**Centrati e superati i target: il 2022 ha registrato ricavi per 310 milioni**

**Matteo Meneghelli**

Fabbrica d'Armi, la principale spa del Gruppo Beretta, centra e supera gli obiettivi e chiude l'anno con ricavi per 310 milioni. E le previsioni per l'anno in corso sono per una tenuta dei conti, considerando anche il positivo impatto legato all'ingresso nel perimetro di gruppo delle munizioni di Ammotec, che incrementerà il portafoglio d'offerta della spa in Italia, con un contributo previsto a regime di circa il 20-30% di ricavi aggiuntivi. Il risultato del 2022, intanto, è trainato dal mercato sportivo, con un incremento del 50% rispetto all'anno scorso, con in evidenza i ricavi italiani per 21 milioni. Significative anche le performance delle altre linee, come l'abbigliamento (+18%), l'accessoristica (+30%), la ri-

cambistica (+20%). Nel dettaglio, la spa ha incrementato le vendite del 50% sia in Francia che in Germania, ed è cresciuta in Ue, Paesi nordici, Brasile, Sudafrica, Polonia. L'incremento dei volumi, complessivamente, è stato del 15%. «Sono risultati - spiega il presidente di Fabbria d'Armi, Franco Gussalli Beretta - raggiunti grazie a un grande sforzo gestionale. La domanda è stata importante, ma non sarebbe stata sufficiente a centrare questo traguardo. Abbiamo inoltre proseguito nella ricerca di nuove nicchie di mercato e di prodotto». Da questo punto di vista, è stato convincente il debutto della nuova piattaforma nell'arma lunga rigata da caccia. «Il primo anno è stato positivo, con 25mila pezzi venduti a fronte di una richiesta superiore - aggiunge Beretta -. Per questa ragione confidiamo in un'ulteriore espansione delle vendite in questo ambito, soprattutto alla luce dello sbarco dell'offerta sul mercato Usa». Ulteriore spinta sarà assicurata, per il futuro, dall'integrazione delle munizioni della neoacquisita (dalla holding Beretta) Ammotec. «È una grande opportunità - prosegue Beretta -; ora possiamo proporci co-

Stiamo lavorando all'integrazione, dovremmo registrare i primi risultati da metà anno in poi: ci aspettiamo a regime un contributo aggiuntivo sui ricavi del 20-30%. Sui conti pesa l'incremento dei costi energetici, passati da 2,8 milioni a 9,5, di cui 7,5 in elettricità. Un onere che non ha intaccato la capacità di generare valore («il dollaro forte e l'aumento dei prezzi ci hanno permesso di mantenere una marginalità soddisfacente» spiega Beretta) e di proseguire nelle politiche di investimento: 16 milioni nel 2022, 15 milioni quest'anno, di cui 9,5 in macchinari e 2,5 in progetti digitali. L'anno in corso coincide con il lancio del nuovo piano strategico, con l'obiettivo di arrivare di slancio al traguardo dei 500 anni. «Vogliamo continuare a crescere e ci sono tutti i presupposti per farlo» conclude Beretta. **To resume the 4.5 processing lines and islands control. For the unit of All of the workers of Beretta divided by precarious contracts.**

The struggle of the workers in contract for Beretta looks at all workers and to their condition. From the defense of health and workplace in factory, to unity with the other realities that fight, in participation to the National Assembly of February 18 in Rome.

Starting with the defense of health. The workers on strike have denounced 'bastards we can't take it anymore to run all day, to cold, so we only break our back' just as they came out. The new INAIL data on the strong increase in accidents and diseases Professional.

and against factory repression, made of discriminatory behavior, arrogant, anti -unionists, \_ those the 50 euros given in December as gratifies only to the workers who have not struck, \_ or leverage the double load that The workers and mothers of the factory have in the assistance to the children by example, with a real retaliation made of changes on duty and times, sudden and personalized, to put uncomfortable workers in difficulty, force them to make fatal jumps with babysitters. meravigliosi mestieri ai nuovi a tutti esauriti

With the signing of UIL, the changing contract was concluded without transparency and the guarantees claimed by the Slai Cobas Sc about the lines of processing actually passed to MPM.

The contract thus becomes the Trojan horse to remove one by one lines to the workers who are struggling in the factory with Slai Cobas Sc. They manage more to keep the rhythms of the factory. In recent weeks they are MPM workers who have been in those positions for years and years. **The contract used To hit 'SottoBanco' the workers.**

With the strike there was a participatory and self -managed by the workers press conference, significantly in front of the ATS headquarters in Trezzo, with Journalists of Milan Today, of the day, those of the Gazzetta della Martesana and of Radio Popolare and some independent ones who carry out investigations on the world of work, all involved by the protagonism of the workers, who have Started with several voices, to tell each other, to say enough, to change.

Unlike what happened so far, with the workers consumed on Beretta processing lines, put out or who have left silence, perhaps recommended by a trade unionist to accept the offer of Conciliation of the company, as inevitable.

The day of January 31, part of a **360 ° mobilization, as mentioned In the last assembly, to use with the strike, all the means available of the workers.**

## PIANETA LAVORO

### Fra proteste e nuove imprese

# Sciopero alla Beretta «È un lavoro usurante pesi da spostare E al freddo per 8 ore»

In campo una rappresentanza delle 38 dipendenti esternalizzate. Da maggio sono passate dalla vecchia cooperativa alla Mpm spa. Appalto nuovo, problemi vecchi: «Lo denunciamo a gran voce»

## Il presidio

### LA RIVENDICAZIONE

Rappresentante Rsa

«La nostra mansione implica attenzione e movimenti ripetitivi, molti di noi hanno problemi di schiena e altre patologie correlate»

**di Monica Autunno**  
TREZZO

**Otto ore di lavoro faticoso e ripetitivo al freddo, ritmi incalabri, contratti «avviliti» e salari bassi. Incertezza sul futuro e «un clima in azienda che diventa sempre più pesante». Appalto nuovo, problemi vecchi se possibile peggiori: sciopero e manifestazione sotto egida SAI Cobas, ieri mattina, davanti alla sede Ais di via Gorizia, per una rappresentanza delle 38 operarie «in appalto» del salumificio Fratelli Beretta. Dallo scorso maggio sono passate dalla vecchia cooperativa (uno degli appalti per cui l'azienda finì sotto la lente della Guardia di Finanza di Lecco nel 2022) e subì un sequestro da 4 milioni di euro, indagine ancora in corso) a un nuovo soggetto, Mpm spa. Ma i loro problemi non si sono**

mai risolti. Non è un caso che sia stato scelto, come sede del presidio, il piacere: «essere dell'Azienda sanitaria. L'aspetto salute è assolutamente centrale nelle rivendicazioni dei sindacati, che ha presentato un nuovo esposto: «Qui ci sono operarie che lavorano da molti anni, che hanno problemi sui problemi: in alcuni casi patologie lavori correlate certificate e plausibili importanti, prendono stipendi inadeguati e si vedono penalizzate "usurate": nelle assunzioni senza apparente criterio».

**Una situazione** che non deve rimanere nel silenzio. Ritrovò a mezzogiorno, dunque, per Sergio Caprini, referente SAI Cobas, e per una quindicina delle 38 addette alla fine di confrontamento, dove si corre per otto ore al giorno (oggi su due turni) per controllo automatizzato, effettuazione, confezionamento e carico bancali dei salumi. La si-

tuzione contratti il tema con la maluscola. In azienda lavorano 200 addetti circa, le operate in appalto, assunti Beretta, internati forniti da una società ad hoc, «una heterogeneità di situazioni che produce ingiustizie», così Caprini. «Tutte le donne qui presenti oggi, e anche le assenti, meriterebbero una stabilizzazione con i criteri dovuti. E non di lavorare in queste condizioni e stipendi, oggi poco più di mille euro al mese, portati a casa su vertenza. L'appalto non ha più alcun senso, lo denunciamo a gran voce».

**66**  
**Ci sono operaie che sono lì da anni e che prendono come stipendio poco più di 1.000 euro**

phe la resa Selvana Luci. «Il nostro è un lavoro usurante, implacabile, intollerabile e movimenti ripetitivi, molti di noi hanno problemi di schiena, di gambe, di braccia, tunnel carpale e altre patologie correlate. Ci sono pesi importanti da spostare. E il freddo. Si lavora a 4 gradi per otto ore al giorno, i timori per il futuro. «Nell'ultimo periodo ci parlano di un calo di commesse. Non abbiamo certezza di cosa accadrà. I riposi e le relazioni: «Spasso un riposo "forzato" viene comunicato all'ultimo. In passato quotidianamente si comunicava di più». E di coop, in operai, ne hanno «passate» parecchie. Uno «vantaggio» di pertinenza: «Prendono anche 300, 400 euro in meno». Le istanze: «Basta aspetti in azienda. Ritmi produttivi più umani. E le soluzioni. Lo denuncio degli anni scorsi devono diventare strumento per cambiare, davvero, la condizione di questi lavoratrici».

\_The yesterday's press release and change course: \_

### **Just witch hunt.**

The episode that has hit the middle and university students of Osa is serious and change course: while building popularity in solidarity ad Alfredo Cosato, against the torture of 41bis, an exaggerated - and at the limit of Ridiculous - deployment of police and carabinieri tried to enter the seat of the USB union that housed us, without a mandate, with the claim of identify students(per lo più minorenni)present.

Human and political solidarity in Alfredo Cosenza is more than legitimate and not it must be repressed, as well as the fight against 41bis, tool of torture and, Too often, revenge against those who fight against system.

The government is not only letting Alfredo die but is also raising a dangerous "witch hunt" climate against anyone who dares disagree with The injustices of our society. A witch hunt against ideas which will hit all the conflicting and democratic struggles in ours village.

It is an easy escape route, for a government that has difficulty maintaining its electoral promises and with a serious social situation in the country, create a internal enemy, the "anarchist danger" that cyclically returns to history of our country.

Democratic supervision will be maintained to avoid a further one slipping towards a police state, the struggle continues.

\_We public a call for a rally in Hamburg that us was sent. \_

In the state of Oaxaca in the Suden Mexico, the poor farmers have defended themselves since Years against mega projects that the old state in cooperation

with the Imperialists built. The farmers are stolen their land so that on the isthmus Huge wind farms can be raised by Tehuantepec. So the Farmers expropriated, nature is destroyed and the population is sold.

The resistance that the farmers have been doing for years is by the old Mexican state and its henchmen with repression and terror answered. To the struggle of farmers and the different popular movements to break the task of resisting the task against the Developing imperialist mega projects, the state rushes paramilitar Gangs on the population. This situation has in the last Weeks drastically blamed. Several camphor of the people were arrested Or disappeared without a trace. Armed armed on January 29, 2023 Paramilitars on behalf of the large property, the municipality of Rincon Tagolaba The residents threatened, destroyed places of meal and drinking water and gave the shot for recessing. The national police jerked but did nothing against the heavily armed paramilitars.

The Mexican state uses the murder gangs to work for him The interests of the imperialists at the expense of the people at the ISTMUS von Tehuantepec through and for them is right to them. *In the occasion of the 80th anniversary of the victory of the Soviet Union a Stalingrad on the Nazi -fascist invaders*

At the beginning of the winter 1942-1943 it opened on the banks of the Volga and Don one New stage of the mortal struggle against Nazifascism, entry into history like the period of the radical turning point throughout the second war world. The main merit of the realization of this turning point in favor of the anti - fascist coalition belongs to the Soviet Union. In the avid battles of 1942-1943 on the Soviet-German front yes the historical destinies not only of the Soviet people decided, but of the whole humanity.

## **1 . The defeat of the fascist troops on the Volga. The beginning of the turning point radical in the war**

The situation at the beginning of the counter -offensive of Soviet troops on Southern

In autumn 1942 the Soviet-German front, with the exception of some sectors, He stabilized throughout the line from the sea of Barents on the slopes of the Caucasus. However, the situation continued to be extremely serious for the union Soviet. Leningrad was besieged, great enemy forces continued to operate on the distant access routes to Moscow, the incessant rough Stalingrad fights always absorbed new forces, the main streets of communication with the Caucasus were interrupted. The situation on the seas was also unfavorable for the Soviet armed forces. The Baltic fleet was blocked in the eastern part of the Gulf of Finland. The Black Sea fleet, after the loss of the Crimea peninsula e of

ninotorossijsk, he was forced to lead to inadequate ports such as those of Poti, Gelendžik and Tuapse, and this hindered his actions. In more conditions The North fleet was favorable. Reinforced with ships made from the Pacific Ocean, it defended northern communications and He lent a valid help to terrestrial troops in the defense of the coast.

In autumn 1942 it became clear that the plans of the summer-autumn campaign of the Nazi command had failed. Although the German troops and theirs allies had arrived on the Volga and were on the slopes of the Caucasus, They had not achieved their main objective. The advance of the summer, about a million men had cost the Nazi Germany between killed, injured and prisoners as well as the loss of a huge amount of means and armaments.

The German Armies group "A", having met an avid resistance by the Soviet troops on the slopes of the Caucasus, he was busy in long and exhausting fights. The "B" Army Group had to get used to On a headquarters of the length of 1,300 km. In the center of the arch, of In front of Stalingrado, there were the VI armed by Von Paulus and the IV Army Hath's battleship, which fought for the conquest of the city. To theirs wings were lined up by the III and the IV Romanian armies and the VIII Italian Army, Go to the defensive. The satellite troops were weaker from the point of Military and moral view of the German ones.

The situation of the troops of the fascist attackers who were under Stalingrado and in the North Caucasus was aggravated by the fact that their reserves strategic were almost completely exhausted. On the boundless forehead Eastern, which extended for over 6,000 km, there were in the reserve of central command of German terrestrial troops only three divisions battleships, a spare division and two infantry brigades; in the reserve There were eight divisions of the armed groups and a brigade.

In October 1942 the German command, considering the situation compromised, He made the decision to move on to the defensive. In order n. 1 of 14 October 1942 was arranged: "We have to face the winter campaign. The task of Eastern front - in addition to the current offensive operations or designed - is to keep the positions achieved at any cost, reject each attempt by the enemy to break them through and thus create the conditions for continue our offensive in 1943 in order to defeat definitively our most dangerous enemy ".

On the basis of these provisions, the German armed forces began i preparations for the winter. On the entire length of the front they were built or strengthen the fortifications. Particular attention was paid to the central front of the front, where The Wehrmacht command was expected offensive actions of the red army. Here the main reinforcements to detrose the groupings were concentrated of the other areas. At the beginning of the winter campaign, in the group of armies to which the Germans placed on the eastern front. The Hitler General Staff he believed that the offensive of the red army against the group of armies central would have been launched at the beginning of November.

