Ramallah, February 9, 2023: The Popular Front for the Liberation of Palestine

welcomed today, the decision of the Catalan city of Barcelona for temporarily suspending its relations with Israel, due to its crimes in the occupied territories of Palestine.

This position reflects the popular will to reject violent practices by the Israeli forces against our people, the Marxist-Leninist formation stated in a dispatch.

In a letter addressed to Israeli Prime Minister Benjamin Netanyahu, Barcelona's mayor Ada Colau announced the temporary suspension of its institutional relations with Israel "until the authorities put an end to the systematic violation of human rights against the Palestinians."

The move includes cutting the twinning of the Catalan city with Tel Aviv until further notice. "Barcelona has become the first city council to suspend ties with apartheid Tel Aviv in solidarity with the Palestinian people," the group wrote on its Twitter account.

## **Turin, "You cannot die of university": students trace the silhouette of unchadadave in rectorate**

Flash mob at the University of Turin by the Student University Students of the Student Changing course which, this afternoon, Tuesday 7 February, traced a shape of a body in the courtyard of the rectorate of the University of Turin with the inscription "This model of University of Uccide"

The protest was born to remember the student who took his life love, inside his university, after not having passed his reprimand of exams.

"A few days ago - they write - a student took his life in Milan, inside his university, after having failed his first exam session. To have failed it was not the student but the

University model that continues to reap victims, yet another death after dinner a few months ago another student took his life in Bologna, another Apadova and another in Palermo in the most absolute silence. It is time to disregard the silence that has so far cloaked the question of suicides in university. 3 minutes of silence was the response with which the rector Dellaiulm tried to liquidate this tragedy. Making resume immediately after regular performance of the exam session. Here is what according to them is the lava of one of us. Our answer is the shape of a body on the ground that now stains the rectorate of the United. This massacre occurs because the sounds are most subject to stress, immersed in a rhetoric of sticker competition. And fail in this university system means seeing the doors of their dreams in the face, and being slammed in the reality a system that for our generation leaves no perspective, no future if not precarious and exploitationAnd they continue: "Because perhaps behind the story of a

student who has failed an examination or did not graduate in time, there is a story a student who makes one or two works, underpaid, precarious, black, all this to stay the Studies, to keep life in another city, to feel adequate. Our task is to stop this massacre, it is to break into silence with the organization of the organization, break the individualism and the culpritization with the strength of an organized community that collectively fights For a viad'sita. For a different system, for a new university, in a newasocity. Tomorrow at 6.30 pm at Palazzo Nuovo. A university assembly will be held. We make the silence break, we start doing it all together. Let's stop Lastrage. Let's join And let's activate to organize an answer. Because this death is not an isolated case but the failure of an inter - system, and then we also want to postpone the university national assembly to be terrified à on 4/5 March in Rome. What we want is a new university model ".

**NORDIO SENDS TO DEATH ALFREDO COSTI RIVER**

The anarchist Alfredo COSTIO, on hunger strike for over 100 days, to decease the 41 bis, the hard prison regime.

This was established by the Minister of Justice Carlo Nordio, evidently, still existing the "social danger" of him.

The minister rejected the application for revocation made by the lawyer Flaviorossi Albertini, defender of the prisoner, who received a communication from the dalministerium.

The 41bis had been arranged on May 4th of last year by the Holy Aragardesigilli Marta Cartabia for

four years. It is worth remembering that this decision arrived after Chealfredo had been in prison for 10 years, and that no new crime could be contested.

That decision derived "only" from the choice of the Cassation to make the imputation relating to the bomb placed in Fossano in 2006 - a explosion without deaths or wounded - in "political massacre" time "to adapt the security of the state". A crime never contested, not even perpiazza Fontana or for the Bologna

station, which certainly had other otherwise of the irrelevant "firecracker" on the night of Fossano.

The defense of Alfredo COSTIO announces that he will have against the decision of the ministerial of justice.

*" Cospito has lost 47 kilos and no longer takes the supplements. We are waiting for Laiornata on Saturday when our partisan doctor will visit him, he will be able to see the clinical folders then to make an idea of the actual state of health "*.

The lawyer of Alfredo Cossed, Flavio Rossi Albertini, says it, when he left the work of Opera where this morning he had an interview with his assisted who lasted over two hours. "He will go on until the extreme - The lawyer continues - *se ha come to date I am not right to doubt it is determined to get to the extreme consequences, until he died*".

H. MERKEZİ | 09.02.2023 | Member of the Academy of Sciences. Dr. Naci Görür said, "I say this for the first time, let all Turkey hear it, there are two faults in Turkey. One is the North Anatolian Fault, the other is the Eastern Anatolian Fault. Both emptied most of the two energy. This means that there will be no great earthquake in Turkey in the next few hundred years, at least throughout the Buiki fault zone. However, the places we are worried about between Bingöl İlekarlıova."

Speaking to DHA, Görür said, "The situation in Istanbul is not good at all. Just as I wrote 3 days ago, 'We are concerned about Maraş', I also worried about Istanbul. All scientific research is that time is coming in Istanbul. It was said that the earthquake was expected in about 30 years.

Prof. Dr. Naci Görür, 3 days ago in relation to the earthquake, the warning that he said, "When the Elazığ earthquake was a statement. Elazığdepremi was on

the Eastern Anatolian Fault, that fault awakened. He didn't earthly before. I, '21. In the century, I would evacuate its energy by producing an earthquake.

"After breaking the Eastern Anatolian Fault Elazığ region, Maraş, Çelikhan, Earlykve Hatay region became a threat,' I think that big earthquakes will be in large, 'I said. Now, when a region does not earthquake for a long time, we think that the fault line accumulates a very large extent. Let us say that the people understand, we think that the energy accumulated.

