Chinese Communist Party(KKP) Yeah, the estimates that the great anti-fascist war shows the vitality of the point of view of socialist system, imperialism is now a source of war, people and imperialism, and imperialism is not a paper tier. The comrades of the writing decide to these words: "With the glorious red army's rifles, Nazi Germany was crushed, the dictatorship of the socialist proletariat was erected in East Germany. The fact that the Communist Party and SNTL's red flag fluttered by the German dark jaraun(Reichstag)On the roof, there is undoubtedly a great time for a moment -intermediate proletariat. That moment symbolizes the whole memorable and glorious struggle against fascism, for Soviet defense and the development of the proletarian world revolution. The Words of the Soviet Germany!"

The red flag flies at the German Parliament in May 1945.

The PCR Salteño commemorated his anniversary No. 55. With the presence of Sergio «Bear» Leavy, Walter Wayar, Diego Arroyo, Fidel Puggioni and social leaders, union and militants, with a filled Sutiaga, the speakers denounced lacrisis that crosses the province, The progress of the right and agreed to find a wide front that achieves the unity of the popular field. Lamilitancia asked for Veronica Caliva Governor and rejected "the three fronts of the right": JXC, let's move forward and the provincial ruling.

The meeting was dyed for the recent game of **Héctor "Pancho" Quispe**, who died days ago, "an essential comrade for the revolutionary struggle," said those present. The farewell that sealed an emotional applause in tribute brought the memory of other comrades, such as **Oscar Monzón** and **Otto Vargas**.

In front of more than 200 people, the main table was headed by the PCR Political Secretary, **Alberto Rex González**; **Raúl Arce**, San Martín coordinator; **Nelson Salazar**, coordinator of the Valle Dellerma, **Rafael Ruiz** and the National Deputy for the Front of All and President of the Labor and People Party, **Verónica Caliva**.

With crucial days for definitions and political agreements, the act was the Motivo for renowned leaders to coincide in time and space. Among them was the president of the Victoria and Senatornational Party, **Sergio "Bear" Leavy**;

Walter Wayar , **of which definitions about the electoral strategy that will assume for the next elections are expected.** Daniel Escotorín, ** President of the Popular Unit and one of the referents of the Electoral Alliance "Salta to Live well", who had leaders from other parties and organizations, although he did not become present, he sent his greeting. The speeches did not escape this electoral logic, but they also portrayed a scenario of crisis on the provincial situation, the progress of the right, the challenges on national management and the coincidences in channeling an alternative project to the fronts that are already secreted.

— "We have great struggles and challenges, it is not only in the electoral, this we have many struggles," Arce warned, a reference of the clacastist and combative current. The leader explained _ "the adjustment to the one that forces us Elfmi" _, for " _a scam contracted by macrismo" _ and detailed the situation in the interior of the province, marked by poverty, the water crisis and exorbitant invoices in the rate Electric

_ "The right comes against social organizations" _, Salazar said and analyzed the situation of the Program Power, which had complications in this last time. He highlighted the presence of the political leaders and remarked that _ "Estrada armed a list to get out of the right"; "We campaigned for two national deputations to enter; It betrays us with that assembly and we don't want more of the same, "he said.

In turn, **** Irene Cari, president of the Women's Forum, referred to the Lamilitancia of women and indigenous people and assured: _ "They are killing us, it is time to hold the machines and discuss the policies that our nations want" _. On the other hand, he claimed: "The retrograde space of the Deviolence Observatory against women has not allowed me In reference to the Queganó contest to be the representative of the organizations in the board of the OVM, a position that he could not yet assume.

On the other hand, the Walter Wayar slapping referred to the electoral issue, he established the unit. _ "The popular field has to unite behind a political project and not running as an unfortunate one where we can get two or two less, because that perhaps solves an economic problem to a family, but not the problems of the province" _ ...

The president of Kolina, Diego Arroyo, warned that many "underestimate" this political designer; “ _Subestimate that we have the ability to manage, to think about people, that we cannot handle a ministry, but today they are all the silver of the national government, 80% of a budget are lined to the province, and where are the works? ”, _ Claimed. He celebrated that Hoyel the Front of all has national and provincial legislators and pointed out that _ "that scares him." Then Senator Sergio Leavy **** revalidated the contribution of social organizations and took advantage of the time to refer to the electoral fronts that are consolidated, as we advance, together for the change and the legal officialism, and of the three it distanced itself. _ "The only way to get ahead Escon struggles and fight", said the president of the PV. He stressed that they already work in a government plan and was critical of provincial management. Ahead of it the possibility of converging in an Electoral Front, he said about the PCR and ELPTP.