For its part, the Soviet supreme command, in perfecting the plans of the winter offensive, had decided to launch the main blow in the Southern sector with the forces of the south-west front(comandate dal tenente- generale Vatutin), of the Don front(comandate dal tenente-generale Rokossovski)and the Stalingrad front(comandate dal colonnello-generale Eremenko)starting from the Stalingrado area with a single direction to the Basin of the Don. To prepare the counter -offensive and coordinate the actions of Fronti were sent to the Stalingrad area the general of the army Zukov e The Colonellogeneral Vassilevski.

The opportunity to start the attack in this sector was dictated by A set of political, economic and military factors. The decisive defeat of the enemy in the South had to lead to the definitive collapse of his plans that they focused on the arrival of the German troops in the Caucasus and the entrance of the Turkey in the war against the Soviet Union. Obtaining decisive results soldiers in the South, the very rich cereal areas of the Don and Kuban, the conditions for the liberation of the Basin of the Don, and the enemy threat to the sources of oil of the Caucasus and the communication routes with the allies that Through Iran they reached the Persian Gulf. The Don Basin sector The most vulnerable point in German strategic defense appeared.

With the arrival of the Soviet troops in Rostov the conditions for The defeat of the German armored group "A", which operated in the Caucasus northern. The defeat of the enemy in the territory between the Volga and the Don It was only to be the first stage of the winter campaign. After success of this operation the Soviet Supreme Command calculated to perform one series of offensive operations on other fronts. Particular importance was given to the elimination of the siege of Leningrado and the defeat of the grouping of the enemy in the

areas of Demjansk, Ržev-Vjazma, in the course Superior of the Don and in the northern Caucasus.

The first phase of the winter campaign was designed in the most complete way It is accurate. With the joint efforts of the General Staff of the Command supreme, of the general staff and the command of the fronts of Stalingrado, Del Don and South-West, a plan was developed that received the Name of "Uranus". This plan was based on a very bold idea: with the forces of the three fronts surround and destroy the great grouping of Fascist troops in the territory between the Volga and Don and create the conditions For the passage of the Soviet Armed Forces to the strategic offensive general on the southern wing and on the other sectors of the Soviet front- German. The assault groups of the south-west front and the front of Stalingrad they had to attack by converging on Kalač and Sovjetskij and then tighten In this area the ring of the bag where the troops of the attackers. The defense of the enemy had to be broken in the most vulnerable sectors, which They were held by the Romanian troops.

The beginning of the offensive was set for the south-west fronts of the Don at 19 November, for the Stalingrad front to the next day. To implement the "Uranus operation" was needed a huge organizational activity to put the Troops in full efficiency in view of the fighting. It was necessary First of all strengthen the fronts with men, weapons, military vehicles and provisions; Create operational and strategic reserves; perfect the political-military preparation of troops; to secret i assault groupings in the starting areas of the operation; organize their coordination and their direction. The preparations were complicated from the fact that the transport of men and means took place under the continuous bombing from the air on three unique railways, a fact that He limited the speed of influx. A particular difficulty in guaranteeing the secrecy of the concentration of forces was represented by the character mainly stepping of the areas where the next one would have launched offensive.

The success of the operations depended primarily on the actions of the battleship and mechanized units. Therefore, on the eve of the offensive the fronts they were strengthened with units and warts of tanks. Overall in Three fronts about 900 tanks were aligned. Over 13,500 cannons e Mortai were made available to artillery, twice as many as those They had been employed in the counter -offensive of Moscow. The aviation counted more of 1,000 airplanes.

On the eve of the offensive Soviet troops lined up on the three fronts do not the skilled dislocation of the forces and vehicles in the directors of the attacks main, the Soviet command managed to create powerful blocks of troops. All these forces and means were previously lined up on the positions attack thanks to the work organized in the rear.

On the Volga, from Saratov to Astrachan, 50 worked 50 Steam ferries. Numerous boats bridges were built. The concentration of the forces passed unnoticed by the enemy: the divisions in march maintained the most absolute radio silence, all orders they were given to voice. Measures were also widely used for disorient the enemy. Great help offered the military commands the population and organizations of the Communist Party of the Region of Stalingrado. The workers of the Region contributed to the refueling of Troops with food and ammunition. Tens of thousands of citizens worked on the construction of airports, bridges on rivers and roads, helped transport the ammunition and to repair military vehicles. In mid -November i Preparations for the "Uranus operation" had been completed. The red army She was ready to inflict the decisive blow to the enemy.

#### The encirclement and defeat of German forces in Stalingrado

On November 19, at 8.50 in the morning, after a massive bombing of the artillery, the troops of the south-west fronts and don triggered to the offensive.

An intense snowfall and the morning fog prevented the intervention aviation. After breaking the resistance of the Romanian troops of the III Army, the assault group of the south-west front managed to advance at the end of the first day of fights of 30-35 km. At the same time they penetrated deeply in the enemy defensive device also the troops of the Don front. From the morning of November 20, in conditions unfavorable meteorological, the Stalingrad front passed to the attack. After having broken the defense of the Romanian army south of the city, the troops Soviets went north-west and south-west.

The German command made desperate efforts to arrest the offensive of the Soviet troops, but all attempts to block it or even just slowing it down completely. The mobile units of the south-west fronts and of Stalingrado advanced quickly they reached the wings of the German VI army, Making the threat of lighter weigh on the enemy grouping.

On November 23, the 4th Soviet armored body of the south-west front al command of the major-general A. Kravčenko joined as foreseen in the area of the village of Sovjetskij with the 4th mechanized body of the front of Stalingrado commanded by the major-general V.T. Volski, making it so the encirclement of a large group of enemy strong of 22 Divisions. Of the moving units of the two fronts.

In order not to allow the ring to break by the grouping surrounded or its release from the outside, the Soviet troops continued the advance to expand the corridor established between the German troops in the First phase of the operation. Successfully rejecting the counterattacks of the enemy, they arrived on the evening of November 30 on the line of the FUUs Čir and Don. In the meantime, active shares were also conducted on the internal front lighter. On the evening of 30 November the surface occupied by surrounded grouping had already reduced more than half and did not exceed By now 1,500 sq km. This sector was massively hammered by the fire of Soviet artillery.

On November 22, even before the encirclement was completed, the commander of the GENCE VI General Army von Paulus summoned Gumrak la meeting of the commanders of the bodies, who unanimously came to the conclusion that a long defensive struggle within the gigantic bag would lead to the catastrophe and that to avoid it it was necessary to go immediately with the bulk of the forces south-west. General von Paulus asked Hitler for authorization to break the encirclement south west, but obtained an inflexible refusal accompanied by the promise that All measures would have been taken to ensure normal refueling of the Army and at the same time free it from lighter.

At the end of November and in the first days of December the Germans made a First attempt to free the surrounded divisions, launching a counterattack in the area of the southwest front. But the advance of the German wagons was blocked And rejected.

In an attempt to restore the situation in the South, the German command decided to quickly create a new group of "Don" armies, in which they were including troops operating in the great Ansa of Don, together with the group of armies surrounded in the Stalingrado area. assigned the task of arresting the offensive of Soviet troops and, attacking from the areas of Kotelnikovo and Torre to Stalingrado, of reach the surrounded troops, join them and restore the

previous one defense front. The refueling of the surrounded grouping would have been insured by air.

The Soviet command promptly sensed the enemy's plans and prepared effectively to reject its counterattacks: he strengthened his own groupings that operated on the external front of the "corridor", organized the Hunt against enemy transport aviation. In December they were destroyed In the air or at airports over 750 German transport planes. The annihilation of Von Paulus' army was entrusted to the Don front, commanded by the Rokossovski Lieutenant-General. The General Staff of the Command Supreme was represented by the Colonel-General Voronov. However the realization of this goal had to be provisionally postponed.

On 12 December from the district of Kotelnikovo, along the Tichoreck railway Stalingrado, began to advance the 57th armored body of the armed group Hoth. Under the strong pressure of the predominant enemy forces, the army of the Stalingrad front, which operated on this line, was forced to retire north-east. However, on December 15 he managed to arrest the German advance and in the following days heroically resisted the pressure of the enemy. On 19 December the Hath Army Group resumed the offensive and on 23 December reached the Flume Myškova, at a distance of About 40 km from the troops of the VI Army surrounded.

To reject the enemy offensive, it was sent to the Kotelnikovo area The Army of the Guard commanded by the Lieutenant-General Rodion Malinovski, previously intended for the liquidation of the enemy grouping surrounded. In the harsh conditions of Russian winter the troops of Malinovski they went with a forced march of 40-50 km per day to the river Myškova, where the enemy tried to expand his bridge head. As soon as Arriving in contact with the enemy the Soviet army attacked him with a momentum without stopping.

On December 24, the Malinovski army passed to the offensive with an action coordinated with a part of the forces of the V -armed assault and the LI Army. After breaking the German resistance, Soviet troops occupied the December 29 Kotelnikovo. The goal of preventing the New attempt by the enemy to unlock the army of Von Paulus, closed irremediably in the stingrando bag, which now appeared condemned without escape to total destruction.

The troops of the fronts of Voronež and of southwest. On the morning of December 16, after an hour and a half of fire of artillery, the troops of the fronts of Voronež and south-west broke the defense of the enemy in some points and on the evening of December 24 they had made an advance of 100-200 kilometers. In eight days of hard fights they influence a severe defeat to the Italian eighth army e to the left wing of the group of "Don" armies, thus creating a threat of deep encirclement from the north of the bulk of his strength.

On 30 December Soviet troops advanced deeply in the rear of the enemy on the Nikolskaja-Ilinka line. In an attempt to arrest The advance of the fronts of Voronež and south-west, the German command was forced to hurry 8 divisions previously intended At the release of the troops of Von Paulus. At the beginning of January 1943 the Situation of the troops closed in the bag greatly worse. The ring of the lighter narrowed more and more. The Germans were missing reserves of any kind. The ammunition and fuel were about to end. THE moral of the surrounded troops was very low even if the soldiers continued to fight.

In an attempt to avoid a useless bloodshed on January 8, 1943 The Soviet command offered the surrender to Von Paulus with the honor of arms, proposing to cease the senseless resistance. Always hoping for the arrival of the "rescue" army and in obedience under the orders of Hitler, von Paulus He rejected the generous offer. On January 10, 1943 the troops of the Don front They then moved on to the annihilation of the surrounded grouping.

Exceeding the strong resistance of the enemy, the troops of the front came on the 17th January in Voroponovo; The Soviet command proposed again to Von Paulus di give up. But this proposal was also rejected.

The troops of the Don front continued the attacks and on January 25 the Soviet avant -garde arrived in Stalingrad from the West. In the evening of 26 January the troops of the XXI Army joined the hill area of Mamai to the troops of the LXII Army, thus breaking the Many soldiers began to surrender.

On January 31, the resistance of the group was definitively broken southern and on February 2 that of the northern part of the Army of von Paulus.

The troops of the Don front had annihilated 22 divisions, doing Prisoners 91 thousand between soldiers and officers with the same marshal von Paulus(Hitler lo aveva promosso sul campo sperando così di indurlo a non arrendersi e a sacrificare fino all'ultimo i suoi soldati)and conquering A large amount of

weapons and military means. During the offensive, Duration two and a half months, 5 armed armed were disfigured fascists. The losses in men of the German troops and allies exceeded, from November 19, 1942 to February 2, 1943, 800 thousand men. During the same period The red army destroyed or captured 2,000 tanks and self -propelled cannons, over 10 thousand cannons and mortars, 2,000 combat and transport planes, Over 70 thousand vehicles.

### The general offensive of the Red Army in winter 1942-1943

The victory over the Volga decidedly borrowed the strategic situation on the whole Soviet-German and first of all in its southern sector. The Soviet supreme command decided, making new forces enter into action expand the front of the strategic offensive. The development of the counter -offensive in general offensive began even before the complete annihilation of the German grouping surrounded on the Volga. Overall, for the general offensive of the winter campaign 1942-1943, Over 70% of all forces and means of the army was used Soviet fighter. The strategic offensive developed on a front of 3,000 km and for a depth of 600-700 km.

Thus began the expulsion of the occupants from the Soviet territory. The General Staff of the Soviet Supreme Command approved the offensive plan of the troops of the south fronts and the Caucasus, with the aim of surrounding e Destroy the German grouping that operated on the Caucasian front. In based on this plan, the troops of the south front, in command of the colonel- General Eremenko had to take to the Rostov area and cut the street of the retreat to the North-Caucasian grouping of the Wehrmacht.

The left wing of this front had to attack towards Tichoreck through the steppes of Salsk, so as not to allow the retreat of the enemy towards the Taman peninsula. The troops of the Caucasus front, in command of the general armed I. Tjulenev, they had to attack with the forces of the Mar Group Black to Krasnodar and further on Tichoreck, and, together with the troops of the south front, surround the group of the grouping in this area North-Caucasian German.

At the same time, he was ordered to the northern group of the troops of the front of the Caucasus to push, advanced with his right wing Through Mozdok in the direction of Armavir, the bulk of the I Armored Army German towards the slopes of the Caucasian central chain and then destroy it.

On January 1, 1943, the troops of the south front passed to the execution of the plan. When, after passing the strong resistance of the enemy, they They arrived at the Manyč river, the group of German armies "a" found himself closed in a deep bag, and, in order not to be isolated, began to retire Quickly towards Rostov.

On January 3, the northern group of troops of the Caucasian front The chasing of the retreating units of the I Armored Army began German. However, the rhythm of its advance was insufficient. After northern group, the advance group of the Black Sea also began which operated in the difficult conditions of winter in the mountains, without being able to count, due to bad weather, on the approval of aviation. In January, overcoming the resistance of the enemy and the mountains, the troops of this Group freed Nalčik, Stavropol, Armavir and numerous other locations.

A great help to the troops gave the partisans of Stavropole direct, from Party Committee of the Region. The patriots attacked the Hitlerians, they destroyed or seized their means, bridges, deposits, locomotives, wagons, also freeing several locations. The group northern of the troops of the Caucasus front, under the command of the lieutenant General I. I. Maslennikov, entered action on January 24, 1943 on the front of Caucasus of the North.

Overcoming the resistance of the enemy, the impracticability of the places and the Bad weather, the troops reached the sea of Azov in early February. In the head of the Kuban bridge, the XVII German army was isolated, which he could now maintain connections with the bulk of the Nazi forces only through Crimea.