"If a significant energy has accumulated in Maraş, and if you transfer it to an extra energy, we will start to fear Maraş. I said, "Marash" because of that fear and expectation. 'Earthquake preparations are used, do not neglect the urban transformation here,' he wrote, drew and said. Unfortunately, February 6 came, there were two earthquakes of 7.7 and 7.6 magnitude. The first earthquake was with 'triggering'. The fault systems there were each other. The first earthquake was on the Oludeniz fault, the second earthquake was on the Eastern Anatolian Fault. Two earthquakes in such a 9 -hour apart is a very rare one. When we look at it, most of the buildings collapsed like a bowl. "Stating that the Ministry of Disaster should be established. Dr. Naci Görüsözlerin continued as follows: "First, a disaster ministry will be established. After this ministry, it will have a good budget and the necessary infrastructure and coordination will be made. With 5 years of plans, it will start from earthquake generations and every city in the earthquakes will be transformed into earthquake -resistant cities. First, a Birmikrobeleme work will be done. ## **LET 'S DEVELOPE THE REVOLUTIONARY STRUGGLE AGAINST THE IMPERIALIST WORLDWAR PREPARATIONS!**

### **--DECLARATION--**

All the imperialist countries proclaim to be defenders of freedom, democracy and world peace. They all pretext to fight against dictatorships and international terrorism. But, indeed, they are the worst terrorist dictators in the world. They speak about peace but frantically prepare for a new war of global robbery. They strengthen the arms industry. They increase their arsenals. They mobilize huge war machines mainly towards Eastern Europe. They sponsor the already prolonged wars against the peoples of Palestine, Syria, Yemen. They are inciting the outbreak of new reactionary wars in the Taiwan Strait, on the Korean peninsula, in the East China Sea, on the Ukrainian-Belarus border, on the sea border between Greece and Turkey. NATO, commanded by Yankee imperialism, in Ukraine through the puppet regime of Kiev, confronts mercenary armies, weapons and military chiefs, with the military might of Russian imperialism. Both sides concoct pretexts to use nuclear weapons. The inter-imperialist contradictions sharpened to the point that a new nuclear world war is no longer a latent imperialist danger, but an imminent risk for the existence of world society and its habitat.

Basically The ongoing proxy wars and trade wars, the emerging trade blocs and military blocks, allotment of heavy military budgets, manufacturing colossal and mass destructive weapons, modernizing military forces and several types of preparations for world war even in space shows the neck and neck competition for the economic resources and political control over the countries of Asia, Africa and Latin America including several east European countries. All these indicate the intensifying inter-imperialist contradictions and the scramble for the re division of markets and world hegemony. But the same economic and social causes that push the imperialists to wars of robbery, become unlivable, unbearable material conditions for the slaves of capital, material conditions of the rebellion of the exploited proletarians, peoples, nations and countries oppressed by the monopolies and imperialist countries. And it is up to the International Communist Movement to bring them the revolutionary conscience, organize and transform the rebellions into a revolutionary struggle against the common enemy: the world capitalist system of oppression and exploitation.

Com. Mao says that: 'World war may break out and revolutions may occur as a consequence, or, revolutions may breakout everywhere and while confining its strength to those who stand them, it may become impossible for imperialism to undertake another world war, whichever way it occurs this is an era of revolution'.

It is up to the communists to give an example of internationalist unity and struggle against the preparations for a new imperialist world carnage; join and coordinate efforts to promote the revolutionary struggle of the proletarian armies in all countries against the mobilization of troops and weapons for reactionary wars; construct a common front with all the revolutionaries, the anti-imperialist, democratic and environmentalist forces that oppose the war and the support and military commitment of the lackey regimes with their imperialist masters across the world especially in semi-colonial and semi-feudal countries; reject and denounce as traitors the opportunist satraps who, in the name of the proletariat and the peoples, give support to one of the imperialist factions, when they are all deadly enemies of the oppressed and exploited of the world; relentlessly support the revolutionary struggle led by genuine Marxist-Leninist-Maoist communists, mainly the people's war in India together with other people's wars in Philippines, Turkey, Peru, today are the vanguard of the World Proletarian Revolution, against imperialism and its reactionary national watchdogs.

Imperialist capitalism is in crisis! Long live Socialism and Communism!

Or the revolution stops the war or the war unleashes the revolution!

Note: The following document was sent in an email from the Editorial Board of Tribune of the People to one of the Support Committees. It is the closest thing we have to an 'official position' of the Dallas-Cult on the question of gender and sex. Not only does it show their blanket erasure and hatred of non-binary people, but also reveals their general transphobia, homophobia and misogyny. If it means anything, To be absolutely clear: I post this document here to denounce and repudiate it.

I have tried to avoid adding my own commentary in previous posts but had to draw attention to the following line with respect to the underlying misogyny: "for women who use 'non-binary' they still suffer the social status of woman and for men they still are granted the social status of men in the man-woman contradiction." In the author's mind (likely either Ed Dalton or David Martinez), men and women are categories that apply to all people in all societies (even societies existing before or after women's oppression existed). Yet the nature of woman is to 'suffer' while the nature of man is to 'be granted'. In

other words the attitude of these men is to say, "blessed are you, Lord, our God, ruler of the universe who has not created me a woman." If the 'suffering' and 'being granted' which constitutes men and women no longer exists (in a society which has abolished the oppression of women), what then would it mean for an individual to identify outside the gender binary? What would it mean to be a man or a woman anyway? Either we fix a biological/anatomical definition of gender, or we root the gender binary in society, in which case it is subject to transformation and even abolition. The argument presented here (repeated throughout the cult organizations) is only superficially dialectical: its main essence is to define sex/gender as an immutable biological category, with one side being devalued in favor of the other.

To the Comrades in [Support Committee]:

Greetings, in the interests of not touching on the matter lightly we want to briefly examine the question of the non-binary phenomenon from an MLM standpoint, and issue this short document to develop line struggle and discussion. This relates to the use of "they/them" pronouns used to refer to individuals in report backs.

Flyers were distributed at the rally, informing about the situation in Mexico Ybrasil and many heard the complaints overhead. In addition to Lamasacre in Brazil and the threat of popular resistance in Mexico, the trial against partner Zapotec Salvador Pinal Meléndez, who fights against the implementation of the CIIT and for the defense of the soil, is also made. Suaudience in court coincided with the rally. Some slogans of the revolutionary movement of Brazil and the Poor Peasants League(LCP), as well as the Mexican Popular Organization Sol Rojo were chanted to Vivavoz to express solidarity with popular struggles and their heroicarer. Due to the situation after the earthquake in Turkey, he also distributed as a brochure in Turkish a declaration of the Turkish organization party, as well as a translation into German, in which the responsibility of imperialism and the Turkopopor reactionary government will be To people in the earthquake region.