Subsequently, the political secretary, Alberto Rex González, better known as "The Professor," explained the international and regional scenario in which the situation was marked, and toured historical moments of the country to understand its current reality. _ "In these elections we are going to face as much as possible with the popular sectors, but we are clear that Solono reaches. We have to organize, we have to definitely defeat right wing. We have to make the impossible possible ", *the leader sentenced* . “ We dreamed largely and in a jump managed by the retrograde oligarchy, misogyny and macho, we aspire to have aarer and feminist governor. But that is a dream and we are not imposing it, we simply propose it ”_, he said in the middle of applause of those present, who asked for Caliva to Governor.

It should be noted that other referents and militants were also present as the councilor for La Merced, **Liliana Vilte , Estela Torres** of Lule Lule, **Fidel Puggioni** of dignity, **Marcela Gutiérrez** of Lamesa for Human Rights and **Petrona Espinoza** , President of the Central Saint Benito.

"We have to give our people a sovereign, popular, feminist andrevolutionary option"

The national deputy Verónica Caliva was the one who closed the act and reflections on the birth of the PCR in 1968 when she divided the De Argentine Communist Party, in objection to the "reformist" gaze of the latter. Throughout the speech, she referred to feminism, to the indigenous movement, the trade unionism and the incidence of these actors in Salta.

_ "There are debates in feminism and there are ideas that we have to discuss. There is no political picture that a woman in a picnic or in a popular dining room to eat people, neighbors, their children; They sew yropa backpacks because it is not enough. Those are the political paintings we need, they are pride for us. ",
The leader emphasized.

He also recalled the years of "unity" of trade unionism, when "El Negro" Monzón and Buenaventura David headed great columns of struggle. He also had the growth and work of social movements, "we have a more compromised social organization than another," he said.

_ "We are many parties that come from the revolutionary left and MANNETOS CURRENT LAS BANDERAS BY A FREASED FOUNDY" , said National Legislator. He claimed Peronism as _ "class brothers" _ and the proposed changes that led Perón and Evita. In addition, Caliva recalled Sumilitancy at age 19, _ "Traveling to Jujuy for the Route of the 'Santillán' , or _ " in Mosconi and

Tartagal fighting against poverty and the delivery of YPF and the menemist decade ", _ as well as the university militancy that mobilized students to go out to the neighborhoods.

Severely, Caliva criticized provincial management and referred to the historical, electric and gender violence, and pointed out the false promises of mining. _ "There is an elite and minority that takes everything and there is no public overlap that one can highlight after the Robertoromero government," _ pointed out.

Caliva said that everyone's front during the last years achieved_ "changing the face to power." In the same place. But we do feel by them and we want to say it, so we have the obligation to dedicate " , he said in reference to the front. Let's advance because the current government " is not going to solve Salta's problems," he said.

He also asked _ "Battle in the capital", "we cannot give it to the right, if we are a majority", _ said and also warned that in the province it is not possible to win _ "a more recalcitrant right than Sáenz's for the disaster leaves or for our mistakes. " **Correspondent**

Marco Valbuena | Chief Information Officer | Communist Party Of The Philippines

February 5, 2023

The recent visit of US Defense Sec. Lloyd Austin served to reinforce themaster-puppet relationship between the US government and the subservient Marcos regime. In exchange for new military hardware contracts and other promises, Marcos and his officials gave Austin assurances to allow the US to establish more military bases and facilities inside AFP military camps and allow "joint maritime patrols" with the US military in the South China Sea.

In doing so, Marcos is more and more allowing the Philippines to be used by the US as a launching pad for its provocations against China. He is practically

allowing the imperialist US to drag the Philippines into a war against its own interest.

By allowing the US to use the country as a base of its operations, Marcos is virtually turning the Philippines into a target of China's weapons, whether for aggression or counter-aggression.

Austin makes false assurances that the military bases and facilities being established by the US inside the military camps of the AFP are "not permanent." The US and its puppets have been using the term "rotational presence" to circumvent the prohibition of the 1987 constitution against foreign military bases.

However, the fact cannot be denied that US military forces have maintained permanent presence in the country for more than twenty years now, stationing troops from Luzon to Mindanao. The US has kept weapons and military equipment in various military bases. Naval warships of the US have regularly docked in Philippine ports and other parts of the country's waters, anytime they wish, with or without permission of the Philippine government.

Austin's visit to South Korea and the Philippines forms part of the US government's continuing strategy of preparing the war theater against China. The US geopolitical strategy is to encircle China from all sides and provoke it by undermining the One China policy, inciting subversion in Taiwan, making naval passes through the Taiwan strait and patrols in the South China Sea.