Meanwhile, the armies of the South front fought in the surroundings of Rostov. A remarkable part of the northern Caucasus was freed, but it was not possible to With the arrival, at the end of January 1943, of Soviet troops nearby of Rostov, the enemy's resistance increased. The German command appeared desperate efforts to earn the time necessary for the withdrawal of own forces from the Caucasus of the North. Avid fights took place in the area of the Bataisk railway station, 10 km from Rostov, through the Which Germans transported men and means.

The offensive of the troops of the Black Sea Group also developed. The 4 February they arrived at the Kuban river and near Krasnodar. For take possession of ninternational and the Taman peninsula, on the night of 4 February

the command of the front of the Caucasus of the North and the fleet of the Mar Nero went on to implement a great landing operation in the Jušnaja area Osereika. However, welcomed by the strong fire of the enemy and having immediately strong leaks, a part of the landing ships was forced to retire, while the Troops already landed were unable to keep the head of the bridge because of the inequality of forces.

The result of the landing of the reinforcement troops was more favorable, in command of Major Z. L. Kunikov, in the area of the village of Stanička and the mountain Myšako, near Novorossijsk. This shipment consisting of 800 men of the Marina infantry, quickly reinforced with other departments, occupied and He firmly kept a small bridge head.

The Hitler's Friendly Staff, including the danger that looked out on the Grouping of Nincoossijsk, he gave order to drive at any cost in Soviet soldiers. Against modest Soviet troops they were concentrated the effective of 5 German divisions.

However, their efforts coated against the value of the infantry from Marina Soviet. A struggle began that had to last seven months in the head of Myšako bridge, which was called "small land". For all of this period never ceased fighting with the enemy who used wagons armed, artillery and aviation.

The defenders of the "little land" covered themselves with glory, writing a pages of authentic heroism in the history of the great patriotic war. Troops Krasnot and, on February 12, on February 12, facing bitter fighting, they continued the advance along the banks of the Kuban and the Western Caucasus towards the Taman peninsula. Meanwhile the Troops of the south front attacked the enemy lines in front of Rostov. In the Axis of the city a fierce battle developed.

On February 14, after a few days of harsh fights, Rostov came freed. Following the offensive, the regions of the Ceceno- were freed Inguscezia, of northern obvious, of the Cabardino-Balcaria, the territory of Stavropol, and a large part of the region of Rostov and the territory of Krasnodar. In these regions they lived before the war 10 million of people. The German invaders brought enormous damage The economy of the area killed many thousands of Soviet citizens. In the Only territory of Stavropol, they made themselves responsible for the massacre, of over 30 thousand civilians

Simultaneously with the offensive of the Soviet troops of the North Caucasus Offensive operations were launched in the Ostrogožsk-Rossošk areas, e Voronež-Kestornoje.

In the second half of January 1943 the troops of the Voronež front, al command of the Lieutenant-General F. I. Golikov, surrounded and destroyed a Strong enemy grouping attested on the Don between Voronež and Kantamirovka.

The main blow was inflicted on the II Hungarian army and the VIII Army Italian, located in this area. During the operations they were Over 15 divisions completely destroyed, while 6 divisions came severely affected. Over 86 thousand between soldiers and enemy officers were made prisoners. Soviet troops advanced 140 km towards Flume Oskol.

Then the troops of the right wing of the Voronež front and the left wing of the front of Brjansk attacked and defeated the grouping in Kastornoje Enemy of the Voronež-Kastornoje line. Only a few groups of soldiers they managed to escape the lighter. During this operation they came 11 enemy divisions destroyed. The troops of the fronts of Brjansk and Voronež they freed a large part of the regions of Voronež of Kursk, the cities of Voronež, Kastornoje, Staryi Oskol and Tim.

In these two operations in the upper course of the Don the Group of Armies German "B" suffered a tough defeat. Very serious losses suffered the armies of the satellites of Germany(Ungheria e Italia)The II Hungarian army was of Destroyed fact, having lost 135 thousand men. The same fate touched the eighth Italian Army. Having completely lost the combative ability, it It was withdrawn from the Soviet-German front. The defeat of the armies Hungarian and Italian produced a strong impression in Hungary and Italy e Satellite countries of Germany.

Developing their offensive, Soviet troops occupied on February 8th Kursk and February 16 Charkov. In the meantime, the troops of the south-west front, At the command of the Colonellogeneral Vatutin, they launched an attack towards Mariupol, to cut the retreat west to the enemy grouping of Basin of the Don.

The partial withdrawal of enemy troops from the lower course of the Don Verso Mius and the movements made by the Germans in the Donec basin were erroneously evaluated by the command of the south-west fronts and by Voronež as The beginning of a general retreat of fascist troops beyond the Dnepr. The General Staff of the Supreme Command agreed with this evaluation. In such

way, despite the troops of these fronts had been weakened and had urgent need for reinforcements, their offensive was forced in all Maniere. For its part, the Nazi command designed a great counter -offensive in this sector.

On February 13, the German armored group "Don" was transformed into a group of "south" armies, which was hastily strengthened with units made from Western Europe, from the Balkans, and other sectors of the front Soviet-German. A meeting was held in Zaporžje in the presence of Hitler of the supreme command of the Wehrmacht. The plan was approved in the meeting of the counter-offensive, which provided for the attack on the troops of the southern front West, marching towards the Dnepr, to reject them beyond the northern Don. The plan also involved the encirclement of Soviet troops in the area by Charkov, and, after their defeat, the penetration into the rear of the Front of Voronež and an advance towards Kursk.

At the same time from the area south of ORël he had to start an offensive Against the rear of the Soviet central front, to surround the troops of the red army concentrated in the Kursk area. On the eve of Operations The "South" German Armies Group had 31 divisions, 13 of which were battleship or motorized, that is, half of all units Furniture operating on the Soviet-German front. To truth, the divisions Nazi, especially the battleships, were incomplete in men and in means.

The counter-offensive against the right wing of the south-west front began on the 19th February. Under the pressure of the predominant enemy forces the troops Soviet were forced to retire to northern Donec. Subsequently the German units attack the advanced troops of the wing left of the Voronež front. Soviet troops bravely drew up every palm of soil. On these days he received the baptism of fire On Voronež front the Czechoslovak battalion in command of the Colonel Ludvik Svoboda.

On March 13, the Germans occupied Charkov again and rejected the troops of the left wing of the Voronež front towards Belgorod creating a situation difficult not only for this front, but also for the rear of the front central. The major staff of the Soviet supreme command then moved towards The areas threatened the reserves with which, towards the end of March, it came The German counter - offensive arrested. On the whole southern wing of the front Soviet-German from Belgorod to the sea of Azov both armies passed on the defensive.

The German command was unable to achieve its goals, even if with the his offensive had managed to re-occupy a part of the north-eastern areas and Oriental of Ukraine. But these successes cost a very high price. One of the main objectives achieved by Soviet troops in Winter campaign 1942-1943 was the elimination of the siege of Leningrado. The breakdown of the fortified defense of the enemy was made by the troops of the Leningrado front, under the command of the Lieutenant-General L. A. Govorov and from Those of the Volchov front, under the command of the Army General K. A. Merezkov.

For the offensive, the sector south of Lake Ladoga was chosen along the line German Schlüsselburg-Sinjavino. The attacks of the troops of the two fronts they were concerted in order to take the Germans between two fires and from allow the combination of the soldiers of the red army for the most way brief.

By understanding the strategic importance of this sector, the Hitlerians VI concentrated large forces well trained in actions in forest areas- marshy. In the space of a long period the Germans had built a series of Powerful fortifications defensed in Scaglioni. The assault on these positions was extremely difficult. After completing long and accurate preparations, The troops of the fronts of Leningrado and Volchov passed to the offensive on 12 January 1943.

At the breakdown of the siege, the sailors of the fleet of the Baltic(comandati dal viceammiraglio V. Tribuz)and of the war flotilla fighting Soviet troops were reason for the defense of the enemy e On January 18 they joined the area of the suburbs workers n. 1 and n. 5. The siege of Leningrado was broken. Along the southern coast of the lake Ladoga was formed an 8-11 km wide corridor, along which the city was able to restore the connection to the ground with the rest of the country. In this Corridor was built in a short time a railway that in February 1943 He entered into operation. The Leningradesis called her "Victory Railway".

The breakdown of the siege made the Leningrad situation less precarious. For 18 months the lengledesi, enduring unspeakable privations, had been subjected to a complete siege by the enemy. Overall, Especially in the first winter of the siege, they had died of hunger and for the Enemy attacks over 600 thousand inhabitants.

But the Leningradesi resisted. For the whole world the defense of Leningrado He became the symbol of the will of the Soviet people to win the enemy. The President of the United States of America Roosevelt, in the diploma sent to

Leningrado, wrote: "On behalf of the people of the United States of America I deliver This diploma to the city of Leningrado in memory of its valiant fighters and his faithful inhabitants, men, women and children, who isolated by the remaining part of their people and despite the continuous bombings e The unspeakable suffering caused by hunger, cold and diseases defended successfully their dear city in the critical period from 8 September 1941 to January 18, 1943, thus rising to a symbol of the invincible spirit of the peoples of the Union of Soviet socialist republics and all peoples of the world that oppose the forces of aggression ". The deeds of the heroic defenders of the city of Lenin have remained impressed forever in the memory of the peoples of the world.

In February and March 1943 in the central and northwestern sectors of the in front of offensive operations were carried out for the liquidation of two Outposts of the enemy, deeply under the troop device Soviet. On February 15, 1943 the troops of the North-West front in command of the Marshal Timošenko and the III armed assault on the Kalinin front The offensive began against the units of the XVI German Army, attested in the "Demjansk bag", without however being able to surround and destroy the enemy troops. The Germans, suffering strong losses, escaped to lighter.

In the fights north of Velikije-Luki, on February 23, on the day anniversary of the foundation of the Red Army, he made a heroic enterprise the Nineteen -year -old young communist Aleksandr matrossov. He obstructed with his body a mitraglia's slit of an enemy fort and immolated its own life guaranteed the success of his platoon. The name of Aleksandr matrossov, Hero of the Soviet Union, is forever registered in the honor of the 254th guard infantry regiment, which bears its name.

The troops of the West fronts and Kalinin developed an offensive in March towards Ržev-Vjazma. Under the attacks of Soviet troops and fear Threat of encirclement, the enemy was forced to retreat. The line of the front was thus not only removed from another 130-160 km from Moscow to West, but also Rercherciata.

The political-military importance of the winner of the Army Red in the winter campaign 1942-1943

For 4 and a half months, from mid -November 1942 to the end of March 1943, yes the winter campaign continued, which register great victories of the red

army. A central place had in this campaign the encirclement and annihilation of enemy troops on the Volga.

After supporting the pressure of fascist troops in the summer of 1942, The Red Army inflicted on them a decisive blow. As had happened at Moscow, in the difficult conditions of defensive fighting, was prepared A counter -offensive of Soviet troops on a strategic scale. However the situation in which the winter campaign 1942-1943 began and took place, yes It substantially distinguished from the situation of winter 1941-1942. Under Moscow The defeat of the German troops was obtained in a situation in which the Economic and military resources of the country were far from being completely used, while the rear were in a situation extremely difficult.

The Red Army, having suffered enormous losses in men and means in the summer 1941, could not yet ensure a decisive superiority on the enemy and launched the counter -offensive by having very limited forces and means. This was one of the main causes for which the battle in front of Moscow was unable to realize the encirclement and destruction of great enemy forces.

In autumn 1942 the situation was different. In the country there was already a of summer 1942, to supply the army of the necessary quantity of means and armaments. The solidity of the rear, the rapid and energetic mobilization of the entire economy for the needs of the war, the work of the people, directed by the Communist Party, they were the premise that he assured the army Red the opportunity to move on to the counter -offensive.

The Soviet armed forces, tempered in previous battles, equipped with experience and of great combative skills, they could now face and Solve offensive tasks on a strategic scale. No occasional causes, but the solidity of the socialist regime, awareness of duty by all the people and their high patriotism, allowed the Soviet Union not only to resist in the hard struggle, but also to turn the course of the course all world war in favor of the anti -fascist coalition.

The victory of Soviet weapons on the Volga was the result of heroic efforts of the entire Soviet people, of their realizations on the military front and economic. This victory raised the moral of Soviet citizens, who They saw that their blood and their work had not been in vain. It gave it new forces to those who continued to languish under the yoke of Fascist invaders. The defeat of the enemy armies on

the Volga broke the precious war car forged by the German generals for the attacks of Hitler.

The myth of the invincibility of the German army fell miserably, while The strategic initiative was taken away forever. The historical victory over the Volga allowed the red army to develop a general offensive on large scale and to start the liberation of the Soviet territory from invaders. During the winter campaign German troops not only they lost everything they had reached in the summer of 1942, but were forced to abandon a series of cities and regions, where they had been in the 1941.

At some points the front moved west of 600-700 km. A big territory of 480 thousand square kilometers was freed from the invaders. The populations of the regions of Voronež and Stalingrado, of the republics autonomous of Ceceno-English, northern obsessia, Cabardino-Bo-Balcaria e of the Calmucchi, of the territory of Stavropol, of the autonomous regions of the about, of the Caracai and the Adigheti, of almost the whole territory of Krasnodar, of the regions of Rostov and Kursk, of considerable part of the regions by Vorošilovgrad, Smolensk and Orël regained freedom.

The connections interrupted by the enemy on many railways were restored e along the Volga. During the winter campaign 1942-1943 the attackers Fascists suffered colossal losses. From October 1942 to March 1913 beyond 1,300,000 between soldiers and officers were taken by the enemy as strength fighter. Particularly serious losses suffered satellite armies of Germany. The III and the IV Romanian armies, the II Hungarian army, the VIII Italian army had practically ceased to exist. The red army destroyed or he captured enormous quantities of weapons and means of the enemy. But it wasn't Only of human losses and materials suffered by Hitler's Germany and by its allies. The defeats dropped the morality of the army and the population of the countries of the fascist axis.

Fascist rulers were forced to announce a 3 -day mourning for The fallen in Stalingrado. For the first time from the beginning of the war, in days of February 1943, the inhabitants of German cities and villages instead, they felt the marches of victory, the funeral strengthening of the bells of the churches. He also changed the tone of German propaganda, who began to talk about the Difficulty and the crisis of the German army in the East. Among the Germans yes widespread the "disease" that the Germanic command called "influence of the soul ", expressing in skepticism A in the growing distrust in the Final victory.

Propaganda and terrorism could no longer heal this "illness". The defeats in the East shook the entire fascist block. Between Germany and his allies was created an atmosphere of mutual distrust, yes the dissensions that testified to the crisis that began in the lair intensified of the powers of the axis. Germany's influence was also weakened in neutral countries. Japan, which had to enjoy the fruits of the military successes of the axis troops and that awaited only the moment propitious to attack the Soviet Union, he was forced to give up his own intentions.