This amount of anti-imperialist battlefields, which have opened up in relatively short time, shows that imperialism is a dying system that does not even satisfy the basic needs of the masses and therefore the struggle of the peoples of the world is emphasized.

The anti-imperialist struggle must also be led in the imperialist countries, every massacre, every threat to the peoples of the world through the imperialists and

their lackeys must be denounced and combated. This is why the BGIA has also announced that and further revolutionary, anti -imperialist and democratic powers have if the situation in Mexico or Brazil continues to be reinforced and the reaction continues to pursue its dark, murderous plans against the fighting people.

The importance of proletarian interantism shows diemexican comrades of Sol Rojo very well, so they wrote in the run -up to announced action on their [website](#) :

*"The mobilization in Hamburg in solidarity with the poor farmers in Mexicound Brazil reflects a high internationalist and proletarian spirit that we recognize and welcome."*

This multitude of anti -imperialist battlefields that have opened in a relatively short time of time demonstrates that imperialism is a dying monitor that cannot even meet the basic needs of the masses and therefore feeds the struggle of the people of the world.

The anti -imperialist struggle must also be fought in imperialist countries, all massacre, all threat to the peoples of the world by imperialists and their lackeys must be denounced and fought. That is why the BGIIt has also announced that it will continue to mobilize revolutionary, anti -imperialist and democratic forces and perform actions if the inmedic or Brazil situation continues to deteriorate and the reaction continues with its planned plans and murderers against the combatants. people.

The Mexican Red Sol companions show very well the importance of proletarian internationalism, as they wrote on their website before the announced action:

*"The mobilization in Hamburg in solidarity with the poor peasants Deméxico and Brazil reflects a high internationalist and proletarian spirit that we recognize and greet."*

The alliance against imperialist aggression returns this greeting and it is a granelogio to receive the recognition of the companions in this way: with the Solrojo the people will win!

**The war against Ukraine continues, with new matches east of the country. There were confirmed 17,000 dead in the earthquakes in Turkey and Syria. Pakistan is characterized by both the economic crisis and the acts of war, and in Tunisia only 11 percent showed up voting in the election.**

#### **UKRAINA: Russia prepares the Springoffensive and Long Long Last War**

Russian imperialism continues its offensive in Ukraine, but atukraine forces are reported on several important fronts. The main effort of Russian imperialism is Eastern Ukraine, with the main goal of conquering the entire Donbass(Donetsk and Luhansk county). Dette er ikke et enkelt mål, men analyticere sier det er mulig – på lang sikt. I tillegg føres krigen også sør i landet. Densørlige aksjon fungerer som en støtte for hovedinnsatsen i Øst-Ukraina. Kampeneden siste tida har likevel hovedsakelig skjedd i øst, hvor det er førtstillingskrig helt siden 2014. Flere analyticere sier at Russland nå gjør enrekke tiltak for å gjennomføre en ny og sterkere offensiv innen kort tid. Samtidig forbereder de en ny og utvida

mobilisering, samt å forsterkekrigsindustrien og propagandaen, alt som et ledd i å kunne føre en langvarigkrig. Ukrainas president Zelenskjyj reiser på besøk til Storbritannia, Frankrike og flere land i EU, for å ha møter og mobilisere støtte, medforhåpninger om å forsterke det ukrainske militæreret med jagerfly.

### **Tyrkia: Jordskjelv og tomme løfter**

Jordskjelvkatastrofen i Tyrkia og Syria har per 9. februar kostet minst 17.000mennesker livet. Dette er kun det bekrefte antallet døde, og talleneforventes å stige. Tyrkias president Recep Tayyip Erdogan har innrømmet at dethar vært problemer med responsen fra myndighetene. Blant mange innbyggere brerdet seg sterkt misnøye og frustrasjon over at redningspersonell manglerekspertise og materiell, og at logistikken fungerer dårlig. Tyrkia rammes ofte av jordskjelv, og i den forrige store katastrofen, som kostet 16.000menneskeliv, utformet myndighetene nye lover som skulle sørge for at alle nyebygg tåler jordskjelv. Nå er flere nybygg rast, og de borgerlige politikernesløfter har dermed igjen vist seg å være tomme.

### **TUNISIA: Only 11 percent turnout**

The first country where the rebellion rose and threw the old regime under "The Arab Spring" which began in 2010 was Tunisia. The president who had forty years of power was thrown, after major protests against the economic crisis. The "financial crisis" broke out in 2008, leading to a sharp increase in prices of food and fuel, a basis for a wave of rebellion in North Africa and the Mid-East. Recently, Tunisia conducted a parliamentary election that became boycotted by most parties in the country. Only 11 per cent of voters' professions of the elections. The dissatisfaction with the authorities is enormous. The problems of the masses can be solved within the imperialist system.

Otherwise, it was emphasized that enlightenment work is not useless, mendimot increases the price fascism in Iran has to pay for the executions.

In a response to a call from residents, members of Anti Imperialist Action Tallaght held an Anti Social Behaviour patrol in the Mac Uilliam estate Dublin24.

The purpose of the patrol was to engage with the small number of youth in the area who are engaging in anti community behaviour, that has some residents afraid in their own homes.

Working class estates like Mac Uilliam have been abandoned by the Free State and neglected for years. But there is a strong community spirit and through the patrols we will encourage the youth to engage in more positive behaviour and not to be intimidating residents in their own community.

Republicans will always respond to residents and communities who ask for our assistance. Republicanism is the Revolutionary movement in this country because it is of the community and rooted in working class areas across 32 Countries.

Following a serious incident members of Anti Imperialist Action Munster were contacted by concerned parents and residents within a small community,

who were extremely worried about ongoing anti-social behaviour and drug dealing in the area.

Our members listened to the concerns, and fears expressed and this community felt that as the issues raised were not against property of the State or developers including rack rent landlords, that the forces of the State were ignoring their appeals for help, especially around the issue of drug dealing.