The Filipino people, together with peoples of Asia and the world, must continue to demand a stop to imperialist war mongering and an end to war preparations especially by the US. They must demand the dismantling of all US military bases and call for the removal of US and other foreign military troops in the country, as well as the dismantling of Chinese military facilities within its maritime territory.

After the Interior Minister Baden Wurttemberg, Thomas Strobl(CDU)The last turn of the year as a "normal New Year's Eve", he has completely changed his position and calls for strongererepression and surveillance against the people.

The grouping for this advance and attack on our rights is very flimsy. As an official justification, they take New Year's Eve, both not a lot has happened, which Strobl said himself. Saschabinder of the SPD accused Strobl: "Not a single case can be normal for us." The FDP MP Julia Goll spoke of 19 injuries.

The fact that someone drunk in Heidelberg with rockets on minor -year -old shot and rapid procedure was sentenced to 9 months in prison without preservation serves Jetztal's prime example of how to deal with people in the future and naturally pay all the rebellious masses and revolutionaries that come into conflicts with denBulls. There should be an official interest and maintain the state's monopoly of violence. This is the real reason: the fear of loss of control, eating the funds in order to efficiently repression on unspecific.

The grows reject the body cams first because it was filmed in innote situations and private rooms. The FDP and SPD think that rescue powers do not want cameras. Justifiably!Because mandiese creap with cameras that can be used for law enforcement and thus penetrate the private living space, they are made beneficiaries. Nothing has been voted yet, but with this dramatization the discussion is continued towards more repression and the soil for another attack on our rights is prepared.

At the garrison in L'Aquila in one of the most central squares they participated and dozens of companions. There was a good media resonance(ne hanno parlato al tg regionale sia la sera prima che il giorno stesso)

Unfortunately, time, he pulled a great wind, not helped us(abbiamo messo 20minuti solo per attaccare lo striscione e una mezz'ora prima della fine il vento lo ha strappato)interventions of those present followed, proletarian red diligencer(vedi il volantino sotto), then it was read by the so -called so -called hunger strike, and a poem for him.

Proletarian red rescue flyer **

Outside Alfredo so as 41 bis, no to the obstacle life imprisonment Save the life of Alfredo and his political identity

The anarchist prisoner Alfredo Cossitato is today on the 108th day of hunger strike against the 41 bis regime and against the life sentence.

For revolutionary political prisoners, the 41bis has a dual function, that of revenge towards those who do not regret and claim revolutionary propriating, and the cleansing of the struggles towards the outside.

Prime Minister Meloni admitted it candidly: "so it ends up at 41 by the detention during detention, he sent messages to the anarchists who were misleading" continue the fight, organize yourself ".

In the L'Aquila prison, where there is the highest number of prisoners in 41 bis and is the only one in Italy to also have a female section, the revolutionary communist prisoner Nadia Lioce is also held in the regimenti hard prison. Law in the measures that every 2 years are issued to periodically firm them the 41 bis: "The temporary temporaneeclassi of the brigatist phenomenon must be evaluated with the utmost prudence that suggest not to exclude lapped of a recovery of the armed struggle in the medium/long term, also in consideration of an overall panorama of social clashes, of an everincreasing gap of living conditions and little job opportunities".

The bourgeois state, the governments, want to impose their "prayer" inside and outside. And this today is even more evident in the crisis phase and departure to the inter-imperialist war, with a modern Meloni government that aims to change also the constitutional rights, which makes Stanel properly fascist characters, in open contrast to his own laws and that now, with the next rules of the min. Of justice(inserite nel decreto anti rave)He wants to continue to cover politicorrotti, fascists, "legal" criminality.

The same capture of Messina Denaro is used to strengthen and give again to the regime of 41bis and the obstacle life imprisonment, always putting the same mafia and terrorism plan, clearly meaning by "terrorism" the organizations, the struggles of the revolutionaries, to overturn with all Learmi This capitalist system, its state, to its governments necessary.

The repression that this state is carrying out and advances more and more to hit the social and political struggles, finds its tip of icebergs towards political prisoners; towards those who, in various ways, actually places the truth, the need for the revolutionary struggle against a state that attacks the proletarian straight, of the masses. From the most elementary and daily ones, the law, work, to salary, to health, to school, to the more general ones. Aostatato who today drags us into the war.

But on the one hand this state with repression is strong, on the other, precisely for this reason, it shows that it is afraid of the mere fact that a radical change of this society is alluded.