The victory of the Red Army on the Volga and the subsequent Soviet offensive they marked the beginning of the radical turning point not only during the great Patriotic war of the Soviet people, but also of the whole second war world. This fact was recognized all over the world. In the diploma sent to the defenders of Stalingrado, President Roosevelt wrote that "there Turn the war of allied nations against aggression".

Under the influence of events on the Soviet-German front, it developed With greater force the liberation struggle of the peoples of Europe and Asia against Hitler's tyranny.

Thanks to the victory of the Soviet troops, the conditions were created favorable for a greater commitment of all the forces of the anti- Hitleriana. In autumn 1942 the fascist block lined up on the Soviet-German front the Most of their armed forces: 266 divisions of which 193 Germans. This fact allowed the allies of the Soviet Union to start A victorious offensive in North Africa.

CASA DE GESTION  
RINCON TAGOLABA"

*We share an unofficial translation of a communication the Mexican Enjoyed.*

On Sunday, January 29, 2023, in various media about the Aggression against the agricultural community of Rincon Tagolaba(Rinconcito)in Tehuantepec, Oaxaca, reported. Armed man in more than 10 pick-up Trucks came to the community with the clear intentions, the population To scare them down for their collective determination, natural To defend resources such as tree and water.

The operation of the armed men was by the Soldner Brudern Anastasio and Sergio Gutierrez Garcia, who colloquially as a \_ "Tacho Canasta and Sergio Canalla" *are known and by the government of the Republic as the impression of the* \_ "cartel of expropriation" , which in various communities of Tehuantepec operated on 1.

The history of violence against the community is obvious:

Tacho, Sergio and her group came to retaliate on January 29, 2023 Armed in the community, remained more than five hours in the community, tore down the posts and fence of the merchants and destroyed Drinking water smoke and the access chains to the community. While yours Layers fired the shot and besieged the home of the Community representatives, they threw and asked them to leave.

The state secretar of the state of Oaxaca, the Attorney General of the State of Oaxaca, The Buro of the Ombudsman for Human Rights of the State of Oaxaca and the national mechanism to protect Human rights defenders and journalists were made by these events in Knowledge and about their intervention to protect life and the Destinity of the farmers' families asked.

The National Guard arrived at the scene after a long time, and accidentally The attackers pulled back just a few minutes beforehand, with the Time took to collect the cartridges, but evidence of destruction And left the fire that they had put against the population.

Today the situation is again worrying, because Sergio Gutierrez Garcia assures that he will return until he has reached his goal, that is nothing else than enforcing his lieutenant, illegal to the forest to exploit and expropriate the community of their country.

The brother Gutierrez Garcia are a pair of bandit that is through violence and Paramilitarism became land owners and today in the service of criminal Groups,

private companies and different levels of government stand that In one way or another the interocean corridor of the isthm of Tehuantepec(CIIT)want to enforce. For this reason they commit all types of expropriations of church country and small basic ducking, which are in the Near the areas affected by this mega project.

We make Anastasio and Sergio Gutierrez Garcia directly responsible for every new armed assault or any aggression against the community Rincon Tagolaba as well as for the body and mental integrity of the Campesino families living there.

We call on the authorities of the various levels of government To protect the integrity of the community and its residents and this wave of To finally stop aggressions by reminding them that The brother Gutierrez Garcia with at least four criminal proceedings in the community Santa Cruz Tagolaba are connected.

We emphasize that in view of these aggression by Soldner and Paramilitar groups and the state's complicity the answer of the People consists in organization and militant mobilization.

Stop the expropriations and impositions in Santa Cruz Tagolaba!

Stop the aggression against Rincon Tagolaba! No to impose mega projects of expropriation and death!

Signed:

A lot of noise was made when Luiz Inacio resigned, on the 21st, about 80 military personnel who served in the plateau and the then commander of the army, Julius Caesar de Arruda, replacing him with Tomás Miguel Ribeiro Paiva. Some, vertigated by the blind belief in the “stability” of bourgeois democracy and its carcomid institutions in the country and that Yankee imperialism “will not allow a blow,” they even proclaimed that the effective “Lula administration”, without tutelage of the Armed Forces. Luiz Inácio proclaimed that suspicious of the Armed Forces, who wanted a security office Institutional(GSI)without military equipment and played for the audience that I would not accept military orders assistants(para logo depois, tê-los), in a staging that would not submit to “military power”, to try to restrict the margin of maneuver of generals by isolation in the public opinion.

On the 31st, “surprising” a total of zero people politically more Conscious, Luiz Inacio appointed 122 military personnel to the GSI. Mathematics is Clara: Unlike restricting the presence of milicas and, therefore, their Influence on government, the President of the Republic has expanded them!Continuous act, press reports that the petista has endorsed the army to prevent the PM from Federal District of acting, on the night of January 8, against Camp, in the Army General Headquarters. The episode, which involved maneuvers with tanks by part of the armed force to deter the PM, was approved by Luiz Inacio, Faced with the pressures of the generals. As is well known, this maneuver was made to that active, reserve officers and their families could leave the camping and not being detained.

Why, what does this reveal? That the staging of a strengthened Luiz Inácio, who makes And it happens with the military, it lasted less than a soap bubble, since the Intense force attributed to the government is a chimera, illusion.

Opportunists and liberals do not see that the defense of this corrupt bourgeois democracy permissive with all kinds of violence against the people does not move it, Contrary, it causes it revulsion and, above all, distrust and anger. Pretty do not know, but they know very well that in politics the effective strength is the masses, and not the notes of entities and offices, innocuous when they are not supported by material. But they want to believe this and try to deceive the masses to believe in this fantasy.

As the government tries to restrict the coup movement with cabinet and grandiloquent pronouncements on “democracy” - this, unknown to the large

masses in your daily life-it only becomes inept, while the real force is growing with the generals(hoje, as tropas e, agora, estão jogando para ganhar as massas, principalmente a pequena e média burguesias e contando com os evangélicos bolsonaristas no meio dos pobres). The government tends to capitulation; After all, how it could be other way, if since the 2018 elections have silent on the constant coup pronouncements of the military? Not even a criticism, only appeasement!After all, what can do the government of the reactionary coalition, where the great bourgeois and landlords exercise imperialism? If it had a minimum of decency I would have immediately urged the Pasta to the streets in defense of threatened democratic freedoms!

Meanwhile, indigenous people are killed, as in the horrendous and criminal case against the Yanomanis, and the peasants are systematically slaughtered in their just Fight for the land. On the morning of January 28, BOPE police, PM de Rondônia shot in peasants that climbed into a boat to cross a river; the military arrested two young people, dragged them to the wilderness, tortured, even pulling the tongue of one of them, and then execute them to cold blood. Press monopolies, distinguished politicians and institutions From justice, heroes of the defense of this democracy, are complete silence. This It has nothing to do with your democracy, right?

It must also be said that the exchange of generals in charge of the army, made by Luiz Inácio, absolutely nothing changes the nature of force and, even does not alter your scammer claims, which are unanimous among the high office, whose only important divergence is when, at what time and situation culminating the military coup of state. Just see that the now praised as "Legalist Commander", Tomás Miguel Ribeiro Paiva, was the same considered as a protagonist in the newsroom of *tuit* intimidatory of villas- Bôas, against the HC of Luiz Inacio, in 2018 - *tuit* which, confessedly, was Written by the ACFA to intervene in national political life. This is the "General Legalist ", the supervision of the guarantee of democracy in Brazil for the monopoly press and opportunism. May bad sheets cover them! the days, looking for *timing* to intervene, fostering small destabilization using the "green chickens" as a cannon bushing and, therefore, signing new agreements with the government in which it is strengthened in the role of power Moderator; Meanwhile, it seeks to gain support from your northern master and support in public opinion to try to crush the people's survey in instant that it is lodged with its righteous wrath.

To stop the scam in march, it is impossible to count on the aristocracy opportunistic, drunk by decades of convescotes on old palacetes State and expectations of reigning for many others. The minimum consequent to do is to support itself in the masses, mobilizing them for their minimum rights trampled daily, through strikes, land taken, occupation of universities and schools, in a torrent of protests and revolutionary struggles; without a drop of illusion with the democracy of the rich.

**Announcement on the occasion of the death of Comrade \*\_ \*Farhad \_(1957 - 2023)** The Central Committee of the C(M)PA with deep sorrow informs all cadres, members, supporters of the C(M)PA, other Afghan Maoists, and Maoist parties and organizations in other countries of the world of the news of the death of Comrade "Farhad", a member of the second regional committee of the C(M)PA, that passed away due to a heart attack on Friday, January 27, 2023, at the age of 65.

Comrade "Farhad" was born in 1957 And by tolerating all the sufferings, hardness and difficulties completed the university with a bachelor's degree in 1980. During his studies, he joined the Shola-e Javid's defenders' group.

Comrade "Farhad" started his struggles against the effete regime of the royal family in his youth, and after the disgraceful Saur coup of 1357 SH(April Coup, April 27-28, 1978)and following it on December 1979 with the naked Invasion of the Russian social-imperialist forces on Afghanistan and their occupation of the country, He rose up to serious opposition against 7th Saur coup plotters and continued their political, national-democratic and revolutionary activities.

Comrade Farhad was chased in 1981 and settled in his hometown which was under the control of Mujahideen parties and left the country in 1982 and fled to Iran. during his struggles was in close contact with one of his comrades at "The Revolutionary Union of Afghanistan Workers" and regularly cooperated with him.

After the occupation of Afghanistan on October 7, 2001, by the imperialist occupiers led by the occupying US imperialism, he rose up against the unbridled imperialist occupiers and their puppet regime and began its regular struggles.

When the process of unification of the communist movement(Marxist-Leninist-Maoist)started in 2002, supported it, and after the approval of the program and constitution of the C(M)PA on May 1, 2004, confirmed it and accepted the membership of the party.

In 2008, he became a member of Regional Committee Number 15, and in 2009, he took responsibility for the Cultural Committee of Regional Committee Number 15 and advanced this position well since 2011. when the ideological-political struggle between the C(M)PA and the Revolutionary Communist Party of America(RCP)intensified in 2011, he firmly supported the position of the C(M)PA, and called the "Avakian's new syntheses" humanistic and revisionist and rejected it.

When the seminar of the party against the post-Marxist-Leninist-Maoist line proposed in the manifesto and constitution of the Revolutionary Communist Party of America was held in the region, Comrade Farhad along with other comrades of the regional committee took responsibility for the security of the seminar and until the end of the seminar, this duty carried out well.

In 2014, he could not participate in the second congress of the party due to his illness, but with his message, he fully supported the process of the second congress of the C(M)PA.

After the successful processing of the second All-party congress, comrade Farhad became a member of the regional committee number(02). He carried

this responsibility well since 2019. when the issue of the Qatar peace process was raised in 2019, Comrade Farhad took a decisive and principled stance against the Taliban at the level of regional number two.

After Comrade Zia's death, he gave the youth fighting morale and always reminded them that the young generation should fill the empty places of the old comrades and advised the comrades that new blood should flow in the veins of the party.

He participated in the first anniversary of Comrade Zia's death, which was organized at the regional level, and wrote a poem about Comrade Zia under the title "You're gone and the grass went away from the spring field." which is included in the Persian part of party's website and publications.

Comrade Farhad was a capable poet, critic, and pundit and a good writer for the party's publications. He discussed the issues of the day from an ideological-political point of view in every meeting.

Unfortunately, death did not allow this valuable comrade, and was taken from us at the age of 65 due to a heart attack on Friday, January 27, 2023.

### **Comrades :**

Let's turn the sadness caused by the death of Comrade "Farhad" into a struggling force and keep his memory as a Maoist revolutionary alive and lasting.

**May his memory be blessed and may his path be bright and red!**

## **The 'legalism' of the reactionary armed forces and the scammers**

Author: Jailson de Souza

Time: 2023-02-02T23:48:31-03:00

Images: ['[Augusto-Heleno-e-Eduardo-Villas-Bas.jpg](#)']

\*\*\*\* If there is a vocation in our Armed Forces - these heralds of the reaction - This is for coup. In what they think are patriarchs of the republic and "Guaranteers" of democracy, they reveal themselves as true bandits robbers of power and reactionary bolt. Being the first distinction given due to having been the "founding act" of this republic a military coup given by this force in 1889 and the last, for its harmful role in the crushing of all movements popular liberators of our history, to highlight the Canudos massacre, always in favor of landowners and the great bourgeoisie.

It is symptomatic that it is regarded as a patron of the Brazilian Army, the Archirreconal Duque de Caxias, Marshal responsible for almost all crimes against popular liberation movements and the infamous war of Paraguay, the latter with the concet D. Pedro II.

In a recent fact, the replacement made by Luiz Inacio in charge of the Army, Replacing General Júlio César Arruda with General Tomás Miguel Mine Ribeiro, was seen by many as the exchange of a scammer for a "legalist". In fact, it is the exchange of one scammer for another, but less Bake. Complete illusion or bad faith of whom this change this change could stop the coup march or even change the coup nature of FA's reactionary. And the reason for this being like this has its deep roots in history of Brazil and, in particular, of these armed forces, in such luck a crime who, in doing politics, ignores them and an even greater who pretends unaware of them.

The first fact, already constant in the brief introduction of this text, reflects such nature of FA's and define their performance within the so -called Republic to this day, that is, that once "founders" of the said Republic(burocrático-latifundiária)if they find their legitimate owners and in right to dictate your directions ultimately, in the "serious moments" why It crosses-whenever the revolution knocks on the door. Deodoro da Fonseca, Marshal 'Leal' to the emperor, a monarchist assumed, is the one who leads the coup that ends the imperial regime. In the evaluation of some srs. liberals and of opportunists on duty, it would therefore be a "legalist", enthusiast of democratic order and not a coup, in the service of imperialism, especially English, whose contradictions with the decaying Empire of Brazil jumped to the new quality, demanding reactionary exit, in addition to the

need to restore the buzz and division within the army's own ranks, among officers of low patent and the General, the so -called "military issue".

Thus succeeded by five military blows, in which, when confronting wings of the reactionary armed forces, particularly of his army, about which form should be dictated the directions of the country, an era always seen as legalistic or democratic, creating the illusion that these who have always exercised power bayonets against the nation and the Brazilian people would have to submit to popular will. Of common, the self -employed role of "guaranteers", always interpreted by military hosts as a safe conduct for an intervention, when they deem necessary.