The attitude that drug dealing is everywhere and a fact of life in ghettoised communities and that the under resourced services just can't cope are apathetic attempt at excusing the lack of care the State and its organs have for the working class and their communities.

We believe that the ongoing epidemic of substance misuse in our communities is a direct result of the lack of a wide variety of services for communities and families suffering its ill effects, the second strand to the ongoing ability of "low level" drug dealing is the mindset by the State that they are an intrinsic part of the intelligence gathering apparatus of the State, caught with "small" amounts these dealers are released back into the community and allow to continue dealing if they will supply information on others within their dealers network and or others within the community with whom the State has issues, political and social activists being the main targets of such low intensity operations.

Our members acted upon the information of the community and removed a quantity of prescription medication hidden in an area around a children's playground, these were subsequently disposed of using a medically approved system for the medications and items were likely to be of an extreme risk to health and life.

These prescription medications can be life threatening if a child ingests them, they are also a risk if mixed with other substances. Quetiapine Increased risk of death due to dementia-related psychosis. Increased risk of suicidal thoughts.

Venlafaxine is contraindicated if it causes worsening suicidal ideation, depression, anxiety, and psychosis. Caution is advisable in heart failure patients, hyperthyroidism, and those with recent myocardial infarctions as it can raise blood pressure and increase heart rate. Revolutionary Republicans will always stand with the Community!

The policies he has carried out so far, after the economic crisis, the state under the earthquake of Maraşmerkezli, when the sequence massacre when the hawk is cut. The Turkish Affairs left the prisoners in these prisons to death.

The fascist Turkdeme, which was not visible in the most important hours after the earthquake, caused thousands of people to freeze from the cold because it

was not intervened immediately. While all the people were curious about the situation of their relatives after the earthquake, all the prisoners with their relatives and the individuals in the earthquake regions wanted to get information in the situation of their relatives with great concern. As usual, they could not get enough information and showed their reactions including rebellion.

The insensitivity of the earthquake victims is more than captive. Instead of giving information about their families, the prisoners were suppressed by the demands of the prisoners, 3 prisoners were massacred in Hatay T Type Prison and 12'si. In the intervention, many detainees were heavily tortured. Similar sensations are on the agenda for Malatya Prison.

As Upotak, we once again condemn the attacks on the prisoners in prison households and the massacre in Hatay Prison. We call on the ownership of the prisoners.

## The governor of Mendoza against the Constitution and the original peoples

Type: article

The National Institute of Indigenous Affairs(Hense)approved the folders of technical, legal and cadastral relationships, with resolutions published in the official of February 3, 2023, to 3 Mapuche communities: Lof Elsosneado located in San Rafael, Lof Suyai Leufu de Malargüe and Lof Limay Kurrefde Los Molles Malargüe of the province of Mendoza.

We have read these resolutions, such as the 47/2023 and are fully adjusted, faithfully respecting the constitutional mandate of article 75 subsection17, Resolution 169 of the ILO, incorporated as a supra -constitutional norm, faithfully respecting Law 23,302 and its regulatory decree, the law 26,160, its validity extension laws and its regulatory decree, and article18 of the new Civil

and Commercial Code, which derives to a specific law that still exists, the Indigenous Community Property Law.

This fact, very positive for the indigenous communities of Mendoza, have urged a great political, legal, historical and social stir, where numerous reactionary, unconstitutional attitudes, falsehoods, misrepresentations, misrepresentations, misrepresentations. And at the same time answers in defense of the laws and historical details based on the truth.

First we will deal with the sayings of Governor Suarez, who has said that it is against the delivery of land to those communities, that in them there are actives of Mendoza as oil, etc. That will first resort to administratively and then judicially the resolution of the INAI, because it would not be constitutional.

Strange that a governor says that they "deliver land." To say this is to miss the truth, when the fact is not that, but the approval of a carpetate, legal, cadastral why lie?, To enervate encouragement in society. Second: Knowing that any administrative and then judicial resource that impulse will be denied, but that generates expenses in lawyers, useless, useless, expenses paid by taxpayers. This attitude is totally contradictory, politically and legally, with the dispositions taken by that governorate and its predecessor, of assignments and concepts of thousands of Has for tourist ventures, such as sulfur sa, instead of border Property Anglo Malaya. It seems clear that Suarez and Cornejo are added to the racist and xenophobic campaign of their partners of together for the change, Mauricio Macri, Miguel Pichetto and Patricia Bullrich that they raise, daily revive the Argentine genocida Julio Roca and ask for repression, they propose to intervene with the army in the internal internal security. Is this the defense of the Republic that postulate?

Pichetto, who alerts against separatism from a tiny sector of Mapuches, should worry about the separatism proposed by the cornejo senator. Unfortunate that these Mendoza intend (Construction Sports of the Wind).

Han sido coherentes Suarez y Cornejo, ni un paso han dado en avanzar con la ley 23.302 y crear un organismo provincial para tratar la problemática de las comunidades indígenas, ¿acaso realizaron la consulta libre, previa e informada a las comunidades indígenas, cuando cedieron tierras para grandes emprendimientos privados?

Están en contra de la Constitución del 94, que consagró los derechosindígenas, ¿acaso no fue la redacción de esa Constitución el resultado delimpulso político que le dio el líder y presidente de la UCR: el Dr. RaúlAlfonsín? Tantos enojos tienen cuando los indígenas recuperan un poquito desus derechos y tanta complacencia cuando se entregan los activos del país alsaqueo de monopolios extranjeros.

No creemos que el pueblo mendocino, que ha dado sobradas muestras de luchadiciéndole No a la Minería, hoy se haga eco de lo dicho del gobernador.Tampoco creemos que acompañe esta cruzada anti originaria y anticonstitucionalcontra el INAI y las comunidades indígenas. Pero el debate social estáabierto.

Who can ignore the trawunche(parliament)from San Carlos? Surneculñanco, Huentecurra, Venancio Cañoepan and more than 100 lonkos(Caciques)Where they granted permission to pass and at the same time joined the fight against the Liberating Army, they were protagonists of the Triunfo Dechacabuco and Maipú. And of a Mapuche civil war to expel the Spaniards from its suterritory.