In this context, the provision of the state against Alfredo Cosenza must be seen, who has already served the sentence for having injured Genoa the manager of the nuclear venture and is now accused, without evidence, of an attack on the

age of the students of the Carabinieri of Fossano who Non ha causato neither deaths nor injuries. But this is considered political massacre the state and for this reason you want to segregate it for life. His guilt has been from the fact that he continues to fight with the hunger strike and in this sense is a living indication not to bend. This is to kill a person. And rightly so, in his statement of hunger strike he said: "Life does not make sense in this pervive tomb".

But the ferocity of this bourgeois state goes hand in hand with its stupidity: putting silent an anarchist has raised a stone that is falling back to him. The affair of Alfredo, with his indomitable hunger strike, was in the public domain and has aroused vast solidarity, reopening a broad debate on the torture/murderer prison, on a bourgeois state that has fulfilled for its massacres(da quelle nelle piazze a quelle sullavoro/alternanza scuola-lavoro, da quelle in mare degli immigrati, a quellenelle carceri dei detenuti)And accuses an anarchist of massacre that he has not killed.

Today this mobilization must be continued, developed even more and extended, using various means and shapes, investing every reality, from those already in sincere democratic fighting, and bringing it more and more among the popular masses, I lavoratori. Because this repression concerns all those who rebel, who fight against the existing state. Because the repression of the state on revolutionaries is the central part of the travel of class war, popular masses and masters, state, governments at the service of this exploitation, lack of work, war, misery, diatribe to civil rights and democracy itself

All solidarity are important, but we in this battle wants the solidarity that respects what the same as the so -called: "Until the end against 41bis and the life imprisonment": "Miopterrre will with all forces to forced nutrition . They will be forced to hover in bed ... to their ruthlessness and fury opposed my myphrum, tenacity and the will of a conscious anarchist and revolutionary ... ".

Our password is, therefore, "outside Alfredo so far from 41 bis, no all'orgastolo obstacle; save life and his political identity".

This is today what must be achieved in all possible ways. If we win we will have taken a step forward for the fight against this murderer StateBorghese.

Self -confocation garrison to the Court of Taranto for Alfredo Cossed - present union, political forces, committees and associations of Cittavecchia, individual workers, women.

During the garrison, where of course Digos, police, carabinieri, various interventions to the megaphone were massively present, made it possible to explain the so -called question, his battle, the movement of Solidarieta'Azionale, the reasons why it is right and necessary to remove the application del 41bis for him, as well as questioning this article as an institutional and a form of torture; But also to raise the shooting of the political to the government, ministers, state. And the thing was so chiara who caused the angry, and angry reaction of some lawyers Melonian area and notoriously reactionary characters, who have been suffered.

Good interlocution with lawyers in general that in dozens of Albanchetto came to sign the appeal: "Outside Alfredo so as a 41bis"; And a dilor made available, for legal defenses, for free.

Even many people, women, men have signed, expressing solidarity and ating the rightness of the initiative.

At the end of the garrison, two **new initiatives decided: Presidium at the Ditaranto prison Tuesday 7 at 17 - Presidium for the Prefecture on Friday 10 at 11 am.**

the employment of the students melts after five days. Via BolognaParalyzed by the boys in the procession

The occupation of the Liceo Einstein was dissolved with a procession . The students who gave birth to an event that from the school in via Bologna have articulated up to the aliceo in via Pacini are a fifty. **

Paralyzed traffic in via Bologna

Traffic paralyzed in via Bologna, closed to private vehicles in both lires and with diverted coaches. " _L 'school-work alternation of us burst. The deaths of the past months testify to it: this system does not work and sucks us" shouted the boys to the megaphone.

The students, who for five days have **give life to andinal workshops within the Institutepeatoe** , they traveled all on foot until the other school(non occupata)of the Comprehensive Institute.

Closing with an assembly at the Saragat garden

The protest that ends today is only the last in the order of " Anpercorso of struggle started last year " when 10,000 boys went down and a part of them attacked the Turin headquarters of Confindustria.

The procession ended with a **public assembly at the Saragat** garden, behind the building in via Pacini.

Conscious workers are not soldiers in the hands of the masters, but international unaclass that has nothing to lose if not the chains of the work and the historical task of building a new power in the hands of the Operai. For this perspective we must return to fight against Governoguerra and Carovita, against the worsening of the Degabbrica working conditions(salario, sicurezza, precarietà), building the workers' organization, the class union to resist and the partocomunista of the revolution to go to the attack.