In 1954, on August 24, Getúlio Vargas committed committed to the intention of determining The new scammer march about his government. However, year and a half later, already in 1955, military personnel again pronounce against the result of the that year's elections, which elected Juscelino Kubitschek and João Goulart and the preach a blow against the president -elect. A fact occurs, then, that comes to reinforce the illusion of a "democratic wing" or "tradition legalist "of the Brazilian Army, in the episode known as the " Novembrada de 55 ", involving the then Marshal Lott. A preventive blow is set in march by the then Minister of War, Marshal Lott, depriving the president in exercise and preventing the president of law, who would be the deputy of Vargas, dead. This movement, like others in our history, if in appearance guaranteed the legality of the process, in essence reinforced the role of tutors of Brazilian democracy. So much is true that 9 years later, if consume direct military intervention, after threats and blackmail About the three presidents elected in the period: Juscelino Kubitschek, Jânio Tables and João Goulart. Or, if not, the same Marshal Eurico Gaspar Dutra, "Guaranteer" of the "New Republic" in the repression of the 1932 Paulista Intent, Therefore, the same carnage of the repression of the popular uprising of 1935, and repressor of the fascist intent in 1936 and, soon, a coup in 1937 with Vargas in the state New and, finally, raised to the presidency in the coup suffocated at the polls1 in 1945, testifying Vargas himself to whom he had threatened a blow since years earlier.

Advancing to recent history, after the dark civil-military regime fascist and the scandalous unrestricted amnesty of the torturers, we have seen issue a value judgment on the directions of the homeland, with its nefaning " Nation ", threatening the bureaucratic-latifight institutions and their consort "Democratic

Rule of Law" and enjoying its motto of "legitimacy, legality and stability ", which translates into the legitimacy of which inalienable holders by owners who find themselves from the political regime, in the legality that they choose to defend it, always consecrated with a Constitution to support it and the stability of cemetery peace, obtained in the more fierce repression to any force that opposes. Such a general was, also he, appointed by a government of the petista opportunism and considered by social liberals as "Democrat"(alguns mais emocionados a chamá-lo de "meu general"), one instead convinced of the need for a turnaround, he acted alongside Temer to Dilma's impediment and today is a wiped -off voice, following the scratches the true "tradition" of this institution.

General Hamilton Mourão, now back to his characteristic outfit of coup out of the catacombs of the most obtuse reactionary, it was considered as "progressive" or "legalist" by some stoops and scoundrels while vice-president, when polarizing with the moral delinquency and rot Bolsonaro. The same Mourão who celebrated the massacre against the popular uprising 1935, on the date of its 87 years, and which openly preached the military coup in a Lecture in 2015.

Once again the mirage, from a legalistic general, now with Tomás Ribeiro. But if history does not serve as a warning, we take your own words, in a speech given at the headquarters of the Military Command of the Southeast in January. After a scene game and stroke to the press monopolies and alerts to the far right against the division within the force, so that weighs whirlwind, earthquakes, tsunamis, we will continue to rush, cohesive, respectful, \_ guaranteeing \_ **our democracy** "(grifo nosso). To conclude by discussing his judgment of what democracy is and how "protected there".

Still in late January, reporters of the press monopoly, report that the Even General Tomás elaborated in conjunction with villas-bôas the infamous tweet in threat to the Supreme Court. He would have included the "repudiation of impunity." Again, there would be those souls that would say that is proof of their fairness, forgetting the fact that it did not oppose to discuss, much less Publish, such a derision.

This podium has always been alerted from the historical and gross error of taking in the dispute between right and extreme right within FA's and within the dominant classes, an opposition between a democratic wing tells a scammer, fascism versus democracy or even a legalist and professional wing against an interventionist and subversive. It is a reactionary dispute.

At the end and to the cable, we left 2022 and entered in 1960, which indicates maneuvers risky president -elect to fulfill his mandate and that possibly we will pass again by 1964, but in other circumstances radically different, pointing to the direct confrontation of coup marching to the fascism and the revolutionary mass movement pointing to the way prolonged of the democratic revolution. And this time, there will be no amnesty.

1st note, the then "New Republic" had able to vote in 1945, only 6 million Brazilians. By way of comparison, in the US, they already voted 50 millions.

The meeting of organizations and organizations took place on Tuesday 31/1 in Athens Collectives, on the basis of the KKE proposal(μ-λ)for 'wide anti -war

Common Action in February. " This proposal is deposited in view of Completion of one year from the start of the war in Ukraine, as well as the Planned visit to the US Foreign Minister, Blinken, to Greece and in countries in the region.

The meeting was attended by representatives of NAP, the CMA, ARA, LAD, her Clash and the popular front. In his placement the KKE(μ-λ) testified his view of developments and presented the content of the proposal of, dictated by the need to break the long silence and inactivity of the movement with regard to the US-NATO imperialist conflict with Russia in Ukraine and the nightmares it feeds. As out of this, proposed mobilizing on 21 February, day that is close to the one -year anniversary of the beginning of the war and It is also rumored that Blinken will visit the country. The proposed Mobilization concerns us so much the complaint of the unjust war that raging, of the imperialists starring in the slaughter, of the local ruler class that turns the country into a base for its American bosses and involves the people on this basis in its reactionary confrontation with Turkish bourgeoisie as well as the racing condemnation of his arrival Representative of American imperialism. From this content derives and the path of demonstration we believe should be followed, Opposite to both embassies, American and Russian.

On the side of NAP, the CMA and the match, with the special views Of course of each organization, there was a general agreement on its content Proposal. However, disagreements were expressed - from different starting points - in relation to with the proposed route of the demonstration. NAP and CMA, participating together in anti -war initiative, they proposed the realization separate concentration at two embassies on a different date than Blinken visit.

In the placements of the rest of the forces, indifference to the Need to terminate war and an attempt to separate it from Blinken Visit, with exclusive focus on the answer to Give the movement to it. Fact which did not cause us special impression, as the views of a series of organizations on the Issue, moving from the - deprived - acquittal of Russian imperialism up to the overt acceptance of the subjugation of peoples' interests to His choices, in the name of anti - Americanism and anti -fascism. To The following confrontation emerged were the obstacles set by such placements in the organization of anti -war mobilization, with the reluctance of This is openly confessed by both Ara and Lad. From the side of the ARA the only reference proposed in relation to the war

was the One -sided complaint of the expansion of NATO, western sanctions and the Model for "peaceful settlement" of the conflict.

Given the inability to end in an agreement, the appointment was renewed by setting a new meeting for Friday 3/2. In spite of the intense Disagreements between political forces, on our part, insist on attempt to find commonplace for the realization of anti-imperialist- anti -war mobilization, utilizing the moods expressed for the Conducting a course against the challenge of visiting the representative of America in the country. As part of this effort, we declare the our mood to seek compromises and modify items of of our proposal, but without having the intent at the content level of We do behind the essence of the slogan "Peoples do not need from patrons' and leave one of his arsonists untouched War and the murderers of the peoples.

February 2 h22

Faculty of letters occupied against life imprisonment and 41 bis

For Alfredo Libero!

Change Rome

As students and students of Sapienza, in the city assembly today, We have collectively decided to occupy the faculty of letters in Solidarity in Alfredo Cossed, against impedimental life sentence and 41 bis.

At 106 days of hunger strike by Alfredo Cossuto we think it is important Take a speaker on the problematicity of the prison system. From the murder of 13 inmates during the prison revolts of March 2020, to the beatings suffered In the cells in the following months, the state confirms the use of torture tools like the 41 bis and the purely reluctant imperative life imprisonment to punish dissent in our country.

Outside you try to criminalize solidarity and social struggles. Forces of the Order and the State are premier to make raids in the trade union offices, in the social centers, to chase and stop students and students on the streets of the Center, to militarize an entire city for the "anarchist danger", building a climate of terror. The "terrorists" who took to the streets in the last Days are Studentæ, WORKITRICRIR, unemployment.

We also decided to give an answer from the University. It is recently become increasingly clear how much this is a place of commodification of the Knowing, of blackmail and competition. Especially here is fundamental have a chance to confront and start thinking together Alternatives to the drama of the present and the inexistence of the future.

It does not exist and we do not ask for a "negotiation between state and anarchists" but the abolition of institutionalized torture.

Outside Alfredo from 41-bis.

**The entire Norwegian health care system is in a state of increasing decay. The , among other things, appear in massive cuts over the last forty years,**

## **and in the Last shocking spreads of caring elderly people who do not get food.**

Lately, more focus has been placed on the crisis in the Norwegian health care system, Especially in connection with NRK's documentary that has uncovered major deficiencies in Elderly care. This is part of an extensive deterioration that has taken place for decades and the Minister of Health has just announced that it will come Even more cuts, as a result of animal times.

The debate rages in several places after the Brennpunkt documentary showed that Nursing elderly people did not get food, do not go to the bathroom, must lie down at 17 or in other ways not treated with any dignity. Employees in the elderly care have crying stood forward and notified that they do not have the time or effort to Provide proper care. It is referred to as a staffing crisis in elderly care. The stories have raised rage and despair, and at the same time the politicians cannot Love any concrete or significant to solve the problem. It is revealed that very many elderly and nursing people need nursing home, Don't get it. And it has been revealed that many of those who receive follow -up at home get Very deficient like that.

For example, NRK writes that almost half of the residents of nursing homes eat Too little according to new figures from the Directorate of Health and that this problem has increased In recent years.

Several doctors, including the famous Red-member Mads Gilbert, have declared That there is a crisis in the health care system. He writes about personnel shortages, Overload and sick leave. And he writes about the cuts completed earlier:

"The situation is in despair. While the number of patients is increasing is constantly decreasing The number of beds - both in somatic and psychiatric hospitals. We have too few Beds, too high coating, for short bedtime and too high pressure on staff(...)The number of Norwegian hospital beds is actually halved last 40 years:

1980: 22,000 hospital beds in Norway

2019: 11,000 beds, and 1.3 million more inhabitants

In 2019, the year before the pandemic, we had 100,000 more patients in Norwegian hospitals, at the same time 600 fewer beds than in 2015(SSB 2020)"

We repeat: The number of hospital beds has been halved over the last 40 years! This in one situation where the number of elderly, and thus old age diseases, constantly increases, and Where the population has also increased significantly. And we can add that the Norwegian The state during the same period has become a lot richer. Gross national product(BNP)has more than doubled since 1980.

#### ##### Crisis in the air ambulance, the district hospitals, the food supply, the health homes, Psychiatry and the GP arrangement

Mads Gilbert has also recently stated in several media about new air ambulance crisis And about the hospital crisis in Northern Norway. After the private company Babcock Taken over the operation of the air ambulances, the preparedness has been severely weakened. IN Northern Norway needs hospitals to cut more in the services. Gilbert says he Fears a sharp slaughter knife on an already vulnerable hospital offering throughout The region.

Furthermore, a popular protest is developed by the organization Maternity uprising, which fights against the reduced offer to pregnant and birth Women. The City of Oslo has just laid down the ABC clinic, to great protests From both employees and so -called users. All over the country it has been cut in The food supply. Some must travel for several hours to follow up the midwife or for acute help.

For Oslo's part, the so -called health care crisis is developed, after disclosures and Protests in connection with inadequate care of these. Here too it has come Forward heartbreakng stories from patients and relatives. Here too is the core

of the problem that there is too little personnel at work, and too little capacity and Economics to give people decent welfare.

In recent years there has been a lot of focus on increasing reported psychological disorders. In connection with several murder cases and situations in which the police have shot and killed people, the index finger has been directed at poor psychiatric Follow -up. It is often written that youth report increased anxiety and depression. Does this mean that psychiatry has been equipped? By no means!42 Percentage of the psychiatric 24 -hour beds in Norway has been removed in 23 years. The Last four decades have 60 percent of the daily places in Finland, Sweden and Denmark disappeared. So the psychiatry of cuts is also affected and this is a Development that has been going on for decades.

Thus, a fairly clear picture of a health care system in crisis over country". There is a crisis in the elderly care, the food supply, the health homes, the psychiatry, District hospitals and a general crisis in hospitals. And we haven't mentioned the so -called GP, which makes a number of people across the country The GP does not receive the law by law. We haven't mentioned either the dispute over the new hospital to be built in Oslo, or that it is long health queues to the public hospitals, and more and more private companies such as Profits on illness and cuts in the public sector.

In the midst of this critical situation, Health Minister Ingild Kjerkol has notified That there will be new cuts in the health care system as a result of price growth across the board. Government will meet increased inflation and higher interest rates with more cuts in public Welfare. Thus it is crystal clear that politicians will not improve The condition of the health care system, on the contrary!It is beyond any doubt that The situation will get worse. All the problems uncovered can be boiled down to resource and personnel shortages, and at the same time a tighter budgets are notified as Will create more such deficiency. There are bluff and explanations to claim that new norms or rules or "efficiency" can remedy the critical deficiency on personnel and funding.

Mads Gilbert writes "The pandemic that symptoms reveals the basic The disease in Norwegian hospitals - and in the municipalities: under -budgeting, closures and starving the sector for the last two decades. There is a wild policy that has led here "and" in 2001 Lyn-introduced Ap with excited support from H and Frp an enterprise reform that took Norwegian public hospitals out of the

administration To consciously convert them into large 'business group', or shop".

KrF leader Olaug Bollestad calls the situation dramatically and asks where The Minister of Health believes the health care system should cut now. Bollestad fights one Desperate struggle for the party's survival in national politics but has been sitting in Governments that are responsible for this development themselves.

Is Gilbert right that this is a wild policy? How is it possible that The health care system in one of the world's richest and most stable countries is in a state of generally decay?

Gilbert is only partially right. It is correct that the crisis is developing as a result of Cuts and market adaptation, adopted by the politicians. But these operate within A larger economic and political context, where their choices are limited. The Norwegian imperialist state operates within an imperialism In general crisis. Imperialism is capitalism in decay, it is rotting and Dying capitalism. Within the economy we see how the crises have constantly become deeper since the 1970s. Karl Marx demonstrated a tendency for the profit rate decreases, which simply means that capitalists have to constantly invest more for to increase profits. This is expressed in declining growth rates throughout Europe, Throughout the past decades, from its peak in the decade right after others World War.

Under some misleading words such as "neoliberalism" and "privatization," led the oil crises in the 1970s to a new policy across Europe, to Market -passing public sector with two goals: first to cut spending to welfare and second to increase revenues for capitalists. These two The dimensions are two sides of the same coin. It can be said even simpler: the goal is to transfer values tied up in welfare to the monopoly capital so that these can Invest to increase profits.

To call this "privatization" is misleading because the public sector is constantly increasing its share of Norwegian GDP, and so it is in many countries. The trend is more State monopoly capitalism, no less. But this trend goes hand in hand with market adaptation, market mechanisms in the public sector, and one "Efficiency" aimed at cutting expenses, not improve Welfare services.