We do not want to be disrespectful with the professor and researcher of History Desan Rafael, Dr. Andrea Greco, who divides Puelches and Pehuenches of the Mapuche and associates them with the Gununa Kune, partialities of the Tehuelches, what did he study? Who did he read? What did he investigate? Of course, he does not speak of the viewing of Puelches and Huarpes, he does not talk about the clashes in 1770 Entreparcialities Pehuenches, he does not make any reference to Amigorena, to the latter of that time, and speaks of a massacre of the Mapuches about the Pephuences and Puelches, this lacks the Truth, a falsehood. We call Ladra. Greco to study again, because if he gives advice and historic foundations to Suarez and Cornejo, he leads them to the precipice.

Of course, other notable researchers have spoken as DiegoScholar has done with correct and grounded appreciations, it will surely continue and take position from different sectors. From the original in the fight we pay struggle, solidarity, vision of rescue of the true story and we do very seriously, because we are part and we have demonstrated it very recently in the meeting of nations and native peoples in Neuquén, of the fight for unity, the defense of the 26,160, the struggle for the Common Property Law, for the historical reparation for the more than 40 villages pre -existing throughout the country.

We call all the native peoples and nations and all the social, union and political sectors to accompany us to mobilize the 19 Deabril to Buenos Aires, for our rights.

Open your door to solidarity

Our sensitive people, we have launched a new campaign as ATİK. You know, our geography is experiencing a great disaster, and only traumatic negativities continue after the earthquake. Although the aid campaigns continue at all speed, the disruptions and inadequacies continue to take away the life of our people.

If we cannot provide help to our people, we believe that the monitoring of their hands will not be a day. It is our call to our sensitive people.

We have four walls, everyone who can say that I have a roof to sound to the call of Atik, we are not solidarity with our people who have been abandoned to the orphan in the Karakış.

There are many weeks when artists' mobilizations continue(Students and Employees), being a thorn in the government, which as far as it refuses to satisfy their demands. With a question in question of PD85(A diastole on the State's maiden, which is not only about artists), but also a situation that has

been deepening here, the movements on the part of students and workers are escalating.

The many years of precarituation, volatility, hunger wages - a reality that are well and those who go to study - have taken the world of artistic roads with many opportunities during the Lokdos period. Even with the cause of the arts censorship. Now the PD85, which squeezes down their troops, was the drop that overflowed the glass.

For many more weeks than they would probably expect, the ODIADIES themselves, in Athens and Thessaloniki has created a acquis: weekly marches with significant mass in both cities. Especially if one is basically demonstrating the space of the arts, without a wide -ranging of other portions of people and youth, then the importance of these figures other heights. And this is only about the crowd that demonstrates. The escalation of movements by demonstrators is also the way. However, and despite the intense collective and claiming procedures that are being carried out, they remain specific problems that characterize the oral movement. While workers' unions are involved, they seem to have some difficulty in moving if they do not "pull" the protesters. This has to do with both the chronic inaction of their leaders and their bourgeoisie. For example, there are there are constant talks with PDs, ministries and other politicians of the system, in essence, in essence, saying that these matters is the main field of claim. At the same time, despite the decisions of the Associations and Associations, their leaderships do not gather members to go down the mobilizations, while on the other hand, they are in a poor manner, such as The KKE Constables, which with its well -known "Student Associations' decisions" lowered dozens of members. Requests are dominated by the modification of the PD so that it includes artists or the proposal in the system on how to form artistic education in the country.

Starting with the most blackmailed part of the industry, the government begins to deprive individual evaluation. Specifically, the formal process of hosting two years after the appointment for the newcomers, is convened in a vehicle for the passage of individual assessment, through the fact that it makes their individual assessment mandatory prerequisite for their accommodation. The industry is alarmed and angry for yet another administration, an anger that has forced trade union leaders to call on, on strike and on strike-to-beard from individual

assessment(Although the latter has limited momentum in this phase, where blackmailing is essentially called to fight the battle).

Οι ηγεσίες στις ΟΛΜΕ-ΔΟΕ κάνουν ότι δεν καταλαβαίνουν ότι η φύση της επίθεσης απαιτεί συγκρότηση κεντρικής μάχης κόντρα στην πολιτική αυτή.

Because this is how the workers have conquered the right time.

Given the correlations to OLME-DOEs and the goals of the basic strengths there, the federations have no intention of fighting this battle. Their 'ambitions'(of 'opposition' at least)They reach a slight government deterioration of the government and the relief of indignation to electing their body. With this, it seems even bigger the gap left by the lack of primary ELME and SEPA unions, which, through massive consensus, must form this battle. In the same context, traders have to activate all weapons and tools. **Establish** from the General Assemblies **COMMITTEES OF RACE** Messengers for interventions in schools and organization of the race. **to be activated or made - where there are no - strike funds** for the economic support of the race. At the same time, the forces(Even out of the communion)They insist on underestimating the depth of the attack, through assurances of "perfectly legitimate forms of struggle" and other illusions that do not help to form the struggle to be. It would not be an exaggeration to say that some of the forces that supported suggestions OLME-DOE from within are waiting for them(or maybe they wish)Strike strikes and strike/abstinence illegal, so that it has OKLADO ... "beat" again and walk in the elections.

Despite the political difficulties, the industry is opposed to the attacking assessment. The overall deterioration of the work conditions and the pilgrims who disappear in a few days also form a decisive confrontation with what the evaluation brings and which are perceived by educators.

If the OLME-DOE leaders want to do a strike and unravel, it must with its mass participation to impose immediate and escalation of mobilizations.

With basic goals:

- The direct and unconditional construction of the newly -built
- The overturning of the evaluation
- The real increases in wages

With organizational measures that will trigger teachers, with commissions and coordination between ELME and SEPA. In forms of struggle that will get out of the classrooms, with strikes and mass demonstrations.

Without illusions about legal forms of struggle and "struggles" without any kind of kind, without electoral illusions and pre -election paralysis, teachers can give the necessary struggle.

The success of the strike and demonstrations on February 15 is critical for how and how this race will evolve. The fighters and the fighters are in the racing movements of teacher, as they gave the battle to massive general assemblies, so they will decisively give the success of the strike and demonstrations. And with the same firmness they will fight so that 15 February is not the end, but the beginning of a great struggle.