Intervention at the Factory for the preparation of the proletariaticcapitalist assembly of Rome of 18 February and of the mobilization of the integralist on the days of 23-24-25 February from the blog:

Tenaris closed the third quarter with net profit of 608 million dollar revenues that have risen by 6% to almost 3 billion dollars(2,97 miliardi didollari)

For the fourth quarter, the group provides for further growth in sales, favored by the increase in deliveries for projects already in progress and by new price increases in prices, with a further recovery of the Free Cash Flow.

"The conditions in the energy sector indicate that it can be confirmed by the level of investment, with low levels of skills and stocks, uncertainty about the impact of further penalties on Russian exports and a renewed attention to energy safety in the world" - explains Tenaris - According to which "the global supplies is limited and all the diapers and signing sources will be needed to satisfy the growing question". fonte the press14-11-2022

From Lenin Socialism and war - _ the current war is a warmillist war _

_ Capitalism has developed concentration to such an extent, that entire ramidell' industry are in the hands of unions, trusts, of billionaire dicapitalist associations, _ and almost all the

globo is divided between these "gentlemen of capital", or in the form of omitted colonies the network of financial exploitation that binds with a thousand foreign ipaese threads. Free trade and competition have been replaced by the tendency to monopoly, from the usurpation of lands to use deicapital, to export raw materials, etc. As a liberator of the nations as in the fight against feudalism, capitalism, in the phase, has become the greatest oppressor of the nations. From progressive, capitalism has become reactionary; He has developed forces to such an extent, that humanity must or go to socialism or endure for years,

and perhaps for decades, the armed struggle among the "great" powers for artificial laconsering of capitalism through colonies, monopolies, hiprivilers and the national oppressions of each species.

the mobilization of the working class is central to the fight against interimperialist lagura for the profits of the masters.

a theme to be deepened in the National ProletariaticApiece National Assembly of February 18 Rome. Against the Government of the Industries of the Leonardo/ Fincantieri etc. and at the service of multinationalides energy.

follows the flyer distributed to the workers of the Tenaris Dalmine incratic to the propaganda of Padron Rocca who wants to pass as a normal imperialist lagura of division of the world of which instead the masters of themultinationals are active and decisive part *.*

Against the master's policy for workers' policy

National Anti -Anciotteistic proletarian assembly 18 February Rome

The masters need to affirm their conception of the world between llavoratori, for this reason Rocca comes to the factory to speak with the perlegitti employees as normal a capitalist system where to close or renovate factories in the world is a necessity to make profits and the war becomes an opportunity /needs to get out of the crisis in which the world systemimperialist is based on large monopolies such as Tenaris.

Padron Rocca wants to celebrate his billionaire records "together", while even those who are lucky enough to have a job are increasingly poor and exploited, with wages cut by the increases and with the collective rights transformed inpounded by the company.

The capitalist knows very well that the workers or rather the sononessari workforce for production(per fare andare le fabbriche), but on the other they are a cost and therefore for the masters it is inevitable to continue harshly to stay on the market, it is inevitable that there are the dead on the air and injuries caused by the work rhythms.

This is the ideology that guides the actions of the masters, not so much because they are sonocactive, but because it is the only way to continue existing as a classparassite class that lives on the waged work of the workers. To maintain

this political on the life of the workers, they need a state, greased, of laws that defend their class interests, making that we are all on the same boat.

So in the pandemic crisis and now in the war the masters are increasingly rich, the increasingly poorer workers, this is the law of the capital system, the increase in profits corresponds to the decrease in wages, because capitalist Il sistema is based on the opposing interests between masters Eraopei, between capital and work, exploiters and exploited.

The masters needed war to get out of the crisis in which the world imperialist Il sistema pours, the workers instead need to organize their class war to end with this system, they must put their policy field which today is a struggle for work, the salary, idiots, for another worker government.

The conscious workers are not soldiers in the hands of the masters, but a class -class that has nothing to lose except the chains of the work and the historical task of building a new power in the hands of the Operai. For this perspective we must return to fight against Governoguerra and Carovita, against the worsening of the Degabbrica working conditions(salario, sicurezza, precarietà), building the workers' organization, the class union to resist and the partocomunista of the revolution to go to the attack.

The second anti -capitalist national proletarian assembly to be held on 18 February in Rome is the concrete tool to connect and raise the struggle, from the general to the general, to center the defense of the interests of the worker, against the government that sends weapons and cuts the expense Social, struggle in factories for wage increases in the paycheck against the owners of the masters of the masters as in the Rocca case. The workers must unlike other sectors fighting in a single class front, against the Dipadron and Government front, to change the relationships of strength, and advance in the common across the capacity which is the entire system of the masters that generates, war, misery and repression that must be overcome.

By a commentator for the Earn Folket Media.