The point is that if the authorities chose differently, the public sector had to become a "Money extinguisher" that increased the state's expenses and

decreased or completely ranked away the profits, not only in the state but in the companies that have to join The splice layer. This would weaken Norwegian imperialism in the competition at the world market, and it would all increase the upcoming financial problems. The government states today that what is on the agenda is cut, not large -scale focus on improvements. If one thinks this is just about ideological delusions and neoliberal prejudices in politicians, then one takes Enough wrong. It is to some extent true that they take into account financial and Political realities. There is even a social and demographic reality that playing in, namely declining birth rates among Norwegian women and increasing proportion Elderly and nursing. There is no evidence that this development should turn around Heller, and with the closure of birth offerings, the trend would probably rather worsen.

It is all a question of what economic system prevails in Norway and the world is the tendency to decay in imperialism, which now comes ever clearer expressed in the health care system.

The enormous paradox in this system is how wealth comes from poverty. It is only by understanding that this is a built -in paradox in imperialism, one inherent contradiction, that one can understand how Norway can double its GDP and in The same period must halve the number of hospital beds. The increasing wealth that is gathered On a few hands, comes directly or indirectly from the poverty of others. Poverty in the Norwegian public sector, goes hand in hand with the public sector Increases their share of GDP and Norwegian companies are becoming increasingly richer. It is a GRELT EXAMPLE OF WHY THIS System is illogical and unfair, and For the long time, belongs to the scrap heap of history.

*Image: Marking in Nordland for the preservation of local hospitals.*

It opens even more, with certain necessity, a sharpened class struggle in connection with the Norwegian health care system. On the one hand the struggle for the people's Rights in general, the fight against cuts and for a dignified health system, on the other side of the struggle for the workers' and the vocational graduates pay and working conditions special. These are two important matches, where we have seen many protests and Strikes in recent decades and will only be more important in the years to come.

We will first get the complete solution to the problem in socialism. If the subordinate treatment of everything from birth women to sick elderly should be a strong motivation to throw themselves into the struggle to create a strong Revolutionary movement in Norway.

These boxes taken from 'The dashboard of metalworking' presented publicly by the CISL on January 24th they say in a manner explicit as much as the masters made profits and the workers lost their salary in all these years.

Cisl contributed to this lowering of wages in a thousand ways helping The masters with agreements, contracts etc. etc. and the "dashboard"(su cui torneremo)which they presented is precisely full of this position; A phrase above all For now: "productivity, **historical disease of the Italian economy**, is grown by 15 percentage points in a decade".

This is precisely the voice of the master who complains of this "disease historical", while the CISL brings the figure to say that despite the crisis, the productivity has increased, that is, the workers have worked more and more intensely!

This is not a novelty since "**The capitalist constantly tries to Reduce wages to their minimum physical limit** and to extend the day of I work on its physical limit Massimo ... "As Marx says in *salario, price and profit* where it adds, to

strengthen, that " **the general trend of the capitalist production is not to raise the average normal wages, but of reduce it .**"

This is why a daily battle is needed on salary, and beyond, Still Marx: "If the working class yielded by cowardice in his conflict daily with capital, it would be deprived of the ability to undertake any greater movement. "

To this battle we must support that of theoretical formation!

Two indigenous people from Guajajara, José Inácio Guajajara and Valdemar Marciano Guajajara, were found dead between January 24 and 28 in the Maranhão, in areas of agrarian conflict involving indigenous people and landowners. José Inácio Guajajara, 46, was found dead with brands of violence by the body on the banks of BR-226, near the indigenous land(TI)Cane Brava, in the municipality of Grajaú. However, according to the Institute of legal Medicine(IML), the indigenous died in "a result of natural causes." Already Valdemar Marciano Guajajara, 45, was found dead on the morning of the January 28, in the city of Amarante do Maranhão, which is about 637 kilometers from the capital São Luís and borders it with Ti Arariboia. The regional Maranhão from the Missionary Indigenous Council(Cimi)said the indigenous of village Nova Viana was found with brands "indicating that he was brutally murdered ".

Already on January 31, the worker Raimundo Ribeiro da Silva, 57, He was shot dead in the Abraham village, located in Ti Arariboia. Raimundo was married to an indigenous Guajajara and fulfilled the role of driver of the pole of the Special Secretariat of Indigenous Health(Sesai), in the municipality of Arame, in Maranhão.

Deaths occur in a context of increasing the number of murders of indigenous and activists of the struggle for the land of the state of Maranhão.

**old state contradicts**

In the case of José Inácio Guajajara, the government of Maranhão informed, officially, that "the indigenous was found dead with marks of fire gun". Subsequently, the IMP of Imperatriz, in the figure of director Ana Paula Milhomem reported that the body had no mark of violence. O Institute stated that José "had a heart attack and ended up falling in some pebbles, which led to some bruises with blood in the chest region. " A death of the indigenous came a day after a meeting between the Human rights of the Brazilian Bar Association(OAB)and IT leaders Araribóia. During the technical visit, the commission met with 47 chiefs and Heard reports of violence and threats against the Guajajara people.

Already Valdemar Marciano Guajajara was found dead in a construction site with signs of beating. According to the medical report, the cause of death is Cranioencephalic trauma. A witness said that, before being killed, the indigenous was drinking in a bar in the region accompanied by his wife, who is missing, and other people.

### **Climbing violence stretches for 12 years**

In an interview with the G1 press monopoly, a Guajajara leadership talked about the case and the escalation of violence in the region in the last 12 years: "During this Time, the community can't stand it anymore, right? Live distressed, has no More joy to work in the fields, right. Women, our wives, also They worry about us, right. Children and young people are growing and seeing that one".

On 12/08/2018, the Cacique da Village Cocalinho I, Jorge Guajajara, was found dead near the zutiwaia river that cuts to ti Arariboia, in the municipality of wire, in Maranhão. According to the Guajajara, the 56 -year -old indigenous murdered by his prominent position in the struggle for IT self -emotion Arariboia by the Forest Guardian self -defense group.

Just over a year later, on 11/02/2019, indigenous guardians of Forest were ambushed by loggers in the Maranhão jungle, resulting in Murder of the guardian of the forest Paulo Paulino Guajajara, killed with a shot in the face. A logger identified as Márcio Gleik Moreira Pereira too He died in an exchange of fire, and the indigenous Laércio Sousa Silva survived. A few days later, the area was the scene of a criminal fire.

A month later, on 07/12/2019, two chiefs Guajajara, Firmino Praxete Guajajara, 45, from Silvino village(TI Cana Brava)And the Cacique Raimundo Bellício, 38,

from the Village Descent Severino(TI Lagoa Comprida), they were murdered with revolver shots as they ran into motorcycles a stretch of the BR-266 highway, near the village El Bethel, at Ti Cana Brava, in Municipality Jenipapo dos Vieiras.

In the same city where Valdemar was found dead, on 03/08/2022, another Guajajara, Janildo Oliveira Guajajara, member of the self -defense group Guardians of the forest since 2018, was ambushed by his minor nephew and cowardly murdered with shots in the back by great loggers of the region . On the same day, Jael Carlos Miranda Guajajara died after be purposely hit by men of the same pack in wire. Janildo Oliveira Guajajara and Jael Carlos Miranda Guajajara. Photo: Reproduction.

Just over a week later, on 11/09/2022, Antonio Cafeteiro, from Village Lagoa Vermelha, was murdered with six shots in the municipality of Arame, close to the limit of Ti Arariboia.

In early January 2023, two indigenous people, identified as Benedito Gregório Soares Guajajara, 19, and Juninho Guajajara, 17, were shot by men in an unidentified black car in the vicinity of the Marani village , in Santa Luzia, near the municipality of Arame. Both They follow in serious condition.

### **Indigenous defend themselves from landlord crimes**

The Maranhense Amazon Forest Region is the scene of an intense conflict agrarian involving land grabbers, mining companies, large loggers and prospective(todos financiados e organizados por grandes latifundiários)and the Guajajara, Awá-Guajá and Kaapor peoples. In order to protect your lands from invaders, the indigenous people conform in 2007 a group of self -defense entitled “Forest Guardians”. At that time, a truck used to explore Illegal wood in the woods of the region was seized by the indigenous people.

According to the Federal Prosecutor's Office(MPF), the vehicle belonged to the timber Geraldo Cândido da Costa Filho, known as “Geraldinho”. In vain attempted to bribe the indigenous people, was offered \$ 15,000 for indigenous people return the truck. Given the refusal, a group of loggers Strongly armed with large -caliber weapons attacked the village. During the Conflict, Cacique Tomé Guajajara exchanged fire with the invaders. At end, The gunslinger Josevan da Costa Gomes died and Cacique himself, and two severely injured

indigenous people. "Geraldinho" and the brothers Joane and Elias Rodrigues da Costa were denounced by the MPF for the murder of Tomé Guajajara, but, once again proving to be an instrument of landlords and large Bourgeois, the old Brazilian state did not apply the sentence.

In 2021, given the increase in invasions and violence against indigenous peoples, the group performed through a letter entitled "If our land, our Forest disappears, what will be from my people? " several complaints about the old State, invasions of loggers, death threats and murders. In the letter, the Guardians claim that the actions undertaken by the group have fought the action of illegal loggers and other invaders. "We identified the invaders, we destroy their camps and expel them from our land, "they say in the text. The group also emphasizes the connection between the landlord and the old state with the great propaganda of the so -called "agribusiness" to the detriment of the right to Earth. "The government only talks about Agro: Agro is it, agro is that, agro is Development, agro is everything to them. For us not. For the government, the Wealth is soy, it's cane, it's ox. White thinks like this, but we don't. Money For us not to buy anyone's life, "he says. The indigenous people conclude the letter reaffirming the commitment and independence of your struggle: "We will continue fighting even without government support. We will fight to the end. Until the end. As long as there is a little child we can defend, we will be there. "

### **Virad of the year is marked by slaughter and summary executions in the field**

In the last months of 2022, several attacks of mercenary troops of the landlord against peasants, indigenous and quilombola peoples occurred, so as terrorist actions of far-right groups. The attacks are inflated by the defeated Bolsonaro and financed by the landlord. On the night of 10/20/2022, the Revolutionary Area Cleomar Rodrigues, municipality of Pedras de Maria da Cruz(Norte de Minas), organized by LCP, was the target of an attack [which consisted of a fire against the house of a resident](#) at the entrance of the area, caused through a crack. Clothing and belongings of the resident and propaganda materials of the Popular Assembly(AP)were destroyed by the flames.

Less than a month later, on 12/11/2022, [a far-right group performed an attack](#) against the Paulo Freire Training Center of the Rural Workers Movement Landless(MST), located in the Normandy Settlement, in Caruaru(PE). Os They banged the word "myth" on the center walls.

On 12/15/2022, [Estela Vera was murdered](#), 67 years old, indigenous leadership of the Guarani Nandeva ethnicity, on Earth Ivy Katu, in the city of Japorã, on the border of Mato Grosso do Sul with the Paraguay. Weekly Editorial - The Mathematics of Capitulation before the Milites reagents

There was a lot of noise when Luiz Inacio dismissed, on the 21st, about 80 military that served in the Planalto and the then army commander, Júlio César of Arruda, replacing it with Tomás Miguel Ribeiro Paiva. Some stunned before the blind belief in the "stability" of bourgeois democracy and its eating institutions in the country and that Yankee imperialism "will not allow A coup d'etat "came to proclaim that the cash" Government of Lula " It had been inaugurated there, without protection of the Armed Forces. Luiz Inacio proclaimed that he distrusted the armed forces, that he wanted an office of Institutional Security(GSI)No military equipment and played with the public to that he would not accept military orders assistants(y poco después, tenerlos), In a staging that he would not

undergo "military power", to treat to restrict the maneuvering margin of the generals through isolation of public opinion.

On the 31st, "surprising" a total of zero people with conscience Politics, Luiz Inacio appointed 122 soldiers for the GSI. Mathematics is Clara: instead of restricting the presence of militias and, therefore, their Influence in the Government, the President of the Republic increased them! Immediately, the press reported that the PT gave the army endorsement to prevent the Federal District PM will act, the night of January 8, Against the camp, in the Army Headquarters. The episode, which involved maneuvers with armed force tanks to deter PM, it was Approved by Luiz Inacio, given the pressure of the generals. As is known, this maneuver was carried out so that active and reserve officers and their families They could leave the camp and not be arrested.

Now what does that reveal? That the staging of a strengthened Luiz Inacio, What happens and passes with the military, lasted less than a soap pomp, since The supposed force attributed to the government is a chimera, an illusion. The opportunistic and liberals do not exaggerate that the defense of this democracy corrupt and permissive bourgeois with all kinds of violence against the people do not It moves them, on the contrary, it causes disgust and, above all, distrust and anger. They pretend not to know, but they know very well that in politics the Effective force are the masses, and not the notes of entities and charges, harmless When they have no material support. But they want to believe this and try to deceive The masses also create this fantasy.

While the government tries to restrict the coup movement with agreements of Cabinet and grandiloquent pronouncements on "democracy" -which, unknown to the wide masses in their daily lives-, it only becomes inept, while true force is increasingly in General( hoy, las tropas y, ahora, están jugando a ganar a las masas, principalmente a la pequeña y mediana burguesía y apoyándose en los evangélicos bolsonaristas entre los pobres). The government tends to capitulation; After all, how could it not be otherwise, if from The 2018 elections are silent in front of the constants Military coup pronouncements? Not a single criticism, only appeasement!After all, what can the coalition government do reactionary, where the great bourgeoisie and landowners exercise power servants of imperialism? If I had a minimum of decency, immediately I would have called the masses to the streets in defense of freedoms democratic threatened!

Meanwhile, indigenous people are killed, as in the horrendous and criminal case against the Yanomami, and the peasants are systematically killed in their fair struggle for earth. On the morning of January 28, Bope Police, from The Rondônia Military Police shot at peasants who climbed into a boat to cross a river; The military arrested two young people, they were tortured, they even started the Language to one of them, and then executed them in cold blood. The monopolies of the press, the illustrious political and the institutions of justice, heroes of The defense of this democracy, silent completely. This has nothing to do With his democracy, right?

It must also be said that the change of generals under the army, Made by Luiz Inacio, nothing changes in the nature of force and neither He even changes his coup intentions, which are unanimity among the high Situation culminates the military coup. Just see that the now praised like "Legalist commander", Tomás Miguel Ribeiro Paiva, was the same considered protagonist in the writing of the intimidating tweet of Villas-Bôas, against the HC of Luiz Inacio, in 2018 - a tweet that, by the way, was written by the ACFA to intervene in national political life. This is the "legalistic general", maximum guarantee of democracy in Brazil for the monopoly of the press and the opportunism. What a bad sheets cover them!