Type: article

Since last summer we have entered a constant pre -election period with a characteristic of... constantly leaking dates but are being detached from reality, to... leak new, keeping constant anxiety and permanent pre -election activity and fermentation both the political personnel and the mentioned left.

Many attribute the delay in calling for election to the so -called simple proportional election(with a 3%ceiling, so as not to forget)that SYRIZA had voted for and that this is short -circuited the "next day" as it creates problems for a self -sufficient government in the service of the local ruling class and the imperialist rulers.

And if the American imperialists were the ones who put ice in Mitsotakia elections last fall as the war conflicts in the inkraine were exacerbated and demanded complete commitment and alignment to their debt, they were the European imperialists who were so farmers. Mitsotakis and in every direction that they are not intended to downgrade the role and the dominant dominant in the country and the region, upsetting the bourgeois politician about where the developments will lead.

Let's be clear. It is not the electoral system - that many, in their revivalist delusions, consider it a "opportunity" - to delay the announcement of the election date, is not much more so, the electoral system is not the electoral system that

determines the critical election. The criticality of the upcoming elections arises from the political controversy of the period both for the system as a whole and for its cultural representatives and the people. Each for different and opposite reasons.

At a time when the attack on the system of exploitation, oppression and imperialist dependency is manifested by waves in life and tadsms of the working people and youth, even today it is supposed to have a "relaxation" due to a pre-election period, it is revealed that it may be revealed. Politics is a permanent choice of "all -and -white". But even this anti-labor-anti-populist politics, along with the slavery and intensity of dependency, are not enough to satisfy the aspirations of the local ruling class and the imperialist rulers.

On the one hand it requires the full subjugation of the working people and nenia so that it is an easy choice to load on their backs the "broken" of the crisis and the deadlock of the local system. To self-establish fascism, the suppression of strikes and mobilizations, anti-labor-anti-unionist laws are fully implemented, so anti-communist propaganda is strengthened and legal regulations are prepared.(allegedly) They will prevent today and in the future will rest those who refer to the Left and the Communist Movement, who are not subject to civil legitimacy.

This reactionary policy finds the reaction of the people, who is facing the expansion of capitalist precision that brings about infliction and misery to large parts of it. Despite the fact that many of us in the area of the left do everything they can to keep their racing outbursts and mobilizations, it is certain that the people and the youth are not willing to sacrifice the interests of the local system of the local system. of his imperialist protectors. And this is a major obstacle to the aspirations of the system's potential, inside and outside the country.

On the other hand, strengthening the bonds of imperialist dependency today by US-NATO also has its "Avaries" as the side of the imperialists requires stability in NATO's southeastern wing in a periodic period of war-clasing in Ukraine. He signifies that steps of temporary or more medium-term compositions in the Aegean, Cyprus, in the Southeast Mediterranean should be taken. These "understanding", however, remove the territory of Turkophagia on which the current policy of the ND government is set and it is certain that they will create serious friction inside it. If for the bourgeois and imperialist staffs, their focusing focuses of a powerful anti-populist government for the people and youth is

difficult and critical as they have to decide whether they will receive false dilemmas of "rescuers"(Say with SYRIZA)or 'repentant' systemic(Say me with day 25)Either they will choose the path of organizing, resistance, claiming and the confrontation with the forces of system.

On this road they will encounter significant obstacles that will have to be overcome, as there are excess of the electoral and parliamentary illusions that scattered the KKE and on the other of the extra -parliamentary Left.

(ANTARSYA, LAE et al.). Από τη μία το KKE, έχοντας μπει σε προεκλογική τροχιάς και μήνες, με προοπτική να κινείται στην ίδια τροχιά μέχρι τον επόμενηΟκτώβρη (self -administration)And having declared a movement of movement, he promotes the "government power program" in search of the "gap" of kinematic reformism previously SYRIZA. On the other hand, in the elections for the extra -parliamentary left, they re -recycle the "transitional programs" that collapsed in the summer of 2015, to find points of contact with each other that does not even meet on the road.

In these conditions the intervention of the KKE(ML)Currently both with the proposal of coordination and joint action of organizations and colleges staked fronts of struggle and with the proposal for Pan -Hellenic anti -war joints in February against the unjust war in Ukraine, the Tonadritis competition of the local bourgeoisie of the Greek bourgeoisie. The US - NATO, for the friendship and solidarity of the, are our contribution to the development of the terms of movement as a Timonian outlet for the labor -popular forces to the challenges of the weather.

A tourist tour in the Middle East, with controversial targets, made UPEX of the US, Blinken, on January 29th. The cause of the US attempts to alleviate the tensions and rise of violence between the new Israeli government and the Palestinians. The tour started from Cairo(has been scheduled for a long time)and completed in the next 2 days Setel Aviv and Ramala.

In Cairo, Blinken, in addition to Palestinian, unleashed a wider agenda on the issues of the area. As announced, he discussed the "political transition" efforts to **Sudan** (ie US controlled), as well as the launch of consultations on elections in neighboring Akrithocora, Libya. He also referred to developments in the war of **Ukraine**, looking for a "common place" to strengthen the "strategic co-operation" of the US -Egypt and in general "its support against Sedithic challenges".

In today's context, with imperialist competitions exacerbating the war in Ukraine, which affects all the "open" fronts and in the area of the wider Middle East, it is natural that the US is particularly reflected in particular for the evolution of the balance there. Mutual suspicion with Turkey exists and is inhabited, forming a cloudy landscape towards the evolution of bilateral relations. Even the

"investment" of Juinsington in the Syrian Kurds is in danger of being blown up in the air of Erdogan-Assad, promoted by Putin.