Philippine authorities open up to allow the US military to establish four new military bases in the country.

It was published in connection with the US Defense Minister of the Minister of Defense Austin's visit to the Philippines earlier this week.

The new agreement thus entails a significant extension of the so-called-enhanced Defense Cooperation Agreement(EDCA)which was entered into by the Central countries in 2014.

The Philippine authorities insist that it is not about establishment bases, but call it rather "places", so as not to get into the all -raised light on their own constitution, which prohibits other states' establishment of immilitary bases in the country.

However, the goal from the point of view of Yankee imperialism is clear, namely to stepping the military presence in the South China Sea and intensify the political and military pressure on Chinese imperialism.

The new agreement has led to demonstrations in the capital Manila Dast students and anti-imperialist activists demanding a stop on the Yankee imperialist "Military Aid" and the EDCA agreement being scrapped.

_We officers a call for a rally in Hamburg that was sent to us, and after the brief events of IMBRASILIAN state, we were added to us an addition of the "federalis against imperialist aggression". About the events in Mexico and Brazil have published information from the comrades on site: [here](#) and [here\]\(https://www.demvolkedienen.org/index.php/de/42-nachrichten/lateinamerika/7456-mitteilung-nach-der-aggression-gegen-rincon-tagolaba-tehuantepec\)](https://www.demvolkedienen.org/index.php/de/42-nachrichten/lateinamerika/7456-mitteilung-nach-der-aggression-gegen-rincon-tagolaba-tehuantepec). _

Update:

In the meantime, news from a new massacre of poor farmers in the Brazilian state of Rondonia, once again arranged by large local landowners. The "League of poor farmers"(LCP)Fights in the region for a stucco country for all arms and rural farmers from whom they can provide themselves and their families. Again and again there are massacres through the Brazilian state, the large landowners and henchmen. We therefore call all friends of the Brazilian people and Derlcp to take part in the rally and re -denounce this murders!

End to the criminalization of the struggle for ground!

rally: Wednesday, February 8, 2023 | 6pm | S-Bahn station Sternschanze

In the state of Oaxaca in the Suden Mexico, the poor farmers have been fighting against mega projects since the old state has been building in cooperation with Den imperialists. The farmers are robbed of their land so that huge wind farms can be pulled up on the ISTHMUS von Tehuantepec. In this way, Diebauer is expropriated, nature is destroyed and the population is sold.

The resistance, which the farmers have been providing for years, is answered by the Altenmexican state and its henchmen with repression and terrorist. In order to break the struggle of the farmers and the different popular movements that have taken on the task of developing resistance to die -pericalist mega projects, the state is rushing paramilitary gangs on the population. This situation has turned drastically in the last weeks. Several camphor of the people were arrested or disappeared without a trace. On January 29, 2023, armed paramilitars occupied the municipality of Rincon TagolaBedholten the residents, destroyed attachments and drinking water smoke and gifts for switching off. The national police jerked, but did nothing against the heavily armed paramilitars.

The Mexican state uses the murder gangs to work for him at the expense of the people's interests at the expense of the people at the isthmus of Vontehuantepc and there is every means. Our solidarity gilt the fighting poor farmers and the popular movements, such as the people's electricity red sun(Corriente del Pueblo Sol Rojo)that fought immuridically and ready for the necessary things and interests of the people. We demand the release of all detained camphor of the people. We call for dieso -future lively prasement of the disappeared. We are calling for an end to the repression and terror of the old Mexican state and its hand.

Assemblea Operaie

avrà luogo il 29 ottobre...

per i diritti delle operaie/famose donne
contro le discriminazioni, anziose al lavoro, ai materni,
alle scuole, ai diritti e alle dignità delle donne

LOTTA UNA, LOTTANO TUTTE!

Interventi dell'assemblea operale Beretta

un forte messaggio di unità, incoraggiamento alla lotta
a tutte le operaie e famose donne

--- i can request in pdf to: mfpr.naz@gmail.com "an important and necessary assembly that can be considered the first assembly specifically of the workers who have taken the floor; workers have already entered into action through the struggles that They make Mache in the factory have strongly placed through this assembly the need to thin, extending these struggles by connecting, joining other workers, workers who fight or who still do not struggle but would like to organize themselves, against the attacks that are suffered by masters and deigntriors who represent them and who inevitably intertwine with the more general lacons of women's life. If all struggle struggle, make every fight the struggle of all, this is the real and concrete message from other workers and workers.