The ACFA is calculating and reformulating its intervention plans every day military, looking for the right time to intervene, promoting small destabilizations using "green chickens" as cannon meat and, Soon, signing new agreements with the government in which it comes out reinforced on paper. of moderating power; Meanwhile, seek to win the support from his master in the north and the support of public opinion to try Crush the lifting of the town at the time they lift themselves with their fair anger.

To stop the coup running it is impossible to have the aristocracy opportunistic, drunk for decades of cocktails in palaces of the old state and expectations of reigning for many more. The minimum is to rely on the masses, mobilizing them for their minimum trampled rights day by day, to through strikes, land shots, occupation of universities and schools, in a torrent of revolutionary protests and struggles; Without a drop of illusion with The democracy of the rich.

# **What will the Lula government do with the Federal Hospitals Network? (By Maria de Fátima Siliansky de Andreazzi\*)**

Federal hospitals are targets of dismantling in successive governments. Photo: CNN

Government transition programs, much more than projects electoral/electorals, indicate more specifically what is expected of the new management. Ministry of Health hospitals are a huge and quite significant, made up of general hospitals and specialized institutes(os do Câncer, Traumato-Ortopedia, Cardiologia)scattered mainly in city of Rio de Janeiro and serving the entire state. The six general hospitals of the network have more than 1,600 beds outside the deactivated [1]: hospital FEDERAL OF WALK(HFA), Federal hospital

of Bonsucceso(HFB), Hospital Federal Cardoso Fontes(HFCF), Federal Hospital of Ipanema(HFI), Hospital Federal of the lagoon(HFL), Federal Hospital of State Servants(HFSE). THE Costing of all these units reaches R \$ 2.2 billion per year.

For lack of personnel, they do not work with the maximum capacity necessary for support hospitalization needs: sometimes up to 40 percent of their beds are closed and the lack of personnel has been partially covered with temporary contracts that generate immense insecurity in the continuity of services, being insufficient to cover the need. Every end of these contracts, around 2,000 to 4,000 jobs, generates the foreshadowing of chaos and closure of these hospitals. It is paid out to be outsourced services that, Otherwise, they could save money to be made by the personnel.

The Bolsonaro government continued and deepened this dismantling of hospitals federal, which was very sharp due to the covid pandemic, but the Crisis comes from long before. The last contest for federal hospitals in Rio January was held in 2005 and the approved candidates were only called in 2009 by court decision demanded by themselves, since the Caducaria contest. Without regular replacement, there was a deficit of 8,243 servants, according to the Public Defender's Office of the Union(DPU), that in 2020 does not resolved.

Why the governments Dilma, Temer and Bolsonaro did not contest for the hospitals, which would be known to generate stability and allow activation of the deactivated beds? What solution is the government's transition program Lula pointed to solve this very serious issue(decorrente da qual uma fila para cirurgia ortopédica pode demorar 3 anos ou uma colonoscopia 1 ano a despeito do esforço que os servidores públicos fazem para manter serviços funcionando a duras penas)? Services such as transplant services to Pay the same service in private initiative.

In the Health Transition Program, which was attended by the current Minister, Nísia Trindade, in identifying the problems of the network specialized, the reduction of care and shortages, But there is no line related to the lack of personnel. Therefore, this is not a problem for the government that enters.

At the same time, as priority actions, it proposes: to ensure access and reduce queues for consultations, examinations, surgeries and specialized procedures, immediate start. Where and who will do these procedures? The private network?

Per Is this not investing in public hospitals? At the same time, the budget reduction and recomposition of R \$ 10.47 billion for the year 2023 and an increase of R \$ 12.3 billion to meet increased demand. Or that is, the concern with resources is accurate, but where will the money go? To face the obstacles of the specialized network(os hospitais)proposes calls for a national effort to face the queues of consultations, exams and existing surgeries in each region of the country and qualify Sisreg.

But specifically for federal hospitals, the project:

1. *Second the TCU [2] would be valid to evaluate the possibility of the source of resources for the unit, consider factors as a value delivery level for the population.* - Under this language out of business MBAs, it proposes to compensate hospitals for the results(e resultados em saúde é muito mais complexo do que num supermercado)but does not commit to resources So that they can perform better and the main one is personal.

two. Evaluation of the hospital's performance by the governance structure, directing care actions to user satisfaction - here a Dark language that only lights an alert of what's coming.

3 . *Reavalize the management model of the RJ hospitals network linked to the Ms* . Here is the key to understanding the project that we will comment on, that is, why the transition program does not commit to the replacement of the personal through contest.

4 . *Cupação of management positions without observing technical criteria* . Again, maybe business MBAs make a difference.

Just don't understand who doesn't want to understand: that the PT government project, strengthen the public character, the public tender and the server in the area of health. The government's alignment with the neoliberal discourse that accuses the server public of inoperation meets the need to make the expense public, proper to the adjustment policies, that is, to facilitate the dismissal of workers and reduce services. Local mandonism, coronelismo and all forms of personal domination that characterize our society point to also flexible management models for nepotism, clientele formation and corruption as social organizations. In the case of foundation models and public company, the path is to become mixed companies that can meet both SUS and health plans. The origin of this whole policy is the submission to imperialism is the proposals of the

World Bank for public hospitals, through private public partnerships, which seem to be accepted in a good way and not as bitter medicines, for those who have already defended one day an electoral way for socialism in contrast to the revolutionary movement of the late 70's and early 80's.

The combative servants of the Ministry of Health who prepare. Ebserh is example of harassment to servers, business model of goals and environment of work that plays workers of different bonds against each other For better control. Promises a lot and delivers little, contracts are not Fulfilled, there is a reduction in service and closure of services. Herself may become the manager of federal hospitals, as leaked for the Press in December.

Very confetti brings the transition program on the councils with participation of social movements, closed or boycotted by the Bolsonaro government. But, in past, in the creation of EBSERH, the Dilma government respected the opposite of the National Health Council?

### **Grades:**

[1] Approximate data. SUS Current Information System is so purposely obscure that you can't immediately make a series historical of federal beds. Each period has a different criterion from classification.

[2] The TCU of reform inducer is always accused that the Federal Government itself supports, as the case of the Brazilian company of hospital services

The "mothers of Saturday" have been looking for answers for years on the fate of their relatives forcedly disappeared in the 80s and 90s in Turkey. Instead of being Listen, they end up on trial.

For over 28 years, every Saturday, dozens of people have met in the center of Istanbul to ask for justice for their disappeared family members: children, husbands, Wives, fathers, brothers and sisters.

In the 80s and 90s, in fact, hundreds of people, including some children, After being arrested by the state authorities, they disappeared into thin air. Still today there is no news.

Since 1995 the "Saturday mothers" have asked that the truth comes to the surface. Theirs is Always a peaceful protest was.

In August 2018, "the mothers of Saturday" had gathered for the eighteenth - century time in front of the Galatasaray high school in Istiklal Street, when, with one Sorry, the police asked them to disperse. To their refusal, the authorities they reacted by force, using tear gas, water cannons and plastic bullets.

Forty -six people who were there, including many relatives of the disappeared, are now on trial for participating in the event.

Asking justice is not a crime. Turkish authorities must look for the responsible for these disappearances, do not punish those who protest peacefully.

**Our comrades in communist international(ci-ic.org)has published one Article on the historical victory the Red Army won over Hitler fascism in 1943. Stalingrad was a turning point not only in the war but in humanity's history.**

The comrades write that the International Communist Association has taken chairman Mao's position: comrade Stalin was a great Marxist-Leninist, who defined Leninism and played a crucial role in World War II, especially on the basis of the 7th congress in the Communist International. The comrades look The article in connection with this position.

They write that chairman Mao has defined the battle of Stalingrad as not only the turning point of the war between the Soviet Union and Germany, or in it Anti-fascist world war, but a turning point in human history.

The Soviet Union, under the great leadership of comrade Stalin, led a fair war, a large -scale and heroic defense, which used the burnt Earth's tactics and won over the Hitler fascism at a price of 25 million Soviet life. This great war was also important to inspire and generate fair liberation wars in the colonies throughout the Third World.

German Wehrmacht attacked Stalingrad to take over the city on August 23, 1942. An aspect By the importance of the city, it was the name of Stalin. In an order from mate Stalin he demanded greater efforts and sacrifice from the Red Army. In this The order says comrade Stalin among other things:

«Each commander, soldier in the Red Army and Political Commissioner must understand that Our means are not unlimited. The territory of the Soviet State is not a desert, But people - workers, farmers, intelligence, our fathers, mothers, wives, Brothers, children. The territory of the Soviet Union that the enemy has conquered or Want to conquer are bread and other products for the army, metal and fuel for industry, factories, works that supply the army with weapons and ammunition, Railways.(...)Further retreat means to waste ourselves away and at the same time Sacrifice our motherland.(...)If we do not stop the retreat we will be without bread, without fuel, without metal, without raw materials, without factories and works, without Railways. This leads to a conclusion, it is time to stop the retreat. Not one step back!"(Vår egen oversettelse.)Comrade Stalin declared that retreat was to be considered a betrayal. The population in Stalingrad was incorporated into the armed resistance to Wehrmacht. The fascist 6. Army took the city but through Operation Uranus under the leadership of Georgij Zjukov and Aleksandr Vasilevsky, were organized troops north and west of city. The Red Army surrounded Stalingrad, which caught nearly 300,000 enemy forces there and cut their supply lines, and then tighten the grip more and more.

The comrades write that the battle of Stalingrad shows that in war is that People, not weapons, which are the most important. The battle not only evolved from street to street and house to house but from room to room and it was written heroic Chapters in human history that shook the world.

The comrades write that the fascist offensive against the Soviet Union led by the Nazis and with the support of fascists from Italy, Spain, Romania, Hungary and the Bandera rats from Ukraine, threw millions of forces, Wehrmacht's best, 75 percent of their Air Force, into the invasion, but that Stalin and the Soviet Union Was prepared and succeeded in resisting. One of the reasons was the wonderful The intelligence service, the comrades write. Another Joseph Stalin's handling of diplomacy. Furthermore, the Soviet Union used strategic defense along with it Burnt earth's tactics and partisans behind enemy lines. They blasted Soviet dams and dismantled factories so that the enemy should not get anything like preferably. The German Nazis could not imagine that the socialist The mother country would take such measures to combat them.

The comrades write that the dictatorship of the proletariat stood at stake, the revolution stood at stake, and that one could not stop to think or allow himself to stay hindered in some way. They write about heroic partisans, who were left behind behind enemy lines alone with rifle, ammunition and vodka, to wait for the enemy, and that the German Nazis lost an average of ten men to each such Partisan when they were liquidating them.

The comrades write that one cannot forget Stalin's leadership, when considering him, and how he always held on to the importance of the morale of the war, how the conquered tabs and chin crosses from the Nazis were thrown on the ground in front of Lenin's Mausoleum. The major military victories were also made to moral wins. They write that the Brazilian comrades have stated that the victory against Fascism in World War II is one of the major events in the process of it Proletarian world revolution. Three important imperialist powers, Germany, Japan and Italy, were defeated. This must be considered, highlighted and celebrated. Antifascist war shows the enormous life force of the socialist system, that imperialism is the source of all wars in modern times, that the people will prevail and that imperialism is a paper tiger and that to defeat imperialist Aggressors must be united people's revolutionary forces in all countries and form it widest possible international front to gather the strokes against the main enemy of the world's people.

The comrades end like this: "With the honorable red army rifles, Nazi became Germany crushed, socialism and the dictatorship of the proletariat rose in East-Germany. That the red tab of the Communist Party and the Soviet Union waved over The dark and broken German rich stag is undeniably a great moment for

the international proletariat that symbolizes the entire heroic and honorable epic struggle against fascism in defense of the Soviet Union and for the development of the proletarian world revolution. The statement from comrade dimitrov when he set course for the Soviet Union after the big victory at the Nazi tribunal in Leipzig was thus fulfilled: "We will create Soviet Germany!" "

Multipurpose general strike shook the United Kingdom against the crisis and the "law of Strikes ". Photo: Sean Smith/The Guardian

On February 1, more than half a million workers declared a strike and held demonstrations and pickets throughout the UK against the crisis and repudiating the law that restricts the right to strike. The strike mobilized at least 300,000 teachers from 23,000 schools, 100,000 public servants of more than 100 departments, 100 thousand railways and 70 thousand university professors, In addition to thousands of students who supported the mobilization.

Workers required a greater salary increase than inflation, which reached 10% in 2022. In addition, they also denounced the constant worsening of living conditions of the people in the face of the escalation of the crisis in the United Kingdom, which generated A loss to real salary between 10% and 23% in the last ten years. To the demonstrations also denounced the "Law of strikes", currently in the process of English Parliament. The new legislation seeks to restrict the right to some sectors of UK workers by imposing a "minimum level of Services "that should remain in operation during mobilization.

In addition, education workers, students and parents of students condemned the constant precariousness of the UK educational institutions, result of budget cuts and austerity measures that have intensified since 2010.

### Protests and pickets throughout the UK

The mobilizations began on Wednesday morning. In London, capital from England, public servants, teachers and students pickets in important schools and administrative buildings in the country. THE Your Majesty Office(departamento responsável pelo desenvolvimento das finanças e medidas econômicas do Reino Unido), the department for business, Energy and industrial strategy and the school *bishop Thomas Grant* were some concentration and blocking points for the mobilization of workers.

Also in the capital, thousands marched from different parts of the city, as *Portland Place* and the Center of London, to Westminster Palace, where They denounced the effects of the crisis and budget cuts on the people. Protests occurred in Whitehall, another area of the city of Westminster, and in Leisure Center *Glass Mill*, in southeastern London.

In addition to crisis and inflation, the precariousness of education was a central theme in the manifestations. Company employees for student loans, from Office for students and the department for education added to the teachers and students in complaints about the state of education and educational institutions in the United Kingdom. "We have to use very old books that have been used over the years, they are shattering and need to be glued With tape, "said Lucy MacDonald, an English teacher at the *bishop Thomas Grant*, to the Press Monopoly *The Guardian*. Other protesters denounced that many schools in the region are without the heaters linked, Despite the very low winter temperatures.

In Birmingham, pickets were erected at multiple points of the city from 8am, as at the entrance of the *Midlands* Western Office and the Office of the betting committee, where they received support from passersby in the shape of horns and gestures. A demonstration in the city center gathered hundreds of workers who denounced the crisis, the cuts in the pensions and the precariousness of universities. Anne Buttner, Secretary of the University of Birmingham, he told the press monopoly *the Guardian* that "people They are exhausted and exhausted. You can see, everyone is out [on the street]. To the nurses are out, the railroads are out, the employees of Trails are out, postal service workers are out. AND Encouraging to see that we are not the only screaming in the emptiness. There are many us".