The situation in Israel, in terms of the country's political scene, is not considered negligible to the US. Blinken visited Talaviv and Ramala in the shadow of yet another bloody confrontation that captures Netanyahu's government. Whose relations with the Bidenex government are followed mainly in terms of the Turan nuclear program. And he would probably prefer to have Trump's interlocutor and not Biden. The fact that the revival of the 2015 agreement has been possible to give ground for dialogue.A few hours before Blinken arrives, an Israeli invasion, a more lighter raid for years, in Jenin, on the occupied West Bank, shook the lives of 9 Palestinians followed by a deadly response from the Palestinian East Jerusalem, while the Israeli Army. Since the beginning of the year, Israeli - Palestinian Synthesis has claimed life in 35 Palestinians(mainly civilians and children)and 6 Israeli citizens(of whom a minor). Ανάμεσα στα πρόσφατα ισραηλινά μέτρα (targeting special Arabs and Palestinians who have Israeli nationality), what is estimated to reinforce bloodshed is the easier and faster acquisition of licenses for the rest of the Israelis.

Under these circumstances, the margins of the US Foreign Minister was limited and no significant developments were expected, with analyzes focusing on Washington's ability to influence the course of events. Other times, a US Foreign Ministry tour of the Middle East Signal Signal as Expectations to resolve the Palestinian as the confirmation of the Concomitant Regional Stabilization under their control. While now ... "The best they could ensure is to stabilize the status of Israel in order to avoid a repetition of May 2021\_," said Miller, Miller, (American former negotiator), judging that... "This visit does not signal no change in the US position in terms of Israeli -Palatine conflict(...)Beyond expressing their birth support for the solution of the two states - again!So what does it signal?

Blinken's visit to Israel reflects Washington's will of Washington Jaggish reconnect with Prime Minister Netanyahu, who returned to a stronger, certainly taking advantage of the US involvement. The main causes of concerns in the policies of policies, except for Palestinian, are that there is a risk of napkin and other open fronts in the wider area. This is how Biden's freeze is interpreted in the revival of the 2015 agreement for the Iranian nuclear program.The agreement with Lebanon, in 2022, in the demarcation of marine zones, was

characterized by Biden, who promoted her "historical achievement", is now being trained. But also the "Abraham Agreements", that is, the process of releasing relations between Israel and Arab countries, are on a row, with Netanyahu cultivating hope that Saudi Arabia will once be integrated. dissatisfaction and mutual suspicion.

Lately we have had a "wave" of US officials visits to the pride. Prior to the arrival of Blinken, CCIA **Burns**, , arriving in Israel, \*\*, which, in addition to the Israeli leadership, also visited Tramala, where he met senior Palestinian officials. Neither in the case nor the other was made. It was preceded by the visit of the White House National Security, Jake Sally. So many high -level visits in such a short time rarely occur. It is speculated that these were for possible preparation of a Netanyahu visit to L.oko within the month.

All of these are movements that betray the deeper concerns of the IPAs about the future of power balances in the region, which are shown to be on their own if they continue to demonstrate the strategy that has characterized their policy in the Middle East in recent years. The US is no longer "playing" alone in the region and is an obvious location of their influence in Syria and Iraq, especially since the fall of 2015, which Russia, alongside Assad, has established its presence and is accepted as a factor in the region even From ... Tel Aviv. It is obvious that the Russian presence in Syria places Israel in weakness strongly supports US choices in Ukraine!On the other hand, Iran -Russia adopt is intensifying Israel's reactions and, possibly, the recent attack is related to this issue. Finally, China, which makes its presence more noticeable all over the globe, seems ready to set up in the area of the Middle East.

Based on today's data, the US is urgent for a relief in the West. The question is what percentage of mediating gravity have been deprived of decades. The current administration of L. Vice will undoubtedly seek to seek the restriction of losses in recent years.

The 7.8 Richter earthquake on February 6th dipped millions of people in Turkey, Syria and in areas of Kurdistan to death and misery. It was followed by 7.5 Richter at noon on the same day to take up the disaster. Diyarbakir, Alexandreta, Pazardzik, Elbistan, Adakia, Osmaniye, Gaziantep, Urfa, Imalatia, Kilis, Antipiaman, Adana, as well as other cities and villages and villages of Turkey, were shaken.

The results as the days go by prove to be more and more devastating. Lives looking for their children, friend, neighbor, their people, their people. Many are afraid that the dead are very much at their 1999 earthquake in Izmit.

As the hours and days go by and hope for life under the ruins, it gives way to despair, in unbearable pain, it becomes church, cry, anger. Rescue crews have not reached all the affected fields, many have not reached any machine. With their hands fighting Turks and Syrians getting trapped. Unfortunately, the walls that fell as if they were a matchbox, while the shortages of water, food, tents, blankets, medicines worsen the situation. After the first, the question of where the state is in is heard from more and more in Turkey. Rage takes the place of lament. Ankara trade unionists are still waiting for them to take them to rescue, but - as they say - they have no answer. And humanitarian materials from left-wing unions and Kurdish organizations are discovered. Journalists are arrested for the government's criticism of more, affected people are threatened with arrests if they talk to the media about taps they are facing. In Kojaeli's earthquake in the area of Izmit(Nicomedia)With the 18,000ths, it turned out that in the tragedy the circuit of construction industry in Turkey had played an important role in the tragedy. Regulations violations, licenses without controls, close ties with the government, corruption. In the echo of this tragedy, new regulations were issued to protect buildings by earthquakes. But these measures were once again undermined by the government policy. Buildings that were not complying with the regulations were parties with a fine, in accordance with the Erdogan Government's 2018 Amnesty Law 2018. 13 million buildings were legalized with this system. Such cheaper buildings became the tombs of the poor. The Government of Erdogan has passed laws that allow violations of the regulations. In these constructions there were people who are now under the ruins and on the road. The so-called residential development was based on the construction of construction and the predatory exploitation of nature. Those who complained and resisted them, were arrested, persecuted and struck.

The promising element is the outbreak of international solidarity by trade unions, popular lands and bodies from many countries around the world. Among them in Greece, at a time very critical for the contradictions of the two bourgeoisie and the relations of the two peoples. The Turkish people and with them the peoples of Sisiria and in Kurdistan are in front of a new major test. Solidarity is very important. Both to save lives, and to build strong solidarity bridges in the common struggle against war, nationalism and imperialism.

Description: And if half of our heart is here, the other half with the peoples of Turkey and Syria is!The peoples who mourn the tens of thousands of dead and look for sounds in the ruins that they find their lost children, relatives, friends and neighbors.