This assembly of workers, who do not delegate, who take their organization in Loromani as workers and as women, who affirm the autonomy of women so that their direct protagonism is real, is a novelty in the class union landscape and in Movement of theonnas, an important stage of a path started for about two years with the experience of the Women /Workers 'Shareholders' Meeting.

(ANNUNCIAMO CHE LA PROSSIMA ASSEMBLEA DONNE/LAVORATRICI NAZIONALE IN FORMATELEMATICA SI TERRÀ IL 23 FEBBRAIO ORE 17, ALL'ODG SOPRATTUTTO LAPREPARAZIONE DELL'8 MARZO DELLE DONNE PROLETARIE)

Today this road is all the more necessary in the face of the new Meloni Nerogoverno of the most reactionary right of the bourgeoisie in power.

The struggle of the workers of Beretta (*iniziata da vari mesi, fino a quella più recente del 1 febbraio*) Increase other workers and concerns right -hand rights of working women, the right to maternity, all -sizes, against the discrimination that also exploit the dimymigrated condition of these workers, to impose worse working conditions, dislation, Serie A and Serie B workers, too, too if they do the same job.

The workers' assembly also sets on the plate the question of the march in most proletarian women, workers, workers, that is, women who organize themselves and fight, even if these struggles start from aspects that are immediate - the salary, the hours, the hours, the Health and safety -they are close to the whole condition that concerns us comedian, and therefore inevitably there is an

intertwining between the work that we do the factory and the care work that is downloaded to us totally out of the factory, in the family.

So this extra gear is necessary, in particular in this phase, to percontract the government of the owners who took office and which has different issues on the agenda, against workers' struggles, against immigrants, in the general trend of the bourgeoisie to modern fascism , that diavising in the attack on proletarian women, the workers to be exploited more in the factory for the profit of the capitalist masters. Only for Fareun Centro, one of the ministries, the Mise, the Ministry of Economic Development, is in the Ministry of Companies, that is, declaredly at the service of the Dedadroni(in senso nazionalista e corporativo); While there will be the Ministry of Family, born, equal opportunities. But which family, birth rate, equal opportunity, if the workers are attached in basic rights such as Lamaternity, while on the other side they prepare to attack the abortion/ iliDitto to the freedom of choice of us women?

We don't have to stay sun, this is what the masters want, that moreover and oppress us always tend to divide us, isolate us, to put the others, weaken us, suffocate the struggles, repress them in any formal questioning their production, that is, that of the profit cheli enriches.

So this assembly that starts from the struggle of the workers of Beretta Ditrezzo, is not alone, therefore, of Trezzo, is an assembly that concerns us all.

The ND government brings legislation to Parliament for immediate vote(τροπολογία)The exclusion of parties, coalitions of parties and persons have

been convicted of criminal activity. The debate over whether and how it can and how it can be excluded from the elections of the new Nazis Kassidiaris party has been gone.

It is obvious that what the government is really cut for is the elective percentage of the successors of the neo -Nazi, fascist, terrorist army of the Golden Dawn, and not for its reactionary, anti -labor, racist and anti -populist ideology and practice. After all, it is the ND itself that has incorporated into its series of far - right, basilica, junta and fascist executives and members. It is itself pushed to the fascism of public and political life: it hits open-ended rights and political freedoms, imposes a regime of wild-term and repression, hardens daily to deal with the acting-lacquer and youth, It is the same as giving it and legitimizes the most extreme and dark views.

So no illusion can fit into the motives of this legislative life. Because whenever the forces of the system(και ειδικά στησημερινή συγκυρία)They talk about "protection of democracy", the people must be the worst. The fact that the promoted layout is with such a physician written that it can include a wide range of left -wing policies(που θα μπορούσαν να θεωρηθούν εκτός του αστικούλεγόμενου “δημοκρατικού τόξου”), is indicative of the more overall intended system. Because one issue is the avoidance of the electoral fragmentation of bourgeois political bloc at a time that must be promoted without even more extreme, anti-populist and anti-labor policies, but even more so that it is even further restricted to those voices that have been in popular-work-workers. That Terubarbar Policy.

So, through this legislative provision, the government and the system they save want to put deeper anti -democratic "legacies". They want obstacles to the function and political action of the left -wing and especially those with communist reference. They want to reproduce the reactionary equation of fascist sermons with Tommunist ideals. They want to restore the reactionary theory of the "two - room". As is the case in several countries in the world, with a ban on communist parties and youth organizations and their symbols.

There can be no confidence in SYRIZA and PASOK, given theolithic in their government's service and the government's substantial support for the passage of the foreign and local -headed policy against the popular masses. Regardless of the manipulations they will follow, their targeting is in the ballot box and not in

the rights of Tulau and youth. It is in their attempt to display a more "democratic" profile, while they do not minimize the core of the system's attack.