Throughout the march, the workers sang the protest song "I prefer be a 'piquetteiro' than a bullshit ", a song that became famous in the decade 1980 during the English miners' strike against reactionary measures From Margareth Thatcher.

Outside England, the mobilization hit the cities of Edinburgh and Glasgow, In Scotland, and the universities of Ulster and Dublin University in Ireland. In the latter, teachers denounced the precarious working conditions of Profession colleagues who have less stable contracts. Posters erected by they exclaimed complaints like “I worked flu and fever because I have a medical license ”and“ the possibility of having a house with stability or Retirement is a distant dream. ”

### **Number of misery workers increases every year**

The general strike on 02/02 occurred in a context in which the rates of misery in the United Kingdom have increasingly increased, the result of rampant inflation and recession that, according to the Bank of England itself, must last for less until 2024. A 2023 report shows that approximately 13.4 million Of people in the country were in poverty between 2020 and 2021.

In addition, at least 74,230 families were left homeless or were at risk imminent to lose it between January and March 2022, a number that exceeds in 11% the previous quarter. Of these families, 10,560 had people employed In full -time

works and 25,610 were families with children. Ellie Clark, a worker interviewed by *The Guardian* 02/01 denounced that the situation is “very, very difficult”: “I am Always worried that I am a crisis away from living on the street. That I I am there is a payment to turn homeless. We are simply living in Poverty, ”said the worker.

In addition to the lack of housing, the food has also become less and less Accessible: Food inflation reaches 16.7% in the UK. In September 2022, at least 9.7 million people were in a state of “Food insecurity”. Increasingly, families in the country report the need to buy ultra -processed foods, such as hamburger meats or sausages of Hot dog, because they are cheaper. Food banks, which almost not They existed in the region in 2010, now proliferate throughout the United Kingdom. A Trussell Trust, food manager, recorded 300 thousand new users alone in the first half of 2022, one fifth of which they were of families who had at least one person with jobs.

Given this, the popular mobilization has also grown for better Life conditions, as was realized on 02/01. In 2022, the railways performed the largest strike of the last ten years , in the same period as bus drivers and application drivers went to the streets to demand their rights. During *Black Friday* , workers from amazon of the country paralyzed their activities against overexploitation. Two months later, tens of thousands of nursing professionals went into strike for better working conditions. On 03/02, a strike of Ambulance drivers and nurses in Wales ensured an increase salary from 6% to 7.5%. Nurses, rescuers, paramedics and telephone telephone England's emergency also promised to mobilize in the coming weeks.

In addition, workers have denounced the "anti-coat law". The measure in discussion is a letter from the English imperialists to make it even more. The organization of strikes and struggles is difficult. However, the immense mobilization that shook the whole UK demonstrates that the workers will not lower the Head and are willing to follow in the fight.

**Beretta's workers in the assembly organized by the MFPR of 28 October In Trezzo they launched an appeal to all workers: let's organize ourselves, Let's join, we must be stronger and impose the extra gear as Women/Workers**

*Dal Blog FemminismoMorivolzione*

**to uncovered cards. Beretta workers struggle against hard conditions Of work and the plans of the company that using the contract(UMBROGLIO) Try Eliminate them silently**

**for the unit of all of the workers of Beretta divided by contracts Precarious.**

The struggle of the workers in contract for Beretta looks at all workers and to their condition. From the defense of health and workplace in factory, to unity with the other realities that fight, in participation to the National Assembly of February 18 in Rome.

Starting with the defense of health. The workers on strike have denounced 'bast stands we can't take it anymore to run all day, to cold, so we only break our back' just as the New Inail data on the strong increase in accidents and diseases Professional.

and against factory repression, made of discriminatory behavior, arrogant, anti -union, like the 50 euros given in December as gratify Only to the workers who have not striked, or leverage the double load that the workers and mothers of the factory have in the assistance to the children by example, with a real retaliation made of changes on duty and times, sudden and personalized, to put uncomfortable workers in difficulty, force them to make fatal jumps with babysitters. And of course of the failed

**attempts to hinder the strike, which resolved, in front of the firmness of the workers, in a frustrated**

**Post(cancellato all'arrivo delle risposte): 'They were 10 escaped home'. NO I just don't think they ran away from the house, they have full brown to work in those conditions.**

The strike showed the new contract with MPM of 31.5.22(denunciato anche con un esposto)made in a hurry for the open investigation -aprile 22- from the Guardia di Finanza 'against illegal use by Beretta delle Cooperatives to always have manpower available available and underpaid, explicitly defined as a transhumance of workers', as a facade and commercial operation; How to download on all responsibilities cooperatives; as if to cancel the fact that, i results of the exploitation of precarious work and underpaid of the contract, of the disgusting CCNL Multiservizi, increase the profit of Beretta.

With the signing of UIL, the changing contract was concluded without transparency and the guarantees claimed by the Slai Cobas Sc about the lines of processing actually passed to MPM.

The contract thus becomes the Trojan horse to remove one by one lines to the workers who are struggling in the factory with Slai Cobas Sc. They manage more to keep the rhythms of the factory. In recent weeks they are lines 4 and 5 are removed, the control islands, which must return to MPM workers who have been in those positions for years and years. **The contract used To hit 'SottoBanco' the workers.**

With the strike there was a participatory and self -managed by the workers press conference, significantly in front of the ATS headquarters in Trezzo, with Journalists of Milan Today, of the day, those of the Gazzetta della Martesana and of Radio Popolare and some independent ones who carry out investigations on the world of work, all involved by the protagonism of the workers, who have Started with several voices, to tell each other, to say enough, to change.

Unlike what happened so far, with the workers consumed on Beretta processing lines, put out or who have left silence, perhaps recommended by a trade unionist to accept the offer of Conciliation of the company, as inevitable.

**The day of January 31, part of a 360 ° mobilization, as mentioned of the workers.**

## Il presidio

### LA RIVENDICAZIONE

**Sergio Caprini**  
Referente Srl Cobas

«Tutte le donne qui presenti oggi, e anche le assenti, meritano una stabilizzazione e non di lavorare in queste condizioni»

### I PROBLEMI

**Selvana Luci**  
Rappresentante Riu

«La nostra mansione implica attenzione e movimenti ripetitivi, molti di noi hanno problemi di schiena e altre patologie correlate»

**di Monica Autunno**  
TREZZO

**Otto ore di lavoro faticoso e ripetitivo al freddo, ritmi incalzanti, contratti «avviliti» e salari bassi. Incertezza sul futuro e «un clima in azienda che diventa sempre più pesante». Appalto nuovo, problemi vecchi se possibile peggiori: sciopero e manifestazione sotto egida Srl Cobas, ieri mattina, davanti alla sede Alfa di via Gorizia, per una rappresentanza delle 38 operarie «in appalto» del salumificio Fratelli Beretta. Dallo scorso maggio sono passate dalla vecchia cooperativa (uno degli appalti per cui l'azienda finì sotto la lente della Guardia di Finanza di Lecco nel 2022) e subì un sequestro da 4 milioni di euro, indagine ancora in corso) a un nuovo soggetto, Mpm spa. Ma i loro problemi non si sono**

mai risolti. Non è un caso che sia stato scelto, come sede del presidio, il piacere: «essere dell'Azienda sanitaria. L'aspetto salute è assolutamente centrale nelle rivendicazioni dei sindacati, che ha presentato un nuovo esposto: «Qui ci sono operarie che lavorano da molti anni, che hanno problemi sui problemi: in alcuni casi patologie lavori correlate certificate e plausibili importanti, prendono stipendi inadeguati e si vedono perniciare "usurpare" nelle assunzioni senza apparente criterio».

**Una situazione** che non deve rimanere nel silenzio. Ritrovò a mezzogiorno, dunque, per Sergio Caprini, referente Srl Cobas, e per una quindicina delle 38 addette alla fine di confrontamento, dove si corre per ora al giorno (oggi su due turni) per controllo automatizzato, effettuatore, confezionamento e carico bancali dei salumi. La si-

tuzione contratti il tema con la maluscola. In azienda lavorano 200 addetti circa, le operate in appalto, assunti Beretta, interni forniti da una società ad hoc, «una heterogeneità di situazioni che produce ingiustizie», così Caprini. «Tutte le donne qui presenti oggi, e anche le assenti, meriterebbero una stabilizzazione con i criteri dovuti. E non di lavorare in queste condizioni e stipendi, oggi poco più di mille euro al mese, portati a casa su vertenza. L'appalto non ha più alcun senso, lo denunciamo a gran voce».

**66**  
**Ci sono operaie che sono lì da anni e che prendono come stipendio poco più di 1.000 euro**

phe la resa Selvana Luci. «Il nostro è un lavoro usurante, implacabile, intollerabile e movimenti ripetitivi, molti di noi hanno problemi di schiena, di gambe, di braccia, tunnel carpale e altre patologie correlate. Ci sono pesi importanti da spostare. E il freddo. Si lavora a 4 gradi per otto ore al giorno, i timori per il futuro. «Nell'ultimo periodo ci parlano di un calo di commesse. Non abbiamo certezza di cosa accadrà. I riposi e le relazioni: «Spasso un riposo "forzato" viene comunicato all'ultimo. In passato quotidianamente si comunicava di più». E di coop, in operai, ne hanno «passate» parecchie. Uno «vantaggio» di partenze: «Prendono anche 300, 400 euro in meno». Le istanze: «Basta aspetti in azienda. Ritmi produttivi più umani. E le soluzioni. Lo denuncio degli anni scorsi devono diventare strumento per cambiare, davvero, la condizione di questi lavoratrici».

Rozzano: prezzi calmierati, la municipalizzata diventa anche un'impresa

## Elettricisti, idraulici, fabbri? Ci pensa l'Ama

### ROZZANO

**Ama, la municipalizzata rozzanese** diventa anche «impresa edile» per manutenzioni domestiche ai servizi dei cittadini. Elettricisti, idraulici, fabbri e imbianchini qualificati a prezzi calmierati. Fra i servizi offerti vi sono interventi come la creazione e lo spostamento di punti luce, il montaggio di lampadari, l'installazione e la manutenzione di caldaie, termostoni e sanitari, lo sbloccaggio di serrature, la sostituzione di porte blindate e saracinesche, oltre ad altri lavori come la tinteggiatura. Tutte piccole e grandi opere che consentono di mantenere la propria casa in uno stato ottimale, sia in

### LA NUOVA

**Gianni Ferretti**  
Il sindaco

«Offriamo a tutti l'opportunità di affidarsi a figure professionali: non sempre si ha il tempo o si è in grado di risolvere i problemi in casa,

caso di emergenza che nella routine quotidiana, il servizio è disponibile su prenotazione, al numero 02.09269305 ed è attivo 24 ore su 24 e 7 giorni su 7. Il costo dell'uscita del tecnico è di 33 euro, la stessa cifra si applica anche alla tariffa oraria per la manodopera. Da questo importo è escluso il costo di eventuali pezzi di ricambio da acquistare. Inoltre la società comunale mette a disposizione i suoi tecnici specializzati».

**Non sempre** si ha il tempo o si è in grado di risolvere da soli i problemi che si verificano nella manutenzione della casa - spiega il sindaco Gianni Ferretti - con questo nuovo servizio offriamo a tutti l'opportunità di affidarsi a figure professionali com-

petenti in relazione al tipo di intervento, ponendo una particolare attenzione anche ai costi da sostenere». L'iniziativa già operativa è stata annunciata alla presenza del presidente di Ama, Giuseppe Contiglio. Insomma, Ama fa causa offrendo servizi a prezzi calmierati dando lavoro a professionisti del territorio ma di fatto facendo una concorrenza forte agli artigiani locali. Sono in molti a temere prezzi onerosi che l'azienda municipale può offrire. «Temiamo che questa scesa in campo di Ama nel settore edile a prezzi inferiori quello di mercato possa danneggiare le aziende del territorio» - spiega Antonio Addeo (MsG).

The monster nuclear -powered aircraft carrier "George W. Bush", which a few ago Days participated in military exercise with the Zionist state of Israel, It is now in the bay of Faliro and will remain there until Tuesday 7 February. In fact, special NAVTEX was issued by the Greek Coast Guard according to which prohibits' traffic and anchoring of vessels, ships marine leisure means, as well as any other activity at a distance of one thousand The ship, and around it. "

At the same time that the US-Natia-Natia warlike confrontation In the long - suffering territory of Ukraine is in a sharpening, pretending to be very Dangerous developments for peoples, the bourgeoisie of the country provides us every Types of amenities and facilities in NATO murders!With the narrative of the ... right side of the story delivers the whole country by Alexandroupolis up to Souda in NATO's services and plans War machine installing bases everywhere. After all, very recently the Prime Minister said that the Aegean islands are ... NATO!

But our people know very well what American imperialism and NATO will say. We know very well that they are the ones who have been chopping for decades and destroy entire countries(Γιουγκοσλαβία, Ιράκ, Αφγανιστάν, Συρία)in Frames of their war plans. They are finally those who give birth and giggling the

uprooting of millions of people from their place with their Refugee currents. As we also know that in the context of geopolitics their designs have supported - whether disguised, or open - in many Countries, the most reactionary-rioting forces. These are the Imperialist bosses of our country's bourgeoisie. Their own plans(όπως και των ιμπεριαλιστών της ΕΕ)have served all the Governments.

The ... "hospitality" of the "George W. Bush" aircraft carrier is one more challenge for our people, who comes to add to that of the imminent Visit to the Murder spokesman, Blinken, to our country. A people with deeply anti-war-anti-imperialist feelings, who wants peace and Friendship of peoples. The narrative that imperialists-"patrons" ensure the Peace and stability in the area is a big lie. On the contrary: In order to ensure their balances and interests, they feed The nationalism, hatred and the confrontation of neighboring peoples. If the demand their interests, may lead whole peoples to mutual slaughter!

The right side for peoples is the one who shouts that they do not need from patrons. Demonstrating against war and imperialist interests. Fighting for peace and friendship of the peoples!

The visit of the "George W. Bush" monster cannot be left unanswered From our people. Like all the country converting the country to free field of action of the NATO war machine, of our involvement in Imperialist confrontation in Ukraine. On the streets the people claim and It imposes his right!To be back on the streets to shout:

Outside the "George W. Bush" aircraft carrier from Piraeus!

**Outside the bases and NATO from our country!**

**No involvement in war!**

**Peoples do not need patrons!**

**Solidarity- Peoples' friendship!**