And if half of our heart is here, the other half with the peoples of Turkey and Syria is!The peoples who mourn the dozens of their dead and look for sounds in the ruins that they find their children, relatives, friends and neighbors. The hundreds of thousands of people who, without blankets, food and care, are out of the frost, and their calamity becomes a tool in the hands of the world's largest bosses, who in the name of "humanity" unfold their horrifying cynicism. To load the earthquake destroying -caused by insatiable hunting of profit -on the backs of poverty. To promote their arrangements, that is, the war arrangement of the countries of the region.

How much "ours" is this calamity!How similar in causes and results, in lies, cynicism and farms, like those we lived in earthquakes, snow, floods and fires over and over again. But how much likes with all the similar calamities that the peoples live in the four actions on the planet!And not only the peoples of the

region and the so-called "Third World" but also the peoples of the Metropolitan and leadership forces of a Tuki-Imperialist system.

If we consider all this, it is obvious for us what it signifies and she is. The decline and rotting of capitalism. Its barbarism is shown under the burden of its impasses, which are exacerbated by the clinical and bloody peoples for peoples imperialist competitions. The urgent need for the struggle of the peoples to stand against this barrenness. To defend the life that is depreciated, the nature that is destroyed. To defend the present and pave the way for the future. The future of workers and peoples. Without exploitation, war, poverty and poverty.

**War Preparation Visit** In this context and in this warm juncture, the visit of the Foreign Minister to Greece and Turkey **is a visit to the preparation of war plans** !Tayth-Russian warrior. It is a visit to which the "good kid" of the US, Greece, will first give the "good example" even greater offering to the American imperialism!Already the latest developments(New US Systems in Thessaly, Military Personnel Shipment to Ukraine)They are predicting an even greater involvement of our country and our people Stoskinos of the devastation set up in the heart of Europe. However, there are still many that can be "offered" to the murderers of the peoples. Arranges to be Mediterranean, interventions in(west)Balkans, contributing to the approach to the Black Sea of Submarines planned to be sent to Ukraine from the US-West!How "symbolic" and how detecting real -life was the downside of the American aircraft carrier in Piraeus?

That any of them or others are formed on Blinken's visit to Athens will be the tools of the US Foreign Minister on his visit to Ankara. Where he seeks to tow NATO's "bad kid" in more effective for American interests.

With this war baguette, the US was leading and leading the parallel political-elective developments in the two countries. This is a **"friendship" for war** !A "friendship" ordered to serve a broader war mass!A "friendship" that not only does not solve but more striking the reactionary competition of the two bourgeoisie as it holds up(and up to bilaterally promising)All of the issues of megalogyisms and maximalisms that characterize them!Each one hopes that in the scene of a devastating "something will take" from what is roles in the region and the so -called "sovereign rights" in the Aegean and A. Mediterranean ... **The "homeland" of the big class ...**

In this "homeland" that serves the murderers of the peoples and is ready for reactionary adventurism against the peoples of the region, ND, SYRIZA and PASOK are sworn in! For this "homeland" they are filled with war bases the whole country and decide again and re -arrears of billions of euros at the same time that our people sink into poverty and freezing! At the same time that in Ierapetra, in Rethymnon and Seole the country the people are left without hospitals who are dissolved for the sake of "fiscal stability". At the same time as medieval labor relations and an entire framework for the overthrow and suppression of the active -launch struggles to become a "normal country". At the same time as the "recovery fund" tune(that brought "growth"!)It is already in a hurry to issue a new ten -year bond in March!

For the government's management of this "homeland" it becomes the doggie of elections, a fight that has no trace of questioning about the big imperialist bosses of this "homeland", a fight that treats Tolaos as a beggar who can be "fooled".

A dual -page of Sunday's 5/2 step entitled "The Wealth and Evia of the Great Greek Clubs" \_ It was revealing we would say about tantopal bosses of this "homeland". In the two -page parade all heavyweights of the big order and provided the(given)Confession of their profits in the conditions of the war and more likely crisis. At the same time, it is recorded - albeit in terms of urban realm - that this ejecting is due to their parasitic - metaphorical characteristics(e.g. energy)and in the loot of public wealth(e.g. Greek and recently the acquisition of LARCO). Μια εκτίναξη κερδών δηλαδήπου σε τίποτε δεν έχει να κάνει με την παραγωγική συγκρότηση της χώρας αλλά αντίθετα με την παραπέρα απόσυγκρότηση της όποιας παραγωγικής της βάσης ακόμα και στον πρωτογενή τομέα!Μάλιστα είναι χαρακτηριστικό ότι στο ίδιο φύλλο τουΒήματος σε άλλες σελίδες καταγράφεται ο «κίνδυνος αφανισμού της ελληνικής τροφίας».

### **... and the homeland of the people!**

This "homeland", which is a war basis of the US-NATO-EU imperialists and is an enemy with the Turkish people and the peoples of the region **is not a hepatic of the people. The people are struggling and claiming their own homeland!**

This will be more than the imperialist bonds military, financial and political. The one that respects the homelands of neighboring peoples and is bent by their side in the struggle against war and imperialism. The one that will form and conquer bonds of friendship, solidarity and peace all the peoples of the region.

And, of course, in this homeland, labor and the people will not have local bosses in their neck. They will not be slaves, they will not live in a society without rights and freedoms. They will fight and build their own society, the socialist!

This is the only true and realistic resolution of the contrast of the Labor Order and the people on the one hand, the bourgeoisie and its imperialist patrons on the other. A contrast that has no "bridges", a contrast that is becoming increasingly chaotic and explosive in today's warehouses. A contradiction whose resolution by conquering independence and the struggle for building socialism can only be done by the re -revolution.

However, this contrast is unmistakable and chaotic "every day and moment" of the people that the people need to defend and claim their rights and life. This is the political, ideologically and organizational basis and the consciousness that every small and greater struggle needs to form and conquer. To be able to win and succeed. To make up the revolutionary perspective that this struggle can have. All this is not at all obvious in the cloud of the edition of the days and the ... months we are going through. All of this is obscured or overturned by the electoral and parliamentary cretinism on the left which is also a symptom and manifestation of the compliance and submission line.