Fascism crushes in the workers', popular and youth struggles. He crushes in workplaces, neighborhoods, schools and schools. Still systemicide, the native-born of the rotten capitalist-imperialist system. This is what needs to be hit, against it we must and we all be fed.

AND Weekly Editorial - The mathematics of capitulation to the militaristic reactionaries

A Nova
Democracia

EDITORIAL SEMANAL

Much noise was made when Luiz Inácio fired, on the 21st, some 80 military personnel serving at the Planalto and the then Army Commander, Júlio César de Arruda, replacing him with Tomás Miguel Ribeiro Paiva. Some, dizzy with the blind belief in the "stability" of bourgeois democracy and the country's rotten institutions, and that Yankee imperialism "will not permit a coup," went so far as to proclaim that the effective "Lula government" was being inaugurated, without the tutelage of the Armed Forces. Luiz Inácio proclaimed that he distrusted the Armed Forces, that he wanted a Cabinet of Institutional Security (GSI) without military staff, and played games for the audience that he would not accept military assistants (and soon after, would have them), in a staging that he would not submit to "military power," to try to restrict the generals' room for maneuver through isolation in public opinion.

On the 31st, "surprising" a total of zero politically aware people, Luiz Inácio nominated 122 military personnel to the GSI. The maths is clear: instead of restricting the presence of the militaries and, therefore, their influence in the government, the president of the republic increased it! Meanwhile, the press

reports that the PT president gave the army permission to prevent the Military Police of the Federal District from acting, on the night of January 8, against the encampment, at the Army Headquarters. The episode, which involved manoeuvres with tanks by the armed force to dissuade the Military Police, was approved by Luiz Inácio, in the face of pressure from the generals. As is well known, this manoeuvre was carried out so that active and reserve officers and their families could leave the camp and not be arrested.

Now, what does this reveal? That the performance of a strengthened Luiz Inácio, who makes it happen with the military, lasted less than a soap bubble, since the alleged strength attributed to the government is a chimera, an illusion. The opportunists and liberals do not see that the defence of this corrupt and permissive bourgeois democracy with all kinds of violence against the people does not move them, on the contrary, it provokes in them repulsion and, above all, distrust and anger. They pretend not to know, but they know very well that in politics the effective force are the masses, and not the notes from entities and offices, innocuous when they have no material support. But they want to believe this and try to fool the masses into believing this fantasy too.

To the extent that the government tries to restrict the coup movement with cabinet agreements and grandiloquent declarations about "democracy" - this, unknown by the great masses in their daily lives - it only makes itself inept, while the real force is increasingly with the generals (today, the troops and, now, they are playing to win over the masses, mainly the small and middle bourgeoisie and counting on the Bolsonarist evangelicals among the poor). The government is leaning towards capitulation; after all, how could it be otherwise, if since the 2018 elections they have been silent about the military's constant coup pronouncements? Not a single criticism, only appeasement! After all, what can the government of the reactionary coalition, in which the big bourgeois and landowners, servants of imperialism, exercise power? If it had a modicum of decency it would have immediately called on the masses to take to the streets in defence of threatened democratic freedoms!

Meanwhile, indigenous people are being killed, as in the horrific and criminal case against the Yanomami, and peasants are systematically slaughtered in their just struggle for land. On the morning of 28 January, police from BOPE, the Rondônia Military Police, shot peasants who were climbing into a boat to cross a river; the soldiers arrested two young people, dragged them to

adeserted place, tortured them, even cutting out the tongue of one of them, andthen executed them in cold blood. The press monopolies, the illustriouspoliticians and institutions of justice, heroes of the defence of thisdemocracy, are completely silent. This has nothing to do with your democracy,does it? The ACFA is calculating and reformulating its plans for military interventionevery day, looking for the right time to intervene, encouraging smalldestabilizations using the "green chickens" as a cannon fodder, and soonsigning new agreements with the government in which it is strengthened in therole of the mediative power [*Poder Moderador*] ; meanwhile, it is trying togain support from its Northern master and backing from public opinion to tryto crush the people's uprising the instant it raises its righteous anger.

To stop the coup in motion, it is impossible to count on the opportunistaristocracy, intoxicated by decades of conviviality in palaces of the oldstate and expectations of reigning for many more. The least that can be doneis to support the masses, mobilising them for their minimum rights, trampledon on a daily basis, through strikes, land seizures, occupation ofuniversities and schools, in a torrent of protests and revolutionarystruggles; without a drop of illusion with the democracy of the rich.
